

SCISSORS CATALOGUE 2010

FISKARS®

360 YEARS OF FUNCTIONAL DESIGN

Fiskars® is a leading brand that provides functional, user-friendly and lasting design solutions for hand tools and beyond.

Established in 1649, Fiskars® is the oldest company in Finland. The business has worked with tools, cutting and steel-forging ever since it first started operating 360 years ago.

Fiskars® has been manufacturing scissors since the nineteenth century. However, with updated production technology it launched the world's first plastic-handled scissors in 1967.

Since then, more than 1 billion pieces of these orange scissors have sold worldwide and their iconic status has resulted in the Fiskars® orange being synonymous with quality scissors across the world.

Fiskars® is the world's No.1 scissor brand.

NEW FOR 2010

Our commitment to innovation continues with the introduction of these new scissor solutions.

Recycled Scissors

Made from recycled materials providing the same quality and performance that all Fiskars® products offer.

CLASSIC SCISSORS

A Design Classic

Our orange handled scissors are design classics that have been popular for more than four decades. The range consists of a wide selection of scissors featuring blades made of high-quality nickel-free steel and ergonomically shaped handles. The large surface area for the fingers to press, results in the force you exert being applied evenly. This ensures good comfort and helps prevent hand fatigue. To make sure the joints are both durable and hygienic, the handles are injection-moulded directly into the blades.

- The unique, patented handle design of Fiskars® scissors makes them very ergonomic and comfortable, even during prolonged use.
- They are made in Finland from only the highest quality stainless steel (HRC 57).
- During the manufacturing process, the blades are hardened and tempered to produce the best cut.
- The grinding, in conjunction with the hardening and tempering process, ensures long-lasting sharpness.
- The faceted blades and 60° edge blades make precision cutting easy.
- Made with non-toxic materials (cadmium free PBT plastic), except 9445O33.
- Injection-moulded onto the blades to ensure a hygienic joint between the blades and the handle.
- All of these scissors are dishwasher proof and shock resistant.
- Orange handled scissors can be sterilised in an autoclave up to 137°C, except 9445O33.

GENERAL PURPOSE

9853O33
GENERAL PURPOSE 21cm

- Sharp blades maintain maximum cutting performance
- Specially contoured handles provide excellent control and maximum comfort
- Patented adjustable pivot screw to modify blade tension

- Injection-moulded onto the blades to ensure a hygienic joint between the blades and the handle.
- Made with non-toxic materials (cadmium free PBT plastic).
- All Avanti scissors are dishwasher proof and shock resistant.

KIDS SCISSORS

Fun and Functional

Our Kids scissor range has been designed for children of all ages. Control and safety play a key part in the development of these scissors. They have been created to help young children learn how to cut properly. The small blades and handles fit little hands for maximum control.

Fiskars® scissors are designed to fit all children and optimise their cutting ability at various stages of development through the:

- Handles: a variety of handle sizes to fit kids as they grow.
- Safety edge blades: the only kid scissor range with graduated blade sharpness to optimise cutting while maintaining safety.
- Blade tips: rounded or pointed depending on users age for more safety.
- Stainless steel blades: durable and corrosion resistant to prolong scissor life.
- Right and left-handed scissors.
