Our Finishes

Ashley Norton

Standard

.4 Satin Nickel

.8 Dark Oil Rubbed

Our numerous finishes allow our clients to express individuality. From trendy polished nickel to a more traditional satin nickel or oil rubbed bronze... the choice is yours.

Dark and light oil rubbed bronze are dynamic. These "living" surfaces will take on unique hues as age, climate and touch work their charm, creating an ever-changing patina.

Our standard finishes are dark oil rubbed (.8) and satin nickel (.4). Seven additional finishes are custom manufactured to order.

The photos shown in this brochure give a close representation of the true appearance of these finishes, but a visit to a local dealer will allow you to appreciate the true appearance and feel of our hardware.

Custom

.2 Satin Chrome

.9 Polished Chrome

.4B Polished Nickel

.7 Pewter

.3 Polished Brass

.3U Unlacquered Brass

.6 Light Oil Rubbed

Please note that products ordered in our custom finishes are manufactured to order.
