DOSSERT®

TYPE CAP

Bus Support for Tubular Bus To Insulator Cap

A two piece high strength bronze cable support which mounts conductor to cap of insulator. Furnished with cap screws for threading into tapped holes on insulator. For base mounting, if specified, bolts and nuts will be furnished. When ordering specify conductor size to be employed so that correct length of bolt can be supplied.

Material

Copper Alloy

Hardware

Everdur bolts and lockwashers

DOSSERT® TYPE PA, PAP

Bus Support For Circle Mount Insulators

A single cap four bolt bus support for mounting on insulator bolt circle positions. Type PA clamps bus directly to insulator while type PAP is provided with an under saddle conforming to bus diameter for higher clamping pressure. Both types can be furnished with cap screws for cap mounting or bolts and nuts for base mounting. Unless otherwise specified supports are furnished for cap and mounting as illustrated.

DOSSERT®

TYPE PL

PIPE BUS SUPPORT SLIDE OR TIGHT FIT

A two bolted clamp type high strength bronze bus support. This unit is non-magnetic and corrosion resistant. The design of this support permits a minimum radius of gyration about the support mounting thus minimizing cantilever stresses. Type PL is both a tight and slip fit action clamp with either action obtained by reversing cap.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Mounting hardware galvanized steel

DOSSERT® TYPE PSC

Bus Support For Two Tubular Busses

A bus support for joining and supporting two tubular busses on a post type insulator. Designed for a high resistance to impact or sustained cantilever and torsional stresses. Nuts and bolts are furnished for a base mounting or slotted cap mounting or cap screws for an insulator cap mounting.

Material

Copper Alloy

Note

For tin plating add "-SN" to end of catalog number.

DOSSERT®

TYPE PSD, PSD-U

Bus Support, Pipe, Slide or Tight Fit

A heavy duty bus support clamp designed with a low bus center point height to reduce cantilever action and withstand high stresses. For PSD series, reversible clamps permit tight or slip fit assembly. For PSD-U series, U-bolt provides tight fit. Entire unit is non-magnetic and corrosion resistant.

Material

DOSSERT[®] TYPE PSSR, PSSR-CH

Tubular Bus Support

A high strength bronze support for securing a tubular bus to a post or pedestal type insulator. Fully adjustable to any angle within a complete circle (360°) with the advantage of four bolts maintaining angular setting as well as mounting pressure. Reversible cap permits rigid or slip fit on conductor. Supplied with cap screws for insulator cap mounting or bolts and nuts for base mounting. Unless otherwise specified cap screws are supplied.

Material

Copper Alloy

Note

Add suffix "CH" to catalog number for chatter spring. EX: PSSR200-5-CH

Hardware

DOSSERT® TYPE SBC

Sliding Bus Support For Tubular Bus

A sliding bus support coupler for standard pipe size tubular bus. Finds wide application where short membered tubular buses are to be joined and supported on structural members or insulators. Complete unit is corrosion resistant and nonmagnetic.

Material

Copper Alloy

Hardware

Everdur bolts, nuts, lockwashers, washers, stainless steel cotter pin

Mounting hardware galvanized steel

DOSSERT®

TYPE SBS

Sliding Bus Support For Tubular Bus

A sliding bus support for standard pipe size tubular bus. The clamp and bracket constitute a rigid member while free axial movement is effected between the bracket and mounting base. Support also permits mounting of tubular buses at slight angular deviation.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Mounting hardware galvanized steel

DOSSERT® TYPE SAVS, SHVS

Sliding Vertical Bus Support For Multiple Flat Bars

Four types of sliding bus support clamps for supporting one or more flat bars in a vertical or upright position. The slotted base provides for 1 1/4 inch of axial traverse. Accommodates any number of bars. Types SAVSD and SHVSD allows for double stack mounting by the provision of a 2 3/8 inch spacer for single or multi-bar systems. Unless otherwise specified types SAVS and SHVS are supplied without spacers and types SAVSD and SHVSD are supplied with only the 2 3/8 inch double stack spacer. Supplied with cap screws for cap mounting or bolts and nuts for base mounting.

Material

Copper Alloy

Hardware

Everdur bolts, nuts, lockwashers, flat washers, and stainless steel cotter pin
Mounting hardware galvanized steel

Note

- For additional spacers for 1/4 inch bars spaced 1/4 inch apart please contact AFL
- When ordering add the number of bars to be supported to the end of the catalog number and state bar thickness if other than 1/4 inch. Example: SAVS3-3-4

DOSSERT® TYPE SSHH, SSHHD Horizontal Sliding Bus Support

A horizontal type sliding bus support clamp for supporting one or more flat bars. The axle type support with slotted bracket provides for a 1 1/4 inch traverse. Accommodates any number of bars. Type SSHHD allows for double stack mounting by the provision of a 2 3/8 inch spacer for single bar or multi-bar systems. Unless otherwise specified type SSHH is supplied without spacers and type SSHHD is supplied with only the 2 3/8 inch double stack spacer. Supplied with cap screws for cap mounting or bolts and nuts for base mounting.

Material

Copper Alloy

Hardware

Everdur bolts, nuts, lockwashers, flat washers, and stainless steel cotter pin
Mounting hardware galvanized steel

Note

- When ordering suffix the number of bars to be supported to catalog number and state bar thickness if other than 1/4 inch.
- For additional spacers for 1/4 inch bars spaced 1/4 inch apart please contact Dossert.

DOSSERT®

TYPE XBC

Copper Bus Support Coupler

A bus support coupler with a flexible braid linkage designed to conduct the full rated load of the tubular buses and at the same time permit free axial movement of each bus member. The shackle type fitting allows slight angular deviation of the buses from the horizontal where they cannot be kept on a true plane.

Material

Copper Alloy

Hardware

Everdur bolts, nuts, lockwashers, galvanized steel clevis pin, and stainless steel cotter pin

DOSSERT®

TYPE RPCV-S

Copper Pipe to Cable Coupler

A pipe to cable coupler which takes a wide range of cable sizes on the cable clamping member. All clamping members act independently. Bolts and lockwashers are retained captive to clamping members by use of Neoprene washers.

Material

High Conductivity Cast Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

DOSSERT® TYPE UK, UKT Copper U-Bolt Coupler

A U-Bolt type straight connector for coupling two cables end to end. The the UKT connects a total of three cables. Each of the connector takes a wide range of cable sizes. Designed to provide high contact pressure on all cable sizes.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts and lockwashers

DOSSERT®

TYPE UKR

Copper U-Bolt Coupler Reducer

A U-Bolt type reducer connector for coupling end to end two unequal size cables. The variability of each half of the connector makes possible the combination of many sizes of cable.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts and lockwashers

DOSSERT® TYPE UP2K, UP4K Special Coupler For Cables To Tubular Bus

A special coupler for coupling cables to a copper tubular bus. Each cable position is designed to accommodate a wide range of cable sizes.

Material

Copper Alloy

Hardware

Everdur bolts, nuts, lockwashers, and U-bolt

Note

- Please contact Factory for specific sizes
For a four(4) cable coupler to pipe,
replace UP2K with UP4K.
EX: UP2K300-80 would be with two
cables.
- UP4K300-80 would be with four
cables.
- For tin plating add "-SN" to the end of
catalog number.

DOSSERT®

TYPE UPK

Copper U-Bolt Coupler for Pipe to Cable

A U-bolt cable to pipe coupler. Made of high conductivity copper alloy and designed for rugged service. The variable U-bolt feature makes it possible for a connector for a given pipe size to accommodate individually several different cable sizes.

Material

Copper Alloy

Hardware

Everdur bolts, nuts, lockwashers, and U-bolts

DOSSERT® TYPE XC, XCP, XBP Copper Expansion Coupling

XC, XCP

An expansion connector for coupling two standard pipe size tubular buses.

XBP

An expansion connector for coupling a run to a tap. Pipe size may be same SPS, or varying.

Material

Copper Alloy

Alignment Guide

Copper Alloy

Hardware

Everdur bolts, nuts, lockwashers and flat washers

Note

- For laminations add "L" to catalog number. Example: XCL100
- For extra heavy pipe size (Schedule 80), add (E) to pipe size. Example: XC100E
- If alignment guide is not required, add (P) to catalog number suffix. Example: XC100P

DOSSERT®

TYPE CF-N (NEMA Pad Sizes)

Flexible Copper Braid

Flexible copper braid for linking conductors that are subject to motion. The braid is tin plated copper wire, terminated at each end by a non-plated copper pad.

Material

Copper

Notes

- Braid may be custom made for any configuration of length, pad size or hole diameter.
- For tin plated contact pads, add suffix "-SN" to end of catalog number. Ex: CF771-10-N-SN
- For undrilled contact pads, add suffix "-U" to end of catalog number. Ex: CF771-10-N-U
- For undrilled contact pads and tin plated contact pads, add suffix "-U-SN" to end of catalog number. Ex: CF771-10-N-U-SN

*Note: A.C. Ampere ratings in still but confined air for maximum temperature rise 30°C above 40°C ambient with major surfaces of braid in horizontal position.

DOSSERT®

TYPE CFC

Flexible Copper Braid

Composite flexible copper braid for linking conductors that are subject to motion. The braid is tin plated copper wire, terminated at each end by a non-plated pad.

Material

Copper

Note

- Braid may be custom made for any configuration of length, pad size or hole diameter.
- For tin plated contact pads add suffix "-SN" to end of catalog number. Ex: CFC1-2-SN
- For undrilled contact pads add suffix "-U" to end of catalog number. Ex: CF771-U

DOSSERT®

TYPE LX

Copper Flexible Connector For Flat to Flat

Laminated of pure copper, this flexible connector permits expansion and contraction due to thermal changes. Bonded ends assure uniform contact surfaces. Variations other than shown can be readily supplied.

Material

Copper

Note

- Braid may be custom made for any configuration of length, pad size or hole diameter.
- For tin plated contact pads add suffix "-SN" to end of catalog number. Ex: LX200-SN
- For undrilled contact pads add suffix "-U" to end of catalog number. Ex: LX200-U

DOSSERT®

TYPE XL

Terminal Expansion Pipe

An expansion terminal for connecting a standard pipe size tubular bus to flat conductor surfaces. Designed to permit free axial movement of the bus due to thermal expansion and contraction. High circular mil area of extra flexible linkages insures cool operation under maximum load conditions. Pad dimensions and drilling other than shown below can be furnished upon request.

Material

Copper Alloy

Hardware

Everdue bolts, nuts, lock washers and washers

DOSSERT®

TYPE XTSS, XTSS-N

Copper Flexible Connector For Tubular Bus To Flat

XTSS is used where stud and the tube positioning will not permit any extensive offset. The semi-flexible loop of copper strapping allows for movement caused by the expansion and contraction of conductor members.

Material

Copper Alloy

Hardware

Everdur nuts, bolts and lock washers.

Lamination Material

Copper

Bronze Elbows
Tee & Vee Connectors

DOSSERT®

TYPE BPCV-S, BP2CV-S

Copper Tee Connector For Tubular Bus To A Cable Tap

A variable tap pipe to cable tee connector. Cable clamping section is provided with two independently acting high strength bronze saddles.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Notes

- For tin plating add "-SN" to end of catalog number
- For tee connector 1" SPS pipe run and 300kcmil 2 cable tap, and tin plated order:

DOSSERT®

TYPE BPE

Copper Heavy Duty Tee For Tubular Bus

A heavy duty tee connector for standard and extra heavy size of tubular bus. Designed to provide a minimum of four bolts for each conductor. Made of high strength high conductivity copper alloy and designed with a conductive area and contact surface to insure cooler-than-bus operation at maximum load conditions.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

DOSSERT®

TYPE PSK, PSKS

Suspension Type Bus Support For Tubular Bus With Ball Eye

Suspension type bus support clamps for mounting tubular bus to the underside of suspension insulators. Type PSK is provided with a clevis yoke for connecting bus support to an insulator clevis eye while type PSKS is provided with a ball socket for connecting bus support to an insulator ball eye.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

DOSSERT®

TYPE PX

Tubular Cross Connector

A cross connector for joining two branches to a tubular bus main or for providing a junction for four independent tubular busses. Can be made to accommodate various sizes of conductors.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

DOSSERT®

TYPE UPT

Copper Pipe To Cable Tee Connector

A pipe to cable tee connector. The U-bolt variable clamping feature on the tap permits a number of cable sizes for one size of pipe. All bolts, nuts, lockwashers are of Everdur material.

Material

Cast High Conductivity Copper Alloy

Hardware

Everdur bolts, nuts, lockwashers, and U-bolts

DOSSERT®

DOSSERT®

TYPE UT, UUT

U-Bolt Tee Connector

A rugged U-bolt high compression clamp type tee connector which takes a wide range of cable sizes in both the run and tap sections. Designed to withstand high compressive clamping action on all cables within specified cable ranges.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts, and lockwashers

Notes

- For a tee connector for a 500 MCM cable, single tap, SINGLE run, order UT50-50.
For tin plating, add "SN" to end of catalog number.
For tin plated tee connector, single tap, single run, for a 500 MCM cable, order: UT50-50-SN.
- For a tee connector, single tap, DOUBLE run, for a 500 MCM cable, order: UUT50-50, also same with tin plated.
order: UUT50-50-HSN

DOSSERT®

TYPE VB

V Brace For Strut To Tubular Bus

A V-Brace for connecting angular Struts and trusses to tubular buses for Structural support. Eliminates use of Structural steel supports and the required accompanying insulators. With the V-Brace and Angle Brace, various arrangements of trussing may be devised.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

DOSSERT®

TYPE DGM, DGN

DGN Copper Grounding Connector for One Cable and DGM Copper Grounding Connector for Two Cables.

Copper grounding connector for cable to structural steel, fence posts or groundplates. May also be used on bus bar as a tap lug. DGM accommodates two conductors and DGN accommodates one conductor.

Material

Copper Alloy

Note

For tin plating add suffix "-SN" to the end of the catalog number.

DOSSERT®

TYPE DS

DS is a copper split bolt connector.

For quick, efficient connections of solid and stranded conductors in sizes No. 14 to 1000 MCM. High contact pressure between conductors assures trouble-free performance.

Material

Copper Alloy

Notes

Catalog Numbers with * in front of the number will accommodate 3 wires of maximum size.

DOSSERT®

TYPE DSU, DSUS

Heavy Duty Copper Service DSU comes without a spacer and retaining ring, DSUS has a spacer and retaining ring.

Rugged high strength but compact and easy to tape service connector. Washer and swivel action permit easy installation of conductors without inconvenience of loose hardware. Designed with extra wide contact. Particularly suitable for heavy duty permanent connections.

Material

Copper Alloy

Hardware

Everdur bolts, lockwashers and neoprene retainer

Notes

For 500 MCM connector with spacer order: DSUS50.

DOSSERT®

TYPE GPEX

Copper Universal Clamp For Cable

A versatile connector which takes a range of conductor sizes in two positions. Bolt positions held to NEMA standards enabling cable or pipe to be bolted directly to flat bar. Both outside faces machined flat for contact purposes. Used in conjunction with type CF braid straps to make various types of expansion connectors. Unless otherwise specified, bolt length supplied to accommodate one 1/4 inch bar.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

DOSSERT®

TYPE Q2L, Q2L-E

Copper Service Tap Connector For Two Cables To Flat

Double tap lugs series are designed to fit NEMA two hole pads with two 9/16 inch holes on 1 3/4 inch center except the small sizes. Compact construction and two high strength clamp members reduce cantilever distance and increase pull out resistance of conductors.

Material

Copper Alloy

Hardware

Everdur nuts and lockwashers

Note

Type Q2L is for use with 1/4 inch bus bar. Type Q2L-E is for use with 1/2-3/4 inch bus bar.

DOSSERT®

TYPE QL, QL-E

Service Tap Connector For Cable To Flat Bus Bar

A versatile service tap connector which takes a wide range of cable sizes. Used for mounting on switch pads, current transformer terminals, and miscellaneous flat bus conductors. The single hole mounting enables the plane of the flat bus.

Material

Copper Alloy

Hardware

Everdur nuts and lockwashers

Note

QL is for use with 1/4 inch bus bar. Type QL-E is for use with 1/2-3/4 inch bus bar.

DOSSERT®

TYPE TL, TL-E, T2L, T2L-E

Copper Low Mount Tap Lug For Cable To Flat Bar

A low mount tap lug for cable to bar connections. Finds wide application on current transformers and tap connections for metering equipment. See Type T2L for double tap design. Type T2L is designed to meet NEMA pad drilling and all sizes can mount side by side without interference.

Material

Copper Alloy

Eyebolt- Aluminum Bronze

Hardware

Nut and lock washers-Everdur.

Note

- Type TL is for use with 1/4 inch bar. Type TL-E is use with 1/2 - 3/4 inch bar.
- For Double Tap lug change TL to T2L.
- For Silver palted finish add suffix (AG) to catalog number Ex: TL13-AG

DOSSERT®

TYPE UD

Universal Parallel Clamp

A universal clamp to provide a connection for two cables or wires over a wide range of sizes. The interlocking of the halves of this clamp insures a good grip and high area of a contact for all conductors.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Notes

- Voltage rating is 230KV
- For tin plating add "-SN" to end of catalog number. EX: UD50-21-SN
- Also add "GS" for galvanized steel hardware.

DOSSERT® TYPE UP, UP-3 U-bolt Parallel Clamp

A U-bolt type connector for clamping two cable conductors in parallel. The high compressive action applied by the U-bolts acts directly and uniformly on the two conductors. The variability of each clamping section makes possible numerous combinations of cable.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts, and lockwashers.

DOSSERT®

TYPE DH, DA

Copper Clamp For Flat Bus Bars DH is a four bolt design and DA is a three bolt design.

A clamp for developing high contact pressures between flat copper bus bars. This rugged connector may be used for coupling, crossing, aligning bus or tapping conductors.

Material

Copper Alloy

Note

For a 4" main and 4" tap with three bolt pattern order DA44.

Hardware

Everdur bolts, nuts and lockwashers

DOSSERT®

TYPE HAF, H2AF, H3AF, H4AF

Tee Connector For Tapping Flat Bar With Cable HAF connects one cable to flat bus bars, H2AF connects two cables to flat bus bars, H3AF connects three cables and H4AF connects four cables to flat bus bars.

A tee connector for tapping a flat bus with a cable. The clamp fitting enables the connector to be installed anywhere on the bus without the necessity for drilling holes for clamping bolts. The wide variation of the HERCULON™ fitting enables one connector.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Note

- Above 500 MCM connectors have thicker pads and are mounted outside buses. See catalog number for spacer information. Unless otherwise specified spacer will not be supplied with connectors.
- For 4in wide bus bars and two 350kcmil cables order: H2AF35-4.
- For 4in wide bus bars and three 350kcmil cables order: H3AF35-4.
- For 4in wide bus bars and four 350kcmil cables order: H4AF35-4.

DOSSERT®

TYPE EN, EW, ELW, EILW Everdur Nuts, Spring Washer, and Flat Washer

Dossert Everdur nuts, EN, are made to the American Standard National course thread Class 2 Semifinished, cold punched. Dossert Everdur spring type lockwasher, ELW, is a tough and durable unit which prevents the loosening of the nut under severe conditions of vibration. Dossert Everdur flat washers, EW, are stamped from cold drawn Everdur sheet and are tumbled to a smooth finish with rounded edges. Dossert Everdur internal lock washer EILW.

DOSSERT® TYPE G110, G111, G114, G115

All Dossert ground clamps are made of a high copper alloy and are equipped with silicon bronze bolts. These connectors are characterized by their high resistance to corrosion which makes them suitable for burial underground without danger of joint deterioration

Two types of two conductor ground clamps for grounding to square fence post, type G114 or for grounding to H beam column or fence post, type G115.

Two single conductor ground clamps for connecting a ground wire to the web of an H beam type fence post. Type G111 provides a clamping saddle between wire and post, while type G110 clamps wire directly to post.

DOSSERT®

TYPE GA, GAA

Two Conductor Flat Bar Ground Clamp

A single or double bolt ground clamp for clamping two wires or cables to a flat bar, plate, or structural member. Permits a slight range of variability in accommodating different size conductors. Bolts are retained by body to enable assembling with only one wrench. Bolts are supplied to clamp a 1/4 inch bar. GAA is similar to GA except that it is designed for heavier service.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Note

- Bolt length supplied to clamp a 1/4 inch bar with maximum conductor in place.
- For thicker bars, longer bolts will be furnished upon request. For tin plating add suffix "-SN" to catalog number EX: GA13--SN
- For galvanized steel bolt add suffix "-GS" to catalog number EX: GA13-G

DOSSERT® TYPE GAM

Copper Grounding Connector For Two Cables To A Flat Surface

A single bolt, one piece ground clamp for clamping two wires or cables to a flat bar, plate, or structural member. Permits a slight range of variability in accommodating different size conductors. Bolts are retained by body to enable assembling with only one wrench. Bolts are supplied to clamp a 1/4 Inch bar.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Note

- Bolt length supplied to clamp a 1/4 inch bar with maximum conductor in place. For thicker bars, longer bolts will be furnished upon request.
- For tin plating add suffix "-SN" to end of catalog number. Example: GAM13-SN
- For a galvanized steel bolt add suffix "-GS" to end of catalog number.
Example: GAM13-GS

DOSSERT®

TYPE GB, GBB

Copper Grounding Connector for Three Cables to a Flat Surface.

GB style is a two bolt design and GBB is a four bolt design. These clamps are used for clamping three cables of equal size to a flat bar, plate, or structural member. Bolts are retained by body to enable assembling with only one wrench. Bolts are supplied to clamp a 1/4 inch bar.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Note

- Bolt length supplied to clamp a 1/4 inch bar with maximum conductor in place.
- For thicker bars, longer bolts will be furnished upon request. For tin plating add suffix (SN) to catalog number. Example: For a 4 solid conductor, 2 bolt clamp, and tin plating order: GB13-SN
- For a galvanized steel bolt add suffix (GS) to catalog number. Example: For a 4 solid conductor, 4 bolt clam, and galvanized steel bolts order: GBB13-GS

DOSSERT®

TYPE GCF

Ground Connector For Rotating Pipe To A Flat Surface

A flexible ground connector for grounding a rotating pipe or rod to a flat surface. Finds wide application in grounding switch operating pipes and fence gates.

TYPE GCG modification is for grounding one pipe or rod to another.

Material

- Copper Alloy
- Braid is tin plated copper wire, terminated at each end by a non-plated pad.

Hardware

Everdur bolts, nuts and lockwashers

Note

Braid may be custom made for any configuration of length, pad size or hole diameter.

DOSSERT®

TYPE GD

Grounding Connector For Flat Bar to Pipe Or Rod

A ground connector for securing a flat bar to a grounding rod or pipe. The flat bar may be assembled in a horizontal or vertical position. Connector can accommodate any thickness of bar.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts and lockwashers

Note

Where bars to be used will exceed 1/4 inch please contact the Factory due to the necessity of larger U-Bolts.

DOSSERT®

TYPE GF, GFM

Copper Grounding Connector for Cable to a Flat Surface

A ground clamp for grounding a cable or wire to a flat bar, plate or flat structural steel member. The bolt is retained by the body to enable assembly with only one wrench. GFM comes without the base.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Note

- Bolt length supplied to clamp a 1/4" bar with maximum conductor in place. For thicker bars, longer bolts will be furnished upon request.
- For tin plating add suffix "-SN" to end of catalog number. Example: GF13-SN
- For a 300 mcm conductor and one piece assembly order GFM50

DOSSERT®

TYPE GG

Copper Ground Connector For Crossing Two Cables Or Ground Rod

A ground connector for crossing two wires or cables or for securing a cable or wire to a ground rod. Can also be used for equalizing over head cables and wire. Its high resistance to corrosion enables this connector to be buried in the ground after a connection is made.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts and lockwashers

DOSSERT®

TYPE GK

Ground Clamp For 3 Cables To Fence Post

A ground connector for grounding three equal size cables at right angles to a grounding pipe or rod. Use of highly corrosion resistant materials allows the connector to be buried in the ground after connection is made. Finds wide application in the grounding of fences and structural members about a substation.

Material

Copper Alloy

Note

For tin plating add suffix (SN) to catalog number. Example: GK25-4-SN

Hardware

Everdur bolts, nuts and lockwashers

DOSSERT®

TYPE GL

Ground Clamp for Cable to Flat Bar

A connector for grounding a cable or wire to flat bar, plate or structural frame. The looping of the conductor about the clamping bolt insures a secure electrical contact and a high pull out strength. Standard bolt length is provided to mount the connector on a 1/4 inch thick member.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Note

- Longer bolts can be furnished on request.
- For tin plating add suffix "-SN" to end of catalog number. Example: GL13-38-SN

DOSSERT®

TYPE GPC

Ground Clamp for Cable to Pipe in Parallel

A ground clamp for connecting a cable to a rod or pipe in a parallel or right angle position. Each position will accommodate a wide range of cable sizes. The cable can be placed in either clamping position without disassembly of clamp. Whole clamp is highly corrosion resistant.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts and lockwashers

Note

- For tin plating add suffix "-SN" to end of catalog number. Example: GPC38-4-SN
- All sizes are not shown, please contact the factory.
- Also available for O.D pipe sizes

DOSSERT®

TYPE GPF

Universal Ground Connector For Cable To Pipe

A universal ground connector for connecting a groundwire or cable to pipe. The rotatable feature of the conductor clamping element permits the positioning and clamping of the wire or cable at any angle through a full 360° arc.

Material

Copper Alloy

Note

For tin plating add suffix "-SN" to catalog number. Example: GPF250-13-SN

Hardware

Everdur U-bolts, nuts, lockwashers, and bolt

DOSSERT®

TYPE GR

Grounding Connector for Braid to Pipe

A ground connector for grounding flexible braid, laminated copper band, and copper bar to a pipe. Will also accommodate stranded cable when cable is unbraided and flattened out.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts and lockwashers

Note

- All sizes are not shown. This item is available up to 6 inches SPS and other braid to pipe configurations.
- For tin plating add suffix (SN) to catalog number. Example: GR400A-SN

DOSSERT®

TYPE GX

Grounding Connector For Direct Contact Cross Conductors

A grounding connector for direct contact cross grounding wire or cable. Each clamp accommodates two conductors of the minimum or maximum size or any intermediate combination of conductors.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts and lockwashers

DOSSERT®

TYPE GZ

Grounding Clamp for 3 Cables to Pipe in Parallel

A triple conductor grounding clamp for grounding three wires or cables to the same ground rod or pipe. The high range of variability permits use of a number of conductor sizes for one connector. The high corrosion resistance of the connector permits the entire assembly to be covered with earth after installation is made.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts and lockwashers

Note

- For tin plating add suffix (SN) to catalog number. Example: GZ125-50-SN
- All sizes are not shown. Please contact the factory.

DOSSERT®

Type MTRC, MTR2C, and MTR3C Multiple Tie Transformer Connector

A multiple tie transformer connector which provides a convenient means of connecting a number of cables to a single transformer terminal. Allows maximum conductor sizes to be run directly to the transformer, thereby minimizing voltage drop.

Material

Tin plated copper

Hardware

- MTR2C: Four hole NEMA standard drilled contact.
- MTR3C: Six hole NEMA standard drilled contact.

Bronze Grounding Connectors and Everdur Hardware

DOSSERT®

TYPE Q2TE, Q3TE, Q4TE

Cast Copper multiple tee connector for securing a number of cables to a single transformer terminal.

A cast type multiple tee connector for securing a number of cables to a single transformer terminal. Each cable clamping position is designed to receive a wide range of conductor sizes. Installation of each cable is simply accomplished by insertion of cable into eyebolt member and tightening nut with a single wrench. Body is of high conductivity copper alloy and eyebolt elements are of high strength bronze with silicon bronze nuts and lockwashers.

Q2TE

Material

Copper Alloy

Hardware

Everdur nut and lockwashers.

DOSSERT®

TYPE TGC

Grounding Connector For Cable To Transformmer Ground Pad

This connector is designed for transformer grounding pads having 1/2-13 NC tapped hole. Connector stud possesses a slight taper to insure sound electrical contact without need for locking devices. Hex surface adjacent to stud is provided to facilitate tightening of connector. Designed specifically for use on all standard EE-1-NEMA distribution transformers.

DOSSERT®

TYPE HSC, HSC-90

Copper Stud Connector for Cable or Wire. HSC connects one conductor to a stud and HSC-90 connects one conductor to a stud at a 90° angle

A Herculon variable type connector for joining a cable or a wire to a threaded stud. The stud end of the connector can also be furnished to accommodate a plain stud or pipe.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Notes

- Other sizes of studs and various threads to the inch can be promptly furnished.
- For a 500 MCM cables to a .75" T16 stud at 90° order HSC75-50-90-T16
- For a 500 MCM cable to a .75" T0 stud at 90° order HSC75-50-90-T0

DOSSERT®

TYPE NP, NF Copper Contact Nuts

Contact nuts for clamping flat bus bars or terminal pads to threaded studs. For greater contact surface flange nuts, Type NF, provide additional area. Designed to conduct the full rated load of the stud. Large face areas offer a high electrical contact efficiency. All nuts are machined to a high percent full thread to effect maximum thread bearing area.

Material

Copper Alloy

Note

- Other numbers of threads per inch can be furnished for any given stud diameter upon specification.

DOSSERT®

TYPE SCX, S2CX

Copper Stud Connector for Cable

SCX connects one cable to one stud and S2CX connects two cables on one stud.

A variable conductor stud connector which takes a wide range of cable sizes in line or in a 90° position. The reversible cap permits optimum clamping for all cable sizes within the assigned ranges. In addition, one flat surface on SCX can be machined to accommodate flat bar conductors. SCX can be furnished upon request in type SCX-N with bolt holes to accommodate NEMA standard bar drilling.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Note

- For a 1" T14 stud, and two 1000 MCM cables order S2CX100-100-T14

DOSSERT®

TYPE SP, SP-90

Stud Connector For Tube To Threaded Stud

A connector for joining a tubular bus conductor to a threaded stud. The stud end can be threaded to any specified number of threads per inch or bored for an unthreaded stud.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Note

- For Stud threads not listed add suffix 'T' and the number of threads per inch to category number. Ex: For a 1 1/8" stud to a 1 1/4" bus, 90°, without threads order SP112-125-T0-90
- For a 1 1/8" stud to a 1 1/4" bus, straight, without threads order SP112-125-T0

DOSSERT®

TYPE SX-A, SX-A-90

Stud Expansion Connector for Pipe

Both SX-A and SX-A-90 connect copper stud to aluminum bus.

An expansion stud connector for joining a tubular bus to a threaded or unthreaded, transformer or terminal, stud. The movements of the conductors caused by thermal expansion and contraction or settling foundations are efficiently absorbed by the flexible braided linkages. Type SX is furnished with an alignment guide for connections where axial alignment is required.

Material

Stud - Copper Alloy

Bus - Aluminum Alloy

Hardware

See image

Notes

For a 90 degree stud connector add -90 to the Catalog Number. EX. For at 1"-T14 stud to 1in SPS connector with 90 degree stud connector order: SX100-100A-T14-90

DOSSERT®

TYPE US, U2S, US-90, U2S-90

Copper U-bolt Stud Connector For Cable

Material

Copper Alloy

Hardware

Everdur bolts, nuts, lockwashers, and U-bolts

Note

- Can also be readily furnished for plain unthreaded studs.
- For a 90 degree add -90 and for double connector change 'US' to 'U2S'
- For a 1/2" stud, 2/0 Str cable, and 90 degree angle order: US50-13-T13-90
- For a 1/2" stud, two 2/0 Str cable, and 90 degree angle order: U2S50-13-T13-90
- For a 1/2" stud, two 2/0 Str cables and no thread order: U2S50-13-T0

DOSSERT®

TYPE UD2E, UD2E-PG

Dead End Clamp For Two Conductors

A two conductor variable U-bolt type dead ending clamp with curvature for jumper loop.

Material

Copper Alloy

Note

For a Pulling eye add suffix "-PG" to end of catalog number. Ex: UD2E21-PG

Hardware

Everdur-nuts, U-bolts and lock washers.

DOSSERT® TYPE CI, CI-E, CX Copper Corona Bells for Tubular Bus

Corona Bell for sealing the exposed ends of standard pipe size tubular buses. Prevents rain and undue condensation from accumulating inside the bus. The smooth rounded surfaces reduce electrostatic discharge thereby aiding in the reduction of power transmission losses.

Material

Copper Alloy

CI

CX

DOSSERT®

TYPE CFT

Tee Connector For Cable To Flat Bar Tap

A cable run to flat bar tap tee connector. Designed for one 1/4 inch bar, Fig. 1 and for two 1/4 inch bars spaced 1/4 inch apart, Fig. 2.

Material

Copper Alloy

Hardware

Everdur-bolts, nuts, and lockwashers.

Note

- Can also be furnished upon specification to accommodate additional bars, other bar spacing, and other drilling or any combination thereof.
- Pad size and drilling can also be furnished to conform to NEMA standards.

DOSSERT®

TYPE D

Copper Screw Terminals For Cable To Flat

An inexpensive lug of rugged construction yet very compact. These lugs are suitable for all types of installations and are completely reusable. Acceptance of wide range of conductor sizes limits the need for large stock.

Material

Copper Alloy

Hardware

Zinc Plated Steel Screw

Note

Also available with Hex head set screw. Add (H) to catalog number. Example D35H.

DOSSERT®

TYPE HHL, HHL-A

Copper Heavy Duty Terminal for Cable

A variable terminal connector whose double clamping element provides for additional secureness where heavy duty service is required. The simplicity of installation and rugged design make this connector a serviceable unit. Made of high conductivity cast copper alloy and equipped with bronze pressure screws and clamping members. HHL-A has cap screws instead of hex bolts for clamping the conductor.

Material

Copper Alloy

Hardware

Zinc Plated Steel Screw

Note

For a 350MCM cable to a 2 NEMA pad with cap screws order: HHL350-2N-A

DOSSERT®

TYPE HL, HLA-45, HLA-90

Copper Set Screw Terminal. HL conductor runs parallel to the pad, HLA45 the pad is at a 45° angle to the conductor, and HLA90 the pad is at a 90° angle to the conductor. HL-A has a set screw instead of the hex bolt.

The HERCULON™ Lug is designed for quick and efficient installation. Its compact rigid structure makes it especially adaptable for assembly in inaccessible quarters. A high compressive clamping force on the cable conductors plus the additional gripping action of special serrated bearing areas makes for high electrical contact efficiency and pull out strength.

Material

Copper Alloy

Hardware

Everdur pressure bolt

Note

For set screw instead of bolt, add "A" to end of part number. Example: HL1-1A

DOSSERT®

TYPE HL, H2L, H3L, H4L

Copper Set Screw Terminal. HL is a single conductor Herculon Connector, H2L is a two conductor Herculon Connector, H3L is a three conductor Herculon Connector, and H4L is a four conductor Herculon Connector. HL-A has a set screw instead of the hex bolt.

The HERCULON™ Lug is designed for quick and efficient installation. Its compact rigid structure makes it especially adaptable for assembly in inaccessible quarters. A high compressive clamping force on the cable conductors plus the additional gripping action of special serrated bearing areas makes for high electrical contact efficiency and pull out strength.

Material

Copper Alloy

Hardware

Everdur pressure bolt

Notes

- For a 2 conductor, 4N NEMA pad, and 750 MCM cable order H2L75-4N
- For a 3 conductor, 4N NEMA pad, 750 MCM cable, and cap screw order H3L75-4NA
- For a 4 conductor, 4N NEMA pad, and 750 MCM cable order H4L75-4N
- For angled terminals add angle to end of catalog number. Example: H4L1-1-45

DOSSERT[®] TYPE HLB, H2LB

A side entrance HERCULON™ variable type terminal for connecting wire or cable at right angles to terminal bar. Easily installed with any ordinary wrench. Serrated pressure bar confines conductor making for high contact efficiency. Its rugged design permits it to be re-used over and over. H2LB is for connecting two cables at right angle to terminal bar.

Material

Copper Alloy

Hardware

Everdur pressure bolt

Note

For two 500 MCM to 4 hole 3" NEMA pad order: H2LB50-4N

DOSSERT®

TYPE HLS, HLSC

Copper Terminal for Cable to Stud Posts

An efficient and easy to install variable type terminal for connecting wires or cables to studposts of electrical equipment. The wire or cable connector is securely clamped in position by merely tightening the pressure screw. The full bearing length of cable is clamped by means of an internal pressure pad curved to fit the conductor.

DOSSERT®

TYPE PFTS

Pipe To Flat Bar Tee Connector

A tee connector for joining a single bar tap conductor to a tubular bus run. Made of high conductivity cast copper alloy.

Material

Copper Alloy

Hardware

Everdur-bolts, nuts, and lockwashers.

Note

- For finish on both surfaces, add suffix "-F" to end of catalog number.
Ex: PFTS 100-1-2NF
- For tin plating add suffix "-SN" to end of catalog number. Ex: PFTS100-1-2N-SN

DOSSERT®

TYPE Q2LB

Copper Compact Two Conductor Variable Angle Terminal

A double conductor compact terminal lug which accepts wide range of cable and various angular settings. Extremely useful for small clearance application.

Material

Copper Alloy

Hardware

Everdur nuts and lockwashers.

DOSSERT®

TYPE QLB, QLLB

Copper Variable Entrance Angle Terminal

An extremely versatile terminal which will accept a wide range of conductor sizes. Connector is constructed so as to allow cable entrance from various angles and to provide strong clamping pressure at points of contact.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Notes

- Contact pads furnished to any specification of drilled or undrilled hole size and spacing.
- For one cable variable terminal for a 500mcm cable, only one "L" should be placed in the catalog number, EX: QLB50-4N
- For two cable variable terminal for a 500mcm cable, place two "L"s in the catalog number, EX: QLLB50-4N
- For tin plating add suffix "-SN" to end of catalog number, EX: QLLB50-4N-SN

DOSSERT® TYPE SCB-90H, SCB-90V Copper Stud Connector To Flat Bar

A single bar connector for connecting bar conductors at right angles to a threaded or smooth stud. Furnished complete with all clamping bolts.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Note

Also available for other sizes of studs and bar arrangements.

DOSSERT®

TYPE SCB-F

Stud Connector to Flat Bar Type

A single or multi-bar connector for connecting one or more flat bars to a threaded or plain stud. Can be furnished to accommodate stud diameters or threads per inch other than listed below.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lockwashers

Note

For Tin plating add suffix "-SN" to end of catalog number. EX: SCB200-1/2F-4N4-T12-SN

TYPE T2CVH, T2CVHA-45, T2CVHA-90

Terminal Connector

A heavy duty variable clamp type terminal for connecting a cable to a flat bar bus. Each size terminal accommodates a wide range of cable sizes. Designed to carry the full rated load of the maximum conductor without overheating. Contact pads other than those listed below can be promptly furnished to any specified size or drilling. The variable type terminal exhibits its advantage in that one connector will accommodate a number of cable sizes. This minimizes greatly the problem of stocking various sizes of connectors and the errors which occur in specifying connectors for specific cable sizes.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lock washers.

Note

- For tin plating add suffix (SN) to catalog number. Ex: T2CVH50-2N-SN
- For undrilled pads, add the suffix (U) to the part numbers. Ex: T2CVH50-2U
- For a 45° angle add -45, and for a 90° angle add -90.
For an angled pad add an 'A' after TCVH.
Ex: For 45° 2 hole NEMA pad to two 500MCM cables order: T2CVHA50-2N-45

DOSSERT®

TYPE TCVH, TCVHA-30, TCVHA-45, TCVHA-90 Heavy Duty Copper Terminal For Cable to a Flat Pad

A heavy duty variable clamp type terminal for connecting a cable to a flat bar bus. Each size terminal accommodates a wide range of cable sizes. Designed to carry the full rated load of the maximum conductor without overheating. Contact pads other than those listed below can be promptly furnished to any specified size or drilling. The variable type terminal exhibits its advantage in that one connector will accommodate a number of cable sizes. This minimizes greatly the problem of stocking various sizes of connectors and the errors which occur in specifying connectors for specific cable sizes.

Material

Copper Alloy

Hardware

Everdur bolts, nuts and lock washers.

Note

- For tin plating add suffix (SN) to catalog number. Ex: TCVH50-2N-SN
- For undrilled pads, add the suffix (U) to the part numbers. Ex: TCVH50-2U
- For a 30° angle add -30, for a 45° angle add -45, and for a 90° angle add -90.
- For an angled pad add an 'A' after the TCVH. EX: For a 45° 2 hole NEMA angled pad to 500MCM cable order: TCVHA50-2N-45

DOSSERT®

TYPE TCX

Bar to Variable Cable or Pipe

TCX can be used as a tap or a terminal. A variable clamp type terminal or tap for connecting a cable or pipe to a flat bar bus. Each size accommodates a wide range of cable sizes.

Material

Copper Alloy

Hardware

Everdur-bolts, nuts, and lockwashers.

Note

For tin plating add "-SN" to the end of the catalog number.

DOSSERT®

TYPE TP, TPA-30, TPA-45, TPA-60, TPA-90 Copper Clamp Terminal for Tubular Bus to Flat

A bolted clamp type terminal for connecting standard pipe size tubular buses to flat surfaces.

Material

Copper Alloy

Hardware

Everdur-nuts, bolts and lock washers.

Note

- Contact pads can be furnished to any specification of size undrilled or drilled to specified hole sizes and center to center dimensions.
- For undrilled pads, add the suffix (U) to the part numbers. Ex: TP350-4U
- For a 30° add -30, for a 45° add -45, for a 60° add -60 and for a 90° add -90.
- For an angled pad add an 'A' after TP. Ex: TPA350-4N-60

DOSSERT® TYPE UL-90V Copper Vertical Mounting Terminal

A vertical side mounting type terminal lug for connecting cables to flat bar busses. The side clamping feature provides clearance to enable terminal to be mounted well within the bus surface without interference of the U-bolts.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts and lockwashers.

Note

Contact pads can be furnished to any specification of size undrilled or drilled to specified hole sizes and center to center dimensions.

DOSSERT® TYPE UL, U2L U-Bolt Variable Terminal

A conductor U-bolt type variable terminal lug for connecting cables to flat bar busses.

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts and lock washers.

Note

- Contact pads other than those listed can be promptly furnished to any specified size or drilling.
- For a Two Conductor Terminal add a '2' in UL Ex:U2L150-4N4

DOSSERT® TYPE ULB, U2LB U-Bolt Terminal Lug

Material

Copper Alloy

Hardware

Everdur U-bolts, nuts, and lock washers.

Notes

- For tin plating add "-SN" to end of catalog number. Ex: ULB13-2N-SN
- For a Two Conductor Side Entrance Terminal add a '2' in the UL catalog number. Ex: U2LB13-2N

DOSSERT®

TYPE ULI, UULI

Copper U-Bolt Variable Range Terminal

A single and double U-bolt type terminal. Each size accommodates a wide range of cable sizes. The inverted clamping member and the offset pad provides for contact mounting clearance when required.

Material

High Conductivity Copper Alloy

Hardware

Everdur U-bolts, nuts and lockwashers.

Note

Contact pads can be furnished to any specification of size undrilled or drilled to specified hole sizes and center to center dimensions.
