HARDWARE BUYER'S GUIDE

No gimmicks or gadgets... Zerust® corrosion inhibitor is built in.

Corrosion is a silent and often unseen enemy, rendering tools and parts unsuitable for use. Flambeau's polymer based Zerust® material emits a harmless, odorless vapor that fills the inside of our Zerust tool storage line and forms a protective layer around metal objects during storage. Look for the Zerust symbol next to those products that feature this revolutionary technology.

- Patented and licensed exclusively to Flambeau®.
- Molded directly into the plastic.
- Completely hassle-free and does not require maintenance.
- Inhibits rust and corrosion for up to 5 years.

The 24 Hour Test

Without Flambeau® Zerust® Protection

Few problems are as pervasive as corrosion. Corrosion attacks metal products during manufacturing, shipment, storage and even while in use.

With Flambeau® Zerust® Protection

Flambeau® Zerust® provides a solution to the corrosion problem. It helps to increase efficiency, saves money and most importantly protects tools and hardware keeping them operational.

Test performed with distilled water & Flambeau® Zerust® Capsule submerged 48 hours prior to adding metal.

Flambeau® Zerust® Capsules

6640ZR

*Inhibits rust
and corrosion
for 3 years.*

- Portable Corrosion Protection.
- Non-toxic, odorless and FDA approved.
- Easy to install and maintain.
- Great for truck boxes, lockers and safes.

Size: 2.125" x 1.25" x .875"
(5.4 cm x 3.2 cm x 2.2 cm)
