FastCap® Peel & Stick Cover Caps

PROBLEM

Got holes?

FASTCAP'S SOLUTION

We've got caps!

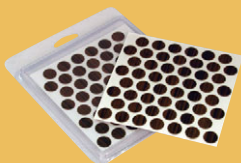

Set yourself apart...**Fastcap™** is the finishing touch to a professional job! **Fastcaps™** are self-adhesive cover caps made with high performance acrylic "Ultra-Bond™" PSA adhesive which increases in strength as it cures, providing a long lasting permanent bond. **Fastcap™** are fast and easy to install and stick like a bad habit. Made of durable PVC, unfinished wood and pre-finished real wood, they work in a wide variety of applications from covering screw holes and RTA fittings, to trimming out plumbing cutouts in sink cabinets. Check out all of the **Fastcap™** shapes and sizes and their applications on pages 6 and 7. Custom sizes and colors also available. For available colors and materials, see page 5. To find part #'s for **Fastcap™** & **Fastedge™**, go to page 9.

No ironing!

PEEL & STICK EDGEBANDING

PROBLEM

Iron-on edgebanding

FASTCAP'S SOLUTION

Peel & Stick edgebanding

Finally, you can throw away your edgebanding iron!

Tired of waiting for things to heat up? Made with a high performance, "Ultra Bond™", PSA adhesive, **Fastedge™** is peel & stick edgebanding that is fast and easy to use! Simply peel off the liner, stick, roll and trim and you are done! **Fastedge™** is great for normal production, as well as the perfect solution for field repairs, inside and outside radii, scribe tape, and countless other applications. Durable and easy to use, **Fastedge™** is made from high quality PVC and real wood veneers. Our high performance acrylic "Ultra Bond™" PSA adhesive increases in strength as it cures, providing a long lasting permanent bond.

Available in standard widths of 3/4" and 15/16", custom widths of 1/4" to 5" in all stock colors and custom colors up to 15/16", see available stock colors on page 5. Refer to page 9 for Fastedge and Fastcap part #'s.

Packaging for Fastedge

• 25 ft roll

• 250 ft roll

• 50 ft roll

• 600 ft roll

Application Techniques

Taking the memory out of the roll

Flatten Fastedge by using the edge of a table or work bench. Use one hand to hold one end and pull through at 45° to remove curl.

FREE Samples Available!

Some of the accessories

Great for one-off caps

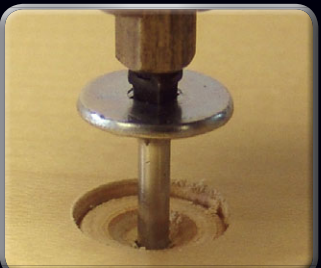

1. Apply SpeedTape to back of edgbanding

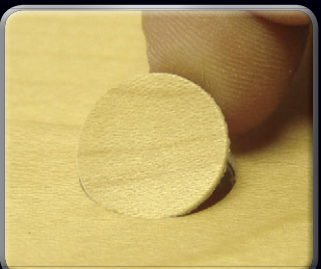

2. Cut desired cap size

3. Drill hole

4. Insert PowerHead Screw

5. Place Fastcap over screw

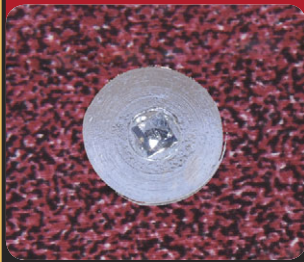

A FIRST AID KIT

FOR CABINETMAKERS

Custom Color Punch Kit™

PROBLEM

How will I match this?

FASTCAP'S SOLUTION

With the Custom Color Punch Kit!

For use with .018 to .022 edgbanding and veneer.
Not recommended for plastic laminate, but will work in a pinch!

3 precision dies included!

Do you only need a few Fastcaps™? Need them in a custom color? Make your own custom color Fastcaps™. The Custom Color Punch Kit™ comes with 3 die sizes: 3/8", 9/16" and 18mm.

Apply SpeedTape™ to your material and punch the caps you need with the Custom Color Punch Tool™. Take it a step further by countersinking the screw with the Micro FlushMount DrillBit™ and applying your custom made 9/16" cap flush with the surface. The finishing look to a professional job!

Custom Color Punch Kit:

- FlushMount DrillBit™ System with 9/16" carbide cutter
- Hard shell case
- 3/8", 9/16", 18mm dies
- Hole Punch Tool™
- Sample PowerHead Screws™
- 1" x 50' SpeedTape™

Pro Custom Color Punch/Drill Kit:

- Includes everything above plus 3/8" and 18mm carbide cutters for the FlushMount DrillBit™ System

Flushmount DrillBit™ is included with the hole punch kit, not the single hole punch - \$50.00 value!

Coming Soon!
Available October 2010

Inventor of Laminate Ejector Pin attachment,
Darrell F. White

| Description | Part Number | USD |
|----------------------------------|---------------------|----------|
| Custom Color Punch Tool | HOLE PUNCH - SINGLE | \$60.00 |
| Custom Color Punch/Drill Kit | HOLE PUNCH KIT | \$99.00 |
| Pro Custom Color Punch/Drill Kit | HOLE PUNCH PRO KIT | \$129.99 |
| Ejector Pin for Laminate | HOLE PUNCH EJECTOR | \$7.50 |

MICRO FLUSHMOUNT DRILLBIT SYSTEM with Carbide Bit.

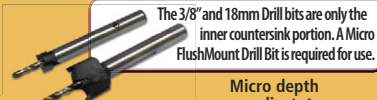

Above the surface

Flush with the surface

- Unique ball bearing stop collar that controls the recess depth of the drill
- Stop collar stops the bit from spinning when it comes in contact with the surface
- Won't mar the surface!
- Drills a perfect hole and pilot hole
- Both pilot bit and countersink bit are totally adjustable
- Great for countersinking wood veneer caps and PowerHead Screws

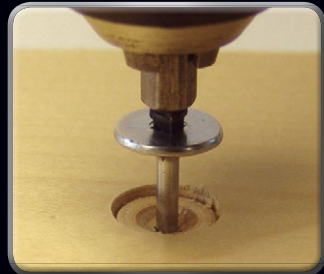

We recommend making the cover caps with the *Custom Color Hole Punch* to ensure a perfect fit. Includes two extra pilot bits with every drill.

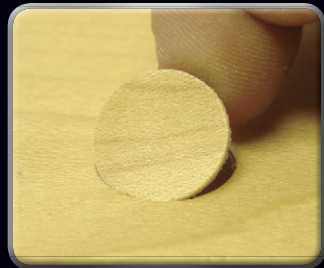

| Description | Part Number | USD |
|-----------------------------|-------------------|---------|
| FlushMount DrillBit (3/8") | FC.DB.3/8 | \$18.00 |
| FlushMount DrillBit (9/16") | FC.DB.9/16.MICRO | \$50.00 |
| FlushMount DrillBit (18mm) | FC.DB.18MM | \$20.00 |
| Inner Bit Replacement | FC.DB.MC.INNERBIT | \$5.00 |

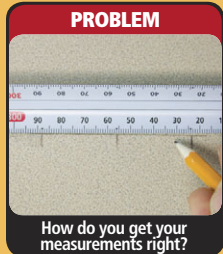

Drill a hole

Countersink screw

Cover with a Fastcap

Have you ever had a small job where you needed the line bore panel for adjustable shelves or hinge plates? The new **Layout Tape** from FastCap is fast, easy, and accurate. It comes with 32mm spacing for drilling 5mm shelf pin holes and has a 37mm offset from both edges. Simply line the tape up and start drilling. Another innovative product "designed by a cabinetmaker."

| Description | Part Number | USD |
|----------------------|-------------|---------|
| Layout Tape 60' roll | LAYOUTTAPE | \$14.99 |

Layout Drill Bit™ (5mm drill stop)

Patent Pending

The **Layout Drill Bit** has an integrated ball bearing stop, which allows you to drill precise, chip free, 5mm holes at the correct depth every time leaving no surface marks. The ball bearing stop spins freely while providing precise depth adjustment. To adjust the depth, simply loosen and tighten with an allen wrench. This allows movement of ball bearing stop up and down the shank of the drill. Designed to work in combination with our **Layout Tape** for 32 mm European style adjustable shelving. Also available as a system which includes the **Layout Drill Bit** and the **Layout Tape**.

| Description | Part Number | USD |
|------------------|------------------|---------|
| Layout Drill Bit | LAYOUT DRILL BIT | \$15.00 |
| Layout System | LAYOUT SYSTEM | \$25.00 |

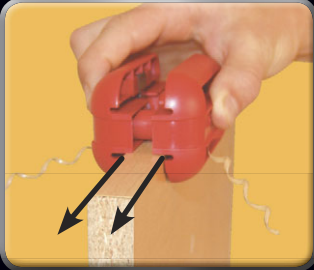

With wood, trim with the grain

When trimming solid wood, take trimmer apart and trim one edge at a time, with the grain to avoid tear out.

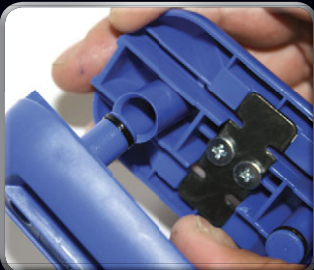

Trimming one edge at a time

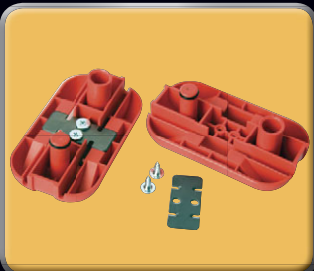

Trim both edges (PVC only)

No springs to lose!

Close up pneumatic action

Easy to change blades

High Carbon Steel

Tungsten Carbide

PROBLEM

Chisel one side at a time

FASTCAP'S SOLUTION

Trim both sides at once!

GREAT FEATURES!

- No springs to lose
- Super smooth action
- Replacement blades available
- Comfortable, ergonomic design
- Lasts twice as long as a conventional trimmer
- Trims both directions, both sides, top and bottom
- **NEW** carbide blades last 10x longer than steel blades!

QUAD TRIMMER

The last trimmer you will ever buy!

QUAD TRIMMER PRO

| Description | Part Number | USD |
|---|-------------|---------|
| Quad Trimmer w/ Carbon Steel Blades | Q.TRIM | \$19.95 |
| Quad Pro Trimmer w/ Tungsten Carbide Blades | QPRO.TRIM | \$39.95 |
| Carbon Steel Blade Replacements | Q.BLADE | \$10.00 |
| Tungsten Carbide Blade Replacements | QPRO.BLADE | \$26.00 |

SpeedTape™

**ULTRA
ACRYLIC
BOND**

Contact cement on a roll!
"Ultra Bond™" transfer adhesive.

PROBLEM

Contact cement overspray

FASTCAP'S SOLUTION

No mess, no stress!

SpeedTape™ features:

- Same great adhesive you came to appreciate with **Fastcaps™** and **Fastedge™**
- Made with high performance acrylic "Ultra Bond™" double-sided PSA adhesive
- Increases in strength as it cures, providing a long lasting permanent bond
- Totally waterproof and is rated from -30° to 250°
- Available in 1", 1.5", 2" and 6.5" wide by 50' rolls
(*custom widths also available up to 54" wide*)

As always, do a test to ensure the application is suitable for your project. Finishing veneers with **SpeedTape™** is critical. Always follow finishing instructions precisely.

SpeedRoller^{PRO}™

LAMINATE ROLLER

PROBLEM

Clunky and awkward

FASTCAP'S SOLUTION

Ergonomic and easy

The SpeedRoller^{PRO}™ is an ergonomic laminate roller that can be used for any PSA application - especially **Fastedge**™ & **SpeedTape**™. The SpeedRoller^{PRO}™ includes 2 sets of interchangeable wheels.

- Rubber wheels for non-marring applications

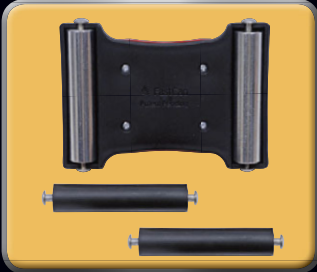

- Removable wheels for easy cleaning
- For any PSA or contact cement application

- Steel wheels for maximum PSI

The SpeedRoller^{PRO}™ comes with two metal and two rubber wheels for every possible situation. Steel wheels provide maximum psi, rubber wheels guarantee a non-marring job in applications with delicate materials.

| Description | Part Number | USD |

EMT Kit

Mix and match to suit your needs!

EMT comes in 10' lengths and is sold at most hardware stores. By utilizing EMT, you can create a custom-sized **3rd Hand System** capable of reaching over 22'!

Kit includes...

- (1) 3-H Pump Jack Mechanism (150lb. load capacity)
- (1) Micro Adjust Adapter
- (2) Universal Feet – 6" x 6"
- (2) 3-H Feet – 3" x 3"
- (1) 3-H Magnetic Dust Barrier Foot
- (1) 24" Connector Pole (to connect two EMT sections together)

Used in conjunction with EMT (Electrical Metallic Tubing) the **3rd Hand EMT Kit™** allows you to reach heights of 22'. At extended lengths this system should only be used as a dust barrier system. (EMT and couplers not included with kit.)

Not recommended as a load-bearing device.

| Artisan Desk Plane (Ebony Desk bench, Euro plane & 2 boards) | PLANE DESK SET | \$49.98 |

1/16" Artisan Radius Plane™

For the Love of Wood

The 1/16" **Radius Plane™** from FastCap® is a work of art. It is handcrafted and made with solid ebony, brass and precision machined steel. To hold it in your hand is to know why you love woodworking. This plane is excellent for relieving sharp edges on hard and soft woods.

Patent Pending

| Description | Part Number | USD |
|----------------------------|--------------|---------|
| Artisan 1/16" Radius Plane | PLANE-RADIUS | \$25.00 |

Artisan Accents™ **NEW** & Mortise Tool

Turn of the century craftsmanship with the tap of a hammer. Available in three sizes: 5/16", 3/8" and 2", create a beautiful ebony pinned look with the **Mortise Tool™** and **Artisan Accents™**. Combining the two allows you to create the look of Greene & Greene furniture in a fraction of the time. Everyone will think you spent hours using ebony pins, flush cut saws and meticulously sanding. **"Stop The Struggle™"**

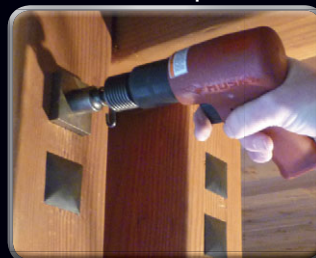

1. Identify where the pin needs to go and tap with the **Mortise Tool™** to make the Accent divots.
2. Install a trim screw, if using one (it is not necessary; the Accents can simply be decorative).
3. Align the **Artisan Accent™** in the divots, tap with a hammer until the edge of the Artisan Accent™ is flush with the edge of the wood and you are done! **Note:** Apply a dab of **2P-10™ Jël** under the **Artisan Accent™** for a permanent hold.

Get the "Greene & Greene" look

Fast & simple!

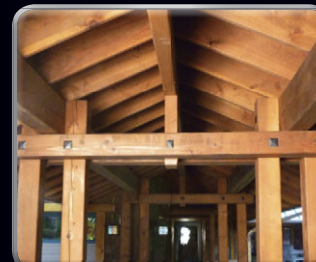

The 2" Artisan Chisel on an air hammer leaves a perfect outline for the Accents.

A Pocket Chisel creates square corners for the accent

A small dab of 2P-10 Jël in the corners locks the Accent in place

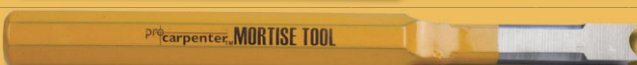

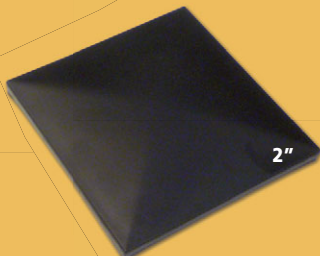

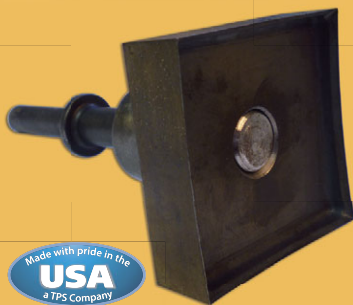

A finished professional look

The Artisan Accent tools are intended for use in real wood applications. Not recommended for use on man-made material.

Great for...

- Furniture
- Cabinets
- Trim
- and more!
- Beams
- Rafters
- Decks

EVERSAND

NEW

PROBLEM

Wears out quickly resulting in waste!

FASTCAP'S SOLUTION

Saves time and money with diamond-sharp sanding pads

These diamonds are a "Carpenter's Best Friend."

The unbelievable hardness and durability of a diamond make the EverSand... sanding pads second to none! Traditional sanding methods result in mounds of mess and wasted time changing out new paper.

The EverSand...hook and loop design allows you to change grits quickly with no paper disposal, and lasts substantially longer than standard sandpaper. The sanding block is made of premium grade foam rubber with a comfortable, ergonomic design for better control and less fatigue when hand sanding.

For wet or dry use on wood surfaces.

Whether it's prep work or fine finishing this is the last sandpaper you will ever need!

PowerMags capture the nails

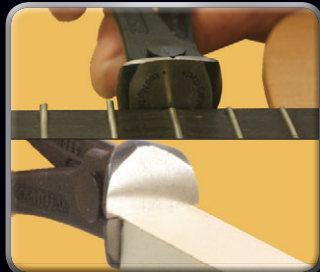

Got nails? Get the HD Trimmer!

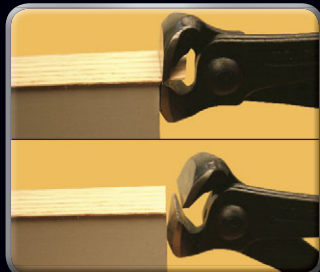

Perfect flush cut every time...

Micro but mighty

Cutting Fastedge

Cut flush with the surface...every time!

Great for laminate or wood veneer

Flush Cut Series

Heavy Duty Flush Cut Trimmers™

Let's get down and dirty! The **Heavy Duty (HD) Flush Cut Trimmers™** cut nails flush. Any questions? These things ROCK and once you use them you will leave your other cutters at home! (Not recommended for hardened screws). Comes with two high powered neodymium magnets to help catch metal debris.

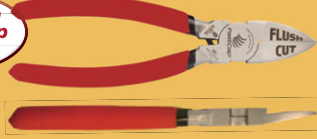

Macro Flush Cut Trimmers™

The **Macro Flush Cut Trimmer™** allows you to trim edgebanding or veneer flush with the surface. These innovative new trimmers "**Stop The Struggle™**", saving you time and money. They are the first tool you will pull out of your bag every time! If, for some reason, you don't get the perfect cut the first time, these amazing trimmers allow you to make a micro cut for the perfect nip and tuck. Works great with wood and PVC edgebanding with standard thicknesses of .018" - .025". (Not recommended for 3mm edgebanding, nails or screws).

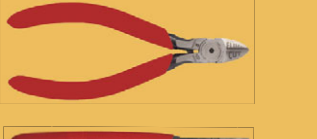

Comes with a Sumo Strap Holder!

Micro Flush Cut Trimmers™

The **Micro Flush Cut Trimmers™** flush cutting surface is slightly rounded, allowing you to get extra close in tighter areas. This design allows you to get into tight spots when removing brad nails or small slivers. Gently pull the nail out by rolling the **Micro Flush Cut Trimmers™** without marring or denting the wood. Also works great for electrical wiring, trimming plastic parts, fishing lines, etc. (OK to pull nails, not recommended for cutting nails).

End Nippers™

Back in 1978, in my guitar building days at Taylor Guitars, Bob Taylor taught me the cool trick of grinding a conventional pair of end nippers smooth so they could cut fret wire flush. Forget the grinding, we did it for you. The **End Nippers™** can be used for cutting fret wires, up to 3mm edgebanding and a variety of other applications. (Not recommended for cutting nails, but great for soft metals like brass and copper).

Power Shears™

Whether you are cutting wood veneer, laminate or lace, the **Power Shears™** are the most incredible scissors you will ever use. Small and compact, yet razor sharp to cut through the toughest material like canvas and burlap, and even aluminium.

PROBLEM

Strained back

FASTCAP'S SOLUTION

No strain & easy to lift!

Stop straining your back trying to lift heavy stuff... suck it up! With our HOD™, (Handle on Demand) single or double, just fasten the suction pads to any non-porous surface and move it, lift it, place it, transport it... you decide.

Load Capacity (double)
200lb.

Load Capacity (single)
100lb.

Great for...

- Laminate
- Melamine board
- Solid surface
- Granite
- Marble
- Metal
- Glass
- Prefinished lacquered wood surfaces

- HOD's do not work on raw wood or non-porous surfaces
- Surface **MUST** be clean and free from dust.

| Description | Part Number | USD |
|-------------------------|-------------|---------|
| Handle on Demand Single | HOD-SINGLE | \$7.95 |
| Handle on Demand Double | HOD-DOUBLE | \$10.95 |

Carry countertops with ease

Lift and move filing cabinets

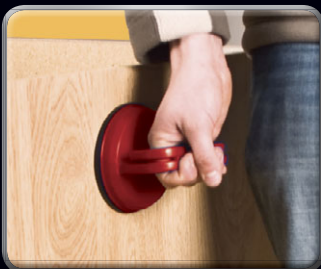

Works great on glass too!

Get any angle, ceilings or floors!

laserJamb™

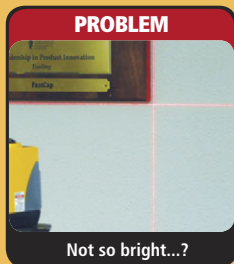

Maximizing Your Laser Performance

Tired of struggling with three legs of a tripod? The **Laserjamb™** is the answer, it sets up in under 30 seconds! It can easily and precisely position any laser from floor level to 12 feet in the air in seconds.

There is no such thing as a tight spot for **Laserjamb™**. Small bathrooms, kitchens, and closets are a snap to work in. **Laserjamb™** can also be used in the center of a room with its extension pole, which reaches up to 12 feet - or using the included free standing solo bucket mount.

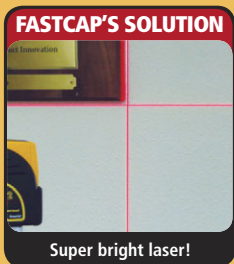

The **Laserjamb™** allows you to mount your laser anywhere from the floor to the ceiling. Because you can turn the mount at different angles it allows you to project angled laser lines on the wall and laser lines on the floor or ceiling.

The bottom line is the laser line is where you need it. **Laserjamb** saves time, and time is money! With the **Laserjamb™** you can level and align everything using the laser line with both hands free to work; no pencil lines, no chalk lines, no reference lines — just speed and precision!

PROBLEM

Not so bright...?

FASTCAP'S SOLUTION

Super bright laser!

AB2 Laser Features

- Auto leveling
- Brightest/sharpest laser line
- Indoor/Outdoor use w/AB2 Laser Detector

MAGNETIC Micro SQUARE™

- Makes squaring up your table saw, band saw or any piece of equipment effortless!
- Has 2 neodymium magnets embedded in the base
- Sticks firmly to the cast iron table top and allows hands free adjustment of spindles, blades and fences
- A time saver and greatly enhances accuracy
- Built-in magnets allow you to store it the side or underneath your saw.

Outside scale for blade height

Inside scale great for layout!

Built in neodymium magnets

Imperial scale on one side, Metric on the reverse side

Store it under your saw and out of the way, but right there when you need it!

Patent Pending

| Description | Part Number | USD |
|-----------------------|------------------|---------|
| Magnetic Micro Square | MAG MICRO SQUARE | \$20.00 |

TIP MAG™

EXTREME MAGNETISM

Rick Leamer came up with the idea to make the perfect **Tip Mag™**, but six months into it, we gave up. Fortunately, Mike Andrews, our engineer, had more persistence than I did. He came up with the perfect combination of polarity, strength and shape to make the **Tip Mag™** the most powerful magnet you will ever use.

The next time you pick up a screw gun, the first thing you will do is make sure that it has a **Tip Mag™**. Regardless of where you position the **Tip Mag™**, close to the screw or at the base of the screw gun, the magnetic transfer is amazing. The **Tip Mag™** also works great on screwdrivers and 6" long extension bits.

Great for...

- Long Extension bits
- For use with impact driver
- Use on screw drivers
- Picking up dropped screws
- Re-magnetizing weak bit holder

Patent Pending

| Description | Part Number | USD |
|-------------|-------------|---------|
| Tip Magnet | TIP MAG | \$10.00 |

Mounting posts can be cut to desired length

Great for working outside in the rain... just attach the flap, flip it up over the top and go to work

New protective hood flap

Accessory Mount sold separately. See page 33.

No mess inside, weather-proof outside

CHOPSHOP SAW HOOD™

NEW

Works on all miter box saws

Inventor, Marc Urban

- Helps keep your work area clean and more productive
- Easy to set up and eliminates billowing dust
- Contains water spray when used with tile saws
- Serves as an excellent protective cover when working outside in inclement weather

"On a job site last week, I was very impressed with the ChopShop Saw Hood. I had my saw hood on the chop saw I was using. The painters were painting the wall of a staircase directly over and behind the chop saw. They were so confident in the saw hood's ability to contain the dust, they went ahead and finished their painting. It was awesome!"

Adam Rose
Creative Woodworking

Works on most wet saws

Easily mounts to tile saws or other equipment with the Sawhood Tile Clamp.

| Description | Part Number | USD |

9/16" PowerMag / 3/8"x.42" PowerHead Screw

Drill hole press in magnet

Cover with a Fastcap!

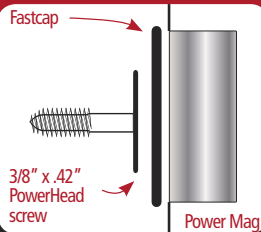

9/16"

PROBLEM

Large and ugly!

FASTCAP'S SOLUTION

Small and discrete

These high-performance neodymium magnets will transform the way you think about and use magnets. They are versatile and powerful and can be used to make invisible magnetic catches, as well as hold anything and everything to metal. Using the **PowerMags™** as a doorcatch.

- Step 1: Drill a 9/16" hole in the cabinet frame with the **FlushMount Drillbit™**.
- Step 2: Insert **PowerMag™** and conceal with a 9/16" Fastcap.
- Step 3: Install a 3/8" x .42" **PowerHead™** screw into the door to act as a metal latch for the magnet.

Also great for...

Holding chuck keys or wrenches to your machinery so they are readily available when adjusting settings or changing bits or blades.

Move red ring up to unlock bit

Also great for...

Screwing through holes as it won't push the collar back and release the bit like other bit holders.

The harder you pull

TaperLock™

The tighter it gets...

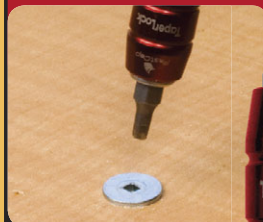

NEW

PROBLEM

Losing your bits?

FASTCAP'S SOLUTION

No bits left behind

The **TaperLock™** the first bit holder that... works. The harder you pull... the tighter it gets! This unique patented design uses a tapered spindle to firmly hold any bit in place. It also features a one-touch auto-lock for easy release of the bit, a **one-hand operation**. Pull out on the red collar while grabbing the bit and the **TaperLock™** releases. Push the bit in and slide the red collar toward the drill and the **TaperLock™** is locked. **Works with any bit!** The **TaperLock™** works great with bits that don't have indents, notches or grooves. It also works with C6.3 & E6.3 bits. You will never leave your bit behind on the screw. **"Stop The Struggle..."**

No indent required

No groove required

No notch required

OUTLET STAMP™

PROBLEM

Cut in the wrong place

FASTCAP'S SOLUTION

Perfect alignment everytime with no struggle!

The **Outlet Stamp™** removes all the frustration of accurately marking out the backs of cabinets for electrical outlets. This innovative design plugs into the outlet receptacle and marks four precise marks, identifying the four corners of the cutout. The **Outlet Stamp™** marks both single and double gang boxes. The stamp includes four specially designed markers. It also works to mark the outline for our **Electrical Trim Ring™** (shown below).

Inventor,
Tracy Ackerman

FastCap®

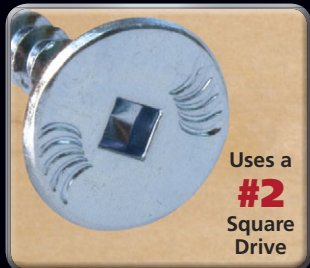

The **PowerHead Screws™** main advantage is its large, oversized flat head. The oversized head has 4x the holding power than a conventional screw head. Because the head is flat, unlike a truss head screw it can also be finished with a 9/16" or 18mm Fastcap in a wide variety of materials, colors, and finishes.

DEFLECTOR™

fastening system

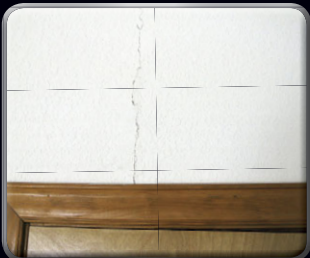

PROFESSIONAL GRADE
NEW
GREAT PRICE

Patent Pending

Made with pride in the
USA
A TPS Company

Stress Crack

Door frame compression and adjustment issues

PROBLEM

Split material & inconsistent installation of the DTC clip causes creaking floors, ceilings and drywall damage.

FASTCAP'S SOLUTION

Deflector used in i-joint or truss installation.

Installs in seconds!
Allows for consistent deflection creating a truly silent fastening system.

The system is 4 x times faster than traditional metal hardware, requires much less framing material and holds equal to or better than a "properly" installed DTC slotted clip (Double Truss Clip). It will never split i-joists and provides a truly "silent floor" installation. Roof trusses will always have adequate clearance for deflection without creaks and pops due to changing weather conditions.

This System Helps Eliminate:

- Squeaking floors
- Failures in i-joists from unblocked non-bearing wall lines
- Stress cracks in drywall
- Door compression/adjustment issues
- Uneven floors
- Noise transfer

Deflector SP™

DEFLECTOR™

fastening system accessories

Deflector Fastening System Accessories:

- Deflector F Corner
- Deflector Offset Tools
- 18" Deflector Extension
- Deflector Drill Bits

Deflector F Corner™

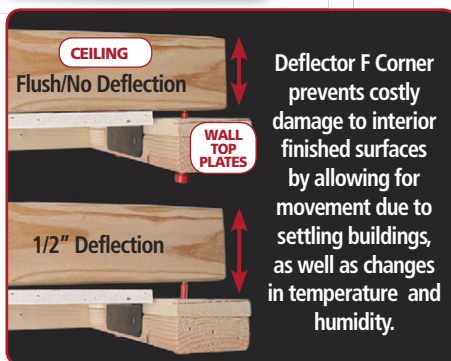

Designed for truss and joist deflection without costly drywall damage.

- The Deflector "F" Corner design supports the ceiling drywall for a full 4", holding better than any other attachment method previously available
- SpeedTape™ on the back side allows for quick placement on a laser or chalk line
- Can be nailed or screwed all at once to wall top plates prior to wall installation of the ceiling sheetrock
- Expensive wood top plates and backing are greatly reduced saving install time and money
- Costly crack repair and the necessity for crown molding will be a thing of the past

Ribs space the drywall off the framing which reduces sound transfer.

Bottom ledge creates a gap between the drywall which meets drywall manufacturer's specs.

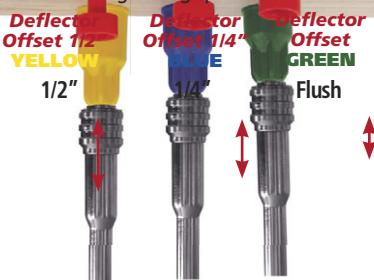

18" Deflector Extension™

- No ladders required!
- Allows for installation from floor level
- Can be linked together to reach taller wall plates
- Eliminates drill interference over door headers

Deflector Offset™

- Designed for consistent installation
- 3 offsets for engineering options

Reversible adjustment block

Extend adjustment block

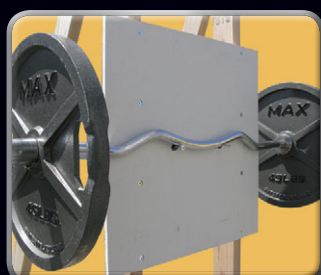

Great for pull outs!

Use a 1/2" drill bit to bore a hole

Install RocLoc

"Look Ma, no studs"

Load Capacity 100lb. **Miller FastBlock™** Patent Pending
100% ADJUSTABILITY

Instant adjustment, installs in seconds and no more shims!

PROBLEM

No adjustability

FASTCAP'S SOLUTION

Adjust up & down, in & out

Tired of trying to evenly space drawer guides and keep them parallel when mounting them? Herbert Miller came up with a simple, elegant solution...the **Miller FastBlock™**.

The **Miller FastBlock™** replaces the commonly used "block of wood in the back of the cabinet" most people use for mounting drawer guides. It is an adjustable drawer guide mounting system for face frame cabinets. Simply hold the **Miller FastBlock™** on the back side of the face frame, adjust the block flush with the edge of the face frame and mount to the back of the drawer guide (for pull out drawers on European Style cabinets use a **FastBlock™** on the front and the back of the drawer guide). **"Stop The Struggle™"**.
Way to go Herbert!

Adjustment block can be replaced with 3/4" x 3/4" wood to accommodate any length of adjustment.

Made of durable ABS.

2P-10

Professional Wood Formula™

Adhesive System

PROBLEM

Brad nailing nightmare

FASTCAP'S SOLUTION

The 10 second solution

2P-10™ is an industrial grade instant glue. It is triple distilled and acidically modified to work specifically with wood. Cabinet makers and carpenters love it and refer to it as the ranch dressing of glue - they use it on everything! Its greatest benefits are its speed and strength.

- Sets in 10 sec. - cures in 30 sec.
- Easy to sand within 60 sec.
- 2 year shelf-life guaranteed
- Triple distilled for purity
- 4000 PSI tensile & shear
- Non clogging pin-cap
- Dries crystal clear

- Excellent for filling micro cracks
- Zero glue line

- Smooth surfaces such as melamine and laminate
- Excellent medium crack filling

- For use on porous surfaces such as particle board

- Will not run, great for vertical surfaces
- All purpose application
- Excellent for vertical surfaces

Made with pride in the
USA
475 Company

dbc

The new **2P-10 Colorant Kit™** allows you to mix this high tech colorant with **2P-10™** for filling cracks and holes. The Kit gives you the 6 base colors; yellow, brown, red, blue, black and white, from which you can mix any shade or color.

1. Mix the dry colorant together on the mixing pad in tiny amounts
2. Add **2P-10 Jël™** and mix quickly with colorant
3. Apply mixture into hole or crack
4. Spray with activator and sand in 60 seconds

Filling perfection in a matter of minutes with the **2P-10™ Colorant Kit™**. You're going to love the results. Individual colors available. Colorant is **extremely permanent** on all surfaces (especially clothes).

| Description | Part Number | USD |

Sucks the glue back inside!

GlüBot™

The Glue Bottle That Sucks!

PROBLEM

Messy, clogged glue cap

FASTCAP'S SOLUTION

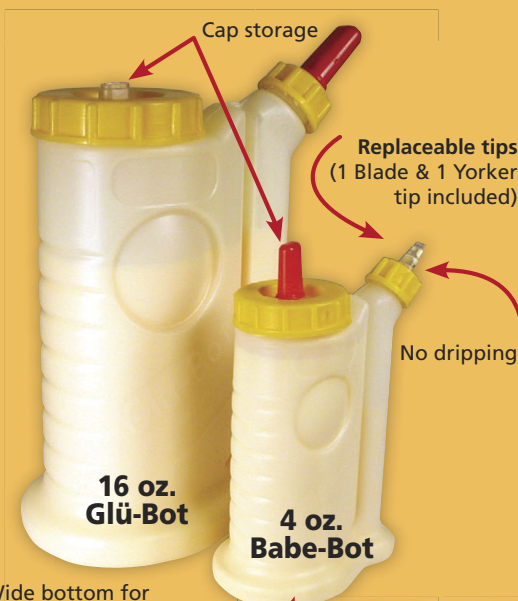

A clean tip and fresh glue every time!

UNIQUE DESIGN THAT SUCKS THE GLUE BACK INSIDE!

The **GlüBot™** is designed with a 2 chamber system that pushes glue from the bottom up through the secondary side chamber which ensures fresh glue every time. When you stop squeezing, the **GlüBot™** sucks the glue back inside and leaves a clean, clog free tip.

Great for...

- yellow glue
- wood glue
- paint thinner
- lacquer thinner
- alcohol
- water

Wide mouth-easy fill
