BEVCO®

7000 Silver Series

BEVCO's new 7000 Silver Series Polyurethane Seating is exclusively designed for outstanding comfort and long lasting use in a variety of workplace environments, including industrial, scientific, medical, laboratory, cleanroom and electronic assembly applications. Built with extraordinary care, these durable chairs offer total body support with advanced ergonomic features that improve productivity and reduce worker fatigue. Our rugged self-skinned polyurethane seat and back resist stains and damage from punctures, grease, water and chemicals. Ventilation ribs increase air circulation, comfort and ease of cleanup.

Each BEVCO 7000 Silver Series chair comes standard with easy-to-use pneumatic seat height adjustment, comfortable waterfall seat, fully adjustable contoured back, 360-degree swivel and chrome plated backrest assembly. Models 7051, 7351 and 7551 come with an articulating seat and back tilt control for maximum ergonomic benefit.

Models 7050 and 7051 feature our stylish 25" diameter polished aluminum base with durable mushroom glides. Models 7350, 7351, 7550 and 7551 feature a wider 27" diameter polished aluminum base, mushroom glides and an 18" diameter adjustable chrome footring. Caster options available include hard floor, carpet, ESD, interval brake (lock when not in chair), and reverse brake (lock when sitting in chair) designs.

For technical applications, the 7000 Silver Series has you covered! All standard models are certified for Class 10 cleanrooms. For static control or ESD/Cleanroom applications, there are six specific models (7050E, 7051E, 7350E, 7351E, 7550E and 7551E) that feature six grounding points, ESD glides, a brass drag chain, and ESD polyurethane seats and backs with surface resistance of 10⁸ ohms.

BEVCO's reputation for outstanding value in workplace seating is backed by over 50 years of chair manufacturing. Made in the U.S.A., our products carry BEVCO's superior guarantee. It's not prorated, applies to a 24-hour a day, and covers defects in material and workmanship for a full 12 years! **

Standard Features - All Models

- Available in Blue, Gray, Black. ESD versions in Black only.
- Easy-to-use pneumatic seat height adjustment with "lifetime" cylinder guarantee**
- Durable, polyurethane seat with comfortable waterfall design and 360-degree swivel
- Fully adjustable contoured polyurethane backrest for effective lower lumbar support
- Sturdy five legged polished aluminum base with standard glides or optional casters
- Heavy-duty chrome plated back bar and spring loaded hinge assembly
- All models certified for Class 10 Cleanrooms.

Options

- Dual wheel hard floor, carpet or interval braking ESD or non-ESD casters.
- Tri-lever control with separate seat tilt and back tilt levers on Models 7051, 7051E, 7301, 7301E, 7551, and 7551E (Specify model with "02" option, i.e.: 7552)
- Ergonomic armrests with polyurethane arm pads (with 2.5" vertical and 3" horizontal adjustment) Available only on tilt models. Must be specified with chair order and may not be added later
- Larger 20" diameter adjustable chrome footring or ESD chrome footring.
- Exclusive CAL 133 compliant seats and backs available for added protection from fire and emissions.

* ANSI: American National Standards Institute, Inc. BIFMA: Business and Institutional Furniture Manufacturers Association. BIFMA standards include safety, durability and structural adequacy evaluations.

** Pneumatic cylinders have a lifetime guarantee in the chair originally installed.

Model	Height Adjustment	Height Adj. W/Casters	Vertical Back Adj.	Horizontal Back Adj.	Tilt		Foot Ring	Base Type	Weight (lbs)
