Judge for Yourself

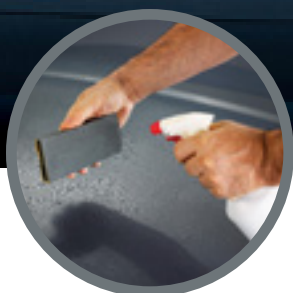

Carborundum is confident of the superior performance of its abrasive products. In-house tests against any other brand of abrasives are invited. To make it as easy as possible for bodyshops to make their own judgment of the time, labor, and money saving advantages of Carborundum products, and to assure bodyshop personnel that they have absolutely nothing to lose and everything to gain by conducting an in-house test

Our No-Risk Test Policy

- 1** *The test will be conducted in the user's own bodyshop, on their own machines and using their own work pieces.*
- 2** *If the Carborundum tested product proves completely unsatisfactory, the user will receive a full refund.*
- 3** *If the Carborundum tested product performs at a lower level than the product presently used, the user will receive an adjustment to make up the difference in performance.*
- 4** *The user is the final judge of performance.*

Carbo Medalist is ideal for jobs that require an extremely durable abrasive that cuts fast, plus lasts extra long without generating heat. Engineered ceramic grain is the perfect abrasive to penetrate hard surfaces and achieve both cut and long life.

FEATURES	BENEFITS
• Patented SG ceramic grain	• Faster cut rate and more durable
	• Lasts longer, especially in tougher sanding applications
• Unique fiber reinforced	• Maximum tear resistance
• Latex/paper backing	• Flexible and easy to work with

CARBO MEDALIST®

Discs-Stick-On, Grip-On and Clean Air

Discs with patented ceramic grain is the perfect solution for hard-to-sand and self-healing clears. Ideal for scratch resistant clears, E-coat, composites and aluminum.

Anti-loading, fast cutting and long lasting premium sandpaper for shops that want to decrease costs by increasing productivity.

FEATURES	BENEFITS
• Premium, P-graded, heat-treated aluminum oxide abrasive	• Incredibly fast cut rate
• Red-colored, fiber-reinforced, B-weight, latex-impregnated, paper backing	• Consistent finish
• Advanced bond system	• Superior resistance to delamination and tearing
• “Anti-load” stearate	• Can be used moist
	• Excellent grain adhesion
	• Extended life
	• Superior load resistance

CARBO
PREMIER
RED™

PREMIER RED COARSE GRITS

Self-sharpening abrasive for long life and cool cut

Ultimate choice for sanding body filler, sanding bare metal and stripping paint.

FEATURES	BENEFITS
• Premium zirconia alumina abrasive	• Self-sharpening grain for super fast cut and long life
• Full phenolic resin bond system plus latex	• Tough yet flexible
• Red colored, E-weight latex paper backing	• Excellent grain adhesion
	• Long life
	• Resists tearing and shedding

Sanding Boards

Stick-On Sanding Board

The Stick-On Sanding Board has a cushioned surface. There are slots at each end to securely hold 2-3/4" x 17-1/2" abrasive sheets or may be used with 2-3/4" x 16-1/2" PSA sheets.

Grip-On Sanding Board

The Grip-On Sanding Board has a lightweight, rugged design. This sanding board is designed to be used with 2-3/4" x 16-1/2" hook and loop sheets.

Grip-On Air File Shoe

The Grip-On Air File Shoe eliminates the need for clips. The quick-change backing positively locks and unlocks every time, for fast, easy-to-manage use of hook and loop file sheets.

ULTIMATE PERFORMANCE

THE CARBO CLEANAIR SYSTEM

35% to 60% productivity gain over traditional sanding

Combines the revolutionary maximum dust extraction Carbo CleanAir back-up pad with Carbo Medalist Dri-Lube Carbo CleanAir discs to optimize performance, increase productivity and eliminate dust.

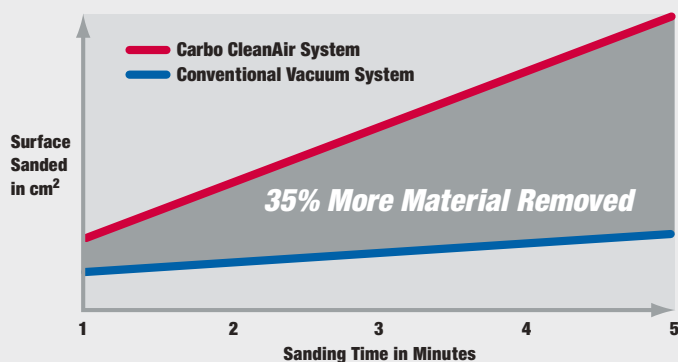

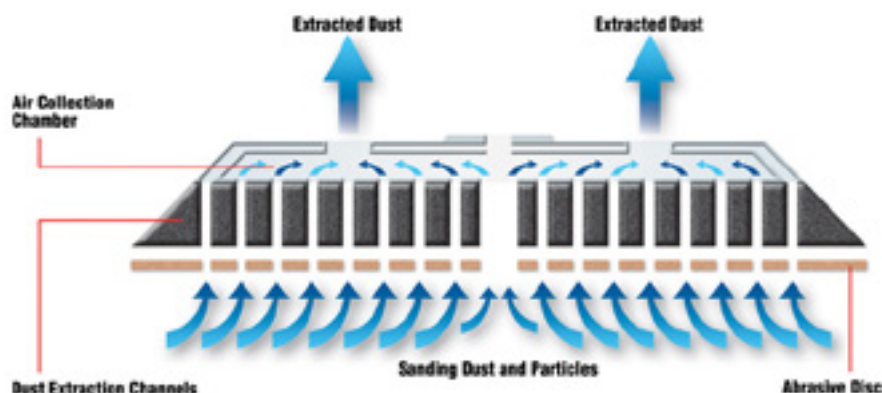

FEATURES	BENEFITS
<ul style="list-style-type: none"> Revolutionary design for maximum vacuum assist 	<ul style="list-style-type: none"> 30% increase in dust extraction vs. traditional vacuum sanding Cleaner working environment Less dust and contamination in the shop Best practice for a waterborne shop
<ul style="list-style-type: none"> Cutting surface of disc remains clean 	<ul style="list-style-type: none"> 35% increase in productivity vs. traditional vacuum systems No clogging Consistent cut throughout life of disc
<ul style="list-style-type: none"> Premium abrasive grain 	<ul style="list-style-type: none"> Substantially longer life and faster cut than conventional abrasives

Less Dust Means More Productivity

The Carbo CleanAir System

The overall abrasive area of a Carbo CleanAir disc is similar to that of vacuum discs with traditional 6 hole dust extraction. However, the complete coverage of 181 vacuum assist holes coupled with the Carbo CleanAir back-up pad creates a virtually dust-free sanding surface with no clogging and allows the abrasive grains to continually cut for the life of the disc. Increased productivity means more profit.

Carbo CleanAir eliminates dust.

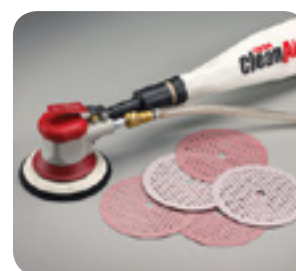

Traditional sanding creates dust.

The Carbo CleanAir box clearly identifies the grit and is designed to access the discs easily with a flip-top opening while protecting them from contaminants.

Carbo CleanAir Self-Generating Vacuum D/A with Hose Assembly and Bag Assembly

Carbo CleanAir Self-Generating Vacuum D/A with Bag Assembly

THE CARBO CLEANAIR SYSTEM

Reduce contaminants for a cleaner working environment, which is critical for shops using waterborne.

Carbo Medalist CleanAir Grip-On Discs

Medalist Ceramic Dri-Lube on hook and loop Grip-On discs offer the longest life and fastest cut for any sanding job.

MIRROR FINISH

Premium grain / Specially treated backing

Ultimate choice for wet sanding to remove surface imperfections.

FEATURES	BENEFITS
• Premium grain for automotive applications	• Consistent cut
• Flexible backing	• Fast cut
• Specially treated waterproof paper backing	• Resists tearing and cracking
	• Resists wrinkling
	• No soaking required
	• Curl resistant
	• Will not deteriorate

Waterproof Sheet

The Mirrorfinish design works just as well wet or dry and gives the same cut no matter how you use it. If you prefer the paper to be wet, just spritz and go. Or, if you like to soak your paper, go ahead because Mirrorfinish has curl resistance built right in so it stays flat and the product will not deteriorate, no matter how long you leave it in water. Designed specifically for automotive finishes, Mirrorfinish is ideal for water and color sanding.

DEFECT REMOVAL

Premium aluminum oxide grain / Smooth film backing

A flawless finish is easy with high performance Medalist Finishing Discs that quickly remove imperfections, followed by Carbo Finish Extra-Cut polish.

FEATURES	BENEFITS
• Smooth backing	• Consistent finish that buffs out quickly and easily
• Premium aluminum oxide grain	• Fast cut and long life
	• Less downtime switching discs
• Anti-loading agent	• Eliminate pigtails and costly re-work
	• Uniform finish that buffs out faster
	• Complete the job faster

Medalist Film Finishing Disc - Dry

Medalist Finishing Film Discs are engineered to remove imperfections quickly and without loading. Superior grain on a super smooth film backing provides an incredibly fast cut with no "pigtails."

MASKING PRODUCTS – PLASTIC

Paintable / Corona-treated so paint will not flake off

One person can easily cover a vehicle by using the self-dispensing box and the specially folded plastic for quick application.

FEATURES	BENEFITS
• Tri-layer paintable sheeting	• Clings, even after repositioning
	• Easy to handle – fast application
• Corona-treated	• Paint won't flake off
• 3-ply resin .4 mil thick	• Resists tearing
• Plastic	• Resistant to solvents
	• No bleed-through

EZ Sheet Paintable Plastic

Paint will adhere to the outside layer of plastic, eliminating flake-off. The cling ensures material adheres to the area that is to be protected. EZ Sheet can be cut and painted along the critical edge. Tri-layer plastic is .4 mil thick.

Size	12' x 400'	14' x 350'	16' x 350'	20' x 350'
DESCRIPTION	055395-	055395-	055395-	055395-

CARBORUNDUM PAINT SYSTEM

Unitized construction / Clean and easy disposal

Carbo Paint System Puts A New Twist On Painting

The Carbo Paint System with SpillGard technology provides a triple seal so you can spray with confidence. A quick turn of the unitized system secures the unit to the gun and activates the spring-loaded valve which controls paint flow. You can actually feel the difference with the locking technology that guarantees no leaks.

CARBORUNDUM PAINT SYSTEM

Unitized construction / Clean and easy disposal

Reduce cleaning solvent use by switching from metal cups to disposable plastic cups. Eliminate the mess.

FEATURES	BENEFITS
• Unitized construction	• Can store unused paint
	• Can dispose of easily in accordance with local regulations
• Disposal system	• New threads every time so no gunked up paint from repeated use
• Plastic components	• Will not rust
	• Can be used with waterborne and solvent-based paints
• Valve with actuator	• Will not leak
	• Paint only flows when attached to the gun

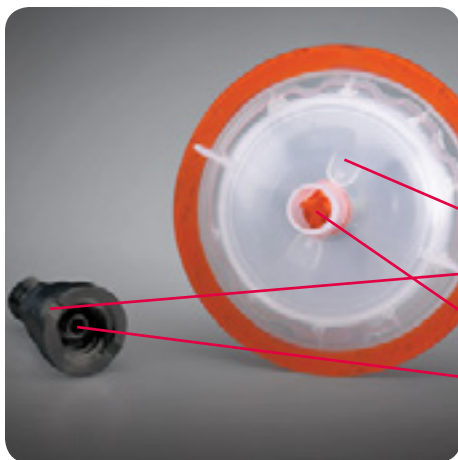

Take the “pain” out of painting

The unitized lid/liner assembly is guaranteed never to come apart which eliminates the hazard and mess of spilled paint. The self-sealing lid, with SpillGard technology, guarantees the system is securely sealed since the unique valve system, used with the Carborundum actuated adapter, releases paint only when attached to the gun. The self-sealing, spring-loaded valve eliminates the need for plugs for transporting, storing, or shaking. No matter how you handle it, the unitized leak-proof lid/liner assembly is guaranteed to remain securely sealed during disposal or storage.

SpillGard Technology

- Triple seal protection
- Unitized lid/liner
- Quick-connect lid
- Self-sealing valve
- Actuated adapter
- Extended filter area and space between tower and filter for optimal flow

Feel the Difference

When you twist the self-sealed, unitized system onto the adapter, you can feel it engage and lock into the notches on the valve and lid. This tactile information lets you know that all seals are engaged, the valve has been opened, and you are ready to paint.

NOTCHES LINE UP AND PROVIDE TACTILE FEEDBACK TO FEEL THE UNIT ENGAGE.

SELF-SEALING, SPRING-LOADED VALVE IS ACTIVATED BY THE ACTUATOR IN THE ADAPTER.

PAINTING, PREP,
AND PROCEDURES

CARBORUNDUM
PAINT SYSTEM
With SpillGard Technology

CARBORUNDUM PAINT SYSTEM

Unitized self-sealing system is ready when you are

Load and Go!

The Carborundum Paint System with SpillGard Technology eliminates the problem of gunked up threads because each unit comes with a fresh set of threads. The only reusable component to keep track of is the hard mixing cup with pre-printed measurements, so there are no inserts to keep track of either. The unitized lid/liner assembly is guaranteed not to come apart during disposal or storage which eliminates the hazard and mess of spilled paint. And, the self-sealing lid keeps any remaining paint fresh for later use. No matter how you handle it, the unitized leak-proof lid/liner assembly is guaranteed to remain securely sealed. We've sealed the deal on ease and efficiency when it comes to disposal paint cups.

ASSEMBLY INSTRUCTIONS

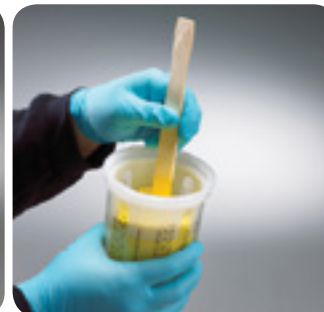

Thread the Carborundum adapter to the spray gun.

Seat the ring into the reusable mixing cup.

Insert the liner into the ring.
Load the paint by weight or by using the pre-printed mixing ratio scales on the reusable mixing cup.

Mix the paint by stirring (if not using a mechanical shaker) and clean the liner/flange area of any spilled paint before attaching the lid.

Seat the lid onto ring and rotate lid twice to attach:

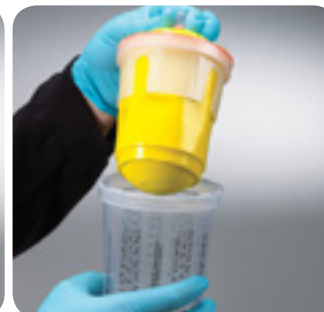

- A 1/4 turn counter-clockwise until you hear a "click".
 - B Then rotate lid clockwise until tight.
- *The tower has a self-sealing valve so no plug is needed.

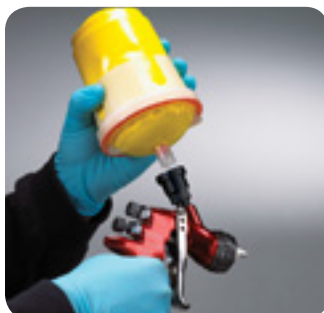

If using a mechanical shaker, add the shaker cap and shake the paint.

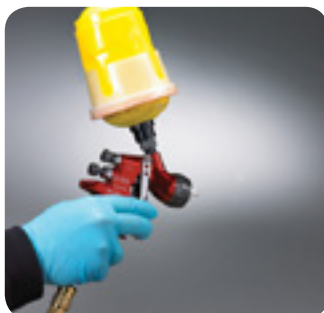

After shaking, check the lid and tighten if needed.

Lift the unitized system out of the reusable mixing cup.

Turn the unitized system upside down and screw the lid assembly into the adapter (clockwise) until you feel and hear it click/lock.

Connect the air line to the gun, adjust the spray pattern and you're ready to spray.

After you are done spraying, disconnect the air hose, turn the gun upside down and pull the trigger to purge the gun of any remaining paint.

Twist the unit clockwise to release the unit from the adapter for storage or disposal.

* Please consult your local and state laws for proper disposal

Lid Dispenser Pack

Each self-dispensing pack comes with lids for Small or Medium/Large units. To allow for easy dispensing, the pack has 2 re-closable doors on the front. The self-sealing lids come in three mesh sizes: 80µ mesh (white), 125µ mesh (blue), 190µ mesh (white) and no-filter. The self-dispensing pack can be wall-mounted to keep the lids clean and handy.

NOTE: Refer to the paint manufacturer's recommendation for the correct filter mesh.

Size	80µ Filter	125µ Filter	190µ Filter	No Filter	
DESCRIPTION	055395-	055395-	055395-	055395-	USE WITH
Small	99575	99576	99577	99578	47321

CASE	24	24	24	24	

Liner/Ring Dispenser Pack

Each self-dispensing pack comes with liners and rings for Small, Medium and Large units. The pack is divided to allow for easy dispensing of the liners from the bottom and the rings are accessed from the re-closable door on the front. The self-dispensing pack can be wall-mounted to keep the liners and rings clean and handy.

SIZE	DESCRIPTION	055395-	USE WITH
Small	8oz / 250ml (Max Fill 6.5 oz / 190 ml)	99572	47321
Medium	25oz / 750ml (Max Fill 22 oz / 650 ml)	99573	47322
Large	32oz / 950ml (Max Fill 30 oz / 888 ml)	99574	47323
CASE		24	

Reusable Mixing Cups

The reusable mixing cup has pre-printed mixing ratio scales on the cup for greater convenience. The mixing cups are used to hold the liner/ring when measuring/weighing paint.

**ADVANTAGES OF
UNITIZED SYSTEM**

ADAPTERS FOR THE MOST POPULAR GUNS

Allow most spray guns to be easily adapted to the Carbo Paint System.

tech tip

- With solvent based paints, once the cup is attached to the gun, purge some air out of the liner to relieve pressure.
- To ensure a good seal, clean off any spilled paint from the ring/liner rim area after filling.
- When mixing paint by weight, it's important not to over-fill the liner.
 - Set the small cup at 6.5 oz / 190 ml
 - Set the medium cup at 22 oz / 650 ml
 - Set the large cup at 30 oz / 888 ml
- To prevent cross threading, always invert the cup when screwing it onto the adapter/gun.
- When tinting or refilling, always remove the lid with the gun attached.
- An aerosol gun cleaner in conjunction with small brushes work best for cleaning the adapter.

Availability

Carborundum adapters must be used with the Carborundum Paint System.

Minimal inventory handles multiple applications. Full range of products for any job on any substrate.

FEATURES	BENEFITS
• Acrylic Adhesives	<ul style="list-style-type: none"> • Best choice for metal-to-metal bonding • No welding required • Lifetime corrosion and performance warranty • Glass bead technology for correct panel spacing and bond control
• Urethane Adhesives	<ul style="list-style-type: none"> • Best choice for plastic repairs • Easy to sand • Will not lift or roll up • 100% solids so zero shrinkage
• Epoxy Adhesives	<ul style="list-style-type: none"> • Ideal for undetectable SMC Repairs • Easy to sand • Will not lift or roll up

Metal Door Skin Bonding Adhesive - 45 Minutes

Two-part acrylic (2:1) for panel bonding of door panels, other body sheet metal, steel and aluminum.

- Bonds door panels to door frames without welding
- Work time 45 minutes
- Clamp time 1-1/2 hours
- Guaranteed corrosion protection

DESCRIPTION	SIZE	055395-
Metal Door Skin Bonding Adhesive 2:1	220 ml	99405
CASE		6

Metal Panel/Weld Bonding Adhesive - 75 Minutes

Two-part acrylic (2:1) for panel bonding and weld bonding of quarter panels, rear body panels, roof panels, door panels, van side panels and outer truck bed panels on bare metals, including aluminum.

- Long work time of 75 minutes for bonding large areas
- Guaranteed corrosion protection
- Perfect for high temperatures

DESCRIPTION	SIZE	055395-

METAL TO METAL
BEST PRACTICES

EZ REPAIR - 1 minute

Two-part urethane (1:1) used for structural and cosmetic repairs of all plastic bumpers including TPE, TPO, TEO, PP and ABS and can be used to bond SMC or fiberglass panels.

- One product for all structural and cosmetic repairs on bumpers
- Easy to sand
- Will not lift or roll up
- No plastic identification required with use of 99410 / 99411 adhesion promoter

DESCRIPTION	SIZE	055395-
EZ Repair - 1 minute (1:1)	220 ml	99400
CASE		6

EZ REPAIR - 5 minutes

Two-part urethane (1:1) adhesive used for structural and cosmetic repairs of all plastic bumpers, bumper tabs, emblems, door trims, interior and exterior plastic repairs and cosmetic repairs including TPE, TPO, TEO, PP and ABS and can also be used to bond SMC or fiberglass panels.

- One product for all structural and cosmetic repairs on bumpers
- Easy to sand to a feather edge
- Good for elevated temperatures
- Will not lift or roll up
- No plastic identification required with use of 99410 / 99411 adhesion promoter
- Accelerate cure with heat (3 min @ 140°F)

DESCRIPTION	SIZE	055395-
EZ Repair - 5 minute (1:1)	220 ml	99401
CASE		6

EZ REPAIR - 15 minutes

Two-part urethane (1:1) adhesive used for installation of hood panels, roof panels, fenders, fender liners, fairings, spoilers, wind deflectors, cab extenders, ground effects, head lamp buckets and other body panels. For bonding fiberglass, SMC, carbon fiber and other plastics to itself and to primed metal.

- Easy to gun out
- One product for all structural and cosmetic repairs on bumpers
- Work window allows for larger repairs
- Perfect for elevated temperatures
- Easy to sand to a feather edge
- Non-sag formulation
- No plastic identification required with use of 99410 / 99411 adhesion promoter
- Accelerate cure with heat (10 min @ 140°F)

DESCRIPTION	SIZE	055395-
EZ Repair - 15 minute (1:1)	220 ml	99402
CASE		6

Adhesion Promoter

Available in both aerosol and brush top. No need to identify plastic type – just simply apply to all plastics once, no need to re-apply. Allow for a 10 minute flash time.

- No plastic identification required.

DESCRIPTION	SIZE	055395-
Brush Top	118 ml	99410
Aerosol	333 grams	99411
CASE		12

Skim Coat Epoxy Repair/Filler

Two-part epoxy (1:1) used to repair most plastic parts, including bumper covers and other plastic body panels including PP, fiberglass, Metton®, Telene®, SMC, TEO and urethane. Formulated to finish the front side of flexible repairs used over the top of urethane adhesives.

- Incredibly easy to sand in 20 minutes or less
- Designed to be used for minor scratches, gouges and pinholes
- No plastic identification required
- No Adhesion Promoter needed
- Mix with either a spreader #06396 or mix tip (included)

DESCRIPTION	SIZE	055395-

Sprayable Seam Sealer Starter Kit and Mixing Tips

The S-4 [Sprayable Seam Sealer System] Starter Kit includes one S-4 Atomization Unit with a standard M style air fitting (which can be changed out), a bag of six S-4 Mixing Tips and instructions for use.

The S-4 Atomization Unit attaches to the bottom of the Pneumatic Applicator Gun (#41399) and can easily adjust the air pressure as needed. Either Seam Sealer (#99407) or Bare Metal Seam Sealer (#99409) can be used with this system to replicate textured OEM seals. The unique S-4 Mixing Tip (#06404) screws onto the cartridge, and the opposite end of the tip attaches to the hose on the S-4 Unit.

Because of the unique design of the S-4 Mixing Tip, this system also helps increase efficiency as there is virtually no clean-up. Simply replace the tip for the next job and follow the same instructions. Additional tips are also sold separately from the starter kit.

Heavy Duty Spray Trim Adhesive

A fast drying, non-staining super strength adhesive in an aerosol can. Used to bond carpeting, urethane foam, insulation, supported vinyl, wood, paper, hood pads, and headliners to most substrates. Convenient adjustable spray nozzle for varied applications.

For best results, use at room temperature. This product is 50 state compliant and meets all regulations for sale in the USA.

DESCRIPTION	SIZE	055395-
Spray Trim Adhesive	24 oz / Net 15.75 oz	99446
CASE		12

Urethane Windshield Sealer

A one-part urethane adhesive sealant for windshield and backlite installations. Easy handling, fast-set properties, excellent shelf life. Passes Motor Vehicle Safety Standard #212 windshield barrier test and #216 crush test.

DESCRIPTION	SIZE	055395-
Urethane Windshield Sealer	11 oz / Net 10.5 oz	99447
CASE		12

Zinc-Rich Weld-Through Primer

Aerosol primer for use on bare metal parts before welding. This zinc rich primer provides excellent conductivity to minimize weld spatter. It is fast drying, resists sags and settling, is water resistant after 15 minutes and may be topcoated, if desired. Heat resistant up to 500°F. Apply to metal surface either before or after welding to restore OEM zinc corrosion protection. It is formulated to be V.O.C. compliant in California.

DESCRIPTION	SIZE	055395-
Zinc-Rich Weld-Through Primer	16 oz / Net 13.75 oz	99452
CASE		12

Quick-Set Seam Sealer, Beige

Quick-Set Seam Sealer can be used to seal any body seam against moisture or dust and to finish skin panels. Applies easily and skins over in 2 minutes and is paintable in 30. Outstanding tooling and sanding properties. It will remain flexible once dry, withstands temperature changes and vibration, and resists penetration of moisture. Excellent adhesion to clean, bare metal, primed metal and paint surfaces.

DESCRIPTION	SIZE	055395-
Quick-Set Seam Sealer, Beige	11 oz	99449
CASE		12

Urethane Seam Sealer

A one-component, polyurethane seam sealer that cures quickly to a permanent, flexible sealant designed for sealing interior and exterior automotive and RV body joints and seams and duplicates OEM appearance. Can be smoothed to a featheredge and/or brushed and will not shrink or crack. Paintable in 1 hour. Flexible foil package eliminates product waste. Use with Application Gun #82786.

DESCRIPTION	SIZE	055395-
Urethane Seam Sealer	10.3 oz	99450
CASE		6

Application Gun for 99450

Designed for use with Carborundum Urethane Seam Sealer (#99450). This is a fully enclosed metal unit, which provides fast and efficient application of seam sealer material. Low ratio mechanism allows for easy pumping and precise application of sealant.

DESCRIPTION	076607-
Application Gun for 99450	82786
CASE	1

Automotive Panel Waterborne Cleaner/Degreaser

A non-hazardous, solvent free cleaner and degreaser for cleaning automotive surfaces prior to applying primer, sealer, basecoat, clearcoat or other coatings. Intended for use as a final wash for metal, plastics, and coatings. It cleans sanding dust and grime from these substrates. Works well removing road grime, salt dust, insects, bird droppings, silicone oils, waxes and masking tape residue. When used as directed, it leaves no harmful residue and assists in proper coating adhesion.

DESCRIPTION	SIZE	055395-
Waterborne Cleaner/ Degreaser	32 oz	99458
CASE		6

Panel and Adhesive Cleaner

Removes adhesives, tar, grease, wax, body sealers, undercoating sprays, and silicone from most surfaces. Aggressive cleaner is safe to use on most paint applications. Packaged with squirt dispenser. Use as directed.

DESCRIPTION	SIZE	055395-
Panel and Adhesive Cleaner	32 oz	99459
CASE		12

Rocker-Panel Texture Coat

A rapid drying, flexible, abrasion resistant protective coating that can be varied to match OEM textures found on rocker panels and valances. Paintable in 60 minutes. Highly chip resistant.

DESCRIPTION	SIZE	055395-
Rocker-Panel Texture Coat (White)	16 oz / Net 13 oz	99453
Rocker-Panel Texture Coat (Black)	16 oz / Net 13 oz	99454
CASE		6

Premium Rubberized Undercoat – Paintable

Paintable and fast-drying rubberized undercoat for rust-prevention, sound deadening and chip resistance to fenders, undercarriages, quarter panels, wheel wells, decks and hoods. Excellent adhesion to painted and unpainted surfaces. Resists rust and abrasion as it seals out dust and moisture.

DESCRIPTION	SIZE	055395-
Premium Rubberized Undercoat – Paintable	24 oz / Net 17.75 oz	99455
CASE		6

Rubberized Undercoat

Seals out rust, fumes, heat and cold while protecting underbody areas. Excellent adhesion that won't crack or chip under normal conditions. Engineered to protect underbody areas from moisture and abrasion while deadening sound. Fast drying and economical.

DESCRIPTION	SIZE	055395-
Rubberized Undercoat	20 oz / Net 16 oz	99456
CASE		6

Carbon Black Guide Coat

Provides the technician with a visual aid to ensure primed surfaces are totally smooth and even. A quick and efficient method to find uneven and low spots on body filler, primer, glazing putties and other repair components.

DESCRIPTION	SIZE	055395-
Carbon Black Guide Coat	16 oz / Net 10.5 oz	99457
CASE		6

Adhesives and Sealers Cabinet

Heavy-gauge steel will hold all of the Carborundum adhesives and sealers, keeping them clean, dry, and secure.

DESCRIPTION	SIZE	055395-
Adhesives and Sealers Cabinet	30" x 10" x 26"	99365
CASE		1

Premium Automotive Attachment Tape

High-density gray foam tape coated with high strength acrylic adhesive on both sides and a red polyethylene release liner is designed for bonding medium to large moldings and accessories. High strength acrylic adhesive provides superior adhesion to plastics, metal, glass and painted vehicle surfaces.

- Used for attaching body side moldings, cladding, door edges, emblems, interior trim, rocker panel moldings, and pillar covers
- Instant pressure-sensitive bonding
- Remains flexible at low temperatures

Size	1/4"	1/2"	7/8"

Carborundum Autobody Utility Cabinet

Rugged, heavy gauge steel with two adjustable shelves and a security latch for locking doors. Store abrasives, tapes and chemicals, while keeping them clean, dry and secure. Weight: 55 pounds.

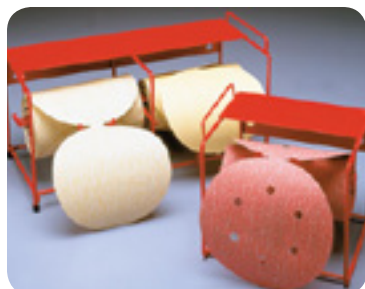

DESCRIPTION	SIZE	055395-
Automotive Utility Cabinet	31-1/2" w x 26" h x 12-1/2" deep	33867
CASE		1

Carbo Cart

The Carbo Cart is made of heavy gauge steel painted "Carbo" red. The front panel is a "hook" design to attach all "hook and loop" products. Pre-drilled holes in the back panel allow attachment of all Carbo dispenser systems.

DESCRIPTION	SIZE	055395-
Carbo Cart	31" h x 22" l x 14-1/4" deep	20486
CASE		1

Automotive Disc Roll and Sheet Roll Dispensers

These bright red dispensers feature heavy duty construction and a rubberized finish, designed to protect your product as well as the finish of your workpiece. They are versatile, for use with any 5" or 6" disc roll or 2-3/4" sheet roll. They can be attached to a wall, mounted on a Carborundum Utility Cabinet or Cart or stacked upon other Carborundum dispensers.

DESCRIPTION	055395-
Single Disc Roll Dispenser	20361
Double Disc Roll Dispenser	20299
Sheet Roll Dispenser	20523
CASE	1

Ergonomic Sanding Blocks

Stick-On – Soft

Constructed of flexible, yet tough, foam and shaped to fit comfortably in your hand. The design is good for both flat surfaces as well as contours. The embossed rubber face allows for good adhesion of PSA sheet rolls.

Stick-On – Firm

Constructed of durable material and shaped to fit comfortably in your hand. The firm design produces a true, flat surface. The embossed rubber face allows for good adhesion of PSA sheet rolls.

Grip-On – Soft

Constructed of flexible, yet tough, foam and shaped to fit comfortably in your hand. The design is good for both flat surfaces as well as contours. Works with standard hook and loop sheets.

Grip-On – Firm

Constructed of durable material and shaped to fit comfortably in your hand. The firm design produces a true, flat surface. Works with standard hook and loop sheets.

Ergonomic Hand Sanding Block for 6" Discs

The unique design quickly converts a 6" diameter PSA or hook and loop disc into a hand sander. The ergonomic design of the pad fits the user's fingers for added comfort and reduced fatigue.

DESCRIPTION	055395-	055395-
For 6" Stick-On Discs	63898	—
For 6" Grip-On Discs	—	63897
CASE	5	5

Dual Density Wet Sanding Sof-Block

Because of the "grabbing" power of these blocks, no adhesive is required, simply wrap the paper around the block. The dense side is for more aggressive blocking, while the soft side is for color sanding. These blocks come in a "point of purchase" display pack.

DESCRIPTION	055395-
Sof-Block	63899
CASE	12

EZ Block

A rugged, semi-rigid, multi-purpose sanding block engineered for flat to medium curved surfaces. A tactical hole pattern side provides numerous cutting edges to create a 30% faster cut rate. The plain side provides firmness and a comfortable, easy-to-hold surface. These blocks come in a "point of purchase" display pack.

DESCRIPTION	055395-
EZ Block	63900
CASE	8

Stick-On Sanding Board

The Stick-On Sanding Board has a cushioned surface. . There are slots at each end to securely hold 2-3/4" x 17-1/2" abrasive sheets or may be used with 2-3/4" x 16-1/2" PSA sheets.

DESCRIPTION	055395-
Stick-On Body File Sanding Board	12013
CASE	1

Grip-On Sanding Board

The Grip-On Sanding Board has a lightweight, rugged design. This sanding board is designed to be used with 2-3/4" x 16-1/2" hook and loop sheets.

DESCRIPTION	055395-
Grip-On Body File Sanding Board	12014
CASE	1

Grip-On Air File Shoe

The Grip-On Air File Shoe eliminates the need for clips. The quick-change backing positively locks and unlocks every time, for fast, easy-to-manage use of hook and loop file sheets.

DESCRIPTION	055395-
Grip-On Air File Shoe	12015
CASE	1

BACK-UP PADS

A consistent surface for increased productivity when sanding.

Carbo Back-Up Pads

Two back-up pad profiles and two densities give you all the options you need for any sanding job.

Durable polyurethane foam on a fiberglass backing plate provides a consistent surface for a consistent finish. All pads are individually spin-balanced for better control and performance on all tools.

Each pad is protected by a sturdy, clam shell package ready for pegboard display. A cap protects the threaded spindle and two washers are included for proper fit and spacing on any D/A tool.

Define the Job, Then Pick the Pad

Low Profile, Soft Density

For Medium To Fine Grit Sanding
(Soft, thicker foam for contours)

Grits – 320 and Finer

12,000 rpm

Low Profile, Medium Density

For Coarse to Medium Grit Sanding
(Hard edge)

Grits – 320 and Coarser

15,000 rpm

Tapered Edge, Medium Density

For Coarse to Medium Grit Sanding
(Flexible edge, easy to reach small contours)

Grits – 320 and Coarser

15,000 rpm

LOW PROFILE – SOFT / 320 AND FINER

LOW PROFILE – MEDIUM / 320 AND COARSER

TAPERED / 320 AND COARSER

**TAKE CARBORUNDUM FOR A TEST DRIVE.
NOW IS A GREAT TIME TO LOOK AT WAYS
TO SAVE TIME AND MONEY.**

BETTER PERFORMANCE + BETTER PRICE = BETTER VALUE!

Carborundum is 100% committed to bringing the **best performing products** to body shops at a **fair price**.

You can test drive Carborundum products in your shop when it's convenient for you. Simply let your Carborundum salesperson know when you'd like to test Carborundum in your shop. Our test drive program allows the technicians do their regular work, without interruption, using Carborundum products at no cost in "real world" conditions. You're the final judge of performance. At the end of the day, the Carborundum salesperson will review the results, provide you with potential cost savings and convert the shop to Carborundum products if you like what you see.

There has never been a better time to look at ways to **increase productivity** and to **reduce costs** at absolutely no risk to you. There has never been a better time to **take Carborundum for a Test Drive!** If you'd like to take a test drive please email carbo.automotive@saint-gobain.com

legendary **performance** legendary **innovation**

Cut Problems Down to Size

Carbo Fire TR Discs

Carbo Fire Flex-Loc TR discs are ideal for fast stock removal in a small area. Their self-sharpening design is ideal for high pressure, heavy metal removal applications. The engineered, laminated backing is extremely durable for the most rugged applications.

Less Dust Means More Productivity!

Carbo CleanAir System

Eliminating dust and increasing the surface cutting area improves productivity by 35% versus traditional vacuum sanding and by 60% versus non-vacuum sanding. The superior dust extraction of the Carbo CleanAir system keeps the abrasive grain exposed to cut through paint and primer by continually removing the dirt that can clog paper and leave wild scratches. The end result is that Carbo CleanAir discs cut faster and last longer so productivity gets a boost and dust takes a hike.

Repairs... Good as New!

EZ Repair Adhesives

Repair any substrate "good as new" with acrylic, urethane or epoxy adhesives. Whether it's metal-to-metal, plastic repair or a composite material, EZ Repair has just the right product you need without excess inventory. State-of-the-art technology with for any repair.

Carborundum Has You Covered!

Complete Masking System

Properly masking a car while protecting the interior is a great way to ensure a quality job is delivered to a satisfied customer. Carborundum has a full line of masking products from seat covers and floor mats to weather barrier, paintable plastic sheeting, corona-treated masking paper and rubber-based adhesive masking tape. The complete line of masking products from Carborundum has you covered.
