Make a Bold statement.®

The Bold Companies presents high quality and high design furniture that's built especially for you. The following pages illustrate our Juxtapose® Collection—furniture designed to accommodate a variety of your technology and communications needs. Durable. Functional. Versatile. Our products will grow with your business as your furniture needs change. Have a look... Visit a certified dealer... check out our website, www.theboldcompanies.com. Or, call us and we'll tell you all about it... 888.687.6400.

jŭk'stə pōz'

- 1. to place side by side
- 2. unexpected combinations of colors, shapes, and ideas
- 3. a versatile, aesthetically pleasing, and functional furniture collection

Compatible with a myriad of interiors and office layouts, Juxtapose® is ideal for a variety of applications. Anywhere from a small, entrepreneurial, rapidly growing business, a conferencing suite—or the home office that requires a clean look. Designed exclusively for The Bold Companies® by Robert Shapton, The Juxtapose® Collection comprises an elegantly simple line of pieces that work well individually and together.

Durable.

Functional.

Grouped with the Individual in Mind

Each workstation stands alone, or can be grouped into pods of two, three, or four. Each worker can have a "home" base and communicate easily with coworkers.

durable desks *Innovative.*

All Juxtapose® desks and tables are crafted to the highest quality standards, in your choice of finishes, with sturdy, elegant, metal legs. All feature modesty panels, built-in cable management channels, and are available with or without privacy backs. Features like heavy-duty casters and glides make these products easy to move, level—and juxtapose.

JXCD

CHANNEL DESK™

- Spacious 57½" W x 32¼" D work surface accommodates computer, printer, and piles of paper

JXLD

LOW-BACK DESK

- 42½" H privacy partition doubles as a transaction top
- Great for close-knit teams or reception area

JXHD

HIGH-BACK DESK

- High-back, but not high-brow—offers enough privacy to get work done without isolating worker from teammates
- 48½" H partitions can be configured singly, in twos, threes, or in fours
- Available with or without window

JXDHD

DESIGNER HIGH BACK DESK™

- Extra-large work surface (75" W x 32¼" D)
- 48½" partition can be configured individually or in a cluster
- Available with or without window
- Designer Low Back also available - JXDLD

JXPOL

PRIVATE OFFICE DESK LEFT

- Distinctive choice for private office
- Spacious keel-shaped, handed work surface—ample room for monitor on one side, paperwork on the other
- Left-handed version shown
- Also available in Right Hand - JXPOR

JXPT

PENINSULA TABLE*

- Attaches to Channel™, Low-Back, High-Back, and Designer Desks™
- Provides additional work surface space
- Legs are positioned to allow easy unobstructed user movement

* shown with Designer Desk

Bold furniture is crafted of top-quality materials, paying close attention to the details. Wood pieces are hand-finished to smooth perfection and three edge banding options offer the perfect finishing touch.

Our legs, casters, and glides withstand the most rigorous industrial applications and complement the design of the furniture.

durable desks Elegance.

JXCRTL

CRT SIDE TABLE*

- Mounts to the front leg of Juxtapose® desks and tables to add workspace
- Pivots easily around work surface for individual user adjustment preferences
- Stylish back panel is designed to hide cords while allowing easy access to processor ports
- Raises the computer monitor to an ergonomically correct position
- * shown with Channel Desk
- Also available in Right Hand - JXCRTLR

CONFERENCE TABLE

- Provides power and data cabling access
- Doubles as a desk
- Join two together for a large conference room application
- 60" W, 44 1/2" D on wide end and 36" D on narrow end
- For additional power and communications grommets, please contact Bold®

JXCT

NESTING TABLE

- Simple table offers extra work surface area
- Nesting height of 28" fits conveniently under all standard-height Juxtapose® desks and consoles
- Available in six finishes

JXNT

SIDE TABLES

- Mount to either front leg of Juxtapose® desks and tables to add workspace
- Easily adjustable by user and swings under desk when not in use
- Available in five colors
- MF - Medium Density Fiber board with Clear Coat
- WN - Wine
- AZ - Azure
- VD - Verdant
- CH - Charcoal

JXST

JXTD

TABLE DESKS

- Simple tables offer extra work surface area
- Flexible grommet provides simple cable management
- Available in six sizes

JXSQC

square

SQUARE* OR TRIANGLE TABLE

- These tables help bring teaming areas together in three-pack and four-pack applications
- The cut-out versions can be used with the wire and cable Management Tower™ for cable management solutions (see p.26)
- * shown with Management Tower

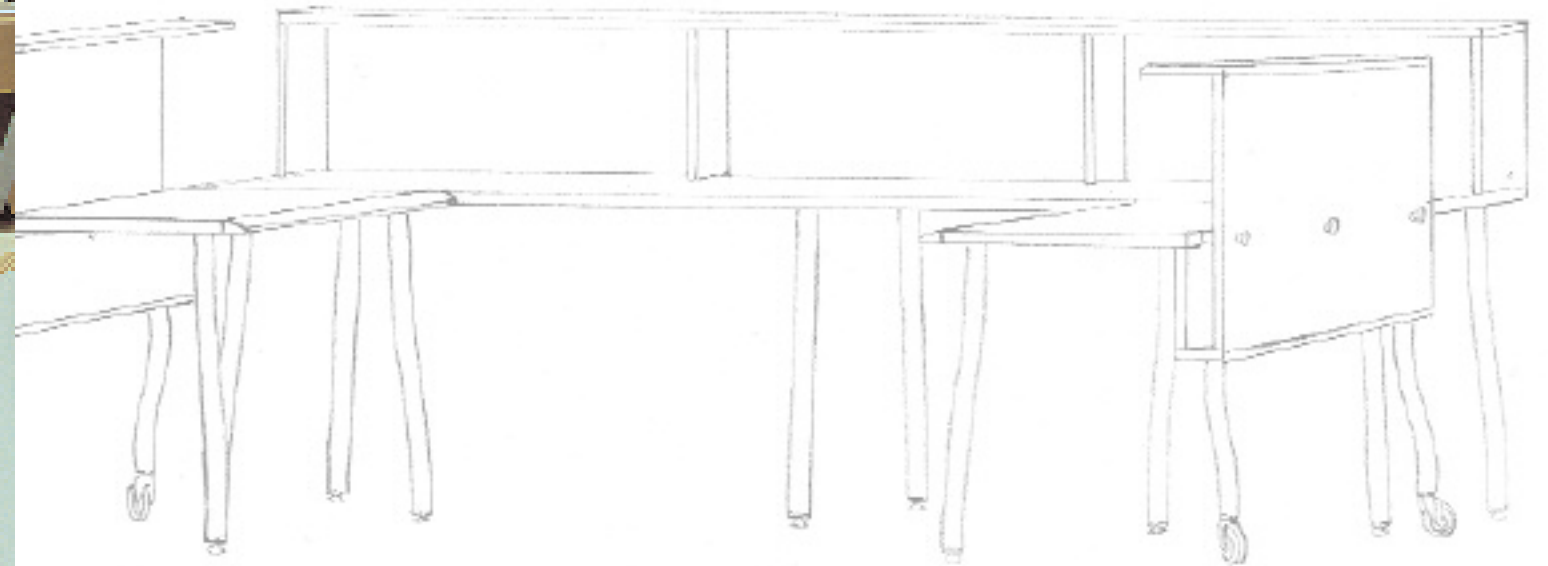

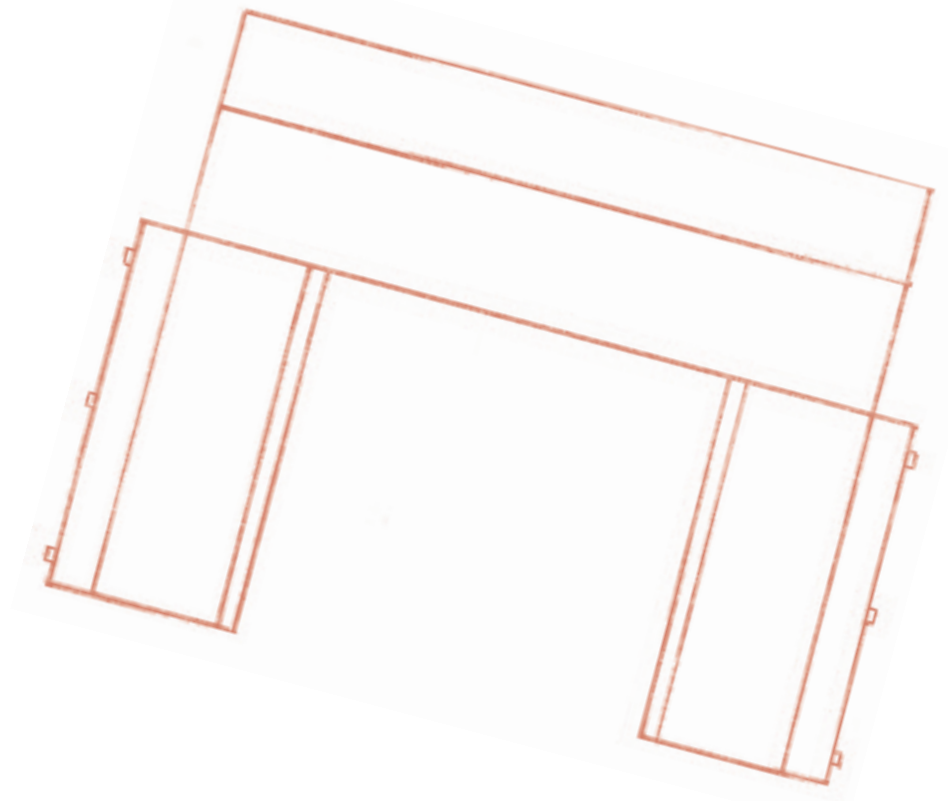

JXTT

triangle

New Team Spaces

Juxtapose components together in new ways, based on how your team works. Cabling for power and data flows neatly between workstations through the simply designed cable management channel. Mobile storage options make it easy for your materials to move with you.

stylish storage Mobile.

Tight on space? Our accommodating storage options handle the clutter and are aesthetically appealing. Heavy-duty casters and glides make these components easy to move, level—and juxtapose.

TOWER

- Clever vertical design makes the most of limited real estate
- Frees up work surface space
- Accommodates books, binders, files, and personal items

JXTW

These products don't just look mobile, they're engineered to be on the move—just like you are. With steel on steel connections for all legs and casters, you don't have to worry about these products missing any action.

VERTICAL MOBILE LIBRARY™

- Holds up to 18 standard-size binders—or 40 small ones—in less than three square feet of space
- Available with or without handles

JXVML

JXOH

OVERHEAD STORAGE*

- Provides a convenient place to store books, binders and other frequently used materials
- Does not interfere with work surface area
- Provides adequate clearance for most computer monitors

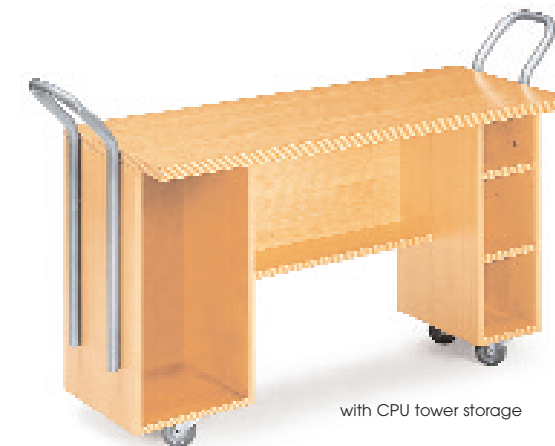

* shown with Channel Desk

COMPUTER CART

- Supports desktop and laptop computers
- In-board shelf hides cables, surge protectors, and peripherals—and provides easy access
- Side storage compartments—perfect for storing disks, office materials, and personal items
- Also available with side CPU tower storage
- Available with or without handles

JXCC

JXCP

with CPU tower storage

TRIPLE DRAWER FILE CHEST WITH STORAGE

- Mobile file chest provides plenty of filing space and doubles as a credenza
- Accommodates a variety of files, folders and binders
- Open storage space provides easy access to your most frequently used books, binders and other personal items

JXTDS

Please refer to page 30 for finish options.

stylish storage Modular.

JXLH

low, standard

JXLHLHD

low, half doors

HORIZONTAL MOBILE LIBRARIES™

- Available in low and high heights to complement all Juxtapose® desk environments
- Another place to store books, binders, files, and other personal items
- Available with half and full doors for more private storage
- Mobile libraries and libraries with half doors have an open-back shelf to accommodate printers, scanners, and other peripherals
- Available with or without handles

JXLHFD

low, full doors,
no handles

JXHHL

high

CONSOLES

- Attractive storage solutions for a variety of materials
- Use in conference rooms to store meeting materials, telephone, and other equipment
- Available in a variety of sizes to accommodate your storage requirements
- Console height equals all Juxtapose® table and desk heights, so products can be specified side by side

JXSC

small console

JXMC

medium console

JXLC

large console

fits under all Juxtapose®
desks and tables

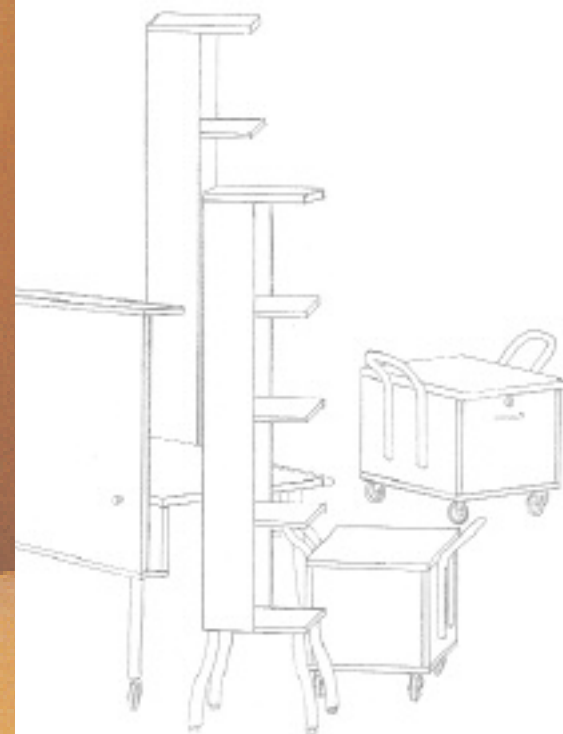

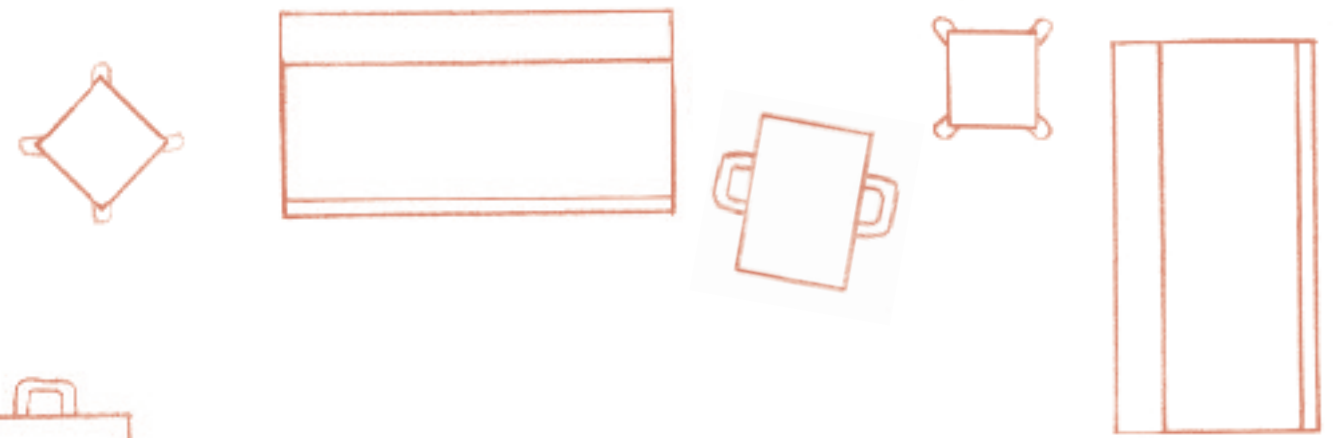

JXCPU

CPU HOUSE

- Designed to hold and protect most vertical processor towers
- Open back provides easy access to processor ports

Please refer to page 30 for finish options.

On the Move... Not a Problem

Bold's mobile filing solutions can move with you wherever you're going, from your office, to a team meeting, to the conference room.

fun filing Versatile.

Bold's fun filing pieces help keep reference materials organized... out of sight, but not out of mind.

JXSFB

SINGLE FILE BOX

- The avid filer's faithful friend
- Can be stored in Horizontal Mobile Libraries and Large Consoles

Since The Bold Companies® crafts all of its products from nature, each component has its own unique personality. Although we take great care to maintain consistent finishes, wood grains and color may differ slightly.

Limitations in the printing process prohibit exact representation of finish characteristics. Please contact Bold for actual finish samples.

bold® quality satisfaction guaranteed

Bold® prides itself on offering contract-quality products designed to meet or exceed standards set by the Business and Institutional Furniture Manufacturers Association (BIFMA International). Now you can get contract quality furniture at affordable prices. All Bold® products are also designed to be quickly self-assembled; we even include the tools required.

All of our products have a limited lifetime guarantee. If you're dissatisfied for any reason, please call us at 888.687.6400, or send us an e-mail via info@theboldcompanies.com. We'll either replace, repair, or refund your money for any product that does not meet your expectations.

All doors and drawers can be specified with locks for added privacy and security.

Feel free to cram as many files as you can into your Juxtapose® file benches, pedestals, and chests. All single high filing units use full extension, ball bearing slides rated to 100 pounds. All double-high filing units have interlocking, full extension ball bearing slides rated to 150 pounds.

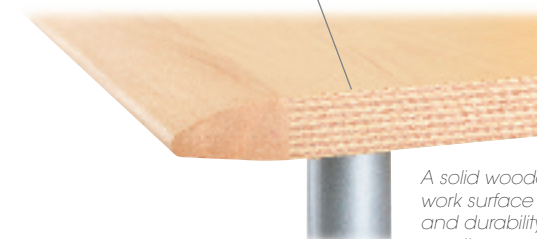

The durable steel handles give you the freedom to roll your books and files around all day long.

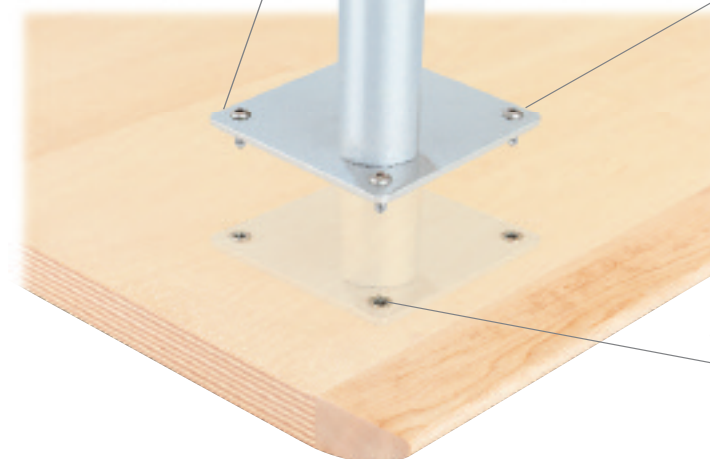

The unique channel trough provides a convenient solution for wire and cable management while serving as a partial modesty panel and increasing the strength and rigidity of the desk.

All Juxtapose® Legs are 1 1/2" in diameter and made from structural steel tubing. A layer of clear-coat is applied over the Bavarian silver powder coated finish to enhance the durability and appearance of all metal components.

Most Juxtapose® desks and tables come standard with two industrial-strength locking casters; however, they can be specified as non-locking.

A solid wooden rail is attached to the work surface enhancing the design and durability of the product while creating an ergonomic user interface.

All component connections utilize steel inserts and screws to form a steel-on-steel connection. This attachment mechanism allows you to easily assemble and disassemble the units without compromising the quality of the product.

If you don't see what you want, or need a unique solution, contact us at:
