

# Laboratory Equipment

October 2011

## Features & Benefits

### Brass Construction

Extremely smooth hand and machine polished cast brass construction

### Interchangeable

Interchangeable and versatile spout design allows for easy on-site conversion

### Finishes

Satin antimicrobial or polished chrome available

### Extra Durability

Heavy nickel plate under chrome plating for extra durability and high luster finish

### Versatile

Durable, solid brass hose ends with ten serrations to firmly hold a variety of hose sizes

### Unsurpassed Quality

Every product is made to exacting standards using only the finest materials. And each product is made to order, inspected, and tested before it leaves the factory.

### Commitment To Innovation

From state-of-the-art robotics to constant product development, Chicago Faucets has been a proven leader in product innovation for over 100 years.

### Design Synergy

A belief in performance and interchangeable components has driven Chicago Faucets since its inception. This provides unmatched flexibility for product configurations, updates, and repair.

### Customer Support

The only thing stronger than our products are the employees that are there to support you. From order entry to installation advice, you can count on quality support anytime.

Chemical resistant satin antimicrobial coating inhibits the growth of odor- and stain-causing bacteria, molds, mildew, and fungi.

# Satin Antimicrobial, Chemical

Introducing a new line of satin laboratory products from Chicago Faucets featuring **Sureshield® Silver Ion Technology**.

Sureshield utilizes a compound encapsulated in a glass matrix to form an antimicrobial barrier. When exposed to moisture, the glass “dissolves”, releasing compounds that cause a repression of metabolic functions in microbes and bacterium.

## A Multi-Level Approach for Increased Chemical Resistance

After the Chicago Faucets solid metal product is nickel and chrome plated, an extremely durable glass matrix coating is applied as a final step. The compounds are incorporated as an integral part of the glass matrix and provide additional heat and chemical resistance. The glass matrix also reduces the growth of odor- and stain-causing bacteria, molds, mildews, and fungi on the coating.

- Sureshield antimicrobial coating
- Durable chrome plate
- Bright nickel plate

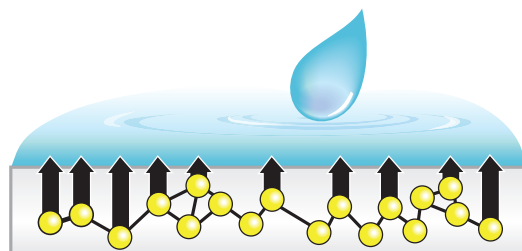

# Resistant Laboratory Products

## The Antimicrobial Glass Matrix Process

The antimicrobial compound glass matrix provides a consistent dissolution rate at all levels of ambient moisture. This consistent release helps to effectively maintain an antimicrobial surface that provides an additional level of protection and durability to your Chicago Faucets.

Other manufacturers use a ceramic matrix where the rate of silver ions released is directly related to the amount of moisture present. When the moisture is lower, the release rate will also be lower, resulting in less antimicrobial activity. If the moisture is abundant, a large amount of silver can be released and can result in discoloration to the product.

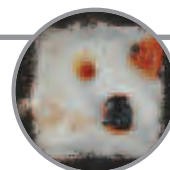

*The glass matrix provides a consistent release of antimicrobial compounds, regardless of the amount of moisture present.*

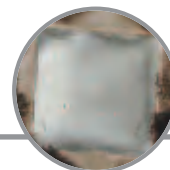

## A Visible Difference

The antimicrobial coating inhibits the growth of odor- and stain-causing bacteria, molds, mildews, and fungi. In addition, the coating is designed to resist fingerprints for the life of the product.

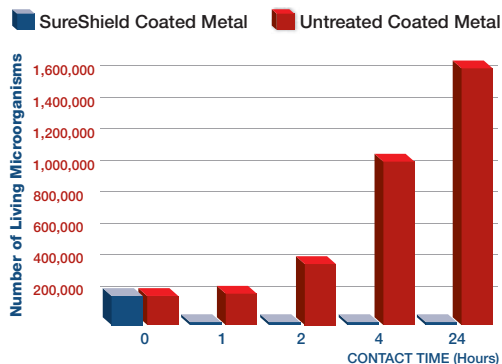

Untreated

Sureshield

Sureshield coatings are submitted to a series of tests; before, during, and after production, to ensure superior quality. Images above give visual reference to a 28-day dried film fungal test (ASTM G 21-96). The untreated sample shows significant fungal growth and rust formation, while the Sureshield sample remains virtually unchanged.

By controlling the chemical make-up of the glass matrix, the Sureshield coating can accurately control the dissolution rate to provide consistent delivery of antimicrobial compounds to the product surface. The result is dependable, effective, and consistent antimicrobial activity on the coated surface.

In a 24-hour surface test, the number of living microorganisms on a piece of metal with the antimicrobial coating were immeasurable by standard laboratory equipment. The number of microorganisms still living on an untreated metal surface rose substantially under identical conditions.

# CHICAGO FAUCETS UNSURPASSED QUALITY

## Exceptional Quality Since 1901

When Chicago Faucets was established, Teddy Roosevelt had just taken office as the 26th President, there were no automobiles, and women couldn't vote. While a lot has changed over the last 100+ years, one thing has remained constant: the quality of the faucets we manufacture.

For an entire century, every faucet that bears the Chicago Faucets name has been built with a specific customer in mind. A constant commitment to the latest technology combined with our hand-crafted quality is, and always will be, the heart and soul of this company. That same passion can be found in all of our faucets and fixtures for laboratory applications.

## A Commitment To Water Conservation and Sustainability

Sustainability and social responsibility are closely interrelated and are important subjects for us. Chicago Faucets has shown that economic success, acting in an environmentally friendly manner, and social balance are not mutually exclusive. On the contrary, we regard sustainability as an opportunity to travel down new roads. Our goal is to be a role model for the industry in sustainability and conservation through ongoing environmental initiatives throughout our company.

Chicago Faucets is a member of the U.S. Green Building Council. USGBC has developed The Leadership in Energy and Environmental Design (LEED) Green Building Rating System™.

Chicago Faucets is an executive member of The Scientific Equipment and Furniture Association, an organization dedicated to establishing standards for safe and effective laboratory environments.

We are proud to be a partner with WaterSense, a program sponsored by the EPA, designed to protect the future of our nation's water supply.

Chicago Faucets is a charter sponsor of the Alliance for Water Efficiency, a non-profit organization that is dedicated to the efficient and sustainable use of water.

- Vandal Resistant Dual Service Turret with Two Ball Valves @ 90°
- E7TC Removable Serrated Hose Nozzle with Check
- Lever Handles with Air and Gas Service Buttons
- Vandal Resistant Pin in Turret
- All Threaded Connections Cemented
- (2) 3/8" NPT Inlet Shanks Assembled

### 982-VP909CAGCP

- Turret with Two Ball Valves @ 90° and Vandal Resistant Pin
- E7TC Removable Serrated Hose Nozzles with Check
- Lever Handles with Air and Gas Service Buttons
- Vandal Resistant Pin in Turret
- 957-003K 3/8" NPT Inlet Shank
- Required for Installation (Order Separately)

### 982-VR909AGVCP

- Vandal Resistant Turret with Two Ball Valves @ 90°
- E7T Serrated Hose Nozzles
- Lever Handles with Air, Gas and Vac Service Buttons
- Vandal Resistant Pin in Turret
- All Threaded Connections Cemented
- 3/8" NPT Inlet Shank Assembled

### 982-VR909CAGCP

- Vandal Resistant Turret with Two Ball Valves @ 90°
- E7TC Serrated Hose Nozzles with Check
- Lever Handles with Air and Gas Service Buttons
- Vandal Resistant Pin in Turret
- All Threaded Connections Cemented
- 3/8" NPT Inlet Shank Assembled

# TURRETS

## Combo Valve & Turret

- 1/2" NPT Female Outlet
- 1/2" NPT Male Inlet

# WARRANTY

## *Limited Warranty*

### **TO WHOM DOES THIS WARRANTY APPLY?**

The Company extends the following limited warranty to the original user only.

### **WHAT DOES THIS WARRANTY COVER AND HOW LONG DOES IT LAST?**

This warranty covers the following Commercial Products:

#### **LIFETIME FAUCET WARRANTY**

The “Faucet”, defined as any metal cast, forged, stamped, or formed portion of the Product, not including electronic or moving parts or other products separately covered by this Limited Warranty or water restricting components or other components, is warranted against material manufacturing defects for the life of the Product.

#### **FIVE YEAR FAUCET WARRANTY**

Certain Products and portions of the Product are warranted against material manufacturing defects for a period of five (5) years from the date of Product purchase. Products warranted against material manufacturing defects for a period of five (5) years from the date of Product purchase are referred to by the product numbers 42X, 43X, 15XX, and E-Tronic® - 4X, 5X, 6X, 7X, 8X, and 9X. All zinc die cast portions of Product are warranted against material manufacturing defects for a period of five (5) years from the date of Product purchase.

#### **FIVE YEAR CARTRIDGE WARRANTY**

The “Cartridge”, defined as the metal portion of any Product typically referred to by the product numbers containing 1-099, 1-100, 1-310, 377X, 217X, and 274X, excluding any rubber or plastic components, is warranted against material manufacturing defects for a period of five (5) years from the date of Product purchase. All Cartridges included in the Company's Single Control or Shower Products also are warranted against material manufacturing defects for a period of five (5) years from the date of Product purchase.

#### **ONE YEAR FINISH WARRANTY – COMMERCIAL**

For Products used in commercial applications, the finish of the Product is warranted against material manufacturing defects for a period of one (1) year from the date of Product purchase.

#### **ELECTRONIC FAUCETS AND METERING MECHANICALS WARRANTY**

Electronic and metering faucets mechanicals are warranted against material manufacturing defects for a period of five (5) years from the date of Product purchase.

#### **ELECTRONIC FAUCETS ELECTRONICS AND SOLENOID WARRANTY**

Electronic faucets electronics and solenoid are warranted against material manufacturing defects for a period of three (3) years from the date of Product purchase. This warranty does not cover the life of the battery. The Company offers **NO WARRANTY** for Product batteries.

#### **THIRTY DAY WARRANTY – PALM DEVICES**

Palm devices are reconditioned and are warranted against material manufacturing defects for a period of thirty days from the date of device purchase. The Company offers **NO WARRANTY** for batteries, software (on a CD or from a website), damage the Palm device or software allegedly causes to any system, set-up instructions, adaptors, or other equipment used with the device.

#### **OTHER WARRANTIES**

All other Products not covered above are warranted against material manufacturing defects for a period of one (1) year from the date of Product purchase.

## Limited Warranty

### WHAT THIS WARRANTY DOES NOT COVER

The Company will not be liable for any labor, transportation or consequential expenses not specifically stated above. There is **NO WARRANTY** in cases of damage in transit, negligence, abuse, abnormal usage, misuse, accidents, normal wear and tear, damage due to environmental or natural elements, failure to follow the Company's instructions, unauthorized repair, incorrectly performed maintenance or repair, improper installation or storage or use of acidic, abrasive cleaning materials. In order for this Warranty to apply, Buyer must retain and provide to the Company receipts showing date of Product purchase and documenting proper maintenance. Any oral or written description of the Products is for the sole purpose of identifying the Products and shall not be construed as an express warranty. **THE COMPANY SHALL NOT BE LIABLE TO BUYER, OR TO ANYONE CLAIMING UNDER BUYER, FOR ANY OTHER OBLIGATIONS OR LIABILITIES, INCLUDING, BUT NOT LIMITED TO, OBLIGATIONS OR LIABILITIES ARISING OUT OF BREACH OF CONTRACT OR WARRANTY, NEGLIGENCE OR OTHER TORT OR ANY THEORY OF STRICT LIABILITY, WITH RESPECT TO THE PRODUCTS OR THE COMPANY'S ACTS OR OMISSIONS OR OTHERWISE. THE COMPANY AND BUYER AGREE THAT THE EXPRESS WARRANTIES DESCRIBED ABOVE ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES. ALL OTHER EXPRESS WARRANTIES ARE DISCLAIMED. FOR COMMERCIAL PRODUCTS, ALL WARRANTIES IMPLIED BY LAW, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE DISCLAIMED. FOR CONSUMER PRODUCTS, WARRANTIES IMPLIED BY LAW, INCLUDING THOSE OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE EXPRESSLY LIMITED TO THE PERIOD OF THE EXPRESS LIMITED WARRANTY STATED ABOVE FOR THE RELEVANT PRODUCT.** Some States do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. Any assistance the Company provides to or procures for Buyer outside the terms, limitations or exclusions of this warranty will not constitute a waiver of the terms, limitations or exclusions of this limited warranty, nor will such assistance extend or revive the warranty. The Company will not reimburse Buyer for any expenses incurred by Buyer in repairing, correcting or replacing any defective Products, except for expenses incurred with the Company's prior written permission.

### HOW TO GET SERVICE

For complete warranty details, or to provide notice of a warranty claim or request warranty service, contact your Chicago Faucets Sales Representative or The Chicago Faucet Company, Customer Service, 2100 S. Clearwater Drive, Des Plaines, Illinois 60018 or 847-803-5000. As the Company's sole and exclusive obligation under this warranty (and Buyer's sole and exclusive remedy), upon prompt written notice of breach from Buyer during the warranty period, the Company will either replace or repair the defective Product or refund the wholesale purchase price, at its option, if an inspection by the Company discloses defects in material or workmanship covered by this warranty. These warranty provisions do not cover the battery shipped with the electronic products.

### LIMITATION ON DAMAGES

**IN NO EVENT SHALL THE COMPANY BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL, INDIRECT OR SPECIAL DAMAGES. WITHOUT LIMITING THE FOREGOING, THE COMPANY SHALL NOT BE LIABLE FOR ANY DAMAGE A PALM DEVICE OR ANY SOFTWARE OR RELATED EQUIPMENT ALLEGEDLY CAUSES TO A SYSTEM OR OTHERWISE. THE COMPANY'S AGGREGATE LIABILITY WITH RESPECT TO A DEFECTIVE PRODUCT AND THIS CONTRACT SHALL BE LIMITED TO AN AMOUNT EQUAL TO THE MONIES PAID TO THE COMPANY FOR THAT DEFECTIVE PRODUCT.**

Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

### HOW DOES STATE LAW APPLY?

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

#### Restrictions Apply.

Palm is trademarked by Palm Inc. and is not affiliated with The Chicago Faucet Company.

## Product Specifications

### I. GENERAL

- A. The manufacturer shall be certified to ISO 9001 (Quality Management Systems) and ISO 14001 (Environmental Management Systems) standards.
- B. All laboratory fittings and safety equipment shall be of one manufacturer to facilitate ease of future maintenance and availability of repair parts.
- C. All fittings shall be factory assembled unless otherwise specified. All fittings will be factory tested as stated below.
- D. All water fittings described as Single Water Inlet Fittings or Combination Fittings (hot and cold water) shall be constructed with low lead brass as delineated below.
- E. Four arm cross handles with indexing will be provided unless otherwise specified. Standard industry color coding will be used to identify the media, as follows:

Service	Color	Symbol
Cold Water	Green	CW
Hot Water	Red	HW
Gas	Blue	GAS
Air	Orange	AIR
Vacuum	Yellow	VAC
Nitrogen	Brown	N
Steam	Black	STM
Deionized Water	White	DI

### II. FINISH

All water and gas fittings shall have either a polished chrome or satin antimicrobial finish:

#### A. Polished Chrome

All exposed surfaces shall be highly polished prior to electroplating; which will consist of one layer of durable bright nickel plate followed by one layer of durable chromium plate.

#### B. Satin Antimicrobial

All exposed surfaces shall be highly polished prior to electroplating, which will consist of one layer of durable bright nickel plate followed by one layer of durable chromium plate. An antimicrobial, silver ion based epoxy-polyester powder coat will be baked on to all exposed surfaces at a thickness of 2 mils.

#### C. Chemical Resistance – Satin Antimicrobial

##### Direct application test (1):

The reagents are directly applied to a flat panel coated surface, covered and kept wet for a period of one hour, at 77°F. The samples shall not rupture, though slight discoloration is permissible.

##### Direct application test (2):

Subject coated sample to the direct action of the listed reagents and solvents at a temperature of 77°F, dropping from a burette at the rate of 60 drops per minute for ten minutes. The samples shall not rupture, though slight discoloration or temporary softening is permissible.

## Product Specifications

### Fume Test:

Suspend coated samples in a container at least 6 cubic foot capacity, approximately 12" above open beakers, each containing 100 cc of 70% nitric acid, 94% sulfuric acid and 35% hydrochloric acid, respectively. After exposure to these fumes for 150 hours, the finish on the samples shall show no discoloration, disintegration or other defects.

### III. WATER FAUCETS & VALVES

#### A. Water Fittings – Low Lead

The metal alloys in contact with water shall not exceed 8% lead content. All faucets described as Single Water Inlet Fittings or Combination Fittings (hot and cold water) shall be NSF 61, Section 9 compliant and certified to CSA B125.

#### B. Cartridges

All parts in compression cartridges that are subject to wear shall be renewable. Cartridge types shall be interchangeable; allowing conversion without removing the faucet. Cartridge types shall include: slow compression, quarter turn compression, self-closing, adjustable controlled low flow, internal check, ceramic quarter turn and steam. All cartridge stems will have a tapered square broach to facilitate handle removal.

#### C. Gooseneck Spouts

All spouts will be field convertible from rigid to swing unless otherwise specified. The inlet side of the spout will be sealed with double o-rings. The outlet side of the spout will be equipped with a 10 serration hose nozzle mounted into a 3/8" NPSM female thread. The spouts on fittings designated as vandal resistant (VR) shall be cemented in the rigid position at the base and cemented at the hose nozzle.

#### D. Vacuum Breaker Spouts

Atmospheric vacuum breaker bodies shall be constructed of cast brass. The spout assemblies shall be cemented to the body and all internal parts shall be renewable. Vacuum breakers shall be certified under ASSE 1001.

#### E. Testing

All water and steam valves shall be factory tested to 80 PSI and be certified by the Canadian Standards Association under standard CSA B125.1, ASME A112.18.1.

### IV. AIR, GAS AND VACUUM FITTINGS

#### A. Turrets

Turrets shall be constructed of either forged or cast brass with shanks assembled, unless otherwise specified. Inlets and outlets shall be 3/8" NPT. Panel mounted turret with spouts shall be NSF 61, Section 9 compliant.

#### B. Ball Valves

All ball valves shall be configured with a floating stainless steel ball with two Teflon™ seats. Service applications to include water, natural gas, air, vacuum, nitrogen, helium, argon, propane, hydrogen, and other common lab gasses. Ball valves will be ADA compliant and have a maximum pressure rating of 125 PSI.

#### C. Needle Valves

Needle valves shall be constructed with a self-centering floating stainless steel cone that seats in a renewable brass sleeve with integral seat. Handle resistance will be adjustable at the external packing nut which compresses a Teflon™ die-formed packing ring. All parts shall be serviceable without removing the fixture.

#### D. Testing

All valves where used in the supply of gaseous substances shall be tested after assembly for leaks at the body surface, inlet, outlet, stem and cap. The entire ball valve shall be submersed under water for 15 seconds while pressurized to 40 PSI of Nitrogen and observed for leakage. The entire needle valve will be submersed under water for 15 seconds while pressurized to 80 PSI of Nitrogen and observed for leakage.

### V. PURE WATER FITTINGS

#### A. Distilled Water

All fittings designated as suitable for distilled water shall be of all brass construction. All interior surfaces that come in contact with water shall be tin lined.

#### B. Deionized Water

All fittings designated as suitable for deionized water shall be constructed with PVC or an exterior brass shell. The interior of ultra pure water valves shall be constructed using polypropylene with polytetrafluoroethylene (PTFE) seat.

### VI. LABORATORY ACCESSORIES

#### A. Electric Pedestal Boxes

Cast aluminum pedestal boxes shall be supplied with brushed finish. Boxes will be shipped with all mounting hardware and grounding screw. All fixtures shall be listed by the Underwriters Laboratory (UL) under standard UL514A.

#### B. Safety Equipment

Eye wash, eye/face wash and drench showers shall be provided. All safety equipment will be compliant with ANSI Z358.1.
