**ERG**international

# WELCOME!

ERG International is a proud Green Company.

Since we began manufacturing in 1981, ERG International has been dedicated to improving our environmental stewardship, knowing the choices we make today are shaping the world of tomorrow.

Through ERG's Green Program, any potential product additions are defined by its level of sustainability in regards to longevity, making every effort to ensure all components are recyclable; i.e. wood, metal, aluminum, plastics, fabrics and foam. Our ultimate goal in manufacturing is to manage as little waste as possible in respect to energy efficiency, water savings and materials selections.

ERG does not use any toxic chemicals in the manufacturing of our products. Since 1994, ERG has successfully used ONLY water-based and water-soluble wood stains, sealers, lacquers, glues and adhesives. 98% of all wood used in the making of our furniture is from certified forests backed by the FSC (The Forest Stewardship Council) and the SFI (Sustainable Forestry Initiative).

We reclaim as much powder coat paint as is physically possible, achieved through a reclaiming process used with our in-house equipment. We use only recyclable and/or biodegradable cardboard, paper and plastic for packaging our products. All usable excess wood is used for manufacturing pallets and crates used in shipping. All excess steel is sent to a local recycling center every week.

ERG's Green Program will continue to find ways to improve our manufacturing processes. ERG International is committed to our customers and our planet! Visit us online to learn more: [www.erginternational.com](http://www.erginternational.com)

## GUARANTEED VALUE FREIGHT PROGRAM

ERG International offers a GUARANTEED VALUE FREIGHT PROGRAM which is a guarantee of freight charges. Freight charges are calculated before your order is placed so the customer knows exactly what freight costs will be on the order. The freight charges will be prepaid and added to your invoice based on a percentage of your net purchase order.

ERG International offers a GUARANTEED SAFE SHIPPING PROGRAM to your destination provided you select our GUARANTEED VALUE FREIGHT PROGRAM. This means that if you choose our freight program, we guarantee that your furniture is free of damage. If for some reason the furniture does come in damaged, ERG will handle the complete freight claim and reship the replacement furniture to you free of charge! This is our Guaranteed Safe Shipping Program that is considered to be the best in our industry.

## ERG's 10 YEAR PRODUCT WARRANTY

ERG International warrants to the original purchaser of new products to be free from defects in material, workmanship and specification for a period of ten (10) years under conditions of normal use and maintenance, exceptions are listed in the price list. If such a defect causes failure of the product or a portion of the product, ERG International at its sole discretion will either repair or replace the defective product at no charge to the original purchaser. This warranty policy includes structural components and table frames.

ERG maintains a consistent outstanding OSHA rating for a healthy workplace

USGBC and related logo is a trademark of the U.S. Green Building Council and is used by permission

SOLID SURFACES

ERG provides in-house fabrication of Solid Surface and Acrylic table tops. ERG is certified in the manufacturing of solid surface products from (ISSFA) International Solid Surface Fabricators Association. In order to maintain quality control and our design features, all manufacturing is done in our factory. Please call for special pricing for your next project. We welcome your inquiry. Featured below are some of the solid surface products that we have custom manufactured and the edge profiles available.

Laminate storage drawer available with locking option

## COMPUTER ACCESSORIES

Under surface slide out CPU holder

Fully-articulating monitor arm

Fully-articulating adjustable height keyboard support with reversible mouse pad

## DOLLIES

Flat storage dolly also available for rectangular and round tables

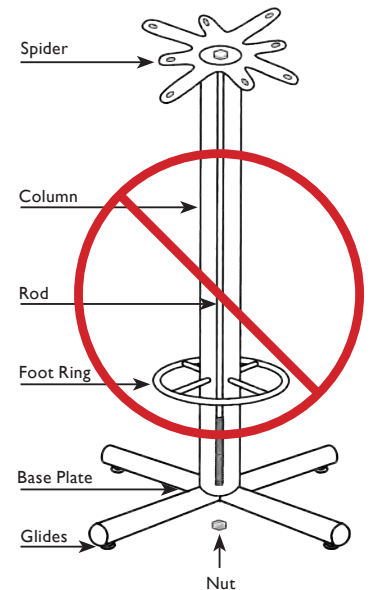

## ERG's QUALITY MADE TABLES

- Our "top to base fit" guarantees the strongest table. All tabletops are shipped with pre-installed metal inserts to attach the base to the top with four machine screws. NO WOOD SCREWS ARE USED (wood screws will loosen over time and weaken the strength of the top as they are inserted directly into the wood core).
- Our Tabletop core material has no added urea formaldehyde. ERG complies with the California Air Resources Board (CARB) regulations and is CARB Phase I and Phase II compliant.
- Our factory uses ONLY 100% water-based products, including stains, lacquers, and adhesives.
- All welds are hand brazed and polished smooth. ERG gives you a truly complete one piece metal base. This means that you do not have to assemble the top plate, column and bottom base together as we have assembled and welded it for you.
- ERG sandblasts ALL METAL COMPONENTS including Table Bases which gives you the best powdercoat paint adherence in our industry!
- Most of our Table Bases have self-leveling adjustable steel glides. These specialty glides allow table leveling on the most uneven of floors.
- We are so confident in our packaging department that we GUARANTEE safe delivery 100% of the time. If you have ANY freight damage, ERG replaces the furniture Free of Charge. You do not need to handle freight claims! This is ERG's hassle-free freight Guarantee.
- ERG offers a Standard 10 YEAR WARRANTY. We build Contract Quality Furniture, and we build it to last a lifetime!

ERG table bases are fully welded, guaranteeing optimum durability. The competition will offer you a 'Tie-Rod Assembly' which loosens over time.

USGBC and related logo is a trademark of the U.S. Green Building Council and is used by permission

ERG maintains a consistent outstanding OSHA rating for a healthy workplace.

## ERG'S STATE-OF-THE-ART FACILITY

Unlike most major furniture manufacturers, which hire sub-contractors to make their parts, ERG fabricates nearly all of it's components in-house at the Oxnard, California manufacturing facility.

In-house metal fabrication center. Capabilities include: stamping, cutting, bending, rolling, welding and more!

We also keep thousands of linear feet of solid and tubular metal stock on hand

ERG carries full stock of hardwoods and engineered panels.

Cabinet/Casegoods fabrication

Straight-line 3mm and self edge bander

4-Axis KOMO machining center

Cube/Cylinder fabrication

T-mold machine

In-house Conveyorized Powder Coat application center

4-Axis CNC router with 3mm universal edge bander

Thermwood 67 with 5-Axis CNC contour router

In-house hand finishing and custom wood-working department

## Precision Engineered Tables - Made In The USA

ERG International is proud to be celebrating over 30 years of providing high-quality, American-made contract furniture to markets, including Higher Education, Health Care, Hospitality, Public Spaces, Food Service, Contract, and GSA.

ERG International is a member of the United States Green Building Council. Since 1994, ERG International has been successful in meeting California's strict Environmental Protection Agency (EPA) standards and utilizes recycling and recycled materials at every opportunity.

ERG International's production process is low-emitting and surpasses the indoor air quality standards for VOC's. We use only water soluble glues, adhesives, paints, stains, and finishes throughout our manufacturing facilities. We use no added urea formaldehyde products and we are CARB (California Air Resources Board) Phase I and Phase II compliant.

ERG International's products qualify for LEED credits.
