

Etched Metal Nameplates

**Standard Material Finishes****Aluminum:**

.012 - .125 / brushed, bright

Brass:

.020 - .125 / brushed, polished

Stainless Steel:

.018 - .125 / 2B, brushed, bright

Bronze:

.032, .050, .125 / brushed

Etched plates are great for OEM part markings. Your legend is chemically recessed into the surface of the metal for durability against the severest environmental conditions. Color can be added to accent the appearance of your plate.

Printed Metal Nameplates

"Custom Stonewear Process"

Nameplates are made from specially prepared metal to which your copy is heat bonded in beautiful colors. A tough clear coating is baked on to fight corrosion from many solvents, chemicals or just plain weather. The nameplates may be supplied with holes or permanent adhesive.

Standard Material Finishes**Aluminum:**

.012 - .125 / brushed, bright

Brass:

.020 - .125 / brushed, polished

Stainless Steel:

.018 - .125 / 2B, brushed, bright

Bronze:

.032, .050, .125 / brushed

Other processes are available to meet commercial and military standards. These processes include **etched**, **photo embedded** and **embossed**. Please submit sample or blueprint for quotation.
