Mobile Presentation System (MPS)

Unique all steel movable multimedia cart

The Dukane Mobile Presentation System (MPS) is a fully integrated audio visual solution for schools, training centers, or businesses that are looking for portable presentation technology which can be easily moved between a number of rooms. This all in one system provides users with all the latest in presentation technology in a secure mobile workstation.

MPS Features:

- **Complete self-contained system**
- **Secure, can be closed and locked**
- **Easy to move with rear handle, foot ledge, and industrial 5" wheels**
- **Securely Mounted data video projector**
- **Integrated document camera**
- **DVD/VCR player included**
- **Built in speakers**
- **Cables, power strip and cords included**
- **Fully assembled and ready to operate**
- **Various configurations available**

Model MPSA

Starting at: \$2495.00*

Model MPSA20S

(Document Camera 335 Upgrade)

Starting at: \$2995.00*

Model MPS2

(Camera 335 Upgrade and Touch Screen Remote)

Starting at: \$3895.00*

The **MPS2** comes with a touch screen interactive remote control system for easy handheld operation of all your multimedia equipment. This customized IR remote allows you to view and operate your entire MPS including your document camera, DVD/VCR player, and projector.

**4" X 6"
Interactive
Touch Screen**

Total control in 1 remote!

***Note:**

Data Video
Projector
Ordered
Separately

When not in use, all shelves and doors close and lock for complete security and worry free storage. The system comes fully assembled and connected making this a flexible and easy solution for all multimedia requirements.

Model LV3500W

LongView® Wireless Extender

by **Avocent**

"Audio/Video Connectivity without Wires"

The LongView Wireless LV3500W extender, includes a wireless transmitter and receiver, power supplies and audio cables. The firmware features a user-friendly OSD for making adjustments and tuning the video settings.

The LV3500W transmission ranges from 100 feet through walls up to 300 feet line-of-sight. The omni-directional antennas enable the transmitter and receiver to locate each other even if one of them has been moved.

LV3500W - LongView® Wireless Extender \$795.00

Interactive Whole Class Teaching Software

- EasiTeach is easy to use software, which enables teachers to use a wide variety of technologies for engaging, interactive learning for the classroom. EasiTeach is compatible with Dukane's LeaderBoard and AirSlate product lines.
- EasiTeach software will save you time and money maximizing your technology investment. Rather than spending valuable time training teachers on multiple software applications.
- Teachers like EasiTeach because it's easy to use and easy to integrate. But most importantly they like it because it motivates students and creates an interactive, creative classroom in which students excel.
- Specifically for the education community.

ConVA

Media Control System

Take Control of your Presentation Equipment

The **ConVA** Media Control System by Dukane is a unified approach to operate and assess the various multimedia equipment found in today's classrooms and training rooms. The non-proprietary software application serves as a foundation for controlling existing multimedia systems as well as future equipment upgrades.

ConVA makes it easy to:

- Control all your presentation equipment from one computer including projectors, document cameras, DVD/VCR players, and more
- Schedule events like Watch TV or Power Off for one room or an entire building
- Monitor equipment usage such as projector filter and lamp hours for organized maintenance and purchasing
- Assess how often technology is being utilized in the classroom with unique reporting features

To learn more about **ConVA**, contact us at:

Website: MediaConVA.com • E-mail us at: Info@MediaConVA.com • Toll Free: 800-676-2485
