

PRESSURE WASHER

SELECTION GUIDE

OUR PROMISE

IT MATTERS WHAT'S INSIDE.

Whether you're talking about a person or their power equipment, the engine inside is what gets the job done. Briggs & Stratton believes in empowering the human can-do spirit and supports self-initiative and putting one's know-how to good use.

Supporting the power within each of us is our brand promise. For over 100 years we've been building the engines in power equipment that people use every day to get the job done right. And it's the reason you look for the Briggs & Stratton brand when you shop for power equipment.

OUR ADVANTAGE

TRUST THE POWER OF BRIGGS & STRATTON TO WORK FOR YOU.

Briggs & Stratton pressure washers offer a premium combination of power, performance, and value you would only expect from the market leader.

They give you the power to blast away built-up mold, mildew, dirt and grime to restore surfaces to like-new condition in a fraction of the time it would normally take.

Briggs & Stratton is North America's largest pressure washer manufacturer. You'll be supported by one of the largest service networks worldwide with over 30,000 repair centers.

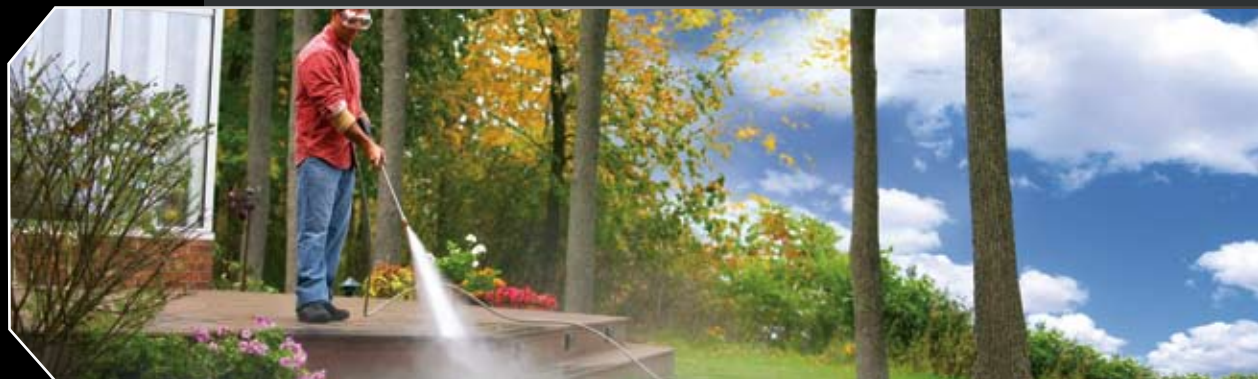

PRESSURE WASHERS

**CLEAN
HUNDREDS
OF ITEMS
FASTER,
BETTER
AND
EASIER**

A pressure washer cleans everything from decks and driveways to siding, garage floors and vehicles.

They use up to 80% less water and deliver up to 75 times more cleaning power than an ordinary garden hose,* saving you time and money.

*May vary depending on PSI & GPM rating.

ENGINES MATTER

BRIGGS & STRATTON SERIES ENGINES

*For long life, high performance
and great fuel efficiency*

OHV Design*

runs cool and clean

Magnetron® Electronic Ignition

for quick, dependable starts

Pleated Paper Filter

provides dirt and
debris protection

Optional Run Sense Low Oil System

reduces the chance of
engine damage due to
insufficient lubrication

Super Lo-Tone™ Muffler

for quiet operation

BETTER ENGINES MEAN BETTER RESULTS

Regardless of the application, Briggs & Stratton engines are designed with torque, durability and low maintenance in mind to provide peak performance in power equipment.

BRIGGS & STRATTON VANGUARD™ ENGINES

*Commercial grade, engineered
for extreme conditions*

Compact OHV Design

delivers a powerful cool
running engine for great
fuel economy and long life

Dura-Bore™ Cast Iron Cylinder Sleeve

withstands wear and
abuse while providing
improved oil control

Magnetron® Electronic Ignition

for quick, dependable starts

Dual-Clean™ Air Cleaner

pleated paper filter with foam
pre-cleaner ensures double
protection for longer engine life

Super Lo-Tone™ Muffler

for quiet operation

* Available on the Professional Series™, 900 Series™ & 1150 Series™ engines

PRODUCT POWER & DURABILITY

HOW MUCH POWER DO YOU NEED?

PRODUCT POWER & DURABILITY

Choosing a product that is powerful and durable enough to fit your cleaning needs is key. The heavier the duty level, the longer lasting and more powerful the cleaning machine is and the more time you will save.

 Electric pressure washers are convenient and compact making them easy to carry and easy to store.

 Gas-powered pressure washers deliver unbeatable cleaning performance, flexibility and durability giving you the freedom to clean any type of project.

PSI is the water pressure measured at output, measured in pounds per square inch. It is what gives you the power to penetrate the dirt and grime.

GPM is the water flow delivered to the spray gun, measured in gallons per minute. It gives you the power to breakdown the dirt and wash it away.

Both PSI and GPM are important for truly effective cleaning.

The higher the combination of these numbers, the greater the cleaning power. The more area you can effectively clean allows you the to get the job done faster.

LIGHT DUTY 
1500 - 2100 PSI
1.5 - 2.0 GPM

SIZE
Smaller projects

CLEANING TIME
10 - 40 sq.ft.

ACCESSORIES

#6042

50' Replacement/Extension Hose

- Extends existing hoses or replaces worn or damaged hoses
- Heavy-duty steel braided reinforced hose
- Quick-Connect fittings for easy connections
- For use with cold water pressure washers up to 4000 PSI
- Connects to Quick-Connect pump and spray gun fittings

#6045

Quick-Connect Turbo Nozzle

- Whirls a powerful pin-point jet of water for intense cleaning
- Cleans up to 40% faster than standard spray nozzles
- Recommended for cleaning brick, concrete and vinyl surfaces
- For pressure washers up to 3700 PSI
- Connects to Quick-Connect Wand

#6053

33" Quick-Connect Wand

- Quick-Connect fitting for easy connection to spray tips and other accessories
- Long wand provides greater reach for easier cleaning
- For pressure washers up to 3700 PSI
- Connects to M22 Spray Gun Fittings

#6151

Pressure Washer Pump Saver™

- Unique anti-freeze and lubricant formula
- Protects pistons and seals from damage during storage
- For use before extended storage and before startup the next season

#6033

Pressure Washer Pump Oil

- Premium full synthetic oil for maximum pump life and performance
- Leading pump manufacturers rate full synthetic oil as their #1 choice for pump maintenance
