Checkers Industrial Safety Products is your best source for superior quality safety products, knowledgeable professionals, and exceptional customer service. Checkers has been manufacturing and providing superior quality safety products since 1987. Our service professionals are trained to understand the safety issues in many industries so we can quickly help you find the right safety products to meet your needs and bring your business into compliance.

CABLE MANAGEMENT SYSTEMS

Checkers offers one of the world's most extensive lines of cable management systems. These systems are the fast and easy way to protect valuable electrical cables, wires and hose lines from damage and abuse while providing a method of safe crossing for vehicle and pedestrian traffic. Constructed from either rubber or polyurethane, these durable protectors are ideal for use in public, commercial and industrial applications where cable protection is needed. Many of our systems also have ADA compliant accessories available.

WHEEL CHOCKS

Checkers manufactures a large selection of wheel chocks for use in residential, commercial, industrial, and aviation applications. These durable wheel chocks provide a safe and easy way to secure vehicles, trucks, and trailers in a wide variety of industries. Checkers wheel chocks are made from either rubber or urethane and are available in heavy duty or lightweight models for most working applications.

WARNING WHIPS

Checkers offers a complete line of high visibility warning whips that easily attach to off-road vehicles to warn others of a vehicle's presence. Warning whips are also used to provide quick and easy identification of other vehicles or equipment working in your area. Each warning whip includes a flexible whip with a orange flag and mounting base for vehicle attachment. Various lighting and mounting options are available as accessories for some models.

GOGGLE RETAINERS

Checkers manufactures durable goggle retainers to assure workers always have eye protection available when they need it. These retainers will keep the goggles on the safety cap or hat when the goggles are not in use, and they will hold the goggles securely when they are worn for eye protection.

PARKING STOPS AND SPEED BUMPS

Checkers offers a premium quality line of parking stops and speed bumps. These products are made from 100% recycled materials and are ideal for commercial or residential environments. These durable products will not chip or crack, and they are resistant to gas, oil, salt, sunlight and chemicals. They are molded in solid colors and never need painting. They are light enough to ship via UPS and to be installed by one person.

WHEEL CHOCK USER GUIDELINES

WARNING!

Individual end user testing required to ensure proper chock selection and application.

- Select wheel chocks appropriate to type and size of vehicle.
- Chocks shall be used only after vehicle is completely stopped and parking brakes fully applied and tested.
- Position wheel chocks snugly and squarely against the center of the tire tread area of each wheel.
- Always use wheel chocks in pairs and on firm surfaces.
- More than one pair may be required.
- Chock wheels on both sides of vehicle in direction of grade.
- Test chocks to ensure they meet requirements.
- Chocks are effective holding devices when properly sized and positioned.
- Always remove wheel chocks before attempting to move vehicle.
- Do not drive over wheel chocks.
- Improper use can result in product failure.
- Although these are generally acceptable chocking procedures, it is the decision of each individual
 user to determine the best chock and chocking method for the particular application.

OSHA SPECIFIES:

1910.178(k)...

(1) The brakes of highway trucks shall be set and wheel chocks placed under the rear wheels to prevent the trucks from rolling while they are boarded with powered industrial trucks.

1910.178(m)...

(7) Brakes shall be set and wheel blocks shall be in place to prevent movement of trucks, trailer, or railroad cars while loading or unloading. Fixed jacks may be necessary to support a semitrailer during loading or unloading when the trailer is not coupled to a tractor.

1910.111(f)...

(9) Chock blocks. At least two chock blocks shall be provided. These blocks shall be placed to prevent rolling of the vehicle whenever it is parked during loading and unloading operations.

- Impact-absorbing urethane
- Weather and abrasion resistant
- · High load-bearing capacity
- · Maintenance free never need painting
- · Resistant to aircraft fuels and lubricants
- Will not rot, crack or splinter
- Lightweight and easy to use
- Rope-lock system
- Optional rope carrying handle
- Molded-in high-vis yellow color

TIGERCHOCKS™ Military Aviation Wheel Chocks are an updated version of the traditional wooden chocks. These urethane chocks weigh less than wood chocks and are resistant to aircraft fuels, hydraulic fluids, and lubricants. TIGERCHOCKS™ last years longer than wood chocks, never need painting, and are not potential foreign object damage (FOD) problems for aircraft. Standard with 5/8 in. x 36 in. (914 mm) or 48 in. (1219 mm) replaceable nylon rope lanyard. Sold as singles.

TIGERCHOCKSTM Rope Lock System. The original military style chock-to-chock rope lock system allows a wheel chock to be temporarily and securely attached to the opposing wheel chock on the opposite side of the aircraft tire. This chock-locking system ensures that wheel chocks remain firmly positioned against each side of the aircraft tire during engine test procedures.

TIGERCHOCKS[™] Series Aviation Wheel Chocks are designed for business, commercial, cargo, and military aircraft. These chocks are made from impact-absorbing urethane and are resistant to oils, chemicals, fuels, and hydraulic fluids used in the aviation industry. For additional safety and convenience, TIGERCHOCKS[™] feature replaceable nylon rope lanyards and a molded-in high visibility color for easy identification. Lightweight wheel chocks are easy to use and ideal for carrying on aircraft.

22 in.

(559 mm)

Urethane Construction

22 in.

(559 mm)

Resistant to Oils, Fuels and Solvents

(34.9 kg)

- Replaceable Rubber Anti-Slip Traction Pads
- Molded-In "How to Use" Guidelines in both English and Spanish
- Safety Yellow Color
- Four Side Handles and Carrying Strap on the Back

HEAVY DUTY AII-TERRAIN URETHANE

WHEEL CHOCKS

ROADBLOCKS™ All-Terrain Urethane Wheel Chocks are specifically designed for use on fire equipment. They comply with NFPA 1901, NFPA 1906, and meet SAE-J348 standard for up to 32 inch and up to 44 inch wheel diameters. These tough, damage resistant, polyurethane chocks are resistant to oils, fuels, and solvents. They also feature high strength, replaceable aluminum base plates with posi-grip traction cleats or anti-slip rubber traction pads. For added safety and convenience, Checkers incorporates a molded carrying handle and high visibility color for easy identification.

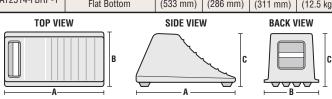

- NFPA 1901 STANDARD REQUIRES TWO OR MORE WHEEL CHOCKS TO BE MOUNTED ON FIRE APPARATUSES IN READILY ACCESSIBLE LOCATIONS BEFORE BEING PLACED INTO SERVICE.
- SAE-J348 STANDARD PRESENTS DESIGN, MANUFACTURER, AND TESTING CRITERIA FOR WHEEL CHOCKS.
- NFPA 1906 STANDARD REQUIRES TWO SOLID BOTTOM WHEEL CHOCKS TO BE MOUNTED ON WILDLAND FIRE APPARATUSES IN READILY ACCESSIBLE LOCATIONS BEFORE BEING PLACED INTO SERVICE.

2512 SERIES - Wheel Chocks comply with NFPA 1901, NFPA 1906, and meet SAE-J348 Standard for up to 32 in. (810 mm) wheel diameter.

*Horizontal bracket should be mounted in an apparatus compartment and not under the vehicle.								

WARNING!

Please refer to Wheel Chock User Guidelines on Page 5.

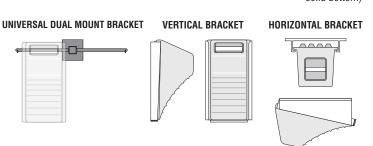

ALL-TERRAIN SERIES

- Complies with SAE-J348, NFPA 1901, and NFPA 1906 Standard
- Third Party Tested for Compliance
- Tough Polyurethane Construction
- · Resistant to Oils, Fuels and Solvents
- Replaceable Aluminum Traction Cleats or Rubber Pads
- Recessed Carrying Handle
- · Safety Color Visibility

CABLE MANAGEMENT SYSTEMS

GUARD DOG® and LINEBACKER® Cable & Hose Management Systems protect valuable electrical cables and hose lines, up to 3.25 inch (82.6 mm) in diameter, from damage and abuse. At the same time, they also ensure a method of safe passage for vehicles and pedestrian traffic in public, commercial and extra heavy duty industrial applications.

FEATURES	BENEFITS				
Polyurethane Construction	Weather, tear, and abrasion resistant; High load- bearing capacity; Oil and solvent resistant; UV stabilized				
Non-Conductive Material	Insulates electrical cables from human contact; Satisfies state and federal regulatory agencies				
• 36" Length Per Lineal Protector	Makes length-of-run calculations easy to figure				
Multiple Channel Choices	Accommodates various cable/hose line diameters; Each cable/hose line is separated and organized in its own protective channel				
• 5-Bar Tread Plate Surface	Provides maximum traction; Reduces slipping				
• Hinged Lid	Easy insertion and removal of cable/hose lines				
• Fiberglass Hinge Pin	Will not break, deform, pull out, or corrode				
• Safety Warning Symbols	Permanently molded into protector; Warn pedestrians of trip and/or electrical hazards				
• Universal Safety Colors	High visibility				
• Reinforced Lid Hinge Cylinders	Keeps lid from tearing at critical attachment points				
• Modular Interlocking Design	Easy to setup, disassemble, Warn of electrical hazard and store				
• Recessed Carrying Handle	Easy to transport				
Heavy Duty Connectors	Engineered to prevent breakage and accidental disassembly				

Check height specifications of cable protectors to make sure you have adequate clearance for your vehicles.

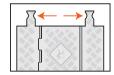

NEC REQUIREMENTS

Protects valuable electrical cables and permits compliance with 2008 National Electrical Code requirements (Article 525) for minimizing the tripping hazard of electrical cables and cords at carnivals, fairs, amusement parks and similar events.

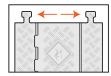

ADA COMPLIANT ACCESSORIES

Meets Americans with Disabilities Act guidelines for ADA accessibility.

THE DIFFERENCE IS IN THE CONNECTORS

Guard Dog® Connectors All Guard Dog® products feature Dog-Bone Shaped connectors

Easing the Way for Olympic Festivities...

One of the biggest challenges for event planners at the Salt Lake City 2002 Winter Games was how to meet important ADA

(Americans with Disabilities Act) guidelines for helping people safely cross over electrical, data and broadcast cables at the Olympic Medals Plaza. Checkers' LINEBACKER® Cable Management Systems proved to be the ideal solution.

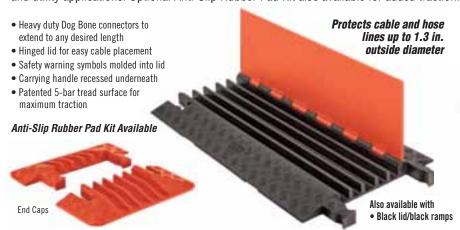

SYSTEMS

Guard Dog is the global leader in quality, design, and value!

GUARD DOG® Heavy Duty 5 Channel Cable Protectors are the fast and easy way to protect valuable electrical cables and hose lines from damage and abuse while providing a method of safe crossing for constant vehicle and pedestrian traffic. Each cable/hose line is separated and organized in its own protective channel to ensure safety. Ideal for use in amusement parks, entertainment venues, sporting events, and in most public, commercial, industrial, construction, and utility applications. Optional Anti-Slip Rubber Pad Kit also available for added traction.

FEATURES

- · All weather polyurethane construction
- Non-metallic protectors insulate cables/hose lines from human contact
- Satisfies state/federal regulatory agencies
- Multiple channels and sizes
- . Hinged lid for easy cable placement
- · Join left and right turn to create a jog
- Modular interlocking design is lightweight and easy to transport, setup, disassemble, and store
- Increase traction with optional anti-slip rubber pads for smooth surfaces

CHANNEL CABLE PROTECTORS

The widest variety of low profile, top-loading cable protectors in the industry!

Heavy duty GUARD DOG® Low Profile Cable Protectors are the most compact, top-loading cable protectors on the market. They provide a safe and easy crossing for vehicle and pedestrian traffic and are perfect for valuable electrical and delicate multi-media electronic cables. These low profile protectors with Dog-Bone connectors are available with standard ramps or with low angle ADA Compliant ramps. Multi-channel models allow cable/hose lines to be separated in their own protective channels while the low angle ramps allow effortless crossing. Ideal for stage, studio, and broadcast applications.

- Available with or without ADA Compliant ramps
- 1, 2, 3, or 5 channel options
- Low profile design reduces trip hazards
- Hinged lid for easy cable placement
- Increase traction with optional VELCRO® Brand Fasteners for carpet and/or anti-slip rubber pads for smooth surfaces (for Standard Ramp models only)
- Polyurethane construction
- . High load-bearing capacity
- Modular interlocking design is easy to setup, disassemble and store

SPECIFICATIONS FOR GUARD DOG HEAVY DUTY LOW PROFILE 1, 2, 3, AND 5 CHANNEL CABLE PROTECTORS

ADDITIONAL FEATURES

- · Heavy duty "Dog-Bone" connectors to extend to any desired length
- · Safety warning symbols molded into lid
- · Universal and distinctive safety colors for high visibility
- Non-conductive no metal parts

CABLE PROTECTORS

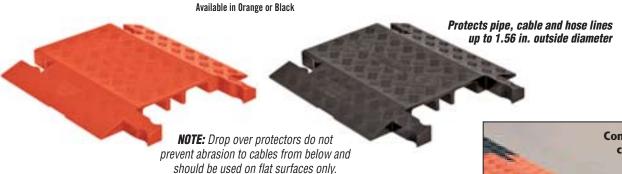

Guard Dog is the global leader in quality, design, and value!

Protect pipes, conduit, cable and hose lines that are permanently installed or mounted to the ground or floor by positioning the GUARD DOG® 3 Channel Drop Over over the area to be protected. Drop Overs protect from above but do not prevent abrasion from below and should be used on a flat surface only. Ideal for providing a safe crossing for vehicles and pedestrian traffic in public, commercial and industrial applications. This 3-Channel Drop Over System features two extra wide channels to accommodate various quantities and sizes of lines. These lightweight, 18" length Drop Overs are easy to store in service/utility trucks and use when needed.

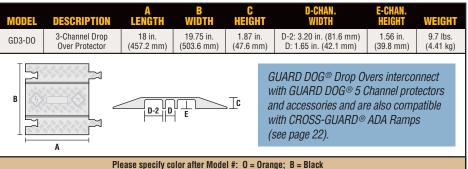

Nothing protects your cables like a Guard Dog!

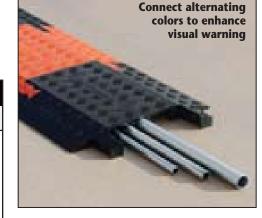

FEATURES

- · All weather polyurethane construction
- Features heavy duty Dog-Bone connectors to extend to any desired length
- · Safety warning symbols molded into protector
- Patented 5-bar tread surface
- . High load-bearing capacity
- Connect alternating colors to enhance visual warning
- Satisfies state and federal regulatory agencies
- Modular interlocking design is easy to setup, disassemble, and store

GUARD DOG® 3 CHANNEL DROP OVER WITH DOG BONE CONNECTORS

Protects hose lines up to 1.56 in, outside diameter

Protects pipes up to 1.56 in, outside diameter

Protects cables up to 1.56 in, outside diameter

FOR CABLE PROTECTORS

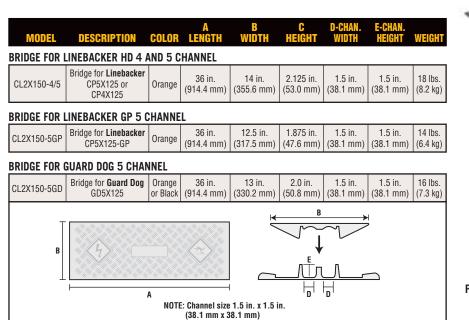

Bridges for specific GUARD DOG® and LINEBACKER® models

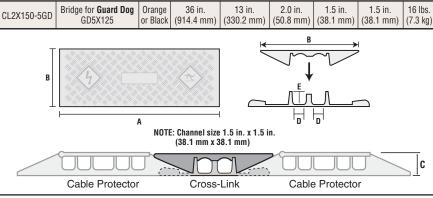

(ACCESSORY)

U.S. PATENT No: 6,747,212

CROSS-LINK® Protector Bridges are designed to utilize the space between multiple parallel cable protector runs. These bridges provide additional cable channels while providing a continuous, level crossing surface for vehicle and pedestrian traffic.

The first expandable cable protector system to accommodate an unlimited number of channels!

U.S. PATENT No: 6,481,036

- Compatible with select Guard Dog® and Linebacker® Protectors
- Fits existing cable protectors (no need to purchase a custom ADA system)
- Lightweight, 36" wide, modular ADA Compliant ramps
- Quick attachment to one or multiple protectors
- Still allows accessibility to cables and cords
- Side rails provide ADA Compliant edge protection
- Add ramps and rails whenever requirements specify
- One person installation no tools required

NOTE: Cross-Guard purchases include ramps and rails only - cable protectors must be purchased separately.

See Page 23 for additional photos of CROSS-GUARD® and illustration of the CROSS-GUARD® components.

Carnival Midway Safety...

LINEBACKER® Cable Protectors and ADA compliant ramps have "Greatly improved the safety and accessibility of our carnival midway" and "are one of the greatest improvements to hit our midway in years."

- Gehrie Aten, President Bill Hames Shows, Inc.

WARNING!

Cross-Guard® ramps and rails are compatible only with Guard Dog® and Linebacker® cable protectors as specified. Improper use with other cable protector brands may result in product failure or injury.

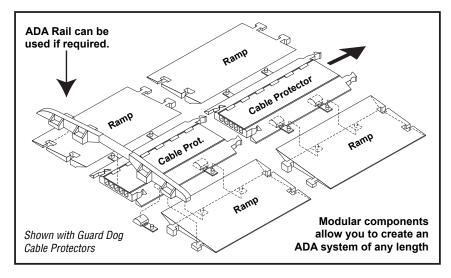

ADA Compliant Symbols molded into each CROSS-GUARD® Ramp

RAMPS AND RAILS

LINEBACKER® Cable Protectors and CROSS-GUARD® ADA compliant ramps helped people safely cross over electrical, data and broadcast cables at the Olympic Medals Plaza at the Salt Lake City 2002 Winter Games.

CABLE PROTECTOR TRANSPORT/STORAGE

CARTS

RAMP-RUNNER™ Four Wheel Carts allow one person to easily transport or store multiple GUARD DOG® Cable Protectors or LINEBACKER® Cable Protectors at one time. RAMP-RUNNER™ carts are constructed of rugged, tubular steel with a durable powder-coat paint finish and are very easy to maneuver.

- Easy and convenient way to transport or store multiple cable protectors
- Rugged, tubular steel frame construction
- Durable powder-coat paint finish

4 WHEEL STANDARD CART WITH FRONT WHEEL LOCKS

MODEL	DESCRIPTION	A LENGTH	B Width	C HEIGHT	WEIGHT
CT4W-ST	Four Wheel Standard Cart with Front Wheel Locks for transporting or storing: CP5X125 (7 per cart) CP4X125 (7 per cart) CP3X225 (6 per cart) CP5X125-GP (10 per cart) GD5X125 (10 per cart)	32 in. (812.8 mm)	19 in. (482.6 mm)	42 in. (1066.8 mm)	39 lbs. (17.7 kg)

- Two each 8" solid rubber rear wheels
- Two each 3" molded-on rubber, swivelling front casters with wheel locks
- Transport or store up to 10 cable protectors

Carts speed up installations and provide safe, organized storage!

Carts are designed to prevent cable protectors from shifting during transport.

PROTECTORS

For lightweight vehicles, carts and pedestrian traffic at home, offices, warehouses, theaters, convention centers, shopping malls, and other public, commercial and industrial applications.

POWERBACK® Rubber Duct Systems protect and hide valuable cords and cables located in walkways or work areas. These non-metallic, flexible rubber protectors are extremely durable, easy to install, and organize portable cords and cables while reducing trip hazards. Fits multiple cable sizes. Available in 5' or 10' lengths and can be slit on the bottom for easy cord insertion. All POWERBACK® protectors feature grooved underside for better traction. Optional Carpet Kit with VELCRO® Brand Fasteners also available for added traction.

FEATURES

- Reduces tripping hazards
- Protects and organizes portable cords and cables
- Non-metallic flexible rubber construction
- Multiple sizes for various cable diameters
- Grooved underside for better traction
- Optional Carpet Kit available for added traction
- Optional Connector Kit available for most sizes
- 9 sizes available

NOTE:

- All Powerback® Protectors feature ribbed underside to prevent slipping.
- All Powerback® Protectors are shipped unslit on the bottom except models RFD7, RFD8, and RFD9.

RFD1

Single channel protector for a phone line or small 14 through 22 gauge wire. Can be split if necessary. (supplied unslit)

See optional Carpet Traction Kit below.

RFD2

Two channel protector for multiple communication lines or 14 through 22 gauge wires. Can be split if necessary. (supplied unslit)

See optional Carpet Traction Kit below.

MODEL	DESCRIPTION	COLOR	WEIGHT PER LENGTH
RFD2-10	10 FT Length	Black	3.70 lbs. (1.7 kg)
	7/16"		

RFD3

Center channel sized to fit standard power cords and CAT5 cable. Protector must be slit for standard power cords due to size of plug connectors. (supplied unslit)

See optional Carpet Traction Kit below.

MODEL	DESCRIPTION	COLOR	WEIGHT PER LENGTH
RFD3-10	10 FT Length	Black	6.85 lbs. (3.2 kg)

RFD4

Large channel size can accommodate multiple cables and some power plug connectors. Can be split if necessary. (supplied unslit)

See optional Carpet Traction Kit below.

RFDCN-1/2	Optional Connector Kit (Includes two connectors)		

Optional Connector Kit Available

NOTE: All Rubber Duct Protectors are shipped unslit on the bottom except models RFD7, RFD8, and RFD9.

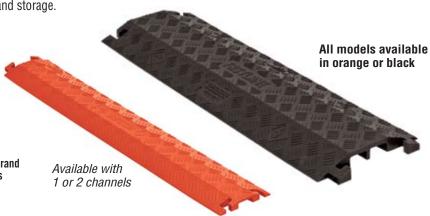

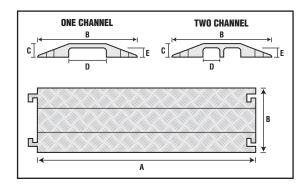

PROTECTORS

For lightweight vehicles and pedestrian traffic at home, offices, warehouses, and commercial and industrial environments.

FASTLANE® Drop Over Protectors are made from durable polyurethane and feature heavy duty, patented "L" shape connectors for easily attaching additional protectors to extend to any desired length. Patented 5-bar tread plate surface provides maximum traction for carts and pedestrian traffic. These low profile protectors fit multiple cable sizes and are compact for easy setup, disassembly, and storage.

- 1 or 2 channel options
- Drop over installation
- · For lightweight vehicles and pedestrian traffic
- Molded in safety warning symbols
- · Heavy duty patented "L" shaped connectors
- Modular design for easy setup, disassembly, & storage
- 5-bar tread plate surface provides maximum traction
- Increase traction with optional Carpet Kit with VELCRO® Brand Fasteners and/or anti-slip rubber pads for smooth surfaces
- Universal safety colors (UV stabilized)

SYSTEMS

SUPER-CROSS™ Extreme Crossover Pads provide protection for electrical cables used in mining and construction. Durable urethane construction withstands thousands of pounds of weight and endures constant pounding, impact and abrasion caused by haul trucks and falling rocks. Extensively tested and proven to be oil, chemical, abrasion, cut/tear and temperature resistant. Pads feature molded-in receptacles for tow chain attachment. Crossover sections can be fastened together for any length required. The use of crossover pads greatly improves safety and eliminates the cost and labor of burying, rerouting, or stringing cables overhead.

WARNING!

Crossover Pads are for rubber tired vehicles only and not for equipment with metal tracks.

NOTE: Please make your product selection carefully. Extreme Crossover Systems are non-returnable.

SUPER-CROSS TO UTILITY CABLE PROTECTORS

UTILITY CROSSOVER

SYSTEMS

SUPER-CROSS™ Utility Crossover Systems provide protection for valuable cables and hoses, while ensuring a method of safe passage for vehicle traffic. These lightweight and portable crossovers are manufactured from durable polyurethane and are ideal during maintenance operations or in emergency situations. Complete with carrying handle for easy positioning. Two tunnel sizes available.

FEATURES

- Polyurethane Construction
- Convenient Carrying Handles
- Replaceable Rubber Traction Pads
- Two Tunnel Sizes Available
- Lightweight & Portable

WARNING!

Crossover Pads are for rubber tired vehicles only and not for equipment with metal tracks.

SINGLE TUNNEL CABLE & HOSE BRIDGE

SYSTEMS

DIAMONDBACK® Single Tunnel Modular Cable and Hose Bridge Systems provide protection for valuable cable and hose lines while ensuring a method of safe passage for vehicles. They replace wooden and metal fabricated ramps. High density, all-weather urethane construction protects from damage by physical pressure and reduces cable and hose maintenance and replacement costs. DIAMONDBACK® Modular Bridge Systems can be used to protect lines up to 6 inches in diameter. The lightweight, modular design of interlocking 16 inch wide sections provides multi-length flexibility. DIAMONDBACK® Cable and Hose Bridge Systems are intended for temporary installations only.

PROTECT CABLES & HOSES UP TO 6 INCHES IN DIAMETER

FEATURES

- Polyurethane construction is abrasion, impact and weather resistant with high load bearing capacity
- Multiple tunnel sizes to accommodate fully charged hose lines and cables of various diameters
- Diamond-plate tread surface increases traction
- Yellow caution color for high visibility
- Modular interlocking design is lightweight, easy to transport, setup, disassemble, and store
- Built-in handholds allow for handling with ease and double as attachment points for mounting brackets

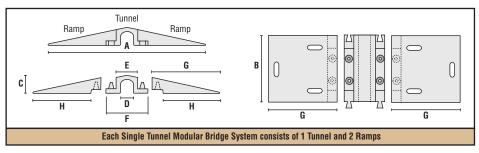

WARNING!

- ► Vehicles crossing bridge system must have clearance of greater than bridge height.
- Cable/Hose Bridges are for rubber tired vehicles only and not for equipment with metal tracks.

HEAVY DUTY STANDARD THREADED HEX BASE

WARNING WHIPS WITH LIGHTS

Warn others of your vehicle's presence by attaching a Heavy Duty FLAGSTAFF™ Warning Whip to your off-road vehicle. Warning whips, with either High-Vis flag or flag and light, provide quick and easy identification of other vehicles or equipment in your area. Bolt-on mounting for easy attachment. The FLAGSTAFF™ Heavy Duty Industrial Series 3, 5, 6, 8, 10 or 12 foot flexible white fiberglass whip includes heavy duty orange, green or yellow flag and standard threaded hex base for vehicle attachment. Optional lighted models feature lamp socket, internal electrical wiring and hot plug for power connection. Various lighting and mounting options available as accessories.

WARNING WHIPS WIT

Warn others of your vehicle's presence by attaching a Heavy Duty Quick Disconnect FLAGSTAFF™ Warning Whip to your off-road vehicle. Warning whips, with either High-Vis flag or flag and light, provide easy identification of other vehicles or equipment in your area. FLAGSTAFF™ Quick Disconnect Series 3, 5, 6, 8, 10 or 12 ft flexible white fiberglass whips include heavy duty orange, green or yellow flag, and a Male Quick Disconnect for quick vehicle attachment (Female Quick Disconnect Base Mount must be purchased separately). Optional lighted models feature lamp socket, internal electrical wiring and hot plug for power connection. Various lighting and mounting options available as accessories.

WITH AND WITHOUT

Warn others of your vehicle's presence by attaching a Heavy Duty Split Pole FLAGSTAFF™ Warning Whip to your off-road vehicle. These segmented whips have a Quick Disconnect connection in the center so they can quickly be broken down into manageable pieces for storage in a toolbox, trunk, or the back of the truck. With either High-Vis flag or flag and light, these warning whips provide easy identification of other vehicles or equipment in your area. FLAGSTAFF™ Split Pole Industrial Series 8, 10 or 12 ft flexible white fiberglass whips include heavy duty orange, green or yellow flag, and a Male Quick Disconnect for quick vehicle attachment (Female Quick Disconnect Base Mount must be purchased separately). Optional lighted models feature lamp socket and internal electrical wiring for power connection. Various lighting and mounting options available as accessories.

WARNING WHIPS

Warn others of your vehicle's presence by attaching a Heavy Duty Telescoping Pole FLAGSTAFF™ Warning Whip to the hitch mount on your off-road vehicle. These adjustable-length whips, with options that extend to 10, 13, 15, and 21 ft, are divided into sections that are connected by Cam-Locks. To adjust the whip length, simply flip the handle up on the Cam-Lock to loosen, extend the section(s) to desired length, and then flip down the handle on the Cam-Lock to tighten. This easy-to-use systems allows you to quickly remove a whip and break it down into a manageable size that can be easily stored in a vehicle.

With either High-Vis flag or flag and light, these warning whips provide easy identification of other vehicles, equipment, and important sites in your area. FLAGSTAFF Telescoping Pole Industrial Series feature a painted white fiber glass pole that protects against fiber blown and a heavy duty orange flag with a white Reflexite X. This system requires a Hitch Mount for vehicle attachment. Optional lighted models feature lamp socket, internal coiled electrical wiring for easy extension and collapse capabilities, and a heavy duty, easy-lock hot plug with 6" pigtail for power connection. Various lighting options available as accessories.

TELESCOPING POLE WHIPS WITH LIGHTS (All lighted models include heavy duty, easy lock hot plug with 6" pigtail.)

EXTRA HEAVY DUTY GORILLA-STRENGTH

FLAGSTAFF POWER WHIPS

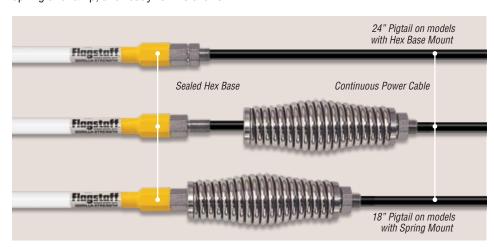

Flagstaff™ Gorilla-Strength Power Whips are the newest addition to our Flagstaff Warning Whips product line. These flexible white fiberglass whips are available in 3, 5, 6, 8, 10 or 12 foot lengths and include a heavy duty orange, green,or yellow flag and mounting base for vehicle attachment. Various interchangeable lighting and mounting options are available as accessories. The optional ultra heavy duty spring is engineered to provide firm vertical support to the whip at higher vehicle speeds than standard spring mounts.

To prevent deterioration, a weather-resistant, polyolefin heat-shrink tubing is used to seal the interchangeable lamp and socket to prevent moisture, chemicals, and debris from contacting electrical connectors. The hex base is also sealed to provide additional protection.

For improved durability, Flagstaff[™] Gorilla-Strength Power Whips feature a high quality, continuous power cable that extends from the lamp through the hex base and optional ultra heavy duty spring mount. This eliminates pinched wires, multiple solder joints, and hot plug power connections - all of which can cause failure due to corrosion. The custom designed power cable is molded into the whip and consists of 2 conductor, 20 AWG, 19 x 32 strand, triple-coated thermoplastic elastomer (TPE) insulation and features a cold temperature rating of -75° C/-103° F.

Flagstaff[™] Gorilla-Strength Power Whips have a weather-shield coating of a two-part polyurethane, enamel paint finish to help protect against fiberglass deterioration such as fiber bloom or exposed fiberglass slivers.

Flagstaff™ Gorilla-Strength Power Whips can be ordered completely assembled, with or without spring and lamp, and ready for installation.

Flagstaff™ Gorilla-Strength Power Whips feature a custom designed, continuous power cable that extends from the lamp through the hex base and optional ultra heavy duty spring mount, which eliminates pinched wires, multiple solder joints, and hot plug power connections that can cause failure due to corrosion. This cable is molded into the whip and features a cold temperature rating of -75° C/-103° F.

FEATURES

- Available in 3, 5, 6, 8, 10 or 12 foot lengths
- Completely sealed lamp, socket, and hex base prevent deterioration
- High quality, continuous power cable from lamp through hex base and optional ultra heavy duty spring mount
- Triple-coated thermoplastic elastomer (TPE) insulated power cable
- -75° C/-103° F temperature rating of power cable
- Weather-shield polyurethane enamel paint finish to help protect against fiberglass deterioration such as fiber bloom or exposed fiberglass slivers.
- Optional ultra heavy duty spring provides increased vertical support at higher speeds
- · Interchangeable light options
- Order completely assembled and ready for installation

Continuous power cable extends from the lamp through the entire whip and exits through the hex base or optional spring mount.

BUILD YOUR OWN WHIP!

These whips are part of our "Build Your Whip" program so you can order all components to fit your exact needs!

See page 41 to order!

INSTRUCTIONS

BUILD YOUR OWN GORILLA-STRENGTH WHIP!

To build your own Flagstaff Gorilla-Strength Whip, create a custom part number by selecting one code from each column below and transfer that code to the white lines below the arrows. When all of the white lines are filled, you will have completed the part number necessary to order your custom designed Flagstaff Gorilla-Strength Whip!

PART NUMBER REFERENCE GUIDE FOR FLAGSTAFF GORILLA-STRENGTH "BUILD YOUR OWN WHIP" PRODUCTS

Prefix

G=Gorilla Strength

• Column A is Whip Length

3', 5', 6', 8', 10', 12'

• Column B is Whip Color

WT=White

• Column C is Wiring

1=Lamp socket with 24" pigtail

• Column D is Mounting Base (See Page 43)

HB=Hex Base; UH=Ultra Heavy Duty Spring with Hex Base

• Column E is Flag Size (See Page 43)

S1=12" x 11"; S2=16" x 16"

• Column F is Flag Color (See Page 43)

GN=Green: OR=Orange: YL=Yellow

• Column G is Reflexite X (See Page 43)

N=No Reflexite (Standard color flag only); Y=Yellow Reflexite X; W=White Reflexite X

• Column H is Lighting Options (See Page 42)

13=GSRKT-6GNF 8=GSRKT-6AF 18=GSLED12-6-B 9=GSRKT-6ANF 14=GSRKT-3AF/3RF 19=GSLED12-6-G 10=GSRKT-6RF 15=GSLED12-6-C 20=GSRKT-6BF 11=GSRKT-6RNF 16=GSLED12-6-A 21=GSRKT-6BNF

12=GSRKT-6GF 17=GSLED12-6-R

For example, a G12WT1UHS2ORY12 would be a Gorilla-Strength 12 foot white whip with a 24" pigtail lamp socket, ultra heavy duty spring with hex base, 16" x 16" orange flag with a yellow reflexite X, and a green flashing Rocket LED light.

0

FOR GORILLA-STRENGTH

Flagstaff™ Gorilla-Strength Power Whips are available with a variety of interchangeable, weather-resistant lighting options, all of which include a polyolefin heat-shrink tubing around the base of the lamp to prevent moisture, chemicals, and debris from contacting the electrical connections.

Interchangeable lamps are easy to install!

Gorilla-Strength Power Whips feature interchangeable lights so there is no need to return your whips to the factory for lamp replacement. To replace a lamp, simply:

- 1. Slit the heat-shrink tubing
- 2. Remove the old lamp
- 3. Install the new lamp
- 4. Reseal with new heat-shrink tubing, which is included with all new lamps.

STOPS

Replace unsightly, old, concrete parking stops with 100% recycled plastic LotBlocks[™] Parking Stops. They will not chip or crack like concrete and resist attack from gas, oil, salt, sunlight and chemicals. LotBlocks[™] are molded in solid colors and never need painting. They are light enough to ship via UPS and can easily be installed by one person.

- The goggle retainer is designed for use where protective goggles must be worn with a safety cap or hat.
- Installs quickly and easily. No tools required.
- Dielectric retainer will retain the goggle on the safety cap or hat when the goggle is not in use, and hold the goggle securely when worn for eye protection.
- · Goggles, cap or hat not included.

GOGGLE RETAINERS

GR9662 HAT MODEL

Goggles will come off and eye protection will be eliminated if helmet becomes dislodged or is knocked off wearer's head. Wear helmet chin straps or retain goggles separately if this potential exists. Do not use where contact with direct or open flames exists.

FAILURE TO COMPLY WITH THE ABOVE CAUTION CAN CAUSE LOSS OF EYE PROTECTION AND RESULT IN EYE INJURY.
