Network Connectivity

Your link for dependable routing of signal
and data in industrial environments

 **COOPER** Interconnect

LynxPOWER™ Industrial Connectivity

Realize time and cost savings with LynxPOWER Industrial Connectivity

When operating efficiency and manufacturing uptime are critical, Cooper Interconnect's extensive offering of industrial connectivity products simplify installations and change-outs for power, signal and data applications.

Cooper Interconnect can improve the efficiency, safety, and uptime of your facility with LynxPOWER industrial connectivity devices.

- Designed specifically to withstand industrial manufacturing environments
- Lowers maintenance and facility costs due to quick and easy change-out modular design
- Available in a wide variety of pin configurations, amperages, materials, and styles
- Customized configurations to meet your specific application needs
- Keyed to ensure accurate and safe connections every time

SOFTPower™ Product Applications:

- Motor Controls
- Mixers, Grinders & Choppers
- Pumps

Mini-Line™ Product Applications:

- Food Processing Equipment
- Conveyors & Assembly Lines
- Packaging Equipment

Custom connectivity solutions to meet your unique applications

LynxPOWER can accommodate all of your unique connectivity applications with customized designs, lengths, materials and configurations created per your specifications and delivered when you need them.

Micro-Mini™ Product Applications:

- Pick-n-Place Machines
- Robotic Equipment
- Industrial Sensors

Industrial Network Product Applications:

- Factory Automation
- Production Monitoring
- Industrial Networks

Engineered Solutions

Cooper Interconnect custom engineered solutions can match any of your complex job needs, simplify your project and maximize your bottom line.

Stock Items

Many of our Cooper Interconnect products are in stock and available for immediate purchase and quick delivery. Contact your Cooper Interconnect sales agent for a full list of products.

Made To Order

Our easy to use ordering matrix allows you to configure made to order parts to suite your exact needs.

LynxPOWER™ Industrial Network Applications

A complete line of industrial network connectivity solutions

Cooper Interconnect's broad selection of products are designed to bridge communication between office and factory floors in your choice of today's communication standards including Ethernet, and DeviceNet™.

Application

Industrial Network products are specifically designed for data and signal transfer in industrial environments under complex physical and environmental conditions.

Industrial Network products are ideal for industrial manufacturing, production line equipment, factory automation and production monitoring plus industrial data networks.

These products have excellent resistance to welding flash, hot chips and other severe conditions found in demanding manufacturing settings.

The molded-to-cable construction of the one-piece cordset ends creates a bond that is impervious to penetration from external contaminants.

Receptacle shells are made from materials chosen to mate with Industrial Network cordsets and provide a cable assembly with far superior service.

LynxPOWER™

Industrial Network Cordsets & Receptacles Features & Benefits

Facilitating reliable communication with the manufacturing floor

Our industrial network connectivity solutions are engineered to provide reliable performance in the harsh industrial environments that cause regular cables to fail. Superior materials and robust design ensure communication continuity and less downtime.

Industrial Ethernet Micro-Mini™ Cordsets

- 1 Industrial grade Cat 5e cable available in your choice of shielded, solid, stranded and high-flex
- 2 RJ45 connectors feature a polyolefin snagless boot
- 3 Industrial Ethernet cordsets available with RJ45, Micro-Mini 4-pin or Micro-Mini 8-pin ends for Ethernet & IP applications

Industrial Ethernet RJ45 Cordsets

- 10 Modular components allow for easy creation, expansion and reconfiguration of systems

Network Receptacles

- 11 Factory molded-to-cable connectors provide quick-connect capability

DeviceNet™ Cordsets

- 4 DeviceNet trunk cordsets available with Mini-Line cordsets in 5-Pole mid thick and thick high-flex cables
- 5 DeviceNet drop cordsets available with Mini-Line or Micro-Mini cordsets with thin and thin high-flex cables

- 6 Flexible high-flex cable options eases installation and delivers signal without interruption

- 7 Vibration-resistant couplers assure devices stay connected under load
- 8 Environmentally-sealed ends prevent the ingress of dust, water and other contaminants for superior service

Related Products

Whether you need to create elaborate data networks or simply add another drop into a connection, we have the Network Products adapters and accessories you need – just visit www.cooperinterconnect.com.

LynxPOWER™

Industrial Ethernet Cordsets & Receptacles

NEMA 1, 3, 4, 6P & 13; IEC IP 68

RJ45 & Micro-Mini™ Cordsets & Receptacles

FEATURES

- Industrial Cat 5e cable.
- Factory molded-to-cable connectors provide quick connect and disconnect capability.
- Modular components allow for easy expansion and reconfiguration without the need for re-wiring; eliminates the need for multiple cable assemblies, reduces installation time, reduces design time and lessens the need for special tools.
- Environmentally sealed ends rated at IP 68 to prevent the ingress of dust, water, and other contaminants to reduce maintenance and downtime.
- Micro-Mini vibration resistant ratchet couplers assure cordsets stay coupled under load.
- Micro-Mini internal gasket assure watertight performance to IP 68 and NEMA 6P ratings.
- Compact, space-saving thermoplastic bodies.
- Every unit is 100% electrically tested using state of the art automated test equipment to stringent ANSI/TIA/EIA and ODVA specifications.

Ethernet Cordsets

Configuration options:

- RJ45 to RJ45
- RJ45 to Female Panel Mount Receptacle (PG9)
- RJ45 to Female 1/2" - 14 NPT Receptacle
- RJ45 to Male Panel Mount Receptacle (PG9)

- Straight design, double-ended configuration, receptacles have 4-pin or 8-pin options
- Cable: 24 AWG, 0.280" dia., meets TIA 568-B.2 specification for ethernet physical layer
- Nickel plated brass or stainless steel receptacle coupler options

Micro-Mini (M12) Cordsets & Receptacles

Ethernet Cordsets

Configuration options:

- Male to Male straight or angled
- Female to Female straight or angled
- Male to Female straight or angled

- Double-ended configuration, 4-pin or 8-pin options
- Cable: 24 AWG, 0.280" dia., meets TIA 568-B.2 specification for ethernet physical layer
- Black epoxy coated zinc, nickel plated brass or stainless steel coupler options

Ethernet Receptacles

Configuration options:

- Female internal thread panel back mount (PG9)
- Male external thread panel back mount (PG9)
- Female internal thread panel front mount (1/2" -14 NPT)

- 4-pin or 8-pin options
- Black epoxy coated zinc, nickel plated brass or stainless steel shell options

DeviceNet Trunk Cordsets & Receptacles

FEATURES

- Industrial Trunk or Drop assembly cable.
- Factory molded-to-cable connectors provide quick connect and disconnect capability.
- Modular components allow for easy expansion and reconfiguration without the need for re-wiring; eliminates the need for multiple cable assemblies, reduces installation time, reduces design time and lessens the need for special tools.
- Environmentally sealed ends rated at IP 68 to prevent the ingress of dust, water, and other contaminants to reduce maintenance and downtime.
- Vibration resistant ratchet couplers assure cordsets stay coupled under load.
- Mini-Line shroud and cork design exceeds IP 68 and NEMA 6P rating (rated 1,200 PSI hose down spray).
- Compact, space-saving thermoplastic bodies.
- Every unit is 100% electrically tested using state of the art automated test equipment to stringent ODVA specifications.

Trunk Cordsets

5-Pole: 8A

5 conductor:

- Male and Female Plugs
- Straight and right angle designs
- Single- and double-ended configurations
- Plug to Back Mount Receptacle options
- Vibration resistant ratchet coupler design
- Supports THIN, THIN HI-FLEX, MID, THICK & THICK HI-FLEX cables
- Epoxy coated zinc and stainless steel coupler options
- IP68

Trunk Receptacles

5-Pole: 8A

5 conductor:

- Male and Female Receptacles
- Plug to Back Mount Receptacle options
- Receptacle with cable only options
- Supports THIN, THIN HI-FLEX, MID, THICK & THICK HI-FLEX cables
- M30 back mount or 1/2"-14NPT front mount configurations
- Epoxy coated zinc and stainless steel shell options
- IP68

KX5B
Mini-Male In-Line
Terminator

Accessories

FEATURES

- Field attachable connectors allow users quickly repair damaged molded cordsets and allow users to create custom cordset lengths using their own cable.
- Easy to use set screw terminals on field attachables provide secure conductor to contact termination.
- Terminators are designed to minimize communication reflections.

Terminators

5-Pole: 8A

5 conductor

- Male and Female options
- Manufactured with a 121 Ω resistor between CAN_H and CAN_L
- Multiple Trunk and Drop configurations to choose from
- Epoxy coated zinc coupler available
- IP68

PX5B
Male Drop Terminator

Field Attachables

3-Pole, 4-Pole, 5-Pole: 5A/300V

5 Conductor

- Impact resistant PVC body
- Supports THIN, THIN HI-FLEX, MID, THICK & THICK HI-FLEX cables
- Nickel plated brass coupler provide easy to use durable connection
- IP67

A complete offering of industrial connectivity accessories

Select from a wide range of accessories to complete any industrial connectivity installation, including plex boxes, tees, splitters and other accessories. Visit www.cooperinterconnect.com for more information.

Mini-Plex™ 6-Port LED PNP Circuit Interconnect Distribution Box

Micro-Plex™ 8-Port Network Interconnect Distribution Box

Plex Boxes

We offer a variety of Interconnect Distribution Boxes fitted with input and output Mini-Line™, Micro-Mini™ AC Dual Key, or Micro-Mini DC DIN fittings. Available in series or parallel wired circuit versions, LED PNP or NPN circuit versions, solenoid configurations, top or side mount outputs for virtually any application requiring mating to Mini-Line or Micro-Mini systems.

SOFTPower Trunk to Drop Reducing Tee

Mini-Line Tapping Tee

Tees

Tees are available for each LynxPOWER family: SOFTPower™, Mini-Line, Micro-Mini, Pico-Line™, and Network. They come in a variety of styles, including tapping tees and reducing tees, many in standard and low-profile body styles. Body materials include Santoprene™ and PVC, chosen for their durability and to complement other LynxPOWER product materials.

Micro-Mini Dual Key AC "Y" Splitter, Standard Body Style

Micro-Mini DC DIN "T" Splitter, Standard Body Style

Y & T Splitters

Splitters are available for the Micro-Mini family in either "Y" or "T" configurations. A low-profile body style is available in "Y" versions; all Micro-Mini splitters feature diecast zinc epoxy-coated vibration-resistant ratchet couplers for the same durability as our Micro-Mini cordsets.

SOFTPower Change-Out to Mini-Line Reducing Adapter

Micro-Mini DC DIN Field Attachable

Other Accessories

A variety of other accessories are available for each LynxPOWER family. Choose from in-line field attachables in straight and right angle body styles, right angle adapters, ground adapters, Change-Out™ to Mini adapters, Mini to Micro adapters, network terminator assemblies, plus a variety of cordset and receptacle caps.
