uses 20% less energy than an AC motor

Lighting: 1 light (max 60 W)

Drive system: Belt or chain

Warranty*: 15 year on parts

* The digital radio system is guaranteed for one year. Ask your local *CarGO™* dealer for a complete warranty guide.

A Choice You'll Never Regret!

Along with the **Easy Operating System**, our advanced **Integrated Diagnostic System** and **Smart Motor™** system ensures safety and convenience. Combined with professional installation, Garaga *CarGO™* garage door openers ensure optimal door automation for years to come, making them a choice you'll never regret.

Your Safety – Our Priority

CarGO™ by Garaga was designed with one thing in mind : **your family's safety**. The integrated **reversal system and advanced infrared photo eye protection system** alerts the door to stop and reverse when something is in its path.

Ultra Smooth Operation

With *CarGO™*, say goodbye to rude awakenings from clanking sounds. All of our *CarGO™* openers have a SMART MOTOR™ system to optimize operation force requirements. The soft start/soft stop DC (direct current) motor ensures an amazingly **quiet operation** inside the garage.

Built to Last and Reliable

Unique, the *CarGO™* garage door openers by Garaga are easy to program and the best in advanced engineering and materials. The drive system is permanently lubricated. The rail is made of a one piece semi closed galvanized steel case that protects the belt or chain. The DC motor is engineered for **long life performance** (over 200,000 operating cycles). *CarGO™* digital garage door openers are worry free and that's a guarantee!

Accessories

Accessories included with each *CarGO™* garage door opener : one 2-button mini transmitter, an illuminated multi-function wall station and an infrared photo eye protection system. All models are **HomeLink®** compatible.

Wireless Keypad System

Illuminated keypad that is weather resistant and controls up to three different garage doors with a convenient 4-digit PIN .

Multi-Function Wall Station

Activates door operation from inside the garage. Features security vacation/lock and illuminated push-buttons.

Transmitters

A technology offering billion code possibilities. Three different remote configurations: 2-button MINI, 4-button MINI, and 3-button (key chain) MICRO remotes.

Infrared photo eye safety system

Integrated reversal system alerts the door to stop and reverse when something is in its path. Complies with all safety regulations.

CarGO™ Advanced Technology – Just Amazing!

SMART MOTOR™

Ensures ultra smooth and quiet operation; each cycle is automatically adjusted to optimize operation force requirements.

INTEGRATED DIAGNOSTIC SYSTEM

This technology automatically diagnoses any changes to your system and communicates back with LED's

EASY OPERATING SYSTEM™

Saves time with a quick and easy 3-step programming system of your opener.
