## Precision Ball Level

Easier to read than a bubble™

### High Visibility Scale

- Easier to read than a bubble™
- Measures angles in degrees or pitches

### Precision Aviation Ball Design

- Allows 1 tool to level, measure angles, pitches, and plumb
- Rotates 360 degrees

### Shock resistant end caps

- Built to withstand the jobsite

### Aircraft Aluminum Chassis

- Light weight rigid frame construction

### Cross Hair Precision

- Fine tune for maximum precision
- Levels in 2 directions at same time

To use cross hair feature, lay level on side so cross hair faces up.

24" & 48" available lengths

## Magnetic Stud Finder

Positively locates nails and screws with powerful rare earth magnets

Positively locates studs

Powerful magnets allow hands free use

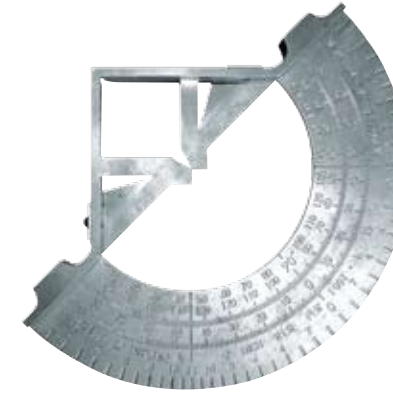

2 way level for ease of marking

- Powerful rare earth magnets locate metal and wood studs
- Rotating level for horizontal and vertical leveling
- No batteries required
- Three anchor points on each side for easy leveling
- Ideal for remodeling, new construction, and DIY projects
- Small and compact, easily fits in pocket

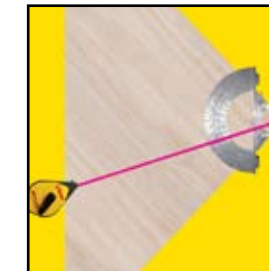

## Angle Snap™

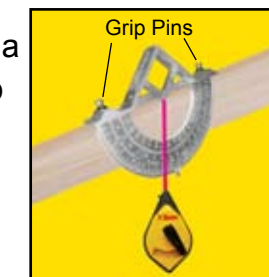

Construction layout and angle measurement tool

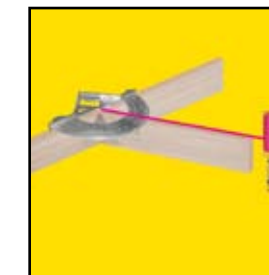

- Use with chalk reel to accurately measure and layout sheet goods like plywood and drywall
- Two working sides - For straight edges and corners

- Easy 1 person marking - two adjustable grip pins anchor tool on desired mark
- Measure angles - use as a protractor with plumb bob for finding angles and roof pitches

- Layout with masonry line for angles on all types of projects

## SlideSquare®

The next generation square

- The next generation square that easily and accurately solves all your layout needs in one tool
- Marks accurate anchor bolt hole locations onto 2"x 4" and 2"x 6" sill plates
- Marks right angles with positive stop at 90°
- Mark common, hip, and valley roof cuts and angles
- Fits in your pocket

# AUTOMATIC PLIERS AND CLAMPS

## Automatic Locking Pliers

- Automatically locks on any size without adjusting
- 7x faster and 100% easier than traditional locking pliers
- Grab thick, grab thin
- Easy squeeze release lever
- No slip texture grip
- Limited lifetime warranty
- Chrome molybdenum steel construction

## STAMP SELECTION GUIDE

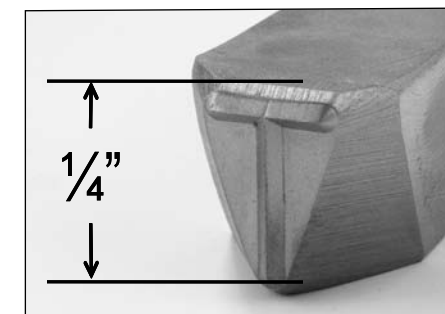

### How to select the correct stamp

Ask – "What will you be stamping?" & "How frequently will you use the stamp?"

|                |                  | Material Being Marked |         |          |       |             |                 |                 |                          |                                  |
|----------------|------------------|-----------------------|---------|----------|-------|-------------|-----------------|-----------------|--------------------------|----------------------------------|
| Grade of Stamp | Frequency of Use | Wood                  | Leather | Aluminum | Brass | Sheet Metal | Cold Roll Steel | Stainless Steel | Water/Oil Hardened Steel | Heat Treated Material up to 50Rc |
| Standard       | Occasional       |                       |         |          |       |             |                 |                 |                          |                                  |
| Heavy Duty     | Moderate         |                       |         |          |       |             |                 |                 |                          |                                  |
| Premier        | Every Day        |                       |         |          |       |             |                 |                 |                          |                                  |
| Rhino          | High Volume      |                       |         |          |       |             |                 |                 |                          |                                  |

Not recommended Good Better Best

The size of the stamp describes the actual dimension of the mark that will be made by the stamp.

STEEL HAND STAMPS - MADE IN THE U.S.A.

Standard

Recommended for medium to light duty marking  
Marked with a slash on the thumb side

Heavy Duty

Tempered shanks for extra durability and safety  
Marked with character designation and size on thumb side  
Bigger, longer shanks than Standard

Premier

Large shanks are tempered designed to hold up  
under continuous hard hammering  
Marked with character designation and size on thumb side

Rhino

Hanson's Best Industrial Quality Stamp Line Ever  
Stands up to the toughest materials, even up to 50 Rockwell C!  
Largest shank size ever for the very best impressions!  
Special high quality alloy steel

Steel Stamps—Single Pieces Standard, Heavy Duty & Premier

- Individual Stamps
- Choice of Standard, Heavy Duty and Premier
- To order single pieces, use the letter set part number of the size and grade, followed by the character you wish to order
- For example:  
1/8" Standard Grade Letter "H" is Item Number 20200H  
1/4" Heavy Duty Grade Number "5" is Item Number 210515  
3/32" Premier Grade Letter "B" is Item Number 22100B

All Steel Stamp Sets with 1" character height allow at least 2 weeks leadtime

CUSTOM  
TAGS & STAMPS

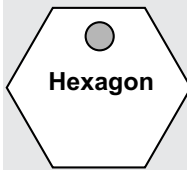

Custom Tags - Metal

- Popular shapes and sizes of identification checks, plates and tags in brass, aluminum, and stainless steel.
- Prices given are for more popular tags in 18 gauge (0.40") in brass and aluminum and 20 gauge (.037") in stainless steel with hole or holes as indicated, stamped sunk, let-tered and/or numbered consecutively, characters filled with black enamel. There may be an additional charge for variations.
- "Lettering" means lettered all alike in a straight line. "Numbering" means numbered consecutively or in sets. There may be an additional charge for variations.
- Quantities less than 100 will be quoted on request. For large quantities ask us for our larger quantity price. The list is intended as an easy guide for self-pricing. If it doesn't answer your needs, please ask us.

When order, please state 1. Quantity desired, 2. Tag number and material (14B), 3. Lettering and/or numbering desired  
Please allow 3 weeks lead time.

Hexagon Tags

- All Brass and Aluminum Tags are made from 18 Gauge Material
- All Stainless Steel Tags are made from 20 Gauge Material
- All tags are priced per hundred
