CASCADA

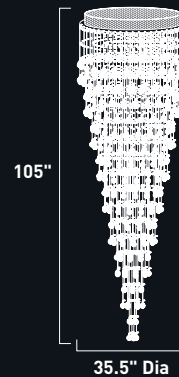

A natural wonder sculpted in glass, the Cascada evokes the feeling of a rain shower in a graceful swirl of Egyptian crystal spheres. The rainfall that is evoked by the large and small crystals is made possible by their suspension from strands of sheer monofilament that hang in natural torrents from a chrome flush mounted canopy with puffed metal-vented trim. A conversation piece wherever it's placed, the Cascada illuminates drama on a grand scale.

ELEMENTS

The Elements collection offers the freedom of choice in lighting design. Start with the style selection - pendant, mini pendant, or wall sconce - then choose the right shape, square or circular, for the space. Wrap the selected Oil Rubbed Bronze or Satin Nickel lamp in one of two color options that will make just the right statement: Grass Cloth or White Weave. Finally, choose the perfect light source for the task. Whether fluorescent, xenon, or incandescent, this collection brings together all the right elements.

Modern art meets modern light, the Wink collection combines form and function in a unique, wall-mounted hemisphere. Powerful, but hidden, Xenon lamps spill light through elliptical orifices in the dome refracting and diffusing the warm glow. In Polished Chrome, reflections radiate and add to the dance of light; a Satin Nickel finish creates a more subtle effect; and Matte Black makes an understated impact.

NUCLEUS

Circle meets the square in the contemporary pendant Nucleus collection. The sophisticated design of the double layer Clear/White glass shade speaks volumes as to the truth of less equaling more. Clear-glass spheres define the unique profile of this exquisite kitchen island/billiard application. And nestled inside each sphere is an inner cube of opal glass which holds a xenon light source, secured by a Polished Chrome lamp holder and a Brushed Aluminum frame.

LARMES

A simple idea gracefully executed in the Larmes collection. Row upon row of Clear oversized teardrops, mounted onto an extended Polished Chrome lamp holder that supports xenon lamps sets the stage. Individually adjustable drops for custom stagger effects allow for dramatic impact. An added benefit of each drop being aircraft cable-suspended is the ability to adjust the overall height of the piece to fit the space. The overall result is stark and stunning.

STARBURST

Nathaniel Parker Willis once wrote "There they stand, the innumerable stars, shining in order like a living hymn, written in light". The Starburst collection evokes a story with the amazing multi-light pendants available in Clear, Amber, Mesh, Threaded or Mirror Chrome. Each burst of color is suspended within its own glass globe, adding to the unique tale of the design. Chrome hardware and a satin nickel finish canopy completes each structure, adding an essential touch to enhance any designers' space. overall height of the piece to fit the space. The overall result is stark and stunning.

ORB

Brilliant Xenon lamps radiate from the center of perfect spheres in the Orb Collection. Clear Bubble glass allows for a brilliant glow as it mimics the fluid play of water and air and adds a theatrical sense of drama to the room. The restrained use of Polished Chrome complements the globes without detracting from their ability to mesmerize onlookers with an innate mystery.
