YOUR VEHICLE FROM VIRTUALLY
ANYWHERE IN THE WORLD
RIGHT FROM YOUR SMARTPHONE.

ASCL1

Smartphone interface module

System features:

- Compatible with any Prestige, Code Alarm and Pursuit security or remote start system with a Telematics Port
- Easy "Plug-in" Installation
- Compatible with iPhone, BlackBerry and Android
- Two-way confirmation
- Door Lock and Unlock
- Remote Start
- Car find feature (horn honk and / or flashing lights)
- Two auxiliary outputs (i.e. control trunk release or sliding door open)
- 1st year "unlimited use" included
- 12 Month Limited Warranty

iPhone®

BlackBerry® Smartphone

Android™ Smartphone

OEM Integration

FLCAN

Factory Remote Start

Remote Start firmware to turn the FLCAN into a stand-alone remote start system. Once the FLCAN is flashed, it will allow you to remote start "select" vehicles from the OEM keyless entry transmitter, with our optional long range transmitter packages and even Carlink!

- Enables remote start from factory keyless entry transmitters – no remote start needed!
 - Programmable (FLCAN programming) start sequence – Press Lock Button 3 times or Lock, Unlock, Lock to activate Remote Start
 - Available for select 2005-2012 Chrysler / Dodge / Jeep and 2008-2012 Toyota / Lexus – More to come!
 - Includes features such as – Programmable run time (3-35 minutes – default set for 15 minutes) and Diesel mode
 - Chrysler plug-in T-Harness available. FLCHH – For FLC-AL(RS)-CH4 vehicles and is required for installation. FLCH5H – For FLC-AL(RS)-CH5 vehicles which is available but "not" required for all vehicles. No harness available for Toyota at this time
 - Add optional RF kit for additional operating range and/or two-way functionality – FLRF1 and FLRF2
- For complete information and to flash the RS firmware, go to www.flashlogic.com

FLRF1

One-way upgrade to FLCAN

The FLRF1 Transmitter and Antenna upgrade was designed to provide a flexible and effective method to access remote start without adding a complete remote start system when used in conjunction with the FLCAN interface module.

- The FLRF1 includes a 1-way antenna that will plug directly into the FLCAN
- Includes (2) 1-button Pursuit branded transmitters
- The following vehicle functions are accessible with the FLRF1:
Remote Start /Stop
- Requires the FLCAN Interface Module.

FLRF2

Two-way upgrade to FLCAN

The FLRF2 Transmitter and Antenna upgrade was designed to provide a flexible and effective method to access remote start without adding a complete remote start system when used in conjunction with the FLCAN interface module.

- The FLRF2 includes a 2-way antenna that will plug directly into the FLCAN
- Includes (1) 2-way Pursuit branded LCD display transmitter
- The following vehicle functions are accessible with the FLRF2:
 - Door Lock - Door Unlock
 - Trunk Release
 - Remote Start /Stop
 - 2-Way confirmation
 - Parking Meter Countdown
 - Clock and Timer
- Requires the FLCAN Interface Module.

OEM Integration

REMOTE START & SECURITY

AS9234

- Unit Will Accept Up To 4 Remote Controls
- Dual Stage Magnetic Shock Sensor (Lite Touch - Full Trigger)
- Starter Interrupt Output with Relay Included
- On Board Relay for Flashing Parking Lights
- Factory Keyless Upgrade Inputs - (Allows Starting from Factory Keyless Entry Unit)
- Start Confirmation Parking Light Flash
- (1) On-Board Accessory / Heater Relay
- (2) On-Board IGN Relays with Programmable Output
- DBI Port
- Diesel Compatible
- Tachless Mode
- Hybrid Vehicle Compatible for Remote Start
- User Programmable Run Time
- Telematics Port
- 5 Year Warranty

ADDP1

- Includes (1) One Button transmitter
- Glass Mount Antenna with built-in LED Light
- Valet Switch when required for use with the AS9234

ADDSS

- Includes (1) One Button StartStick transmitter
- Glass Mount Antenna with built-in LED Light
- Valet Switch when required for use with the AS9234

FACTORY KEYLESS UPGRADE TO VEHICLE SECURITY

PRO9233N

- Uses existing OEM remote controls to operate system
- Dual Stage Shock Sensor (Lite Touch - Full Trigger)
- Starter Interrupt
- Flashing Parking Lights
- Car Horn Output Alarm Response
- Output for optional siren
- Push Button LED / Valet / Programming Switch
- Telematics Port - PursuiTrak & Carlink Ready
- DBI Port - Plug In Flash Logic By - Pass Capable
- 5 Year Limited Warranty - includes nationwide travelers warranty

FACTORY KEYLESS UPGRADE TO VEHICLE SECURITY

CA3051

- 125dB Weatherproof Siren
- Horn Output
- Dual Stage Magnetic Shock Sensor (Lite Touch - Full Trigger)
- Starter Interrupt Output with Relay Included
- On Board Relay for Flashing Parking Lights
- Illuminated Entry Output
- Passive Door Lock Output
- Up to \$2,500 Theft Protection Guarantee
- Limited Lifetime Warranty

ADD-ON REMOTE START

AS9076C

- Factory Keyless Upgrade Inputs - (Allows Starting from Factory Keyless Entry Unit)
- Start Confirmation Parking Light Flash
- (1) On-Board Accessory / Heater Relay
- (2) On-Board IGN Relays with Programmable Output
- DBI Port
- Diesel Compatible
- Tachless Mode
- Hybrid Vehicle Compatible
- Remote Start
- User Programmable Run Time
- Telematics Port
- 5 Year Warranty

Interface Modules

The Audiovox FlashLogic Transponder and Door Lock Interface modules and exclusive DBI port are the gateway to the vehicle's electronic system – the ultimate in system integration. FlashLogic continues the tradition of SKU reduction, lower installation costs and reduces installation time. These are the key elements of FlashLogic and translate into higher profits for you, our dealer partners.

KLON software is an upgrade to the FLCAN module that enables "1-key programming" on specific Ford vehicles and eliminates "key-in-the-box" solutions on many more. With KLON, the software instantly creates a "virtual copy" of the vehicle key that is then programmed into the FLCAN module that enables the vehicle to start when activated by a remote start system.

KLON

Complete Data Bus Integration

Flashlogic Data Bus interface modules provide complete integration with any brand of security or remote start system. This allows for a clean safe installation and can save hours of installation time.

Lower Installation Costs

Easy-to-install kits eliminate the need for relays or resistors and do not require the vehicle's door panels to be removed.

No Obsolete Inventory

Upgrade your inventory wherever you have internet access. As new vehicles arrive, update the units in your inventory with the latest software revisions directly from the FlashLogic website in as little as 15 seconds!

Expanded Vehicle Coverage with even fewer SKU's

The FlashLogic product line-up consists of only 4 modules that cover thousands of vehicles. We have added additional software to each of the modules to reduce the number of sku's you need to stock. We also offer the new "all-in-one", FLCAN system, which is one module loaded with all of the vehicle platforms we cover. Now, that's sku reduction!

DBI Port

One wire connection when you use the DBI Port found on select Audiovox and Code Alarm systems. This is a huge time saver and makes installing Transponder / Door Lock Interface Kits a "flash".

TRANSPONDER & DOOR LOCK INTERFACE KITS

FLCAN

CAN Door Lock & Transponder Interface with Klon Technology

The FLCAN is a CAN BUS interface control module that has all of our FlashLogic applications built into one programmable module. The FLCAN now includes Klon. The Klon software enables "1-key programming" on specific Ford vehicles and eliminates "key-in-a-box" solutions on many more. Visit www.flash-it.com for a complete listing of Klon vehicle applications. The FLCAN also includes an additional data-to-data harness for "other" security and remote start system installations.

FLDL1

Door Lock / Convenience with GM & Honda Transponder Interface

Door lock interface module programmable with specific Door Lock firmware from the FlashLogic library. It also controls various convenience features and supports transponder interface where applicable.

FLTBF

Ford Transponder Data Interface

Interfaces with all three Ford 40 BIT vehicle transponder anti-theft systems through data.

FLTB1

Transponder Data Interface

Data Transponder interface module that is programmable with specific Transponder Interface firmware from the FlashLogic library.

FLPROG

FlashLogic Programmer / Updater. FlashLogic PC to Module USB interface cable. Required to program / upgrade FlashLogic transponder / door lock interface kits.

FLCHH

Interface harness for TipStart equipped Chrysler / Dodge / Jeep vehicles. No cutting or soldering required

FLCH5H

Interface harness for non TipStart (standard key) Chrysler / Dodge / Jeep vehicles. No cutting or soldering required

FLRF3

RF immobilizer bypass ring for GM vehicles equipped with PK3+ anti-theft systems. The FLRF3 will help reduce any current draw issues experienced on select GM installations.

UNIVERSAL TRANSPONDER INTERFACE KITS

UTI

Universal Remote Start Transponder Interface with key sense shut-off for most vehicles (key required).

Sirens

CASIREN

Standard size 125db weatherproof reversible (multi-tone / Code sound) siren.

MBS

125db Multi-Tone Siren with Back-Up Battery includes a battery to protect the vehicle if the vehicle's battery becomes disconnected or discharged.

AS9903

Compact 125db multi-tone siren.

Door Lock Accessories

DA1

Single Door Lock Actuator. Standard 2 wire door lock actuator for adding power door locks to most vehicles.

PROPDA1

Single Door Lock Actuator. Deluxe 2 wire door lock actuator for adding power door locks to most vehicles.

DA2

Single Door Lock Actuator. Deluxe heavy duty 5 wire door lock actuator for adding power door locks to most vehicles.

PROPDL25

Two Door Heavy Duty Power Door Lock Kit. Includes everything you need to add power door locks to a two door vehicle.

PROPDL45

Four Door Heavy Duty Power Door Lock Kit. Includes everything you need to add power door locks to a four door vehicle.

CLBK

Cable Lock Bracket Kit. Interfaces with door actuator and cable operated latch mechanism to provide door lock / unlock operation.

TKRS1

Trunk Release Solenoid with solenoid cable. Interfaces with existing latch mechanism or release cable to provide trunk / hatch release by switch or remote control. Kit includes mounting bracket, hardware and push-button switch.

DLRKP

Door Lock Relay Kit. Pre-wired door lock relays designed for easy, time saving installations.

DLVI

Door Lock Voltage Inverter. Converts a negative input to a positive 1A output. Ideal for switching a (-) alarm door lock / unlock output to a (+).

Miscellaneous Switches and Led Lights

CALEDBL

Code Alarm series blue LED light. Standard Blue LED for use on any Code Alarm 30's series products. Plugs into Alarm Connector

1541090

Push button valet / override switch.

CALEDRD

Code Alarm series Bi-Color (Red / Green) LED light. Bi-Color LED is selectable based on wiring, and is for use on any older Code Alarm "F" Series and 30's style systems. Plugs into alarm connector.

HDPS5

Heavy duty adjustable self-grounding pin switch used for protection of entry points. 5 pack.

1362002

Super bright blue LED light.

1361286

Red LED light.

PBLED

Push button LED / valet button / combination blue LED light and valet switch designed for quick, easy accessibility.

PRLED

Push button LED / valet button / combination red LED light and valet switch designed for quick, easy accessibility.

1361287

Remote start valet toggle switch.

The following transmitter replacement guide has been developed to guide you through the various replacement transmitters. Each section has been broken down into Group Types, any transmitter within these groups are interchangeable with each other. The transmitters marked “obsolete” are no longer available and should not be ordered.

CODE ALARM

The following transmitter replacement guide has been developed to guide you through the various replacement transmitters. Each section has been broken down into Group Types, any transmitter within these groups are interchangeable with each other. The transmitters marked “obsolete” are no longer available and should not be ordered.

Code Alarm Transmitter Cross Reference Chart
