Notes:

***Sound Level (Sones)** - For quieter operation, choose a lower sone number. Sones are units of loudness measured by a combination of laboratory decibel readings and the way people sense sound.

***Air Movement (CFM)** - For more air movement, choose a fan with a higher CFM number. The CFM measures how much air is exchanged in one minute.

*Information provided is subject to change without notice. Please verify all details with GE. All values are design or typical values when measured under laboratory conditions, and GE makes no warranty or guarantee, express or implied, that such performance will be obtained under end-use conditions.

Attention Contractors - Quickly Install GE's Easy Mount Ventilation Fan

1

Attach easy
mount bracket
to ceiling joists.

2

Snap in
fan housing.

3

Connect wiring
and ducting.
