# Productive Workplace GloWear® High Visibility Apparel with Imprinting

**Issue:** New safety regulations mandate the use of ANSI/ISEA 107 high visibility garments for workers on US highways and roads.

**Application:** Ergodyne's GloWear® High Visibility apparel keeps workers in compliance with the new federal rules regarding ANSI/ISEA 107 standards. The GloWear® line is loaded with safety features like 3M Scotchlite Reflective Material and ANSI-certified background materials that improve worker visibility.

**Recommendation:** Personnel working within the right of way of any federally-aided highway exposed to traffic or construction equipment must wear high visibility safety apparel that meets ANSI/ISEA 107 Class 2 or Class 3 requirements. GloWear® High Visibility apparel from Ergodyne features a number of vests and jackets that meet these requirements. Most GloWear® High Visibility apparel can also be imprinted.

## High Visibility Apparel Imprinting Program:

### Terms of Service:

**Minimum Order:** 24 pieces

### Lead-Times:

Logo Products:	*Initial order	3 weeks
	Repeat orders	1 week

\*After approval of art and receipt of purchase order.

### Art Requirements:

Camera-ready artwork is required. EPS-format files work best, we will accept high resolution TIF or JPG files (300 dpi or greater). Please include PMS/Pantone colors if applicable. A digital mock up will be provided with all orders. The mock up must be approved by customer prior to order submission.

### Here's How It Works:

Just call your local Grainger branch, or your local Grainger account manager and we'll take care of the rest. To find the Grainger Branch nearest you go to [grainger.com](http://grainger.com) for a complete branch listing.

For more information contact your Grainger Representative.

\*These are special order items that will be shipped directly from the manufacturer.
