## Two Complete Options for Your Next Recessed Project

### Architectural Recessed Fixtures & Trims

The new Architectural Recessed product line from e-conolight delivers architectural quality inside and out with heavy-duty construction and many premium features.

Choose from fixtures with incandescent or fluorescent lamps. Architectural Recessed fixtures are for use in new construction applications and non-insulated ceilings or where insulation can be kept three inches from housing.

#### Premium Architectural Recessed fixtures feature:

- Premium optics
- Heavy-gauge steel housing
- Oversized, through branch circuit rated, Junction box for easy wiring
- 5-inch vertically adjustable universal mounting bracket
- High-grade Soft-View™ reflector finish

### Standard Recessed Fixtures & Trims

Top quality fixtures for new construction or remodel. E-conolight's line of standard recessed fixtures offers a variety of sizes, trims and lamps.

Choose a 4-inch diameter low-voltage fixture with incandescent lamp or a 5- or 6-inch diameter fixture with incandescent or compact fluorescent lamps. E-conolight standard recessed fixtures are available in IC (insulated ceiling) or non-IC for installation where no insulation is present or the insulation is at least three inches away from the fixture.

1. Pre-installed hanger bars allow for smooth positioning within a 24-inch joist span with no sagging. Score lines included for field shortening to 12-inch joist span.
2. Junction box with two-sided snap latch covers and eight (4 in and 4 out) multiple knockouts for branch wiring
3. Hanger bars fit on T-bar spine without additional clips.
4. New construction housing adjusts for ceilings up to 1-3/8" thick. (Remodel units include four remodel clips for 3/8" to 5/8" ceiling thickness.)

## Technical Data (Architectural Recessed)

New commercial construction requires durable, yet stylish, architectural-grade lighting fixtures. Choose from our affordable Architectural Recessed fixtures with 6-inch diameter apertures available with incandescent or energy saving compact fluorescent lamps and many premium features.

### Premium Optics

- Excellent visual cutoff
- Reduced glare and brightness
- Superior light control
- High-grade Soft-Vue™ reflector finish

### High Style

- High-grade finish hides dust and fingerprints
- Architectural lighting adds elegance to any space
- Wide range of trim and reflector options

### Versatile

- Universal mounting system
- Factory preset adjustable socket

### Efficient

- High-performance electronic CFL ballasts
- CFL saves 75 percent over traditional incandescent lighting

# 6" Horizontal 2-Lamp CFL Downlight – Type Non-IC

**Applications** – For use in new construction applications with non-insulated ceilings or where insulation can be kept 3" from housing.

## New Construction

Lamps ordered separately.  
See page 67.

- Ceiling Cutout 6-1/2"
- Plaster Frame: 12.1" W x 12.5" L
- **Lamp: (2) 13W Double Tube CFL**
- Lamp Base: 4-Pin G24q-1
- Universal voltage, electronic ballast with end of life protection

**CAT.# E-A6HN27-UT**

**\$43<sup>90</sup>**

- Ceiling Cutout 6-1/2"
- Plaster Frame: 12.1" W x 12.5" L
- **Lamp: (2) 18W Double Tube CFL**
- Lamp Base: 4-Pin G24q-2
- Universal voltage, electronic ballast with end of life protection

**CAT.# E-A6HN36-UT**

**\$43<sup>90</sup>**

- Ceiling Cutout 6-1/2"
- Plaster Frame: 12.1" W x 12.5" L
- **Lamp: (2) 26W Double Tube CFL**
- Lamp Base: 4-Pin G24q-3
- Universal voltage, electronic ballast with end of life protection

**CAT.# E-A6HN52-UT**

**\$45<sup>90</sup>**

## Features:

- Heavy-gauge formed steel housing
- Snap-on Junction box cover plates
- Precisely formed non-imaging one-piece reflector design
- Thermally protected in accordance with Article 410 of NEC and UL 1598
- Universal voltage, lightweight, energy-efficient electronic ballast with end of life protection
- 1 1/4" deep aperture throat
- Oversize, through branch circuit rated, Junction box
- Mounting brackets are adjustable from above or below the ceiling and have a 5" vertical adjustment
- Use 1/2" EMT for mounting or choice of optional C-Channel or flat hanger bars
- 5" vertically adjustable universal mounting bracket
- Above or below ceiling relamping
- Listed for eight #12AWG (4 in-4 out) 90°C feed through branch circuit conductors
- Ten 1/2" and four 3/4" knockouts with pry-outs
- Eight knockouts with Romex cable clamp
- Minimum .98 power factor
- THD less than 10%
- Minimum starting temperature 0°F (-18°C)
- Meets FCC Title 47 CFR Part 18, Non-Consumer EMI and RFI emission levels
- Reflectors are spun aluminum and anodized clear Soft-Vue™ finish
- UL, cUL Listed for damp locations
- UL, cUL Listed for installations where insulation can be kept 3 inches away
- 2-year warranty

- Lamp Base: 2-Pin GU5.3
- **120V Magnetic Transformer\***

**CAT.# E-RHN4501TP**

**\$16<sup>40</sup>**

## Remodel

Lamp ordered separately.  
See page 69.

- Ceiling cut-out 4-3/8"
- Lamp: One 50W Max. 12V MR16
- Lamp Base: 2-Pin GU5.3
- **120V Solid State Dimmable Electronic Transformer\*\***

**CAT.# E-RHR45E1TP**

**\$22<sup>40</sup>**

- Ceiling Cut-Out: 4-3/8"
- Lamp: Max (1) 12V, 50W MR16
- Lamp Base: 2-Pin GU5.3
- **120V Magnetic Transformer\***

**CAT.# E-RHR4501TP**

**\$15<sup>90</sup>**

## Features:

- Electronic transformer fixtures provided with insulation detector
- Magnetic transformer fixtures provided with integral thermal protector
- Junction box is listed for eight (4in – 4out) No. 12AWG (90°C) through-branch circuit conductors and has five 1/2", one 3/4" and four Romex® knockouts with true pry out slots (new construction)
- Romex knockouts include built in strain relief – no additional clamps required
- Remodel unit has eight 1/2" and four Romex knockouts
- Insulation detector guards against misuse of insulation materials
- All lamp holders supplied with clear glass lens
- Pre-installed hanger bars allow housing to be positioned at any point within 24" joist span and includes locking screw. Score lines provided for easy field shortening to accommodate 12" joist span.
- Hanger bars are designed to fit on to T-Bar spine for quick alignment and can be permanently secured without the need for additional clips
- New construction housing adjusts for ceilings up to 1-3/8" thick
- Remodel units come complete with three remodel clips to accommodate ceiling thickness from 3/8" to 5/8"
- 5-1/2" height allows for use in 2"x6" joist construction (new construction)
- UL, cUL listed for use in damp locations
- 2-year warranty

\*\* When dimming fixtures with electronic transformers, you must use a dimmer rated for use with electronic transformers.

# 4" Low Voltage – Type IC

**Applications** – For use in insulated ceilings and can be installed in direct contact with insulation.

## New Construction

- Ceiling Cut-Out: 4-3/8"
- Plaster Frame: 11-3/8"W x 15-3/8"L
- Lamp: Max (1) 12V, 50W MR16
- Lamp Base: 2-Pin GU5.3
- 120V Magnetic Transformer\*

**CAT.# E-RHN4501AT**

**\$24<sup>90</sup>**

*Lamp ordered separately.  
See page 69.*

## Features:

- Integral thermal protector guards against improper lamping
- 120V magnetic transformer steps line voltage down to lamp operating voltage
- Junction box is listed for eight (4in – 4out) No. 12AWG (90°C) through-branch circuit conductors and has five 1/2", one 3/4" and four Romex® knockouts with true pry out slots
- Romex knockouts include built in strain relief – no additional clamps required
- Pre-installed hanger bars allow housing to be positioned at any point within 24" joist span. Score lines provided for easy field shortening to accommodate 12" joist span.
- Hanger bars can easily be field repositioned 90° on the plaster frame
- All lamp holders supplied with clear glass lens
- Hanger bars are designed to fit on to T-Bar spine for quick alignment and can be permanently secured without the need for additional clips
- Housing adjusts for ceilings up to 1-3/8" thick
- 7-3/4" height allows for use in 2"x 8" joist construction (when used with minimum of 1/2" thick ceiling)
- Sealed and gasketed construction limits air exchange between the ceiling plenum and heated or air conditioned areas performance tested to ASTM-E283 (Washington State)
- Meets State of California Title 24 requirements
- UL, cUL listed for use in damp locations
- 2-year warranty

# 5" Vertical Lamp Incandescent – Type IC

**Applications** – For use in insulated ceilings and can be in direct contact with insulation.

## New Construction

- Ceiling Cut-Out: 5-3/4"
- Plaster Frame: 7-1/16"W x 10-3/4"L
- Lamp: One 75W Max

**CAT.# E-RIN5AT**

**\$790**

Lamp ordered separately.  
See page 70.

## Remodel

- Ceiling Cut-Out: 5-3/4"
- Lamp: One 75W Max

**CAT.# E-RIR5AT**

**\$760**

Lamp ordered separately.  
See page 70.

## Features:

- Junction box is listed for eight (4in – 4out) No. 12AWG (90° C) through-branch circuit conductors and has five 1/2", one 3/4", and four Romex® knockouts with true pry out slots
- Romex knockouts include built in strain relief – no additional clamps required
- Remodel unit has eight 1/2" and four Romex knockouts
- Pre-installed hanger bars allow housing to be positioned at any point within 24" joist span. Score lines provided for easy field shortening to accommodate 12" joist span
- Hanger bars are designed to fit on to T-bar spine for quick alignment and can be permanently secured without the need for additional clips
- Hanger bars can easily be field repositioned 90° on the plaster frame
- New construction housing adjusts for ceilings up to 1-3/8" thick
- Remodel units come complete with four remodel clips to accommodate ceiling thickness from 3/8" to 5/8"
- Sealed and gasketed construction limits air exchange between the ceiling plenum and heated or air conditioned areas – performance tested to ASTM-E283 (Washington State)
- Snap-in medium base socket for tool-less installation in trims requiring socket relocation
- Meets State of California Title 24 requirements
- UL, cUL listed for use in damp locations
- UL, cUL wet location listed with select trims
- 2-year warranty

# 6" Vertical Lamp Compact Fluorescent – Type IC

**Applications** – For use in insulated ceilings and can be installed in direct contact with insulation.

## New Construction

Lamp ordered separately.  
See page 67.

### Housing for (1) CFL double- or triple-tube 13W

- Ceiling Cut-Out: 6-3/8"
- Plaster Frame: 7-5/8"W x 12-1/2"L
- Lamp: One 13W
- Lamp Base: 4-pin G24q-1 or GX24q-1

- **120V electronic NPF ballast**
- Min. Starting Temp. -18°C(0°F)

**CAT.# E-RFN6131ES**

**\$22<sup>90</sup>**

### Housing for (1) CFL double- or triple-tube 26W

- Ceiling Cut-Out: 6-3/8"
- Plaster Frame: 7-5/8"W x 12-1/2"L
- Lamp: One 26W
- Lamp Base: 4-pin G24q-3 or GX24q-3

- **120V electronic NPF ballast**
- Min. Starting Temp. -18°C(0°F)

**CAT.# E-RFN6261ES**

**\$22<sup>90</sup>**

### Lamp:

Compact Fluorescent Lamp (not included)

- 10,000 hour rated average life
- 82 CRI rated lamps provide excellent color and high visual comfort.
- Available in color temperatures:
  - 2700K warm incandescent-like
  - 3000K medium-warm

## Features:

- UL, cUL listed for use in damp locations
- UL, cUL wet location listed with select trims
- Thermally protected, fused, 120v electronic ballast with end-of-lamp-life protection
- Junction box is listed for eight (4in – 4out) No. 12AWG (90°C) through-branch circuit conductors and has five 1/2", one 3/4", and four Romex® knockouts with true pry out slots
- Romex knockouts include built in strain relief – no additional clamps required
- Pre-installed hanger bars allow housing to be positioned at any point within 24" joist span. Score lines provided for easy field shortening to accommodate 12" joist span
- Hanger bars are designed to fit on to T-bar spine for quick alignment and can be permanently secured without the need for additional clips
- Hanger bars can easily be field repositioned 90° on the plaster frame
- Housing adjusts for ceilings up to 1-3/8" thick
- Sealed and gasketed construction limits air exchange between the ceiling plenum and heated or air conditioned areas – performance tested to ASTM-E283 (Washington State)
- Meets State of California Title 24 requirements
- 2-year warranty

# 6" Sloped Ceiling Incandescent – Type IC

**Applications** – For use in insulated ceilings and can be installed in direct contact with insulation.

## New Construction

**AIRTIGHT**  
Meets ICC Energy Code,  
(Less than 0.02%  
leakage at 1.57 PSI)  
Performance Tested  
per ASTM  
E283-84

- Ceiling cut-out: 7-1/16" x 6-7/8" oval
- Plaster Frame: 7-5/8"W X 12"L
- Lamp: Max 90W

**CAT.# E-RSN6SAT**

**\$19<sup>40</sup>**

Lamp ordered separately.  
See page 70.

## Remodel

- Ceiling cut-out: 7-1/16" x 6-7/8" oval
- Lamp: Max 75W

**CAT.# E-RSR6SIC**

**\$13<sup>60</sup>**

Lamp ordered separately.  
See page 70.

## Features:

- Junction box is listed for eight (4in - 4out) No.12 AWG (90°C) through-branch conductors and has five 1/2", one 3/4" and four Romex® knockouts with true pry out slots
- Romex knockouts include built in strain relief - no additional clamps required
- Remodel has eight 1/2", and four Romex knockouts
- Pre-installed hanger bars allow housing to be positioned at any point within 24" joist span. Score lines provided for easy field shortening to accommodate 12" joist span
- Hanger Bars are designed to fit on to T-Bar spine for quick alignment and can be permanently secured without the need of additional clips
- New Construction housing adjusts for ceilings up to 1-3/8" thick
- Remodel housing comes complete with four remodel clips to accommodate ceiling thickness from 3/8" to 5/8"
- 7-1/2" height allows use in 2" X 8" joist construction
- **Designed for sloped ceilings from 2/12 to 6/12 pitch**
- The socket swivels to align lamp direction
- (New construction only) Sealed and gasketed construction limits air exchange between the ceiling plenum and heated or air conditioned areas – performance tested to ASTM-E283 (Washington State)
- UL, cUL listed for use in damp locations
- UL, cUL wet location listed with select trims
- 2-year warranty

## Features:

- Integral thermal protector guards against improper lamping
- Junction box is listed for eight (4in – 4out) No. 12AWG (90°C) through-branch circuit wiring and has five 1/2", one 3/4", and four Romex® knockouts with true pry out slots
- Romex knockouts include built in strain relief – no additional clamps required
- Pre-installed hanger bars allow housing to be positioned at any point within 24" joist span and includes locking screw. Score lines provided for easy field shortening to accommodate 12" joist span.
- Hanger bars are designed to fit on to T-Bar spine for quick alignment and can be permanently secured without the need for additional clips
- Hanger bars can easily be field repositioned 90° on the plaster frame
- Meets State of California Title 24 requirements
- Adjustable socket bracket allows the use of different lamp types and sizes as well as proper and consistent lamp positioning
- Snap-in medium base socket for tool-less installation in trims requiring socket relocation
- New construction housing adjusts for ceilings up to 1-3/8" thick
- Remodel units come complete with four remodel clips to accommodate ceiling thickness from 3/8" to 5/8"
- Remodel unit has eight 1/2" and four Romex knockouts
- Sealed and gasketed construction limits air exchange between the ceiling plenum and heated or air conditioned areas- performance tested to ASTM-E283 (Washington State)
- UL, cUL listed for use in damp locations
- UL, cUL wet location listed with select trims
- 2-year warranty

**NOTE:** Dimming fixtures with magnetic transformers require dimmers rated for inductive loads. Dimming fixtures with electronic transformers require a dimmer rated for use with an electronic transformer.

## Features:

- Deep drawn steel housing (Flat/Round Back)
- Die-cast aluminum housing (Notch Back)
- Polyester powder coat finish available in black or white
- Includes clear glass lens
- Rotation: 358°
- Compatible with 1 or 2 circuit track
- UL and cUL Listed for dry locations
- 1-year warranty

## Track

### One- & Two-Circuit Track

Compatible, durable and affordable

To give customers extra ordering flexibility, our track and fixtures are UL Listed for use with existing Juno® T & TU systems (not affiliated with e-conolight). Rugged track features an extruded aluminum body, Lexan® fittings, a Noryl® insert and No. 12 AWG solid copper conductors. Each track section includes two dead ends and mounting hardware.

Track comes in basic sizes and finishes (4-, 6- and 8-foot lengths and black or white). It's easy to cut to the exact size you need right at the job site. UL and cUL Listed for dry locations.

**NOTE:** 2-circuit 40 amp track consists of two 20 amp feeds on different phases sharing a common neutral feed line. If both circuits are on the same phase, the total load between two circuits is limited to 20 amps.

### Advantages of Two-Circuit Track

- Double the load capacity (compared to one-circuit track)
- Additional design flexibility
- Each circuit can be switched separately
- Create three different schemes on one section of the track:
  1. First circuit on only
  2. Second circuit on only
  3. Both circuits on together

## Additional Information

### Ordering

E-conolight poles can be ordered through our Customer Service department by calling 888-243-9445 or on-line at [www.e-conolight.com](http://www.e-conolight.com). **Because poles are custom manufactured upon your order, your credit card will be charged immediately, regardless of lead-time.** Please carefully select your poles based upon proper mounting configuration and wind loading in your area.

### Pole and Bullhorn Shipping

Freight charges are included in the price of all e-conolight poles and bullhorns. A complete shipping address must be provided at the time of order (No PO Boxes). Expedited orders can not be accepted. Because poles and fixtures ship from different locations, e-conolight can not guarantee arrival of fixtures and poles on the same day. Anchor bolts shipping in advance will incur additional freight charges. Shipping to the continental US only.

### Returns / Restocking and Order Changes

Because all poles and bullhorns are custom manufactured specifically for your order, returns, restocking or cancellations are not possible.

### Anchor Bolts

Partially galvanized anchor bolts and hardware are furnished with each pole. The bolts are made from carbon steel bar conforming to AASHTO and ASTM Grade-55 requirements. Anchor bolts shipping in advance will incur additional freight charges and **must ship to the same address as the pole shipment.**

### Pole Base

Base is supplied with slotted anchor bolt openings so that a range of bolt circles can be utilized. The base plate telescopes the pole shaft and is circumferentially welded top and bottom. Template can be found on our Website under installation instructions. Paper template provided with pole.

### Handhole

A rectangular shaped handhole is furnished and includes a steel cover and attachment bar with machine screw. The handhole is located 18-inches above the pole base.

### Electrical Ground

A ground lug is provided near the handhole and includes a hex-head bolt and nut.

### Base Cover

A standard, full base cover is included with each steel pole and is made from ABS plastic. Its two-piece construction is secured together with two plastic, hand push rivets. Round Tapered Aluminum poles are supplied with nut covers.

### Pole Caps

A removable pole cap is included with each pole configured for fixture side mounting. Poles with tenon top configuration do not include a pole cap.

### Paint Finish

All e-conolight poles are mechanically cleaned and coated with an electrostatically applied, baked-on powder topcoat to provide years of worry-free service in the field. All e-conolight poles and bullhorns are painted in dark-bronze to closely match fixtures and mounting options.

### Warranty

E-conolight warrants its poles to be free from defects in materials and workmanship for a period one year from the date of delivery. E-conolight will, at its discretion, repair or replace without charge any returned defective part (FOB factory). The warranty specifically excludes fatigue failure, or similar phenomena, resulting from induced vibration, harmonic oscillation or resonance associated with movement of air currents around the pole.

The above warranties are given in lieu of all other warranties expressed or implied, including and without limitation, the warranty of merchantability and the warranty of suitability for a particular purpose. It is expressly stated that e-conolight assumes no liability for consequential or liquidated damages arising out of a breach of the sale, including any warranties arising therefrom, and buyer's remedy shall be limited to repair or replacement of defective parts as described above.

## Premium Floodlights

**Applications – Wide Floodlight:** general purpose applications, building facades, large open areas (no cutoff), sign lighting.

**Cutoff Floodlight:** Provides source cutoff and limited spill above horizontal, building facades, large open areas, sign lighting.

**Roadway Floodlight:** Roadway and pathway areas that require extra-wide lateral distribution, driveways, pathways, boulevards.

**Typical Mounting Height:** 15 to 30 feet **Typical Spacing:** 5 to 6.5 times the mounting height

Adjustable U-Bracket

One mogul base H75  
Venture lamp included

14"H x 14"W x 6-3/8"D  
Weight: 29-30 lbs.

We provide the benefits of Venture Lighting's  
Uni-Form® Pulse Start Metal Halide technology

- Superior lumen maintenance in horizontal position
- Longer lamp life - as much as, 20000+ hours
- Optimized for horizontal operation  $\pm 75^\circ$
- No position oriented socket needed
- Ballast efficiency equal to or greater than 88%

Any Wattage.  
Any Mounting.  
One Price.

Keyword: **PREMIUM FLOODS**

### Features:

- 120/208/240/277V CWA ballast HPF; HX ballast HPF for 150W PSMH
- Sturdy low copper, die-cast aluminum housing and lens frame
- E-coat epoxy primer with five layers of protection
- Super durable dark-bronze powder topcoat
- Tempered-glass lens, thermal-shock and impact resistant
- Suitable for ground mounting, uplight & downlighting
- Precision reflector delivers premium optical patterns (wide, cutoff and roadway)
- 2" adjustable fitter or adjustable u-bracket comes pre-installed on fixture

- High-performance H75 lamp included; universal burn lamp for 150W PSMH
- Foam-in-place gaskets provide superior seal
- Durable, stainless steel captive fasteners
- UL Listed for wet locations (IP54)
- 5-year finish warranty
- 3-year fixture warranty
- 1-year lamp warranty
- Assembled in the USA

## Features:

- 120/208/240/277V CWA ballast HPF
- Sturdy die-cast aluminum housing and lens frame with dark-bronze polyester powder-coat finish
- Tempered-glass lens, thermal-shock and impact resistant
- Fixture comes without mounting. (Order E-ACE 6-inch mounting arm, E-ACU U-bracket, or E-ACS slip fitter)
- UL Listed for wet locations
- 1-year warranty

## Mounting options

6-inch mounting arm, attaches to 1, 2, 3, 5 & 6 pole drill configuration or wall mount plate (see pg 25)

**CAT.# E-ACE**  
**\$11<sup>90</sup>**

Adjustable U-bracket, with 30" cord.  
2-1/2"H x 5-1/2"W x 6"D

**CAT.# E-ACU**  
**\$6<sup>90</sup>**

Adjustable slip fitter.  
Fits over 2-3/8" O.D. pipe

**CAT.# E-ACS**  
**\$11<sup>90</sup>**

## Accessories

**Internal Backlight Shield**  
Adjustable shield clips inside of glass lens

# Directional Floodlight - Ceramic Metal Halide

# PHILIPS

Fixtures include Philips  
Ceramic Metal Halide  
Lamps/Philips Advance Ballasts

## CMH In-Ground Mount

Ballast, wiring compartment and ½" fitter included. Pea gravel required (not supplied) as back fill around fixture for proper drainage. CMH fixtures standard with 35W dual-tap or 70/100W multi tap high-power-factor HX ballast. For outdoor use only.

See page 33 for fixture selection

## OVERVIEW

Our Ceramic Metal Halide and Incandescent Directional Floodlights create dramatic night illumination for a variety of ground mount and surface-mount applications. Choose from a wide selection of fixture types such as surface mount, in-ground and directional uplights to completely customize your project.

## Excellent Corrosion Resistance

- Low-copper, aluminum alloy construction
- E-coat epoxy primer with five layers of protection
- Durable black topcoat for superior corrosion resistance

## Versatile Options

- Multiple mounting options
- Glare shield provides added cutoff control
- Photocell capability helps save energy (Incandescent)

## Durable Construction

- Silicone sponge rubber gasket for substantial weather resistance
- UL and cUL Listed for wet locations
- Convex lens is borosilicate glass

## CMH Surface Mount (Wall or Soffit)

Die-cast ballast compartment mounts over octagonal, 4" square or single-gang junction box. CMH fixtures standard with 35W dual-tap or 70/100W multi tap high-power-factor HX ballast.

## Features:

- Die-cast copper-free aluminum housing
- PAR20 and PAR30 lens is tempered glass
- PAR38 lens is borosilicate glass
- Die-cast copper-free aluminum lens frame
- Mounting is accomplished with a watertight in-ground ballast compartment
- Two 1/2" threaded hubs are included for conduit entry
- Fixture is completely sealed and includes a silicone O-ring sealing system
- Fixture head rotates 358°
- Fixture head has a tilt range of 125° on the adjustable fitter and locks into position
- Swivel is die-cast copper-free aluminum with threaded end 1/2"-14 NPSM
- E-coat epoxy primer with textured ultra-durable powder topcoat
- Flat profile fixtures include lamp with flood beam spread
- Shrouded profile fixtures include lamp with spot beam spread
- UL and cUL Listed for wet locations
- 1-year warranty

### Features:

- Die-cast copper-free aluminum housing and lens frame
- Fixture is completely sealed and includes a silicone O-ring sealing system
- Fixture head rotates 358°
- Fixture head has a tilt range of 125° on the adjustable fitter and locks into position
- Swivel is die-cast copper-free aluminum with threaded end 1/2"-14 NPSM
- Junction box cover not included
- 120V incandescent fixtures, order lamps separately.
- E-coat epoxy primer with textured ultra-durable powder topcoat
- UL and cUL Listed for wet locations
- 1-year warranty

*Lamp ordered separately.  
See page 70.*

### Accessories: For use with incandescent surface mount fixtures only

**Single Mount**

**Junction Box Cover**

For use with octagonal and single gang junction boxes. Includes adapter plate with 1/2" knockout for mounting one 120V fixture. Photocell knockout provided. 1.5" H x 4.4" dia.

**CAT. # E-GAJB1K**

**\$11<sup>90</sup>**

**Dual Mount**

**Junction Box Cover**

For use with octagonal and single gang junction boxes. Includes adapter plate with 1/2" knockout(s) for mounting two 120V fixtures. Photocell knockout provided. 1.5" H x 4.4" dia.

**CAT. # E-GAJB2K**

**\$11<sup>90</sup>**

**Ground Mount Post**

Wiring or conduit feeds through base of Ground Mount Post. Use with 2" Conduit Slipfitter. Overall: 24" Tube: 18"H x 2.4"D Base: 4.9"W x 6.3"L

**CAT. # E-ACGM1K**

**\$27<sup>90</sup>**

**Mounting Box with Stake, Cord & Plug**

Cast aluminum box provides enclosed wiring chamber. Supplied cover gasket ensures watertight seal. Includes four 1/2" conduit entries: top, back and sides. Stake: 6.5" Cord: 10' gasketed cord with 120V straight blade plug

**CAT. # E-GAMNB2K**

**\$33<sup>90</sup>**

**2" Conduit Slipfitter**

Cast aluminum hub provides a threaded entry for the 1/2" adjustable fitter and slips over a 2-3/8" O.D. pipe or tenon.

**CAT. # E-ACMNH2K**

**\$11<sup>90</sup>**

**Photocell (120V)**

Photocell, field installed for use with single or dual mount junction box covers.

**CAT. # E-ACP1**

**\$6<sup>90</sup>**

PRODUCTS THAT MEET **BUY AMERICAN**  
REQUIREMENTS WITHIN ARRA  
ARE DESIGNATED BY THIS SYMBOL.

# Sealed Well Light

**Applications** – For accenting architecture or lighting landscape areas

## MR16 Incandescent PAR20/30/38 Series

Lamp ordered separately. See pages 69-70.

**MR16** Thru 75W Max  
120V

**CAT.# E-GLWM161K**

**\$114<sup>90</sup>**

## PAR20/30/38

Fixture accommodates  
PAR20, PAR30 or  
PAR38 lamps up to  
150W max  
120V

**CAT.# E-GLWP381K**

**\$74<sup>90</sup>**

### Features:

- Copper-free aluminum extrusion housing with rounded corners
- Die-cast copper-free aluminum lens frame
- Silicone sponge rubber gasket for watertight seal
- Convex lens is borosilicate glass
- Silicone compound between wiring compartment and housing
- Fully gasketed die-cast copper-free aluminum external wiring compartment
- Lamp bracket rotates 360° degrees
- Adjustable internal lamp provides easy aiming
- UL Listed for wet locations
- 1-year warranty
- Lamp tilt range of:  
MR16 = +/- 45°  
PAR20/30/38 = +/- 22°  
CMH PAR30L/PAR38 base = +/- 20°

### Accessories:

#### External Glare Shield

Easily attaches to top cover  
of fixture with four black  
stainless steel screws  
(included). Not for use with  
E-GALG.

**CAT. # E-GAGS**  
**\$15<sup>90</sup>**

#### External Linear Grate

Provides cutoff and glare  
control and protects lens  
from falling objects. Easily  
attaches to top cover of  
fixture with four black  
stainless steel screws  
(included). Not for use with  
E-GAGS.

# PHILIPS

Fixtures include Philips

Ceramic Metal Halide

Lamps/Philips Advance Ballasts

## 150/300-watt Quartz Halogen Floodlight

**Applications** – Security, signage, displays, uplighting, landscaping and other residential uses.

**Typical Mounting Height:** 8 to 20 feet **Typical Mounting Height:** 15 to 25 feet

One lamp included

4-3/8"H x 5"W x 4"D

**CAT.# E-CF1Q151Z**  
Replacement lamp 150-watt  
CAT.# ~QZ150T3

**\$5<sup>90</sup>**  
\$0.50

### Features:

- 150-watt Quartz Halogen
- Lamp Output: 2000 lumens
- Lamp Color Rendition: 100 CRI
- Weight: 1.5 lbs
- Silicone gasketing and tempered-glass lens
- 1/2-inch NPS die-cast swivel fitter
- Sturdy die-cast aluminum housing and lens frame, with dark-bronze polyester powder-coat finish
- UL Listed for wet locations
- 1-year warranty on fixture; 90-days on lamp

One lamp included

6-1/4"H x 9"W x 4"D

**CAT.# E-CF3Q301Z**  
Replacement lamp 300-watt  
CAT.# ~QZ300T3

**\$9<sup>40</sup>**  
\$0.50

### Features:

- 300-watt Quartz Halogen
- Lamp Output: 4800 lumens
- Lamp Color Rendition: 100 CRI
- Weight: 2.5 lbs.
- Silicone gasketing and tempered-glass lens
- 1/2-inch NPS die-cast swivel fitter
- Sturdy die-cast aluminum housing and lens frame, with dark-bronze polyester powder-coat finish
- Housing has integral ribs for heat dissipation
- UL Listed for wet locations
- 1-year warranty on fixture; 90-days on lamp

## 13-watt x 2 Fluorescent Floodlight

**Applications** – Security, signage, displays, uplighting, landscaping and other residential uses.

**Typical Mounting Height:** 8 to 15 feet **Typical Mounting Height:** 8 to 15 feet

Two lamps included

7"H x 9"W x 3-3/8"D

**CAT.# E-CF4F261Z**  
Replacement lamp  
CAT.# ~CF13SA/27

**\$27<sup>90</sup>**  
\$1.70

### Features:

- Total 26-watts
- 120-volt Magnetic ballast NPF
- Lamp Output: 820 lumens per lamp, total 1640 lumens
- Lamp Color Rendition: 82 CRI
- Weight: 5 lbs.
- Silicone gasketing and tempered-glass lens
- 1/2-inch NPS die-cast swivel fitter
- Sturdy die-cast aluminum housing and lens frame, with dark-bronze polyester powder-coat finish
- Specular aluminum reflector
- Eyebrow-style hinge frame to reduce spill light
- **Minimum starting temperature, 40°F**
- UL Listed for wet locations
- 1-year warranty

Two lamps included

4-7/8"H x 8-1/2"W x 5-3/4"D

**CAT.# E-CF7F261Z**  
Replacement lamp  
CAT.# ~CF13D4/41

**\$26<sup>40</sup>**  
\$2.20

### Features:

- Total 26-watts
- 120V Electronic Ballast NPF
- Lamp Output: 890 lumens per lamp, total 1780 lumens (E-CF7F261Z)
- Lamp Color Rendition: 82 CRI
- Weight: 3.5 lbs.
- Silicone gasketing
- 1/2-inch NPS die-cast swivel fitter
- Corrosion resistant polycarbonate housing in dark-bronze finish
- Specular aluminum reflector
- UV-stabilized polycarbonate prismatic refractor
- **Minimum starting temperature, 40°F**
- UL Listed for wet locations
- 1-year warranty

## 9-inch Ceiling Mount

**Applications** – Security, entryway and perimeter lighting. Also recommended for parking garages, shopping area walkways, and exterior canopies.

**Typical Mounting Height:** 8 to 18 feet **Typical Spacing:** 1 to 1.5 times the mounting height

Lamp included

7-1/2"H x 9"W x 9"D  
Weight: 7-9 lbs.

<b>PSMH</b>	<b>70-watt Pulse-Start Metal Halide</b> • 120-volt HX ballast NPF

### Features:

- Heavy-duty die-cast aluminum housing, with white or dark bronze polyester powder-coat finish
- UV-stabilized polycarbonate prismatic refractor
- 1/2-inch NPS tapped for conduit, two on sides, one on top (9" only)
- 1/2-inch NPS tapped for conduit, three sides, one on top (12" only)
- **Minimum starting temperature, 40°F (CFL only)**
- UL Listed for wet locations
- 1-year warranty

# LED

## LED WALL PACK

**Right from the start...** Our LED wall pack is the perfect solution to security, pathway and perimeter lighting applications where control of spill light is important. Designed to be maintenance free and long lasting you can rest easy knowing that the security of your building and the safety of pedestrians will not be compromised by a lamp outage.

### Designed for Performance

- Energy-efficient high-powered LEDs
- Full cutoff glare shield makes the fixture Dark-Sky Friendly, reducing light pollution
- Die-cast aluminum housing
- Excellent lumen maintenance

### Versatile Options

- Add optional photocell for additional energy savings
- Conduit entries on bottom and sides of the fixture
- Two knockouts on back for conduit or J-box mounting
- Flexible enough for a variety of applications

**Applications** – Security, pathway and perimeter lighting; ideal for entry ways, walkways and other applications where control of spill light is important.

**Typical Mounting Height:** 8 to 15 feet **Typical Spacing:** 1 to 2 times the mounting height

### COOL WHITE (5600K)

**23-watt LED,**  
**1500 Delivered Lumens**  
(Comparable to 35W HID)

**CAT.# E-WP2L02CZ**

**SALE!**  
**\$79<sup>90</sup>**

### NEUTRAL WHITE (4100K)

**28-watt LED,**  
**1700 Delivered Lumens**  
(Comparable to 50W HID)

**CAT.# E-WP2L03NZ**

**\$109<sup>90</sup>**

### Features:

- 50,000 hours of maintenance-free operation to L70 at 25°C
- Low-copper, die-cast aluminum housing and lens frame
- Dark bronze polyester powder-coat finish
- Fixed cutoff glare shield to reduce light pollution
- Tempered glass lens, thermal shock and impact resistant
- Mounts over recessed Junction box or with conduit
- Die-cast back box for easy mounting
- 75°C minimum supply wire required
- Universal voltage (120V through 277V)
- RoHS compliant
- UL Listed for wet locations
- 3-year warranty

### Accessory:

**CAT.# E-ACP1**  
(120 volts)

**\$6<sup>90</sup>**

Photocell, field installed

**CAT.# E-ACP2**  
(208/240/277 volts)

# 6" LED RECESSED RETROFIT KIT

LED

**Right from the start...** Boost the performance and energy efficiency of your incandescent recessed lighting by retrofitting to LED. With an estimated life rating of 50,000 hours, you can virtually eliminate the maintenance and replacement costs associated with incandescent lamps. Using only 14 watts, our Recessed Retrofit Kit will reduce your energy consumption and help you save on operating expenses. Plus, the fixture is dimmable for added functionality and flexibility.

## Maximum Compatibility

- UL classified for use with select 6" incandescent recessed cans from a variety of popular manufacturers including e-conolight, Ruud Lighting, Cooper-Halo and Juno
- Dimmable driver compatible with typical 120V AC dimmers from Leviton and Lutron
- See [www.e-conolight.com](http://www.e-conolight.com) or call 888.243.9445 for complete list of compatible recessed cans and dimmers

## Precise Performance

- Soft, uniform warm white light using precise phosphor control
- With greater than 97.9% of light falling within the 120° beam angle, uncomfortable glare is reduced
- Accurate color consistency from fixture to fixture

DIE-CAST  
ALUMINUM HEAT  
DISSIPATING FINS

RIGID 7-1/4" O.D.  
TRIM RING

4-7/8"H x 5-1/2" Diameter  
(Trim Ring 7-1/4" O.D.)  
Weight: 2.2 lbs.

## INSTALLS IN FIVE EASY STEPS

**1.** Shut off power to fixture. Remove old trim and incandescent lamp.

**2.** Install the included Edison-style socket adaptor into the existing medium base socket.

**3.** Plug the connector from the LED Recessed Retrofit Kit into the connector on the Edison-style socket adaptor.

**4.** Squeeze torsion springs together and mount into brackets of the existing recessed housing.

**5.** Carefully route wires up into the housing and push up trim flush to the ceiling. Turn power back on.

## WARM WHITE (3000K)

**14-watt LED, 120V  
614 Lumens**  
(Comparable to 65W BR30  
or 50W PAR20 or PAR30)

## Features:

*\*6" recessed can not included*

- 50,000 hours of maintenance-free operation to L70
- Continuous dimming
- Die-cast aluminum heat sink
- High-power factor greater than 90%
- Color temperature: 3000K
- Greater than 80 CRI
- Edison-style socket adaptor included

- UL classified for use with most 6" incandescent recessed white can housings. Call factory for complete list of qualified manufacturers
- RoHS compliant
- UL Listed for damp locations
- 3-year warranty

# Adjustable Cutoff Wall Pack

**Applications** – Security, pathway and perimeter lighting; ideal for entry ways, and walkways, especially where glare can be an issue

**Typical Mounting Height:** 8 to 18 feet **Typical Spacing:** 2 to 3 times the mounting height

## Features:

- Sturdy die-cast aluminum housing and lens frame, with dark-bronze polyester powder-coat finish
- Adjustable cutoff glare shield
- Tempered glass lens, thermal shock and impact resistant
- One piece anodized aluminum reflector
- 1/2-inch NPT tapped back and two sides for conduit entrances (70-100-watts only)
- 1/2-inch NPT tapped top and two sides for conduit entrances (150-watts only)
- Optional photocell available
- UL Listed for wet locations
- 1-year warranty

# 42-watt Fluorescent Wall Pack

**Applications** – Security, pathway and perimeter lighting; ideal for entry ways, walkways and parking facilities.

**Typical Mounting Height:** 8 to 18 feet **Typical Spacing:** 2 to 3 times the mounting height

## Features:

- 120-volt Electronic ballast
- Sturdy die-cast aluminum housing and lens frame, with dark-bronze polyester powder-coat finish
- UV stabilized prismatic polycarbonate refractor
- Heavy duty four-pin GX24q-4 socket
- One-piece anodized aluminum reflector
- 1/2-inch NPT tapped back and two sides for conduit entrances
- Optional photocell available
- **Minimum starting temperature, 40°F**
- UL Listed for wet locations
- 1-year warranty

## CFL

**42-watt Compact Fluorescent**

- Lamp Output: 3190 lumens
- Lamp Color Temperature: 4100K

**Built-in Photocell**

Two lamps included

10-7/8"H x 6-3/4"W x 5-1/2"D

### CFL

#### 13-Watt Compact Fluorescent

- Two 13-watt Fluorescent, total 26-watts
- 120-volt Electronic ballast NPF
- Lamp Output: 890 lumens total 1780 lumens
- Lamp Color Rendition: 82 CRI
- Weight: 4 lbs.

(White) **CAT.# E-WW3F261WP**

(Bronze) **CAT.# E-WW3F261ZP**

Replacement lamp  
CAT.# ~CF13D4/41

**\$34<sup>90</sup>**

\$2.20

## 42-watt Fluorescent Wall Mount

**Applications** – Security, entry ways, stairways, storage and perimeter areas, as well as residential exteriors.

**Typical Mounting Height:** 8 to 18 feet **Typical Spacing:** 1.5 to 2 times the mounting height

**Built-in Photocell**

One lamp included

10-7/8"H x 6-3/4"W x 5-1/2"D

### CFL

#### 42-Watt Compact Fluorescent

- 120-volt Electronic ballast
- Lamp Output: 3190 lumens
- Lamp Color Rendition: 82 CRI
- Weight: 4.1 lbs.

(White) **CAT.# E-WW1F421WP**

(Bronze) **CAT.# E-WW1F421ZP**

Replacement lamp  
CAT.# ~CF42T4/41

**\$39<sup>90</sup>**

\$3.70

### Features:

- Built-in photocell
- Heavy duty four-pin GX24q-4 socket (42W CFL only)
- Polycarbonate housing in bronze or white with heavy-duty aluminum mounting plate

- UV-stabilized polycarbonate prismatic refractor
- **Minimum starting temperature, 40°F (CFL only)**
- UL Listed for wet locations
- 1-year warranty

# 150/300-watt Incandescent Vapor Tight

**Applications** – Non-hazardous uses only. **Typical Mounting Height:** 8 to 15 feet

## Wall Mount

- Use a "Type A" Incandescent Lamp  
Max 150W Type A21  
Max 300W Type A25  
(lamps ordered separately)

## Ceiling Mount

\$18<sup>90</sup>

## Features:

- Heavy-duty die-cast aluminum housing and adapter, with grey polyester powder-coat finish
- Easy-install, screw-in, clear glass jar
- Die-cast aluminum 4-inch Junction box (Wall and Ceiling Mount only)
- 5 threaded and plugged 3/4" conduit entry points (Wall and Ceiling Mount only)
- Threaded for 1/2" conduit entry (Fluorescent and HID Pendant Mount)
- Threaded for 3/4" conduit entry (Incandescent Pendant Mount)
- **Minimum starting temperature, 40°F (42W Fluorescent)**
- UL Listed for wet locations
- 1-year warranty

# 4-Lamp T5HO & T8 Decorative Linear Fluorescent

PRODUCTS THAT MEET **BUY AMERICAN**  
REQUIREMENTS WITHIN ARRA  
ARE DESIGNATED BY THIS SYMBOL.

**Applications** – Warehouses, industrial and retail sites.

**Note:** Fixtures must be mounted a minimum of 7.5-inches below ceiling

## T5HO

**White Reflector Typical Mounting Height:** 12 to 25 feet.

**Comparable Performance:**

250-watt Probe Start Metal Halide Low Bay.

**Specular Reflector Typical Mounting Height:** 15 to 30 feet.

**Comparable Performance:**

250-watt Probe Start Metal Halide High Bay.

## T8

**White Reflector Typical Mounting Height:** 10 to 20 feet.

**Comparable Performance:**

175 to 250-watt Probe Start Metal Halide Low Bay.

**Specular Reflector Typical Mounting Height:** 12 to 25 feet.

**Comparable Performance:**

175 to 250-watt Probe Start Metal Halide High Bay.

Factory installed ballast disconnect to meet 2008 NEC Article 410.130(G). Standard on all fixtures without emergency ballast.

GE® Lamps and Ballasts standard on T8 fixtures.

### 5-year fixture warranty

- Save time with factory installed options
- Save money on large job orders
- Increase flexibility with new specular reflectors

## Features:

- Quality die-formed galvanized steel ballast housing and cover
- Durable injection molded thermoplastic end-caps
- High efficiency (95% Total Reflectance) **MIRO 4™ specular reflector** provides medium distribution
- High reflectance (94% Total Reflectance). White painted reflectors provide wide light distribution.
- T5HO=120-277V programmed start electronic universal voltage ballast
- T8=120-277V instant start GE® UltraMax® High Efficiency ballast
- Includes two wire-form hangers for mounting
- Access cover for 3/4" conduit and wire entry for hard wiring
- Recommended minimum operating temperature 40° F (5° C)
- 21" wide design is suitable for use in applications with sprinkler systems installed in accordance with NFPA 13 and Factory Mutual codes
- Emergency Ballast option is Plug-N-Go

- 54W T5HO Luma® lamps available installed
- 32W T8 Standard or Premium GE® Lamps available installed
- Fixtures are custom manufactured specifically for your order and cannot be changed or cancelled
- Optional 6' cord factory installed
- UL Listed for damp locations
- **5-year warranty on fixture and electrical components**

### With Motion Sensor (consult factory for T8 pricing)

- Integrated 360° Motion Sensor
- T8=120-277V GE® UltraStart® electronic programmed start ballast
- Switch Selectable Low Mode ("All Off" or "Partial Off" = 2 lamps off)
- Adjustable Low Mode Time Delay from 30 second to 20 minutes
- Note: Fixtures must be mounted a minimum of 7.5-inches below ceiling

## Emergency Ballasts:

Single lamp field installable Plug-N-Go emergency ballast option available on 120-volt or 277-volt only.

- Easy field installation and maintenance of battery packs
- For use with E-conolight Linear Fluorescent fixtures only
- Will operate one lamp for 90 minutes
- Dual voltage (120V or 277V) fixture must be ordered with "E" option

- **Fixture must be purchased with "E" option, ballast required**
- Factory pre-wired for easy Plug-N-Go field installation
- UL Listed 924 emergency ballast

**T5HO & T8**  
800 initial lumens

4-LAMP T5HO DECORATIVE LINEAR FLUORESCENT

# 4-lamp T5HO Compact Linear Fluorescent

Factory installed ballast disconnect to meet 2008 NEC Article 410.130(G). Standard on all fixtures without emergency ballast.

**Applications** – Warehouses, industrial and retail sites. **Note:** Fixtures must be mounted a minimum of 7.5-inches below ceiling

**Typical Mounting Height:** Typical Mounting Heights: 12 to 25 feet. The T5HO fixture's performance is comparable to a 250W Probe Start Metal Halide Low Bay fixture.

Lamps ordered separately.  
See page 67.

## 4-Lamp T5HO

- Lamp Type: 54W T5HO (sold separately see pg 67)
- Program start universal voltage (120-277V) ballast
- Pre-installed captive reflector mounting screws

**CAT.# E-LF34X54U**

**\$84<sup>90</sup>**

**SKID PACK (30 FIXTURES)**

**CAT.# E-LF34X54U30**

**\$79<sup>90</sup>**

**Skid pack total price**

**\*\*\$150 total savings or \$5 per fixture\*\***

**\$2397<sup>00</sup>**

## Features:

- Supplied with white reflector
- Quality die-formed galvanized steel ballast housing and cover
- 120-277V electronic universal voltage ballasts
- Includes two wire-form hangers for mounting
- Access cover for 3/4" conduit and wire entry for hard wiring
- Recommended minimum operating temperature 40° F (5° C)**
- 18" wide design is suitable for use in applications with sprinkler systems installed in accordance with NFPA 13 and Factory Mutual codes
- UL Listed for damp locations
- 5-year fixture warranty

Compact design with folding arms for ease of transportation and on the job storage.

Folding arms lock in place, no tools required.

## Accessories: (Available with fixture purchase only)

Motion Sensor Kit with Hi-Lo Selector Switch

- Converts E-LF34X54U to provide 360° Motion Sensing
- Switch Selectable Low Mode ("All Off" or "Partial Off" = 2 Lamps)
- Prewired harness for ease of installation – simple Plug-N-Go
- Adjustable Low Mode Time Delay

**CAT.# E-LFK3S**

**\$59<sup>90</sup>**

- Provides 800 initial lumens

**CAT.# E-ACLP08D**

**\$89<sup>90</sup>**

- Provides 1400 initial lumens

**CAT.# E-ACLP14D**

**\$129<sup>90</sup>**

## Emergency Ballast Kit

- Mounts on the inside of E-LF34X54U housing.
- Allows for same fixture to be used for either normal or emergency operation.
- Operates one lamp for 90 minutes.
- Unit contains a battery, charger, and inverter circuit.
- Dual Voltage – 120V or 277V
- UL Listed 924 emergency ballast

Mounting/Safety cable  
Cable Length: 5-feet, field adjustable  
Note: Requires 2 per fixture if used for mounting

**CAT.# E-ACSC5**

# 6-lamp T5HO & T8 Linear Fluorescent

PRODUCTS THAT MEET **BUY AMERICAN**  
REQUIREMENTS WITHIN ARRA  
ARE DESIGNATED BY THIS SYMBOL.

**Applications** – Warehouses, industrial and retail sites.

**Note:** Fixtures must be mounted a minimum of 7.5-inches below ceiling

## T5HO

**White Reflector Typical Mounting Height:** 20 to 35 feet.

**Comparable Performance:**

400-watt Probe Start Metal Halide Low Bay.

**Specular Reflector Typical Mounting Height:** 25 to 45 feet.

**Comparable Performance:**

400-watt Probe Start Metal Halide High Bay.

## T8

**White Reflector Typical Mounting Height:** 15 to 30 feet.

**Comparable Performance:**

250 to 400-watt Probe Start Metal Halide Low Bay.

**Specular Reflector Typical Mounting Height:** 20 to 35 feet.

**Comparable Performance:**

250 to 400-watt Probe Start Metal Halide High Bay.

Factory installed ballast disconnect to meet 2008 NEC Article 410.130(G). Standard on all fixtures without emergency ballast.

GE® Lamps and Ballasts standard on T8 fixtures.

### 5-year fixture warranty

- Save time with factory installed options
- Save money on large job orders
- Increase flexibility with new specular reflectors

### Features:

- Quality die-formed galvanized steel ballast housing and cover
- High efficiency (95% Total Reflectance) **MIRO 4™ specular reflector** provides narrow distribution
- High reflectance (94% Total Reflectance). White painted reflectors provide medium light distribution.
- T5HO=120-277V programmed start electronic universal voltage ballast
- T8=120-277V instant start GE® UltraMax® High Efficiency ballast
- Includes two wire-form hangers for mounting
- Access cover for 3/4" conduit and wire entry for hard wiring
- Recommended minimum operating temperature 40° F (5° C)
- 24" wide design is suitable for use in applications with sprinkler systems installed in accordance with **NFPA 13 and Factory Mutual codes**
- Emergency Ballast option is Plug-N-Go
- 54W T5HO Luma® lamps available installed

- 32W T8 Standard or Premium GE® Lamps available installed
- Fixtures are custom manufactured specifically for your order and cannot be changed or cancelled
- Optional 6' cord factory installed
- UL Listed for damp locations
- **5-year warranty on fixture and electrical components**

### With Motion Sensor (consult factory for T8 pricing)

- Integrated 360° Motion Sensor
- T8=120-277V GE® UltraStart® electronic programmed start ballast
- Switch Selectable Low Mode ("All Off" or "Partial Off"; T5HO= 4 lamps off; T8 = 3 lamps off)
- Adjustable Low Mode Time Delay from 30 second to 20 minutes

**Note:** Fixtures must be mounted a minimum of 7.5-inches below ceiling

### Emergency Ballasts:

Single lamp field installable Plug-N-Go emergency ballast option available on 120-volt or 277-volt only.

- Easy field installation and maintenance of battery packs
- For use with E-conolight Linear Fluorescent fixtures only
- Will operate one lamp for 90 minutes
- Dual voltage (120V or 277V) fixture must be ordered with "E" option

- **Fixture must be purchased with "E" option, ballast required**
- Factory pre-wired for easy Plug-N-Go field installation
- UL Listed 924 emergency ballast

# 6-lamp T8

## Linear Fluorescent

PRODUCTS THAT MEET **BUY AMERICAN**  
REQUIREMENTS WITHIN ARRA  
ARE DESIGNATED BY THIS SYMBOL.

### Standard and Premium - What is the difference?

All T8 non-motion sensor fixtures come with GE® UltraMax® high-efficiency ballast factor of 1.18. The optional Standard lamp is the GE F32T8/SP/ECO Ecolux®. The optional Premium lamp is the GE extra life, high lumen F32T8/XL/SPX/HL/ECO. The combination of the UltraMax ballast and the XL/SPX high lumen Premium lamps meet or exceed all Consortium of Energy Efficiency (CEE) specifications and are suitable for most federal, state and utility rebate programs.

**All T5HO & T8 lamps are  
TCLP compliant**

To order T8 with motion sensor call us at  
888.243.9445 or visit [www.e-conolight.com](http://www.e-conolight.com).

# 8-lamp T5HO & T8 Linear Fluorescent

PRODUCTS THAT MEET **BUY AMERICAN**  
REQUIREMENTS WITHIN ARRA  
ARE DESIGNATED BY THIS SYMBOL.

**Applications** – Warehouses, industrial and retail sites. **Note:** Fixtures must be mounted a minimum of 7.5-inches below ceiling

## T5HO

**White Reflector Typical Mounting Height:** 30 to 40 feet.

**Comparable Performance:**

400-watt Probe Start Metal Halide High Bay.

**Specular Reflector Typical Mounting Height:** 35 to 45 feet.

**Comparable Performance:**

400-watt Probe Start Metal Halide High Bay.

## T8

**White Reflector Typical Mounting Height:** 25 to 35 feet.

**Comparable Performance:**

400-watt Probe Start Metal Halide High Bay.

**Specular Reflector Typical Mounting Height:** 30 to 40 feet.

**Comparable Performance:**

400-watt Probe Start Metal Halide High Bay.

Factory installed ballast  
disconnect to meet 2008 NEC  
Article 410.130(G). Standard on all  
fixtures without emergency ballast.

GE® Lamps and Ballasts  
standard on T8 fixtures.

### 5-year fixture warranty

- Save time with factory installed options
- Save money on large job orders
- Increase flexibility with new specular reflectors

## Features:

- Quality die-formed galvanized steel ballast housing and cover
- High efficiency (95% Total Reflectance) **MIRO 4™ specular reflector** provides narrow distribution
- High reflectance (94% Total Reflectance). White painted reflectors provide medium light distribution.
- T5HO=120-277V programmed start electronic universal voltage ballast
- T8=120-277V instant start GE® UltraMax® High Efficiency ballast
- Includes two wire-form hangers for mounting
- Access cover for 3/4" conduit and wire entry for hard wiring
- Recommended minimum operating temperature 40° F (5° C)
- 24" wide design is suitable for use in applications with sprinkler systems installed in accordance with **NFPA 13 and Factory Mutual codes**
- Emergency Ballast option is Plug-N-Go
- 54W T5HO Luma® lamps available installed
- 32W T8 Standard or Premium GE® Lamps available installed

- Fixtures are custom manufactured specifically for your order and cannot be changed or cancelled
- Optional 6' cord factory installed
- UL Listed for damp locations
- **5-year warranty on fixture and electrical components**

### With Motion Sensor (consult factory for T8 pricing)

- Integrated 360° Motion Sensor
- T8=120-277V GE® UltraStart® electronic programmed start ballast
- Switch Selectable Low Mode ("All Off" or "Partial Off"; T5HO= 6 lamps off; T8 = 4 lamps off)
- Adjustable Low Mode Time Delay from 30 second to 20 minutes

**Note:** Fixtures must be mounted a minimum of 7.5-inches below ceiling

## Emergency Ballasts:

Single lamp field installable Plug-N-Go emergency ballast option available on 120-volt or 277-volt only.

- Easy field installation and maintenance of battery packs
- For use with E-conolight Linear Fluorescent fixtures only
- Will operate one lamp for 90 minutes
- Dual voltage (120V or 277V) fixture must be ordered with "E" option

- **Fixture must be purchased with "E" option, ballast required**
- Factory pre-wired for easy Plug-N-Go field installation
- UL Listed 924 emergency ballast

**T5HO & T8**  
800 initial  
lumens

**CAT.# E-LNACLEB08D \$99<sup>90</sup>**

**T5HO**  
1150 initial lumens  
(Not for use on T8)

## Features:

- 120/208/240/277-volt CWA ballast HPF
- Sturdy die-cast aluminum housing
- Adjustable lamp position
- Rugged 4kv porcelain open-rated socket
- Wiring compartment with adjustable leveling feature
- 16-inch spun aluminum reflector
- Mount using threaded 3/4" conduit (by others) or with hook & cord accessory kit (see below)

- Maximum Ambient Temperature 35° C
- UL Listed for damp locations
- 1-year warranty

**Note:** Meets 2005 NEC code.

**Note:** Pulse start metal halide products supplied with open-rated lamp and open-rated socket.

**Note:** Quartz standby option (delay-relay) includes 100W Quartz lamp.

# Transformer (300W & 600W)

PRODUCTS THAT MEET **BUY AMERICAN** REQUIREMENTS WITHIN ARRA ARE DESIGNATED BY THIS SYMBOL.

Our 12-volt dual-circuit magnetic transformers are available in 300- and 600-watt. Rocker-type ON/OFF switches, with built-in circuit breakers provided for each 12-volt circuit. Breaker switches are thermally insensitive and allow each circuit to be switched independently.

Heavy-duty terminal lugs are provided for the 12-volt cable connectors. Terminals are provided for each circuit, making it easy to split branch circuits and loop systems. The 6-foot power cord plugs into a 120-volt GFI receptacle; unit may be permanently wired.

(shown with cover removed & optional photocell time clock)

**Transformer (manual control) 300W**  
8.2"L x 4.5"W x 4.8"D  
**CAT. # E-GX300**  
**\$114<sup>90</sup>**

**Transformer with Photocell/Time Clock 300W**  
12.6"L x 4.5"W x 4.8"D  
**CAT. # E-GX302**  
**\$149<sup>90</sup>**

**Transformer (manual control) 600W**  
15.6"L x 4.5"W x 4.8"D  
**CAT. # E-GX600**  
**\$174<sup>90</sup>**

**Transformer with Photocell/Time Clock 600W**  
20.3"L x 4.5"W x 4.8"D  
**CAT. # E-GX602**  
**\$209<sup>90</sup>**

## Photocell/Time Clock

The Photocell-ON/Time clock-OFF option means no daily manual control is necessary. Controlled by a photocell, the lighting will click on at dusk regardless of the season. The fixtures operate during a period of time determined by the user, then the time clock automatically turns the system off.

## 10/3 12V Cable With landscape transformer or fixture purchase only.

**10/3 Cable (black)**  
**CAT. # E-GC103K**  
**\$120** / foot

**10/3 Cable (white)**  
**CAT. # E-GC103W**  
**\$120** / foot

## Flexible Cable

E-conolight offers self-sealing, #10 gauge, 3-wire cable to allow longer runs without typical voltage drop.

The patented connector allows quick and easy connections without cutting or splicing cable.

## Features of 12V Cable:

- UV-stabilized
- Flame retardant
- Self sealing
- UL listed for wet locations

**10/3 Cable (black)**  
• 500' spool  
**CAT. # E-GC103KS**  
**\$499<sup>90</sup>**

**10/3 Cable (white)**  
• 500' spool  
**CAT. # E-GC103WS**  
**\$499<sup>90</sup>**

## 12/2 12V Cable

**12/2 Cable (black)**  
• 250' length spool  
• Includes 20 PVC Spines (E-GT1P122K) for 12/2 conversion

**CAT. # E-GC122K**  
**\$99<sup>90</sup>**

## Accessories:

**PVC Spine for 12/2 Cable**  
Adapts 2-wire cable to a 3-wire connector system. Use one per fixture for secure connection. 20 per package.  
**Not for use with Aluminum Track.**

**CAT. # E-GT1P122K**  
**\$240**

## Maximum Cable Run

Use the chart below to compare our 10/3 cable to typical 12/2 cable and see the advantage in distance and total wattage load. Figure total wattage (both circuits combined) for the fixtures used by referring to bottom of chart. Follow the line up until you reach the RED "10/3 Cable" line. Read across the chart to "Distance in Feet". This is the maximum recommended length of cable for your system.

To achieve optimum performance, e-conolight landscape products should be used with e-conolight transformers and cable. Field modification of product may lead to fixture malfunction or failure and void the product warranty.

**Applications** – For accenting architecture or lighting landscape areas.

• Stake & 18W lamp included

**CAT. # E-GP09K**  
**\$35<sup>90</sup>**

• Stake & 18W lamp included

# Directional / Step / Well Lighting

PRODUCTS THAT MEET **BUY AMERICAN**  
REQUIREMENTS WITHIN ARRA  
ARE DESIGNATED BY THIS SYMBOL.

**Applications** – For accenting architecture or lighting landscape areas.

**Directional Features:** MR16 lamps ordered separately. See page 69.

MR16 bi-pin 50W max  
E-GA07 friction-fit stake  
included.

**CAT. # E-GD80K**  
**\$19<sup>90</sup>**

PAR36 50W max  
E-GA07 friction-fit stake  
included.

**CAT. # E-GD81K**  
**\$54<sup>90</sup>**

MR16 bi-pin 20W max  
Stake included

**CAT. # E-GD20K**  
**\$24<sup>90</sup>**

- Die-cast copper-free aluminum housing
- Tempered glass lens
- Fixture is completely sealed and includes a silicone O-ring sealing system
- Fixture head rotates 360° and tilt range of 125° on the adjustable fitter
- 5' pigtail connector is molded polycarbonate, with nickel-plated beryllium copper contact pins
- E-coat epoxy primer with textured ultra-durable powder topcoat
- Die-cast copper-free aluminum lens frame with a shrouded profile (E-GD80K and E-GD81K only)
- Swivel is die-cast copper-free aluminum with threaded end 1/2"-14 NPSM. (E-GD80K and E-GD81K only)
- UL Listed for wet locations
- 1-year warranty

**Step Features:**

13W #93 lamp included  
**CAT. # E-GS50K**  
**\$22<sup>90</sup>**

(2) 13W #93 lamps  
included  
**CAT. # E-GS51K**  
**\$32<sup>90</sup>**

**STEP LIGHTS NOT  
SUITABLE FOR  
INSTALLATION IN  
POURED CONCRETE**

- Trims are heavy gauge die-formed aluminum with reverse louver
- Black stainless-steel hardware
- Louver extends 3/8" from surface of wall. Trim overlaps box 1/2" on all sides
- Solid, die-formed nickel-plated brass socket with stainless-steel spring
- 5' pigtail connector is molded polycarbonate, with nickel plated beryllium copper contact pins
- E-coat epoxy primer with textured ultra-durable powder topcoat
- UL Listed for wet locations
- 1-year warranty

**Well Features:** *Outdoor use only.* MR16 lamps ordered separately. See page 69.

MR16 bi-pin 75W max  
**CAT. # E-GW70K**  
**\$61<sup>90</sup>**

PAR36 50W max  
**CAT. # E-GW71K**  
**\$64<sup>90</sup>**

- Copper-free aluminum extrusion
- Die-cast copper-free aluminum lens frame
- Covers feature silicone sponge rubber gasket for watertight seal
- Maximum internal lamp aiming angle for MR16  $\pm 45^\circ$ ; PAR36  $\pm 20^\circ$
- Convex lens is borosilicate glass
- 5' pigtail connector is molded polycarbonate, with nickel plated beryllium copper contact pins
- E-coat epoxy primer with textured ultra-durable powder topcoat
- For outdoor use only
- UL Listed for wet locations
- 1-year warranty

PAR36 25-50W max  
Directional well light moves  
up and down tube  
**CAT. # E-GW23K**  
**\$25<sup>90</sup>**

PAR36 25-50W max  
Directional well light (does not  
move up and down tube)  
**CAT. # E-GW23SK**  
**\$18<sup>90</sup>**

- Extruded plastic housing
- 5' patented pigtail connector included
- Outdoor use only
- UL listed for wet locations
- 1-year warranty

See below for accessories

## External Glare Shield

Easily attaches to top cover of fixture with four black stainless steel screws (included). Not for use with E-GALG.

**CAT. # E-GAGS**  
**\$15<sup>90</sup>**

## External Linear Grate

Provides cutoff and glare control and protects lens from falling objects. Easily attaches to top cover of fixture with four black stainless steel screws (included). Not for use with E-GAGS.

**CAT. # E-GALG**  
**\$16<sup>90</sup>**

**Linear Grate**  
6.2" dia. Black cast aluminum  
For E-GW23SK only.

**CAT. # E-GALG23SK**  
**\$10<sup>90</sup>**

MR16 bi-pin base  
50W max (Wet Listed)

**CAT. # E-GKOMC2\***  
**\$23<sup>90</sup>**

- Micro Cylinder, die-cast aluminum housing with grooves.
- Approx. 135° tilt, 358° rotation
- Single adjustable locking knob, no tools required
- Tool-less lamp replacement with a screw-off lens holder
- Polyester powder-coated finish
- UL Listed for wet locations
- 1-year warranty

MR16 bi-pin base  
50W max

**CAT. # E-GKFB1\***  
**\$12<sup>90</sup>**

- Flat back, steel deep-drawn housing
- Approx. 135° tilt, 358° rotation
- No tools required
- Standard clear glass shield
- Tool-less relamping
- Polyester powder-coated finish
- UL Listed for dry locations
- 1-year warranty

T3 bi-pin base  
10W max

**CAT. # E-GKUC1\***  
**\$6<sup>90</sup>**

- Under cabinet lighting
- UL Listed for dry locations
- Reflector segments may be adjusted or removed to maximize light output
- 1-year warranty

PAR36  
50W max (Wet Listed)

**CAT. # E-GKGR2\***  
**\$21<sup>90</sup>**

- Gimbal ring, aluminum housing
- Double yoke with single locking knob to secure aiming angle
- E-coat epoxy primer with ultra-durable finish
- UL Listed for wet locations
- 1-year warranty

MR16 bi-pin base  
50W max

**CAT. # E-GKRB1\***  
**\$12<sup>90</sup>**

- Round back, steel deep-drawn housing
- Approx. 135° tilt, 358° rotation
- No tools required
- Standard clear glass shield
- Tool-less relamping
- Polyester powder-coated finish
- UL Listed for dry locations
- 1-year warranty

MR16 bi-pin base  
50W max

**CAT. # E-GKES1\***  
**\$16<sup>90</sup>**

- Square back, extruded aluminum housing and die-cast baffle
- Approx. 135° tilt, 358° rotation
- Single adjustable locking knob, no tools required
- Standard clear glass shield
- Tool-less relamping
- Holds up to a 50-watt MR16 low-voltage lamp
- Polyester powder coated finish
- UL Listed for dry locations
- 1-year warranty

MR16 bi-pin base  
50W max

**CAT. # E-GKNB1\***  
**\$17<sup>90</sup>**

- Notch back, die-cast aluminum housing
- Approx. 135° tilt, 358° rotation
- Vibration-resistant internal locknut adjustability, no tools required
- Standard clear glass shield
- Relamp by removing the front face of the fixture head (no tools required)
- External electronic transformer
- Polyester powder-coated finish
- UL Listed for dry locations
- 1-year warranty

MR16 bi-pin base  
50W max

**CAT. # E-GKGR1\***  
**\$26<sup>90</sup>**

- Gimbal ring, formed steel housing
- Polyester powder-coated finish
- Relamps from back of ring
- Approx. 180° tilt, 358° rotation
- Tightly riveted pivot points with internal spring washer
- No tools required
- UL Listed for dry locations
- 1-year warranty

## Accessories: \*Specify finish: White = W or Black = K

For use with 10/3 Cable only (ordered separately)

**4' Aluminum Track**  
**CAT. # E-GT4A\***  
**\$13<sup>90</sup>**

**T-bar Mounting Clip**  
(Qty. 2) For attaching track to T-Bar ceiling.

**CAT. # E-GATC9\***  
**\$4<sup>90</sup>**

**Feed Thru Box**  
5"sq. (plate) x 4"sq. x 0.6"H (cover). For cleaner appearance at a corner or at a cable entry location. One end supplied open, three knockouts provided.

**CAT. # E-GATC1\***  
**\$19<sup>90</sup>**

**Aluminum Spine/Cable Holder**  
**CAT. # E-GT1AK**  
**\$3<sup>90</sup>**

**Track End Cap**  
(Qty. 2) For cleaner appearance at track end.  
**CAT. # E-GATC3\***  
**\$1<sup>90</sup>**

**1/4" Drop Ceiling Spacer**  
(Qty. 6)  
**CAT. # E-GATC16W**  
**\$1<sup>20</sup>**

**Track Clamp**  
(for outdoor apps)  
Provides additional security for attachment of track head to track or cable holder. Recommended for track installed in trees, under exterior soffits, etc.

**CAT. # E-GATC14\***  
**\$6<sup>90</sup>**

**Corner Cover**  
3.3" x 3.3". For cleaner appearance where two tracks meet at 90°

**CAT. # E-GATC2\***  
**\$1<sup>20</sup>**

**End Feed Cover**  
2.4"L x 0.9"W x 0.6"H  
Snaps-on for cleaner appearance at track end.

**CAT. # E-GATC4\***  
**\$1<sup>20</sup>**

## LED Exit Sign with Battery Backup

**Applications** – For general purpose exit identification in indoor commercial, retail, or industrial applications.

Description	CAT.#	Price
Red Letters	<b>E-XPDRBW</b>	<b>\$13.40</b>
Green Letters	<b>E-XPDGBW</b>	<b>\$13.40</b>

### Features:

- Weight of 2.5 lbs. and energy consumption of 2.4-watts
- Letters on sign face are 6" tall
- Single/double face easily converts from double to single face. Blank face included for single face installations.
- Easy-to-remove and replace chevrons
- Wall mountable. Includes white canopy for top or side mounting.
- Sealed, maintenance-free nickel cadmium battery backup (90 min.)

## LED Edge Lit Exit Sign with Battery Backup

**Applications** – For general purpose exit identification in indoor commercial, retail, or industrial applications.

Description	CAT.#	Price
Red Letters, Single Face	<b>E-XESRBA</b>	<b>\$34.90</b>
Green Letters, Single Face	<b>E-XESGBA</b>	<b>\$34.90</b>
Red Letters, Double Face	<b>E-XEDRBA</b>	<b>\$44.90</b>
Green Letters, Double Face	<b>E-XEDGBA</b>	<b>\$44.90</b>
Recessed Mounting Kit, Aluminum	<b>E-XERC</b>	<b>\$17.90</b>
Recessed Mounting Kit, White	<b>E-XERW</b>	<b>\$17.90</b>

### Features:

- Weight of 3.0 lbs. and energy consumption of 1.3-watts
- Letters on sign face are 6" tall
- Adjustable anodized aluminum housing
- Clear acrylic single face or acrylic double face with silver insert
- Sealed, maintenance-free nickel cadmium battery (90 min.)
- Easy to install chevrons
- Includes black canopy for ceiling or wall (side or back) surface mounting

### Accessories

- Recessed mounting kit has adjustable, pre-installed bar hangers that adapt housing for mounting in suspended ceiling
- Weight of 3 lbs.
- Steel housing with anodized aluminum or white painted trim plate
- Mounting kit measures 14-9/16"L x 5-1/2"W x 3"H

## LED Exit Sign/Emergency Light with Battery Backup

**Applications** – For general purpose exit identification and emergency lighting in indoor commercial, retail, or industrial applications.

Description	CAT.#	Price
Red Letters	<b>E-XMDRB2W</b>	<b>\$29.90</b>
Green Letters	<b>E-XMDGB2W</b>	<b>\$29.90</b>
Remote capable w/red letters	<b>E-XMDRB2RCW</b>	<b>\$35.90</b>
Remote capable w/green letters	<b>E-XMDGB2RCW</b>	<b>\$35.90</b>

### Features:

- Weight of 9.3 lbs. and energy consumption of 10-watts
- Letters on sign face are 6" tall
- Single/double face easily converts from double to single face. Blank face included for single face installations.
- Includes two, fully adjustable T5 wedge base lighting heads, which can be top or side positioned. 6-volts, 5.4 watts each.
- Sealed, maintenance-free lead-calcium battery provides 90 minutes of emergency operation
- Easy to remove and replace chevrons
- Wall mountable from behind (single face only). Includes white canopy for top mounting.
- Remote capable model can accommodate 12 watts, 6-volts. See page 66 for compatible remote heads.

# EXIT SIGNS AND EMERGENCY LIGHTING FEATURES

- 120- or 277-volt
- Exit signs are supplied with energy efficient LEDs.
- Emergency Lights and LED Exit Signs have injection molded, UL94V-0 flame retardant, ABS white virgin plastic housing
- Push-to-test switch
- Charge/power-on indicator light
- Labor saving AC line latching
- Automatic low-voltage battery disconnect and brownout protection
- Listed and complies with UL924
- Complies with NFPA 101 Life Safety Code
- Suitable for damp locations, unless noted for wet-listed locations
- 1-year warranty

## Standard Emergency Light

**Applications** – For general purpose emergency lighting in indoor commercial, retail, or industrial applications.

Description	CAT.#	Price
Standard Emergency Light	<b>E-XYAD1106W</b>	<b>\$13.90</b>

### Features:

- Weight 4.1 lbs. and energy consumption of 4.9-watts at 120-volt (5.6-watts at 277-volt)
- Two adjustable heads with 5.4-watt, T5 wedge base lamps
- Sealed, maintenance-free, 6-volt, lead-calcium battery provides 90 minutes of emergency operation
- Includes universal mounting plate for easy installation over most standard Junction boxes for wall or ceiling mount applications

## Low Profile Emergency Light

**Applications** – For general purpose emergency lighting in indoor commercial, retail, or industrial applications.

Description	CAT.#	Price
Low Profile Emergency Light	<b>E-XYCD1106W</b>	<b>\$12.90</b>

### Features:

- Weight of 3.3 lbs. and energy consumption of 4.6-watts at 120-volt (5.2-watts at 277-volt)
- Two 5.4-watt, T5 wedge base lamps
- Sealed, maintenance-free, 6-volt, lead-calcium battery provides 90 minutes of emergency operation
- Includes universal mounting plate for easy installation over most standard Junction boxes for wall or ceiling mount applications

## Recessed Emergency Light

**Applications** – For general purpose emergency lighting in indoor commercial, retail, or industrial applications.

Description	CAT.#	Price
Recessed Emergency Light	<b>E-XMRDBW</b>	<b>\$36.90</b>

### Features:

- Weight of 12 lbs. and energy consumption of 11.4-watts at 120-volt (13.5-watts at 277-volt)
- Includes two adjustable T5 wedge base lighting heads, 6-volts, 10 watts each
- Steel housing and white painted trim plate
- Adjustable pre-installed bar hangers adapt housing for mounting in suspended ceiling
- Sealed, maintenance-free, 6-volt, lead-calcium battery provides 90 minutes of emergency operation

## Wet-Listed Emergency Light

**Applications** – For general purpose emergency lighting in indoor and outdoor commercial, retail, or industrial applications.

Description	CAT.#	Price
Bronze (to 0°C)	<b>E-XMTDZ</b>	<b>\$68.90</b>
White (to 0°C)	<b>E-XMTDW</b>	<b>\$68.90</b>
Bronze, cold location (to -20°C)	<b>E-XMTDCZ</b>	<b>\$84.90</b>
White, cold location (to -20°C)	<b>E-XMTDCW</b>	<b>\$84.90</b>

### Features:

- Weight of 4.2 lbs.; energy consumption of 3-watts (3.2-watts Cold Location)
- Die-cast aluminum housing, polycarbonate lens and mirror reflector
- Two 6-watt Xenon lamps for emergency mode
- Sealed, maintenance-free, 6-volt, nickel cadmium battery provides 90 minutes of emergency operation

# REMOTE-CAPABLE EMERGENCY LIGHTING FEATURES

- 120- or 277-volt
- 90 minutes of emergency operation provided by sealed, maintenance-free lead-calcium battery
- Push-to-test switch
- Charge/power-on indicator light
- Injection molded, UL94V-0 flame retardant, ABS white virgin plastic housing

- Automatic low-voltage battery disconnect and brownout protection
- Labor saving AC line latching
- Listed and complies with UL924
- Complies with NFPA 101 Life Safety Code
- Suitable for damp locations, unless noted for wet-listed locations
- 1-year warranty

## 22-watt Emergency Light, 6-volt Remote-Capable

**Applications** – For general purpose emergency lighting in indoor commercial, retail, or industrial applications with the flexibility of additional remote locations.

Description	CAT.#	Price
22-watt, 6-volt	<b>E-XYRD2206W</b>	<b>\$18.90</b>

### Features:

- Weight of 5.4 lbs. and energy consumption of 11-watts
- Two adjustable 5.4-watt T5 lighting heads
- 11-watt, 6-volt remote capability. See available remote head choices below.
- Universal mounting plate for easy installation over most standard Junction boxes
- For ceiling or wall applications

## 50/100-watt Emergency Light, 6-volt Remote-Capable

**Applications** – For general purpose emergency lighting in indoor commercial, retail, or industrial applications with the flexibility of additional remote locations.

Description	CAT.#	Price
50-watt, 6-volt	<b>E-XYRD5006W</b>	<b>\$53.90</b>
100-watt, 6-volt	<b>E-XYRD1006W</b>	<b>\$84.90</b>

### Features:

- Weight: 50-watt is 15.0 lbs., 100-watt is 24.6 lbs.
- Two adjustable 7.2-watt T5 lighting heads
- 6-volt remote capability: 50-watt has 35-watt capability, 100-watt has 85-watt capability. See available remote head choices below.
- 1/2" knockouts for conduit feed on top or back. 3/8" knockouts for conduit feed on side.
- Energy consumption: 50-watt is 15-watts, 100-watt is 28-watts

## 6-volt Remote Heads

Description	CAT.#	Price
5.4-watt, indoor	<b>E-XHS0506DW</b>	<b>\$5.90</b>
9-watt, indoor	<b>E-XHS0906DW</b>	<b>\$7.90</b>

\*Approximate Center Beam Candlepower.

- 1 - Use only in an enclosed fixture.  
Do not touch quartz bulb with bare hands.
- 2 - Keep combustible materials away from lamp.  
Do not use if lamp is scratched or broken.  
Use in fixtures rated for this product.

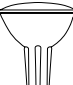

**NOTE:** The color temperature of incandescent lamps ranges from 2700K – 3100K.

## Incandescent Lamps (Line Voltage)

E-conolight carries a wide selection of incandescent lamps from Luma Lamps in a variety of wattages and lamp types – all 100% satisfaction guaranteed.

- 1 - Use only in an enclosed fixture.  
Do not touch quartz bulb with bare hands.
- 2 - Keep combustible materials away from lamp.  
Do not use if lamp is scratched or broken.  
Use in fixtures rated for this product.

# BUYING FROM E-CONOLIGHT

## Who We Are

E-conolight sells quality, low-cost lighting fixtures and accessories that cover a wide range of security and utility needs in residential, commercial, professional and industrial settings. Our products give you efficient lighting for less money. Our ordering and shipping systems help you to obtain your products easily and quickly.

## How to Order

You can buy e-conolight products from our web site, [www.e-conolight.com](http://www.e-conolight.com), or by calling toll-free, (888) 243-9445. Our Customer Service Department is available Monday through Friday 7 a.m. to 5 p.m. CT to take your order. Please double check the lamp type, size and wattage before ordering replacement lamps and verify the voltage for your specific application before ordering lighting fixtures.

—Para Español (888) 243-9339 —Fax (262) 504-5409

## Payment and Pricing

Prepayment is required for all products. We accept Visa, MasterCard, Discover Card, American Express and ACH Debit. All product prices are subject to change and exclude shipping and handling costs and state sales tax. E-conolight does not offer invoice terms. Volume discounts available on Linear Fluorescent and LED Recessed Retrofit Kits only.

## Shipping and Handling

- Poles/Bullhorns - Free shipping (Expedited Not Available)
- All orders that exceed \$250 - Free shipping
- Web site orders less than \$250 - \$10 shipping and handling
- Telephone orders less than \$250 - \$20 shipping and handling
- Orders from Alaska or Hawaii - Call to place order. Additional shipping & handling charges will apply.
- Expedited service orders - Call to place order. Additional shipping and handling charges will apply.
- We do not ship internationally. We can ship to a U.S. freight forwarder but shipping responsibility passes to you when your order leaves our factory.
- All shipments are F.O.B. origin; product ownership passes to you when it leaves our factory.
- Additional charges will be assessed when changing a shipment's destination.
- The customer is responsible for unloading goods. Please have the necessary unloading equipment readily available at the shipment destination.
- **Orders must ship to one location using the carrier of our choice to qualify for the free shipping.**

## Shipping Lead Times

(excluding poles and bullhorns—see page 25)

Orders received before noon CT during normal business hours, on in-stock items, are shipped from the Midwest on the same day. You can expect delivery within 3-7 business days depending on your location. Most orders ship via UPS ground. **Larger orders may ship via common carrier and require you to be responsible for unloading.**

## State Sales Tax

State sales taxes are levied on all orders. Orders that are tax-exempt for resale or exempt organizations will be accepted but not processed until a valid tax certificate is received. Fax, e-mail, or mail the valid certificate to:

## Copyright

The contents of this catalog and our website are the property of e-conolight and are protected by copyright law. No part of the materials, including graphics and logos, may be reproduced without the written consent of e-conolight. Distribution for commercial purposes is prohibited. Copyright 2011 e-conolight, LLC. All rights reserved.

## Order Acknowledgements

An e-mailed order acknowledgement is provided to all customers that provide a valid e-mail address. If a valid e-mail address is not provided, an order acknowledgment will be sent via postal mail or fax if supplied.

## Technical Support Line

For answers to technical questions, warranty returns or to report products damaged in shipping, please call us at (888) 243-9445, Monday through Friday, 7:00 a.m. to 4:30 p.m. CT. All e-conolight fixtures, unless otherwise noted, include lamp and a detailed Instruction Manual. Failure to notify E-conolight of shortages, shipping damage or other errors within 21 days of receipt will constitute an unqualified acceptance of shipment.

## Product Warranties (excluding poles and bullhorns—see page 25)

Warranties are shown with each product.

Product warranties exclude field labor/service charges related to the repair/replacement of e-conolight products and also those e-conolight products installed in corrosive environments. E-conolight reserves the right to change the warranty period without prior notice and without incurring obligation and expressly disclaims all warranties not stated in this limited warranty. We reserve the right to modify any of our products without prior notice and without incurring obligation.

## Cancellation & Return Policy

(excluding poles and bullhorns—see page 25)

New products with their packaging intact may be returned within 90-days from the original purchase date with the prior authorization of e-conolight. Final credit from a return will be determined after the returned product is inspected. A minimum 20% restocking fee will be assessed on all returns to cover the cost of inspection and repackaging. Shipping charges are non-refundable. When returning product, use a carrier that has tracking capabilities. The customer assumes responsibility for insuring the return shipment and filing the claim for lost or damaged returns. Call us Monday through Friday, 7 a.m. to 5 p.m. CT for a return authorization number. **Poles, bullhorns, and linear fluorescents are custom made and cannot be cancelled or returned. Discontinued products cannot be returned.**

## Replacement Parts

Contact our Customer Service Department if assistance is needed to acquire replacement parts and accessories.

## Specification Sheets

Available online at [www.e-conolight.com](http://www.e-conolight.com)

## Installation

Instruction manuals are included with each fixture and are also available online at [www.e-conolight.com](http://www.e-conolight.com)

## Security/Privacy Information

Our state-of-the-art security measures protect customer information from being lost, misused or altered. Your information is encrypted to ensure its confidentiality. All e-conolight customer information remains confidential. E-conolight does not sell or otherwise provide customer information to any other business or organization.

## Buy American Requirements

E-conolight products that meet Buy American Requirements, meet section 1605 of the American Recovery Reinvestment Act (ARRA).

## Environmental

Fluorescent and HID lamps contain mercury. Dispose of these lamps according to local, state or federal laws. For further information on local state or other requirements for disposal of mercury-containing lamps, see [www.lamprecycle.org](http://www.lamprecycle.org).
