SECURITY SYSTEMS
CATALOG 2011/2012

In Italy...

Legacy. Design. Power

Our legacy: We went “outside the box” with a new, more flexible platform.

Our design: We offer new features but the same easy programming.

Our power: We are committed to more powerful integration and intuitive user interface.

ABSOLUTA® Control Panels Platform

COMMON FEATURES

(Absoluta104, 42, 16 control panels):

- Voice dialer on board
- Voice messages for each event/zone
- Total duration: 20 minutes
- Telephonic voice guide
- Program up to 32 phone numbers
- Fully customizable digital dialer
- USB port for USB keys and PC programming
- Mini USB connector for direct connection to PC
- Shortcut types of arming keys per four partitions
- Basic home automation functions
- Fully programmable outputs: polarity, timing, oscillation, and event triggers
- Event logger contains 2,000 events
- On board connectors for GSM and IP add on boards
- Powerful new Bentel Operating Security Software (BOSS) manages ABSOLUTA
- ABSOLUTA panel available in industrial metal cabinet or sleek plastic cabinet

ABSOLUTA104 Expandable Hybrid Control Panel for Large-Scale Installations

- Up to 8 on-board zones
- Expandable to 104 input zones
- Up to 32 wireless zones
- Connect to 16 LCD or LED keypads
- 250 keys/tags
- 16 partitions
- Up to 6 on board outputs expandable to 50

ABSOLUTA42 Expandable Hybrid Control Panel for Medium-Size Installations

- Up to 8 on-board zones
- Expandable to 42 input zones
- Up to 32 wireless zones
- Connect to 8 LCD or LED keypads
- 128 keys/tags
- 8 partitions
- Up to 6 on board outputs expandable to 20

ABSOLUTA16 Expandable Hybrid Control Panel for Small/Medium-Size Installations

- Up to 8 on-board zones
- Expandable to 16 wired input zones
- Up to 32 wireless zones (total 32 including wireless)
- Connect to 8 LCD or LED keypads
- 64 keys/tags
- Up to 6 on board outputs

ABSOLUTA add on boards

ABS-GSM GSM/GRPR/SMS Communication Board for ABSOLUTA Control Panels

- Quad band GSM module with remote antenna
- GSM voice messages transmission
- Voice messages sent after commands from the control panel
- Stand alone messages for specific events
- SMS bidirectional communication over GSM (incoming and outgoing management of SMS for home automation functions)
- Contact ID transmission over GSM voice channel
- Alarms transmission via GPRS to Sur-Gard® receivers
- Credit and SIM control
- SMS for each zone alarm/event
- Caller ID recognition for outputs activation
- Contemporary communications via PSTN (voice) and via SMS management
- Answering machine through GSM channel

ABS-IP LAN/WAN Communication Board for ABSOLUTA Control Panels

- LAN/WAN internet protocol
- 128 bit encryption (secure)
- Up/download and event transmission
- Alarm reception via Sur-Gard® receivers
- Integration protocol for third party systems

AS-100 Audio Station for ABSOLUTA Control Panels

- Equipped with speaker/microphone
- New modern look
- Specifically designed for 2-way voice verification
- 4-wire connection to module
- Surface or single-gang box mount

ABSOLUTA Accessories

Model	Description
ABS-M	Metallic box dimensions: 310x403x103 mm (without antenna); battery up to 17Ah
ABS-P	Plastic box dimensions: 319x352x92 mm (without antenna); battery up to 7Ah
M-IN/OUT	Module with 6 programmable IN/OUT terminals
B-ISOL	Isolator module for isolating two sections of the BPI bus
BLUM03	USB modem for remote panel programming
USB5M	5 mt USB cable for local panel programming

KYO320 Expandable Hybrid Control Panel for Large-Scale Installations

- 8 on-board zones
- Expandable to 264 wired zones
- Expandable to 64 wireless zones (433 and/or 868 MHz frequency)
- 6 programmable outputs on-board: 3 (3 A relay) + 3 (1 A open-collector)
- Expandable to 102 programmable outputs connect to 32 remote LCD keypads
- 10,000 event buffer size
- 5 installers and 195 users codes
- 500 keys/tags
- 16 + 16 keyfobs
- 32 readers
- 50 telephone numbers
- 2 operating modes: Normal or "EN-50131"
- Comprehensive scheduler with 64 timers for basic home automation functionality
- Integrated access control functionality

KYO320 Accessories

Model	Description
K3/VOX2	62 message voice board 8 minutes and 44 seconds message time total
K3/PRT2	Printer card
M-IN/OUT	Module with 6 programmable IN/OUT terminals
B-ISOL	Isolator module for isolating two sections of the BPI Bus
DPU-414-30B-E	Thermal printer for KYO320
PW-4007-E1-E	AC adapter for printer DPU-414
NAP-0112-025	Rolls of thermal paper for printer DPU-414 (5 pcs)

KYO Unit

KYO32G Expandable Hybrid Control Panel for Medium-Size Installations

- 8 on-board zones
- Expandable to 32 wired zones
- Expandable to 32 wireless zones
- Outputs: 5 (500 mA) expandable to 16
- Outputs: 3 (150 mA) expandable to 14
- Connect to 8 remote LCD or LED keypads
- 8 partitions
- 256 event buffer size
- 1 installer and 24 users codes
- 128 keys/tags
- 16 Keyfobs
- 16 readers
- 8 telephone number
- Voice dialer function with NC2/VOX
- Supports Vibration and Roller-Blind detectors

KYO32 Expandable Hybrid Control Panel for Medium-Size Installations

- 8 on-board zones
- Expandable to 32 wired zones
- Expandable to 32 wireless zones
- Outputs: 3 (150 mA) expandable to 14
- Outputs: 3 (150 mA) expandable to 14
- Connect to 8 remote LCD or LED keypads
- 8 partitions
- 256 event buffer size
- 1 installer and 24 users codes
- 128 keys/tags
- 16 keyfobs
- 16 readers
- 8 telephone number
- Voice dialer function with NC2/VOX
- Supports Vibration and Roller-Blind detectors

KYO8GW Control Panel for Small-Scale Installations

- 8 on-board zones
- Manage up to 8 wireless zones
- Outputs: 5 (500mA)
- Connect to 8 keypads
- 4 partitions
- 128-event buffer size
- 1 installer and 24 users codes

KYO8W Control Panel for Small-Scale Installations

- 8 on-board zones
- Manage up to 8 wireless zones
- Outputs: 3 (150mA)
- Connect to 8 keypads
- 4 partitions
- 128-event buffer size
- 1 installer and 24 users codes

KYO4 Control Panel for Small-Scale Installations

- 4 On-board zones
- Outputs: 3 (150mA)
- Connect to 8 keypads
- 4 partitions
- 128-event buffer size
- 1 installer and 24 users codes
- 128 keys/tags
- 16 readers
- 8 telephone number
- Voice dialer function with NC2/VOX
- Supports Vibration and Roller-Blind detectors

KYO Unit Accessories

Model	Description
NC2/VOX	8 message voice board (90 seconds message time)
UNBOX-L	Metallic large box dimensions 339x488x108 battery up to 17Ah
UNBOX-M	Metallic medium box dimensions 241x279x87 battery up to 7Ah
BOX-PLUS	Plastic box dimensions 309x227x89 battery up to 7Ah
M-IN/OUT	Module with 6 programmable IN/OUT terminals
B-ISOL	Isolator module for isolating two sections of the BPI bus
ASNC	Anti tamper BOX-PLUS
MAXIASNC	Anti tamper BOX-M and BOX-L
TRF-UNIT	Transformer compatible with KYO4, KYO8W and KYO32

KYO | Control Panels Overview

Features	KYO32/32G	KYO8W/8GW	KYO4	KYO320

Norma4 & Norma8 Control Panels:

- 4 to 8 on-board zones
- Outputs: 1 (3 A relay) + 1 (200 mA open collector)
- Connect to 8 LED keypads
- 4 groups of partitions
- 1 installer and 5 users codes
- 128 keys/tags
- 1 key-reader on-board expandable up to 8 remote readers
- Easy installation directly by panel also without a keypad

Keypads & Management Devices

PREMIUM LINE Keypads

- Integrated proximity reader for keys, cards and tags
- 3 on-board I/O terminals
- Supports Roller Blind detectors
- Surface mounting or flush mounting (with optional kit)
- Very simple and fast installation without cabling problems: terminals only on the back
- Integrated "spirit level" for easy installation

PREMIUM LCD Keypad

- 2x16 blue LCD display
- Adjustable display contrast
- 4 system status LEDs

PREMIUM LED Keypad

- 16 zone LEDs to display all 3 zone states
- 8 system status LEDs
- 3 proximity reader LEDs: arming, A and B arming

PREMIUM Line | Keypad Accessories

Model	Description
BKP-BOX	Flush-mounting kit: flush-mounted box, mortar-proof cover, cap with Bentel logo, flush-mounted back
BKP-FMB	Flush-mounted box, mortar-proof cover, cap with Bentel logo
BKP-FBK	Flush-mounted back

Some products are not available in all countries. Contact your local distributor for details.

CLASSIKA Series Keypads

- Great value
- Large and easy to use keys
- Very simple and fast installation without cabling problems: terminals only on the back

CLASSIKA LCD Keypad

- 2x16 blue LCD display
- Adjustable display contrast
- 3 system status LEDs

CLASSIKA LED Keypad

- 16 zone LEDs to display all 3 zone states
- 8 system status LEDs

Proximity Readers

PROXI

- Proximity key/card/tag reader for indoor/outdoor use (IP34)

MINIPROXI

- Proximity tag 50x30 mm

PROXI-CARD

- Proximity card

SAT

- Proximity key

ECLIPSE 2

- Proximity key reader for indoor use
- Possibility to use in combination with Sat, Miniproxi, Proxi-card
- Universal reader module
- Availability of 19 different covers to be adapted to the most used finishing styles

New

Wireless Systems

Wireless Receivers

Choose between Bentel's 433 MHz or 868 MHz families of wireless devices. The 433 MHz family of devices offer proven range and reliability. The 868 MHz family of devices are perfect for installations where the 433 MHz frequency band is prone to interference.

VECTOR VRX32-433 | VRX32-868 32 Zone Wireless Receiver

- Available in 433 MHz or 868 MHz
- Supports up to 32 wireless detectors
- Supports up to 16 wireless keyfobs
- Easy installation
- Compatible with the following control panels:
 - KYO8W, KYO8GW, KYO32, KYO32G, KYO320, ABSOLUTA
 - Can be used in conjunction with Vector Quad module (only KYO320) for increased wireless range

VECTOR/RX8 8 Zone Wireless Receiver

- Available in 433 MHz
- Supports up to 8 wireless detectors
- Supports up to 8 wireless keyfobs
- Easy installation
- Compatible with the following control panels:
 - KYO8W, KYO8GW, KYO32, KYO32G, KYO320
 - Can be used in conjunction with Vector/Quad module (only KYO320) for increased wireless range

VECTOR/QUAD Wireless Range Expansion Module

Use a Vector/Quad module to connect up to 4 wireless receivers to the control panel and expand the wireless coverage area. Place the additional wireless receivers strategically throughout the building to prevent wireless deadspots and maximize the wireless coverage.

Note: the Vector/Quad does not provide additional zones.

- Voltage Range: 12Vdc - 14Vdc
- Current: 55 mA, plus current draw of each receiver module connected
- Compatible receiver modules:
 - VRX32-433 and Vector/RX8
 - Compatible control panels: KYO320

Wireless Devices

KMD20 (868 MHz) | AMD20 (433 MHz) Wireless Pet-Immune PIR Motion Detector

- Cover: 26 beams on 4 levels, long, medium and short-range
- Battery: Lithium mod. CR123A

KMD20NP (868 MHz) | AMD20NP (433 MHz) Wireless PIR Motion Detector

- Cover: 26 beams on 4 levels, long, medium and short-range
- Battery: Lithium mod. CR123A

KMC10 (868 MHz) Wireless Door/Windows Magnetic Contact

- Dimensions (WxHxD): 75x31x22 mm
- Battery: 1 Lithium mod. CR2

KMC20 (868 MHz) Vanishing Wireless Door/Windows Magnetic Contact

- Dimensions (WxHxD): 57x25x5.3 mm
- Battery: 1 Lithium mod. CR2032

KMC30 (868 MHz) | AMC30 (433 MHz) | AMC30M (433 MHz) Wireless Door/Windows Magnetic Contact with Auxiliary Input

- Auxiliary input supports roller blind detectors
- Dimensions (WxHxD): 75x43x25 mm
- Battery: 1 Lithium mod. CR123A
- Also available in brown (AMC30M)

KRC10 (868 MHz) | ARC20 (433 MHz) 4 Button Wireless Key

- Code combinations: 1.048.576
- Dimensions (WxHxD): 33x58x12 mm
- Batteries: 2 Lithium mod. CR2025

KRP10 (868 MHz) Personal Panic Button

- Belt clip
- Water resistant
- Dimensions (WxHxD): 33x58x12 mm
- Batteries: 2 Lithium mod. CR2025

KSD20 (868 MHz) | ASD20 (433 MHz) Wireless Smoke Detector

- Dimensions: base diameter 147 mm, height 52.8 mm
- Batteries: 2 Lithium batteries mod. CR123

AMB (433 MHz) Wireless Active Infra-Red Perimeter External (Ip55) Barriers

- The aluminum and polycarbonate profile can easily be cut to fit the windows dimensions
- Possibility to add extra beams (up to 8 additional rays), regulating their position, without additional cabling
- Radio transmission signals: alarms, flat batteries, tamper, supervision, alarm end
- Reliability and false alarms immunity

Wireless Accessories

AMB-EX

Pair of additional beams. Up to 8 additional rays (4 loop).

- The AMB-EX position is adjustable inside the aluminium profile

AMB-BAT

Battery for the power supply of the barriers (2 for each profile).

- Duration: Max 20 months with 4 rays and enabled supervised function

BGSM-G GSM/GPRS Universal Wireless Communicator

- Can be used as a Primary, Backup or Standalone communicator
- Compatible with most control panels
- Intelligently monitors phone line and switches automatically to GSM network
- 4 configurable inputs
- 4 programmable open-collector outputs
- Send SMS and Contact ID "Trouble" and "Periodic" reports
- System can be programmed via mobile phone or software application
- SMS dialer – up to 8 telephone numbers
- Contact ID communicator – up to 4 telephone numbers
- Reliable, fast digital communications via GPRS (compatible with Sur-Gard® System II and System III receivers)
- Remote activation of outputs through caller recognition (zero charges) or by sending an SMS
- Remote control feedback (SMS message or ring)

BGSM-120 GSM/GPRS Universal Communicator

The BGSM-120 offers Voice Dialer functionality in addition to the long list of standard Bentel communicator features. Small enough to fit inside the panel cabinet and no extra battery required.

- GSM Quad-Band
- Can be used as a Primary, Backup or Standalone communicator
- Can be installed inside panel cabinet (no extra battery required)
- Compatible with most control panels
- PTM* feature Intelligently monitors phone line and switches automatically to GSM network
- Able to detect VOIP service problems quickly (PTM*)
- 3 programmable I/O terminals
- Telephone voice dialer: 8 voice messages of up to 16 sec. each
- SMS dialer: 11 SMS messages of 100 characters
- 8 telephone numbers for the Telephone and SMS dialers
- Reliable, fast ContactID communications via GPRS (compatible with Sur-Gard® System II and System III receivers)
- Credit balance check for pre-paid SIM CARDS
- Programmable "whitelist" of enabled callers – up to 100 telephone numbers
- Remote activation of outputs through caller recognition (zero charges) or by sending an SMS
- Remote control feedback (SMS message or ring)
- Flexible PC configuration software

* PTM is a proprietary technology.

Range

- BGSM-120KEA:
P.C.B., antenna with 2 m cable, metal bracket and supports
- BGSM-120KCA:
P.C.B., antenna with 25 cm cable and supports
- BGSM120-BA:
P.C.B., antenna with 25 cm cable and container

Remote programming by
www.bentelreachme.com
 No communication cost

BGSM-100 GSM/GPRS Interface

The BGSM-100 can be used as an always-on backup communicator or it can be used as the primary communicator, eliminating the need for phone lines.

- GSM Quad-Band
- Can be used as a Primary or Backup communicator
- Can be installed inside panel cabinet (no extra battery required)
- Compatible with most control panels
- PTM* feature intelligently monitors phone line and switches automatically to GSM network
- Able to detect VOIP service problems quickly (PTM*)
- 3 Open Collector Outputs, one which can be activated remotely
- Reliable, fast Contact ID communications via GPRS (compatible with Sur-Gard® System II and System III receivers)
- Programmable "whitelist" of enabled callers – Up to 100 telephone numbers
- Remote activation of outputs through caller recognition (zero charges)
- Remote control feedback
- Flexible PC configuration software

* PTM is a proprietary technology.

Range

- BGSM-100KEA: P.C.B., antenna with 2 m cable, metal bracket and supports
- BGSM-100KCA: P.C.B., antenna with 25 cm cable and supports
- BGSM100-BA: P.C.B., antenna with 25 cm cable and container

BGSM Accessories

Model	Description
BGSM-100CA	GSM antenna with magnetic base and 25 cm cable
MAXIASNC	Anti-tamper switch for BGSM-120/100BA
PC-LINK	Programming cable

ANTE-EU Outdoor Remote GSM Antenna

The antenna ANT-EU is used to improve the strength of the signal received by GSM net. The kit includes, in addition to the antenna, the hardware necessary for the installation on a mast and the adapter cable for the connection to the GSM module.

- GSM antenna with 15 m cable and accessories for fixing to a stake
- Dual band: 900 - 1800 MHz
- Polarization: vertical
- Antenna length: 356 mm
- Cable length: 15 m - VSWR < 1.5
- Cover material: fibreglass
- Connectors: SMA and MMCX

Compatible with BGSM-G, BGSM-120KCA, BGSM-100KCA, BGSM120-KEA, BGSM100-KEA and BGSM-A (NOT compatible with BGSM-120/100BA)

Coming Soon

B-TEL GT Quad Band GSM Voice and SMS Communicator and Digital Communication

- Vocal menu in 4 languages for programming and use
- Vocal dialer with 64 seconds of vocal messages
- Secure listen-in of premises
- Integrated multi-protocol digital communicator with programmable event code
- Remote control via SMS
- Historical log of events (255 events)
- 9 programmable telephone numbers (16 digits)
- Automatic switch to GSM in case of lack of PSTN line
- Alphanumeric keypad for operating control
- Power supply: 13.8 Vdc and 27.6 Vdc

B-TEL2 Stand Alone Voice and Digital PSTN Communicator

The B-TEL2 is a voice communicator and digital communicator in one. Use the listen-in capability to prevent false alarms.

- Vocal dialer with 64 seconds of vocal messages
- Secure listen-in of premises
- Integrated multi-protocol digital communicator with programmable event code
- Remote control via DTMF
- Programming via software or integrated keypad
- Historical log of calls (255 calls)
- Power supply: 13.8 Vdc and 27.6 Vdc
- 8 programmable telephone numbers for each channel
- 19 digits available for each telephone number: possibility to insert pauses
- 4 types of messages
- Alphanumeric keypad for operating control

SUR-GARD SYSTEM II Single Line IP Receiver

The System II single-line IP receiver is designed for proprietary applications such as gated communities/condominiums, dealers monitoring account system status, private corporate security and government facilities.

System II supports up to 1024 T-Link accounts (K-NET or BGSM-G), of those accounts, 512 can be supervised.

- Desktop or rack mountable
- USB or serial outputs to automation software
- Menu-driven, 40-character, 2-line LCD display with blue backlighting provides instruction when in manual mode
- 4 buttons for manual programming and acknowledgment of alarm signals when in manual mode
- Onboard flash memory and DSP for future software upgrades and enhancements

*Console software not included:
Visit www.bentelsecurity.com for a list of available applications.*

SUR-GARD
A Tyco International Company

K-NET IP Communication Board

IP Module for KYO320. K-NET is the evolution of B-NET, offering the same performance levels but in a smaller package, meaning it can be installed directly inside the container of control panel KYO320. K-NET is a device that may expand the functions of KYO320 control panel through communication over the LAN.

- LAN/WAN Internet protocol
- 128 bit encryption (secure)
- Up/Download and event transmission
- Alarm reception via Sur-Gard® System II/III receiver
- Integration protocol for third party systems, available on request (contact Technical Support service for further information)

B-MOD2 Teleservicing Modem

B-MOD2 is a high-quality, highly reliable modem dedicated to the Teleservice for Bentel Security control panels, and to the remote control of security systems (Telemonitoring).

- Communication protocols: 10-14-40 baud and Contact ID
- 500 event logger
- RS232 serial port and USB port
- External power supply, input 230 Vac 50 Hz, output 18 Vac 150 mA
- Housing for 12 V – 1.2 Ah max battery

CALL Self-Powered External Sirens with Flasher

- Strong polycarbonate box with tropicalized-metal innerplate: resistant to all weather conditions (protection class IP34)
- Modulated frequency sound emission with the possibility to assign different sounds to the alarm input
- Test circuit for battery level and efficiency with flasher cut out activated by low battery conditions
- Protected against tamper, snatch, flasher damage and wire cutting and with foam injection tamper device (only some models)
- 3 different inputs for alarm signaling on siren sounder, flasher and both (only some models)

Complies with CEI 79-2/2nd Ed. 1993 performance Grade II

LADY Self-Powered External Sirens with Flasher

- Strong polycarbonate box with tropicalized-metal innerplate: resistant to all weather conditions (protection class IP34)
- Modulated frequency sound emission with the possibility to assign different sounds to the alarm input
- Test circuit for battery level and efficiency with flasher cut out activated by low battery conditions
- Protected against tamper, snatch, flasher damage and wire cutting and with foam injection tamper device (only some models)
- 3 different inputs for alarm signaling on siren sounder, flasher and both (only some models)

Complies with CEI 79-2/2nd Ed. 1993 performance Grade II

WAVE High Performance Internal Siren

- Operating voltage 12 Vdc
- Sound output volume 104 dBA ± 3 dB @ 1 m
- Protection class IP31
- Available with or without flasher

Detectors

BMD501 Digital PIR Detector with Pet Immunity

Whether it's a residential or commercial installation, the BMD500 Series combines performance with competitive pricing to offer the perfect solution.

- Digital signal analysis
- Pet immunity up to 25 kg (55 lbs)
- Exceptional white light immunity
- Quad Linear Imaging Technology for sharp analysis of body dimensions and differentiation from backgrounds and pets
- Compact design for residential installations
- Adjustable variable pulse count
- PIR sensitivity adjustment
- Height installation calibration free
- Dimensions (WxHxD): 118x62.5x41 mm
- Power input: 8.2 to 16 Vdc
- Current draw (Standby): 18 mA
- Current draw (Active): 25.5 mA
- RFI protection: 30 V/m 10-1000 MHz
- EMI protection: 50,000 V

BMD503/BMD504 Dual-Tech (PIR + Microwave) Motion Detectors with Anti-Masking and Pet-Immunity

The BMD503 is a dual technology motion detector that combines passive infrared and microwave detection with anti-masking features. The BMD504 dual-technology motion detector without antimasking offers reliable prevention of false alarms at an economical price.

- Anti-masking (BMD503 only) and anti-tamper
- Slim profile design
- Pet immunity up to 25 kg (55 lbs)
- Exceptional white light immunity
- Quad Linear Imaging Technology for sharp analysis of body dimensions and differentiation from backgrounds and pets
- Height installation calibration free
- 2-way PIR/microwave sensitivity adjustment
- User-friendly installation with or without swivel-mount bracket (bracket sold separately)
- Dimensions (WxHxD): 118x62.5x41 mm
- Power input: 8.2 to 16 Vdc
- Current draw (Standby): 18 mA
- Current draw (Active): 25.5 mA
- RFI protection: 30 V/m 10-1000 MHz
- EMI protection: 50,000 V

IR360 360° PIR Detector

Designed for applications which require high sensitivity and cover, such as rooms with large amounts of view restricting furniture.

- Ceiling mount for environments with a restricted field of vision
- Temperature compensation for improved performance at critical temperatures
- Sensitivity adjustment to configure the detector for normal or hostile environments
- Excellent RF immunity
- Exceptional white light immunity
- Operating voltage 9.5 ÷ 14 Vdc
- Standby current: 15 mA
- Case protection grading: IP50
- Dimensions (WxHxD): 115x115x25 mm

RILED Remote LED Indicator

- Supplementary visual signalling for fire and intrusion installation
- Current: max 30 mA
- Dimensions (WxHxD): 83x83x26 mm
- Multi-voltage for intrusion: 12V

GB08 Glass Break Detector

Designed to detect the sounds produced by the shattering of framed glass.

- High-performance microphone
- Sensitivity adjustment
- Digital signal analysis provides exceptional false alarm immunity
- Excellent RF immunity
- Accurate detection of framed plate, laminated, wired and tempered glass types
- Operating voltage 9.5 ÷ 14 Vdc
- Standby current: 15 mA
- Case protection grading: IP50
- Dimensions (WxHxD): 89x64x20 mm

RAY Outdoor Barrier for Long-Range Protection of Property Perimeters

- Active infrared double-ray photoelectric sensor
- Signal LED for system's status
- Excellent RF immunity
- Alarm output
- Tamper output
- Supply voltage: 10 ÷ 18 Vdc
- Current: < 43 mA
- Case protection grading: IP54

Power Supplies

BXM12 Controlled Power Station

- Microprocessor controlled power station 230 Vac/13.8 Vdc, metallic box. Available as a universal version (BXM12/30-U or BXM12/50-U) for all control panels, and a BPI version (BXM12/30-B or BXM12/50-B) for KY0320.
- Restoration of BPI bus levels (BXM12/30-B and BXM12/50-B only)
- Insulator function (BXM12/30-B and BXM12/50-B only)
- Auxiliary power supply
- Max current:
BXM12/30 = 3 A; BXM12/50 = 5 A

BAQ Switching Power Supply Battery-Charger

- 230 Vac/13.8 Vdc
- Max current:
BAQ35T12 = 3 A; BAQ60T12 = 5 A
- Compatible with ABSOLUTA, KY0320, KY032G, KY08GW

BA2C Linear Power Supply Battery-Charger

- 230 Vac / 13.8 Vdc
- Max current: 2 A

BOSS Bentel Operating Security Software

BOSS is the new an advanced software platform for local and remote management of Bentel Security systems. System programming, site monitoring and firmware management are made easy with the powerful and intuitive interface of BOSS. Improve efficiency and do it all at once with the many features of BOSS that allow true multi-tasking.

The BOSS platform brings an extensive list of features and capabilities:

- Unlimited number of accounts
- Support Absoluta Control Panel Platform
- Backed by SQL database for stability, security and reliability of account data
- Extensive search capabilities
- Tabs: open many accounts at once just like your favorite internet browser
- Single option tagging to minimize the amount of data transfer
- Multi-tasking: continue to work on other accounts while communications are in progress
- Complete management of voice files
- Continuous "Real-Time" status mode
- Built-in Firmware upgrade tool
- Flexible account management
- Queued communication jobs
- Extensive tracking and control of communications jobs
- Managed updates and installation

BOSS will require the following applications to be installed:

1. .NET Framework 3.5
2. SQL Server Express 2005
3. Visual C++ Runtime components

BSS Bentel Security Suite

The Bentel Security Suite is an integrated environment that has been developed to meet requests of local and remote management of Bentel Security systems. It will allow you to program, control and enhance the performance of any all KYO Platform, BGSM Communicator, and all the old Bentel Security Products equipped with a local or remote computer interface. The customer database and print facilities will keep you in touch and informed. It is surely the best way to achieve the maximum from your Bentel Security installation.

All Bentel software are available for free download at www.bentelsecurity.com

Access Control

webEntry™ Controller

The webEntry™ controller is a low cost 'entry level' access control system that is at the forefront of today's IP-based security technologies.

- Self contained access control system
- Controller managed via web browser on any networked PC - no additional control software required
- Supports four multidrop networks of card readers (64 doors total) using RS485 cabling
- Full operational battery backup available in the event of power failure
- 128 MB compact flash for database with expansion available
- Storage capacity for up to 10,000 card records
- Database is retained even in the event of battery backup failure

SDCM 300 Two Door Intelligent Serial Controller

The SDCM 300 (Door Control Module) is an intelligent, two-door controller designed to interface ioProx Proximity readers to the webEntry access control system.

- Support for two doors
- RS485 host connection
- Structured database allows storage of large amounts of cardholder records for off-line card validation
- Reader communications via standard Wiegand or Mag Stripe interfaces
- Eight supervised inputs (four available per door)
- Two relays (normally opened or normally closed)
- Self resetting fuses – saves maintenance time
- Onboard LED - provides visual status
- Dedicated tamper input

ioProx Proximity Readers and Cards

Choose from four ioProx readers that easily meet the demands of any application. The readers are attractive, compact, weatherized, and vandal-resistant, making them suitable for installation in a variety of environments.

- eXtended Secure Format (XSF)
- Weatherproof design for indoor and outdoor applications
- Integrated piezo buzzer & bicolor LED
- Quick connect terminal blocks for easy wiring
- Long-life passive card for unlimited number of reads
- Four card models to meet any application

Introducing Bentel webEntry... Security System via your web browser

Stay in control – Wherever you are!

webEntry™ takes advantage of web based technologies to enable customers to control and monitor their property no matter where they are – all via the web.

- Access control & integrated intruder alarm management
- Low cost security systems
- Supports up to 64 doors
- Easy to install – webEntry controller combines a web server interface and access control functionalities into one unit
- Arm/Disarm Bentel PowerSeries intruder control panels using ID card
- Easy to manage - Plug & Play
- No software or dedicated PC required
- ID Badging, Graphical Alarms Display
- Optional Time & Attendance reporting

Your most valuable tool may be on the web
