● G R I F E R Í A | T A P S 2 0 1 0

El agua, los fluidos, son elementos primordiales para la vida y el desarrollo. Para aprovechar sus beneficios, el hombre necesita dar forma a los fluidos y controlarlos.

La eficacia en el control de los fluidos es motor de progreso, y aún más, una profunda responsabilidad social y ambiental en el mundo actual. Es también el objetivo fundacional y la razón de ser de nuestra actividad diaria.

La vocación de **Genebre**, desde sus inicios hace más de 28 años, es liderar el mercado de la valvulería y grifería para el control de fluidos.

Water and fluids in general are fundamental to all life and development on our planet. In order to take full advantage of the benefits they offer, humans need to give shape to fluids and to control them.

Effective fluid control is a means of progressing and moreover, a fundamental social and environmental responsibility in today's world. It also provides the purpose and raison d'être of our day-to-day operations.

*Since its establishment more than 28 years ago, **Genebre's** mission has been to secure and maintain its position as leader of the market for fluid control valves and taps.*

Genebre es una empresa familiar fundada hace más de veintiocho años con la vocación de convertirse en una empresa referente y líder en el sector de la valvulería y accesorios para el control de fluidos y grifería.

La Sede Central de la compañía está ubicada en el Distrito Económico de L'Hospitalet de Llobregat - Barcelona.

Cuenta con una plantilla altamente cualificada de más de 140 profesionales y una red comercial que cubre todo el territorio nacional, además de Europa y el continente americano.

Genebre está presente en todo el mundo manteniendo su vocación de liderazgo en el mercado de la valvulería y la grifería, siendo la satisfacción del cliente, nuestra razón de ser desde el primer día.

La visión de futuro de la Dirección se ha basado desde nuestros orígenes, en aprovechar las oportunidades que surgen, en función de los continuos cambios del mercado, para apostar por el crecimiento sostenido de la empresa, que permita no sólo mantener nuestro liderazgo en España, sino operar globalmente, con una apuesta decidida por la internacionalización.

PYME global: Es la estrategia de crecimiento orientada a la internacionalización del negocio, no sólo como objetivo comercial, sino con la voluntad de implantar un modelo propio de gestión en todos los mercados con influencia en nuestra operativa: países origen y países destino.

La expansión se ha centrado en la exportación a los países europeos y al continente americano.

En Europa, disponemos de una red de agentes comerciales y distribuidores, que permite que nuestro producto llegue a todos nuestros clientes.

En el continente americano contamos con dos filiales en Buenos Aires – Argentina- y en São Paulo – Brasil -, y una red de agentes comerciales que cubre todo el mercado Centro y Sudamericano, desde México hasta Chile.

Genebre is a family-run business, established more than a quarter of a century ago. Their aim right from the start was to make it a leader in the market for valves and accessories used in fluid control systems and taps.

The headquarters of the company are located in Barcelona, in the financial district of Hospitalet de Llobregat, near FERIA de Barcelona.

The company boasts a highly qualified workforce of more than 140 professionals, and a commercial network that spans the entire national territory, as well as Europe and the Americas.

Genebre has extended its presence worldwide, maintaining its goal of leadership in the valve and taps market and continuously striving to meet the needs of its customers; something which has been of major importance to us from day one.

From the very beginning, the Management's vision for the future has always entailed taking advantage of any opportunities that arise in a market that is constantly changing, with a view to ensuring the sustained growth of the company and thereby allowing us to maintain our dominance, not only in the Spanish market, but also worldwide, with a particular emphasis on international trade.

Global SME: This is the growth strategy, geared towards the international expansion of our business, not only as a commercial goal, but also with a view to implementing our own management model in all markets that influence our operations: countries of origin and destination.

Our expansion has been centred around exports to European countries and the American continent.

In Europe, we have a network of commercial agents and distributors, allowing our products to reach all of our customers.

In the Americas, we have two subsidiaries in Buenos Aires, Argentina and São Paulo, Brazil, and a network of commercial agents covering the entire Central and South American market.
