ENKEI MOTORSPORT

Enkei has been racing in top competition championships of the world for three decades. As a result of continuous improvement and technological advances, Enkei continues its winning tradition and constantly challenges new horizons in wheel technology.

ENKEI ACTIVELY PARTICIPATES IN DRIFT, FORMULA ONE, SCCA, SUPER GT, SUPER TAIKYU and WORLD RALLY CHAMPIONSHIP.

FUJIN **NEW** TUNING SERIES 17, 18 **FOR 2011**

Silver

The new FUJIN is ENKEI's first lightweight Tuning wheel. It is a light weight street wheel designed for the everyday driver but with added MAT technology performance benefits.

Having a light weight wheel helps improve braking, acceleration and can even help with fuel economy. You'd be surprised how much difference a few pounds makes. Named after the Japanese god of wind, the Fujin is bound to help you breeze through traffic not only with style but with better overall performance.

SBC (SPECIAL BRILLIANT COATING)
Breakthrough technology has enabled ENKEI to achieve a chrome-looking finish using synthetic coating and cosmetic techniques. SBC delivers a brilliant metal finish without the high maintenance associated with chrome and is used by ENKEI for the Racing Series line to maintain lightweight characteristics and enhance the finish of the wheels.
