

Spare parts
catalogue 2007/2008

New Burner Range

medium and high power (225 to 2400 kW)

E4

E5

E6

E7

- > Esthetic
- > Ergonomical
- > Technologically advanced
- > Silent
- > Easy to install and maintain
- > Compliant with the strictest anti-pollution standards

General conditions of sale, delivery and payment

1. These conditions constitute the law for the parties in relation to all the contracts that we conclude with our clients. Our clients' general conditions of purchase shall not be imposed on us, even when we do not expressly reject them. Any clauses stipulated in the margins or in the body of the purchaser's letters or order sheets that are contrary to these general conditions of sale may not be imposed on us unless they have formed the subject of special prior written agreement.

2. Our representatives are not empowered to make commitments on behalf of our Company, and are not empowered to receive payments or deposits unless special authorisation has been granted.

All the orders that we receive or which are taken by our representatives only become effective after written confirmation by us. No orders may be cancelled without our express agreement in writing. We retain the right to refuse such cancellation or make it subordinate to prior payment of compensation that represents the loss sustained.

Any addition, any additional amendment or proposal relating to the agreement that is forwarded to us by the purchaser must be confirmed by us in writing.

3. When delivery is requested as soon as possible, our prices are always those in force on the date we confirm the order. Our prices are always understood to be those in force on the date of delivery when this is set by the purchaser. Our prices are understood to exclude taxes, price from the point of departure (possibly carriage + VAT in addition). Our prices are calculated based on the raw materials rate, the prices for semi-finished or finished products, rates for labour, and direct or indirect tax expenses in force at the time our offers were drawn up.

Our prices may be reviewed in the event that the laws, decrees, orders, ordinances, arbitration rules or other measures of a compulsory nature either directly or indirectly modify the elements used as the basis for drawing them up.

The prices agreed to include solely the duly specified deliverables. Any deliverable that is not included in the contract or the quotation used as the basis for the order shall form the subject of special discussion between the client and ourselves and shall be invoiced separately. Under no circumstances may the conditions for additional deliverables prejudice those in the main order. The carriage costs (ex works) shall be invoiced in addition.

Unless otherwise stipulated, our prices are understood to include packaging.

4. All our invoices are payable to the head office at Annemasse, net and without discounts. Unless otherwise stipulated by us, all our deliverables shall be payable in 30 days of the invoice date.

In the event of cash payment, or in other words within eight days of the invoice date, a 1% discount is applicable.

Any repairs performed by us shall be paid for in cash, net, and without discounts.

Failure to pay an invoice by the due date shall immediately make any other debt owed to Elco payable by the debtor. Should the circumstances justify doing so, our Company may have to require payment in advance for certain orders, the payment of deposits, or request bank guarantees without these replacing these conditions of sale. Should there be failure to pay any sum owed by virtue of the sales contract by the due date, and in the event of failure to execute any of the purchaser's commitments whatsoever, the contract shall automatically be cancelled or terminated (as the case may be) should our Company deem fit to do so, without it having to complete any legal formalities, fifteen days after providing notification via a registered letter, concerning which no action has been taken.

In accordance with the provisions of the law, and subject to all our Company's other rights being reserved, the client is automatically liable to a late payment penalty, with this penalty entailing an interest rate equivalent to one and a half times the legal interest rate being applied to sums that remain owing on the due date.

Should the debtor's insolvency oblige us to assign our Disputes Department to handle the recovery of the sums

owed, in addition to the interest for extending the due date, these sums shall be subject to compensation set at 15 % of their amount. This increase shall be established as a penalty clause in pursuance of Articles 1226 and 1152 of the Civil Code.

5. The delivery times are understood to always be ex-works and shall commence as of the date we confirm the order, with this being subject to the proviso that all the conditions set out in our offer are fulfilled by the client.

In any case, the delivery times are only given as an indication and the client may not refuse merchandise supplied after the date indicated, claim penalties or damages, or request cancellation of the sale.

We are automatically released from any commitment relating to delivery times and, consequently, from any penalties or damage for lateness :

> Should the lateness be due to a case of force major or events such as lock-outs, strikes, epidemics, war, requisitioning, a shortage or raw materials, fuel, energy or labour, fire, floods, frost, accidents with tooling, a transport delay or ban, any other clause resulting in total or partial unemployment affecting us or our suppliers, changes by law to working hours or, lastly, any other occurrences which arise independently of our will or those of our suppliers,
> Should the payment agreements not be respected by the purchaser.

6. The delivery is carried out as soon as the merchandise leaves our warehouses, or in other words, as soon as the carrier takes responsibility for it (even if the latter party is appointed by us).

7. If the merchandise and the service provided by us are not agreeable to the purchaser either due to non-compliance, or due to an error of any nature whatsoever, a complaint will have to be lodged with our establishments via a registered letter within eight days of receipt of the merchandise by the recipient, and in any case before marketing or using the merchandise.

We only accept the return of merchandise upon prior written agreement by us, specifying the conditions under which the return shall be carried out.

In any case, returns shall be completed on a carriage paid basis.

8. Elco brand burners provide the right to a contract guarantee as stated hereinbelow for a period of twelve months from the date on which the burner is commissioned. This period may not however exceed fifteen months following the date of invoicing by our Company. This guarantee covers manufacturing and raw materials defects which can be attributed to the manufacturer and which are not due to poor use or implementation of the products, or negligence on the part of the client or user. In particular, it does not apply to replacements or repairs resulting from normal wear and tear, negligence, the intervention of unapproved third parties, or due to lack of monitoring, use of an inappropriate fuel, a non-complying voltage, failure to comply with technical standards in use and so forth.

The manufacturer's guarantee shall also be subordinate to the fact that there is full compliance in terms of the technology used for the installation operations.

The guarantee is limited purely and simply to the replacement of parts recognised as being faulty with new or repaired parts within a normal timeframe.

The costs for removal, refitting and returning faulty parts to our workshops, as well as the costs for sending back the repaired or replacement parts, shall be borne by the client.

The guarantee shall not apply if the client or user makes changes or carries out repairs on Elco equipment, or if the latter assigns a third party to do so without our Company's prior approval. Our Company will not accept any invoice relating to this type of work.

The manufacturer's guarantee excludes any recognition of liability for other damage. Our Company may not be led to bear other expenses or damages for any reason whatsoever, whether for direct or consequential losses sustained by the client or the user.

The contract guarantee shall not of course be applicable should the client fail to pay for the merchandise.

9. All our sales are concluded subject to retention of ownership. Consequently, transfer of ownership of the merchandise sold to the purchaser shall be suspended until full payment of the price. In the event of a cheque or commercial paper being presented, payment shall only be deemed to have been made once collection has actually taken place.

The risks shall be borne by the purchaser upon delivery of the merchandise sold, subject to retention of ownership. That party shall store the merchandise at its own expense. It shall be liable for damage caused by the merchandise from the time of delivery onwards. Until such time as the property is transferred for its benefit, the purchaser shall make sure that the identification labelling affixed to the merchandise by the vendor remains in good condition, in accordance with the particulars in the sales documents, and shall ensure that the merchandise mentioned on an invoice that has not been fully paid for shall remain specified and recognisable at all times. Any operation that would have the effect of being prejudicial to our Company having the opportunity to take back the merchandise "as is" or would change the legal status of all or part of the goods sold cannot be carried out without our Company's prior written approval and following payment of the balance of the price still owed in relation to the goods in question.

The purchaser may be allowed to resell the merchandise delivered as part of the normal operations of its establishment. It may not however pledge the merchandise, or transfer ownership over it as a guarantee.

Such authorisation is granted at our Company's discretion, which may withdraw it from the client at any time simply by providing a registered letter with acknowledgement of receipt.

In the event of the merchandise being resold, the client undertakes to inform our Company of this immediately by indicating the name and address of the subsequent purchaser to it, as well as the product's reference and the appropriate invoice number and delivery slip. In any case, authorisation shall automatically be withdrawn in the event of bankruptcy proceedings or liquidation.

The client shall feature merchandise subject to retention of ownership in the assets section of its balance sheet. The purchaser shall be obliged to use all legal means to oppose any claims by third parties to goods sold by means of seizure, confiscation or an equivalent procedure.

As soon as it is aware of it, that party shall inform our Company so that it can safeguard its interests. If it does not own the premises at which it conducts its business, it must inform the lessor of the legal status of the merchandise sold. Recovery of the goods claimed by our Company shall subject the client to the obligation to provide compensation for losses resulting from the goods in question being unavailable. Consequently, as a penalty clause, the client shall pay compensation set at 5% of the agreed price for each month the goods subject to recovery are held.

Should cancellation of the contract make the vendor a debtor due to deposits previously received from the client, it shall be entitled to compensate for this debt using the debt created pursuant to the penalty clause stipulated hereinabove.

10. Our Company is the exclusive owner of all documents (designs, plans, brochures) the client is provided with. The latter undertakes to respect the confidential nature of the documents that it may be forwarded and shall refrain from divulging them to third parties or from utilising them for its own use. The client shall be subject to these obligations for an unlimited period.

11. Notwithstanding any stipulation to the contrary, the courts in the jurisdiction of Thonon alone shall be empowered to hear any dispute that may arise regarding the conclusion or execution of agreements concluded with us, even in the event of the introduction of third parties or there being several defendants. In the case of an international sale, the legislation applicable shall be French legislation, unless there is express stipulation to the contrary in the special conditions.
