Foodservice Products
for
Plumbing Wholesale

(Part number format modified Jan. 3, 2011)

Why Elkay SSP Foodservice Equipment for Plumbing Wholesale?

Complementary Line - The Elkay SSP product line expands and supplements the existing Elkay foodservice offering.

Lead Times - Elkay SSP's large product inventory allows us to serve customers quickly and efficiently.

One Source - Whether you need one table or a complete kitchen, Elkay SSP can serve all your needs.

Easy Cleanup - Elkay SSP sinks are seamlessly welded, dipped and die stamped to ensure proper drainage and cleanup.

Certifications - NSF and CSA.

Quality - Our commitment to our clients ensures that you not only get the best quality product in the industry but the best customer service at the most competitive price.

Table of Contents	Page

Dish Tables	20-22
Tables and Stands	23-31
Storage	32-35

Elkay SSP Difference

Uniform satin finish on welded surfaces enhances the sinks appearance, provides superior cleanability and makes sanitation easy.

Coved corners provide increased styling and making cleaning easier

High quality, Type 300 stainless steel won't crack, chip or peel and ensures long-lasting operation

Legs are attached to the underside of the tubs, which allows for maximum use of space under the drainboards.

Note: Most Elkay SSP Commercial Stainless Steel Sinks include the above features (see descriptions specific to each sink family throughout this catalog). Most of these sinks can be equipped with an Elkay faucet. **To learn more please see our full line Commercial Faucets Catalog.**

For food Service Application

Visit us at Elkayusa.com for most current warranty information.

The Elkay SSP **16 Gauge Scullery Sink** line is the standard in the foodservice arena for medium to high volume locations.

14" Standard Series

The standard series are 14" deep sculleries which satisfy the vast majority of product specifications for the foodservice industry. Constructed of durable 16 gauge 300 Series stainless steel, these sinks are designed to serve all of your customers needs. All sink bowls are solid welded construction which supplies consistent metal gauge thickness throughout the total depth of the bowl. Available in a large variety of sizes to meet your specific needs.

12" Standard Series

This 16 gauge line of scullery sinks offers all of the same features and benefits as the above Standard Series, but with a shallower tub depth of 12". While most specifications will require 14" deep sinks, there are applications where 12" is acceptable.

Deli Series

This smaller footprint line of sinks are ideal for deli, mini mart and bar applications.

14" Standard Series

- 16 gauge 300 series stainless steel construction
- Welded construction for consistent metal gauge thickness throughout
- 14" deep tubs with 3/4" coved radius corners
- 2" divider between tubs
- All drain boards are die stamped for positive drainage
- 9" backsplash with tile ledge for easy installation
- 1-1/2" edge rim design
- 3-1/2" drain with basket strainers included
- 1-5/8" galvanized legs with 1" adjustable feet

The Elkay SSP **18 Gauge Scullery Sink** line is the benchmark with foodservice customers who have budgetary constraints.

Economy Series

The economy series are 12" deep sculleries that are constructed of 18 gauge 300 series stainless steel. All sink bowls are solid welded construction which supplies consistent metal gauge thickness throughout the total depth of the bowl. Our large variety of sizes allows you to pick the best product for the available space.

Super Economy Series

This 18 gauge 300 series stainless steel sink is offered in both 14" deep and 11" deep tubs. The scullery tubs are welded together so there is no 2" divider between each tub. Again, this style sink is offered in a variation of sizes to meet your requirements.

Economy Series

- 18 gauge 300 series stainless steel
- Welded construction for consistent metal gauge thickness throughout
- 12" deep tubs with 3/4" coved radius
- 2" divider between each tub
- All drain boards are die stamped for positive drainage
- 9" backsplash with tile ledge for easy installation
- 1-1/2" edge rim design
- 3-1/2" drain with basket strainers included
- 1-5/8" galvanized legs with 1" adjustable feet

We offer a full line of **Utility, Mop** and **Handwash Sinks** to round out our sinks portfolio of products for foodservice applications.

Our **Utility sinks** are similar in design to the sculleries in the previous section except that they have square corners instead of coved and do not carry an NSF listing. The sinks are designed for general purpose use (i.e., non-food zone applications).

The **Mop Sinks** are designed for heavy duty janitorial purposes.

Elkay SSP **Handwash Sinks** are specifically designed to meet health code requirements for foodservice applications. All hands sinks include a strainer and faucet. Our offering consists of a variety of hand sinks as well as different accessories and options to meet your needs. Whether requiring a hand sink with knee valves, side splashes, or soap and towel dispensers, we have what you are looking for.

Utility Sinks

- 16 gauge 200 series stainless steel
- Welded construction for consistent metal gauge thickness throughout
- 12" deep tubs with square corners
- 9" backsplash with tile ledge for easy installation
- 1-1/2" edge rim design
- 3-1/2" drain with basket strainers included
- 1-5/8" galvanized legs with 1" adjustable feet

**Dish Tables**

Elkay SSP **Dish Tables** are constructed of 16 gauge 300 series stainless steel. Our dish tables will fit most common style of dishwashers. We offer Soiled, Clean, and Under Counter Dish Tables. Fully fabricated tops and bowls guarantee the same thickness and durability throughout the dish table.

Soiled Dish Tables provide an integrated sink to allow initial rinsing of dishes before entering the dishwasher.

Under Counter Dish Tables are similar to soiled dish tables, but are designed for saving space. Instead of connecting to the side of the dishwasher it is installed under the stainless counter top. The user receives all the same benefits of the soiled dish table, and saves space.

Clean Dish Tables are designed to allow for connection to the outlet of commercial dishwashers.

CDT-48-LX

Elkay SSP has a large offering of **Work Tables, Equipment Stand** and **Mixer Stands** to meet your needs. We also offer optional casters and a variety of drawer styles that can be added to the work table upon request.

Deluxe Work Tables

Constructed of high-quality 16 gauge 300 series stainless steel, these work tables can be used in all three work zones of a foodservice location: Food, Non-food, and Splash Zones.

Budget Work Tables

Constructed of 16 gauge 400 series stainless steel, these work tables can only be used in Non-food zones. This allows for a more economical approach for non-critical foodservice applications.

Economy Work Tables

Same as Deluxe and Budget, but constructed of 18 gauge stainless steel.

Equipment & Mixer Stands

Elkay SSP Equipment and Mixer Stands are designed to handle various sizes of common foodservice equipment and mixers.

Deluxe Work Table

- 16 gauge 300 series stainless steel
- Two galvanized hat channels per table
- 1-5/8" heavy gauge tubing with fully adjustable 1" feet
- Available with undershelf or cross bracing
- 18 gauge under shelves are welded to adjustable galvanized leg rings that are secured with allen screws, wrench supplied
- Undershelf, cross bracing and legs available in stainless steel (STSX or BSX) or galvanized (STGX or BGX)
- Tables are shipped knocked down
- Work tables larger than 72" have 6 legs
- Backsplash models are 4" with 1" return

**Storage**

Elkay SSP stocks a variety of different styles of **Wall Shelves** and **Pot Racks**. Our offering consists of **wall shelves, microwave shelves, slant racks, and pot racks**. Our assortment of shelves allows you to pick the best product for your kitchen.

Elkay SSP **Aluminum Pan Racks** are designed to accommodate standard tray sizes. They are available in front or side loading, depending on the space available and specific functions needed.

Health Code regulations require that perishable goods are not stored on the ground. Our **Dunnage Racks** are used to keep food off the ground so you can meet the required regulations. They come in a variety of heights and sizes to best fit the space available.
