Copper Cable Management Solutions

Ethernet Distribution Frame

ADC's Ethernet Distribution Frame (EDF) forms a central patching location between active Ethernet network elements. By creating a centralized craft interface for adds, upgrades, and rearrangements on Ethernet equipment, the EDF enables change without service disruptions. This central patching location provides a logical and easy-to-manage infrastructure due to two design characteristics:

- All network elements have permanent equipment cable connections that are, once terminated, never handled again.
- All changes, circuit rerouting, upgrades, maintenance and other activities are accomplished using semi-permanent patch cords on the front of the EDF cross-connect bay.

Copper Cable Management Solutions

Vertical and Horizontal Cable Management

Glide Cable Manager

Upper and lower crossover managers with vertical cable managers enable easy, intuitive cable routing.

Features

- Integrated front, rear, horizontal, and vertical cable management
- Patented rib cage design eliminates horizontal support trays and bars
- Supports up to 912 ports on a single rack
- Built-in bend radius protection ensures network integrity
- Designed for quick and easy moves, adds, and changes
- Optional slack managers available for 6-, 8-, 10-, and 12-inch widths
- Fits standard EIA rack with three-inch channel
- Used for single rack or as inter-rack unit
- Optional crossover troughs and horizontal cable managers available
- Optional EIA-standard horizontal support bars available

Copper Cable Management Solutions

Vertical and Horizontal Cable Management

Vertical Cable Manager for 7' Equipment Racks

ADC's Vertical Cable Manager mounts between standard 7' equipment racks to provide neat and orderly routing of cables and jumpers.

Each Vertical Cable Manager includes two covers, front and rear. The fingers in the channel are spaced to provide easy entrance and exit of cables while still maintaining control of the cable bend radii. For increased accessibility, the fingers break away, leaving a smooth edge for the protection of cable jackets. Mounting brackets are included.

Copper Cable Management Solutions

Termination Block Mounting Hardware

Introduction

Mounting hardware is available for either wall or rack mount applications. Included is a full range of mounting system hardware and backboards, cable management hardware, mounting frames and support bars, as well as comprehensive fiber optic cable raceway systems for overhead and Plenum applications.

To better understand how the hardware can be utilized, the reference guide on this page gives appropriate use information. The icons shown within the reference chart represent the following equipment:

= Universal Mounting System (UMS)

89D

= Type 89D Mounting Bracket

85

= Type 85 Rod Mount Bracket

= Type 105 Rod Mount Bracket

85

= Type 85 Back Mount Frame

105

= Type 105 Back Mount Frame

Features

- Various options provide flexibility
- Fit standard 19-, 23- and 35.5-inch equipment racks
- Mounting hardware and backboards available for either wall or rack mounting
- Wire management built-in, or available as accessories
- Most ADC blocks have a minimum of two mounting options

Termination Block Mounting Hardware

Universal Mounting System (UMS)

The Universal Mounting System accepts Ultim8™, HighBand® 10, 10-pair Series 2, and 25-pair FT (Feed-Thru) blocks and UMS/Mini patch panels. It is a rugged, low cost, versatile alternative to traditional mounting systems. Besides providing a sturdy, easy-to-install interlinking foundation, the UMS features built-in wire and cable management, and convenient add-ons.

The mounting brackets interlink left-to-right and top-to-bottom to provide a foundation that is easy to install and easy to expand. The brackets are suitable for both rack and wall mount installations.

For fast installation, use the push rivets provided with the UMS backboard to attach the UMS brackets to the backboards.

UMS In Type 105 position

UMS In Type 160 position

The UMS easily expands from the Type 105 position to the Type 160 position.

Ordering Information

Description	Dimensions (HxWxD)	Catalog Number
UMS Basic Kit Includes one pair of adjustable universal mounting brackets (holds up to 13 Ultim8 blocks and/or label holders), two horizontal wire managers, and appropriate screws and rivets. Typical installation holds 96 pairs using (12) 8-pair Ultim8 blocks (24-ports) and (1) Type 105 label holder. Kit mounts directly to a wall, or to an optional rack or wall mount backboard. <i>Quantity: 1</i>	14.75" x 8.25 x 5.25" (374.7mm x 209.6mm x 133.4mm)

Copper Cable Management Solutions

Termination Block Mounting Hardware

Universal Mounting System (UMS) Backboards

UMS backboards provide a base for UMS brackets, and are available in standard equipment rack widths. Each width is available in single or dual height, holding one or two rows of mounting brackets, respectively. Backboards are black and match UMS brackets and cable managers.

Backboards will hold combinations of mounting brackets in both Type 105 (Ultim8™ and HighBand®) and Type 160 (Feed-Thru) positions. Rotate backboards with mixed types 180° to reverse the order of mounting. Silk-screening identifies which holes to use in different mounting configurations.

Wall mount backboards provide the same mounting base as the rack mount backboards but provide a deeper channel. They stand four inches (rather than 1.5 inches) off the wall to allow for proper cable routing. Silk screening indicates correct installation of the UMS adjustable mounting brackets.

Copper Cable Management Solutions

Termination Block Mounting Hardware

Universal Mounting System (UMS) High Volume Cable Managers

For larger installations, the high volume cable manager provides greater capacity and strength than horizontal wire managers that attach directly to UMS brackets.

Available in widths to match standard equipment racks, the high volume cable manager can be either rack or wall mounted. The manager includes a back mounting plate and a set of six-inch by six-inch rings. The number and position of rings vary to allow use of the manager with a variety of UMS configurations. Mounting holes across the face of the mounting plate allow the position of rings to change to match the varying widths of UMS brackets in either Type 105 or Type 160 positions.

Designed as a companion to the universal mounting system, the high volume cable manager works in any application.

2" leg (rack mount)	1" x 24" x 2" (25.4mm x 609.6mm x 50.8mm)	6652 2 012-45
4" leg (wall mount)	1" x 24" x 4" (25.4mm x 609.6mm x 101.6mm)	6652 2 012-42
35.5" wide support bar <i>Quantity: 1</i> <i>2 required for installation</i> (2) 35.5" wide support bars hold up to (6) Type 85 or (5) Type 105 back mount frames; can be wall or rack mounted (standard 35.5" equipment rack)		
2" leg (rack mount)	1" x 35.69" x 2" (25.4mm x 906.5mm x 50.8mm)	6652 2 013-00
4" leg (wall mount)	1" x 36" x 4" (25.4mm x 914.4mm x 101.6mm)	6652 2 014-00

Copper Cable Management Solutions

Inverted Support Bars

Type 85 and Type 105 Inverted Support Bars

Inverted support bars are designed for equipment cabinets in which terminations must be flush with the front of the equipment rack.

19" wide inverted support bar,
3-position

19" wide inverted support bar,
4-position

23" wide inverted support bar,
3-position

Ordering Information

Description	Dimensions (HxWxD)	Catalog Number
19" wide support bar, 4" legs <i>Quantity: 1 2 required for installation</i>		
3-position Supports up to (3) Type 85 or Type 105 mounting brackets	1" x 20" x 4" (25.4mm x 508mm x 50.8mm)	6652 2 004-54
4-position Supports up to (4) Type 85 mounting brackets	1" x 20" x 4" (25.4mm x 508mm x 101.6mm)	6652 2 004-30
23" wide inverted support bar, 4" legs <i>Quantity: 1 2 required for installation</i> Supports up to (3) Type 85 or Type 105 mounting brackets	1" x 24" x 4" (25.4mm x 609.6mm x 101.6mm)	6652 2 004-57

Jumper Ring Bars

Jumper ring bars are used with support bars to route cross-connect jumper wires and patch cords.

19" wide jumper ring bar,
no legs (wall mount)

23" wide jumper ring bar
no legs (wall mount)

35.5" wide jumper ring bar
no legs (wall mount)

19" wide jumper ring bar
2" legs (rack mount)

23" wide jumper ring bar
2" legs (rack mount)

35.5" wide jumper ring bar
2" legs (rack mount)

Ordering Information

Description	Dimensions (HxWxD)	Catalog Number
19" wide jumper ring bar <i>Quantity: 1</i> 4 adjustable jumper rings		
No legs (wall mount)	4.44" x 20" x 5.18" (112.8mm x 508mm x 131.6mm)	6652 2 004-00
2" legs (rack mount)	4.44" x 20" x 7.18" (112.8mm x 508mm x 182.4mm)	6652 2 004-01
23" wide jumper ring bar <i>Quantity: 1</i> 4 adjustable jumper rings		
No legs (wall mount)	4.44" x 24" x 5.18" (112.8mm x 609.6mm x 131.6mm)	6652 2 006-09
2" legs (rack mount)	4.44" x 24" x 7.18" (112.8mm x 508mm x 182.4mm)	6652 2 006-08
35.5" wide jumper ring bar <i>Quantity: 1</i> 7 adjustable jumper rings		
No legs (wall mount)	4.44" x 36" x 5.18" (112.8mm x 914.4mm x 131.6mm)	6652 2 006-00
2" legs (rack mount)	4.44" x 36" x 7.18" (112.8mm x 914.4mm x 182.4mm)	6652 2 015-00

Ordering Information

Description	Dimensions (HxWxD)	Catalog Number
Vertical cable organizer <i>Quantity: 1</i> Fits standard EIA 19" equipment rack; keeps patch cords and smaller wire groups organized within each bay	3.5" x 20" x 4.75" (88.9mm x 508mm x 120.65mm)	6653 2 701-02
Horizontal cable organizer <i>Quantity: 1</i> Fits standard EIA 19" equipment rack; keeps larger wire groups organized between bays	3.5" x 19" x 4.25" (88.9mm x 482.6mm x 186.95mm)	6653 2 701-03
Rear wire management guide <i>Quantity: 1</i> Attaches to back of standard EIA 19" equipment rack; allows organization of hidden wires and cables. <i>Recommended for use with Plug 'n' Play patch panels only. One required for every 24-port group</i>	1.13" x 19" x 1.13" (28.7mm x 482.6mm x 28.7mm)	6653 2 703-00
High-density cable manager <i>Quantity: 1</i> Attaches to standard EIA 19" equipment rack; includes (2) 12-24 screws for mounting to rack. Manages terminated cables on rear of high-density patch panels. 0.5" flange provides flat tie point. Smooth surface prevents snagging and protects against damage	1" x 19" x 4" (25.4mm x 482.6mm x 101.6mm)	6653 2 703-10
High-density cable manager for patch panels <i>Quantity: 1</i> Manages terminated cables on rear of PCB patch panel. Attaches to Category 6 and Category 5e silk-screened and fascia patch panels	1.75" x 19" x 4" (25.4mm x 482.6mm x 101.6mm)	6653 3 585-01
Ring wire manager <i>Quantity: 1</i> Utilizes 5 wire management rings	1.75" x 19" x 3.75" (44.45mm x 482.6mm x 91.88mm)	6653 2 700-03
Hinged wall mount bracket <i>Quantity: 1</i> Allows easy access to cable side of patch panel for circuit tracing or wiring re-termination. For left or right swing opening; simple push-pull latch keeps the panel secure in closed position		
3.5" hinged wall mount bracket Accepts (2) 1RU or (1) 2RU patch panel	3.5" x 19" x 5" (88.9mm x 914.4mm x 131.6mm)	6653 2 701-00
7" hinged wall mount bracket Accepts any 4RU combination of patch panels	7" x 19" x 5" (177.8mm x 482.6mm x 127mm)	6653 2 701-01
