Spare Parts

- Where modern, high performance measuring and test instruments are utilized, the availability of replacement parts is an important criterion. And that's why we offer replacement part delivery services in order to supply you with original replacement parts worldwide.

Replacement Parts and Rental Instruments

• Replacement Parts Service

Where modern, high performance measuring and test instruments are utilized, the availability of replacement parts is an important criterion.

A list of the most important replacement parts is included in the appendix to this catalog as a fax order. Additional replacement parts are available upon request.

Replacement parts hotline (advice and orders): **+49-911-817718-285/250**

• Rental Instruments and Used Instruments

Short-Term Rentals – Fixed Term Rentals – Fixed Price Rentals – Swap Service – Used Instruments

Without fail, measuring instruments inevitably break down at the most inconvenient moment, and the time required for a repair is always too long. Or all of your test instruments are currently in use and a new order is received, which of course also has to be completed. We're able to provide you with inexpensive rental instruments for all of these cases.

Please inform us of your individual requirements! **+49-911-817718-354**

• Service Shop

We've integrated a service shop into our service center in Nuremberg Langwasser.

It provides you with the opportunity of carefully scrutinizing most of our measuring and test instruments before buying one.

Beyond this, we offer a broad spectrum of accessories and replacement parts which you can buy directly on-site. In addition to traditional sales channels, it's also possible to order some of our products from the online shop.

And of course you can bring your measuring and test instruments to our repair shop and calibration lab as well. Upon request, we'll take care of your travel arrangements, accommodation and meals. Take advantage of this opportunity to visit our service shop.

• Terms and Conditions of Delivery and Sale

- Our guarantee period for new instruments begins on the date of purchase by the end customer.
- Of course you can send your instruments directly to our service center (for repair, as well as for any of our other services).
- Order processing and billing for services and repairs of course can also be arranged for directly between the end customer and our service center.
- Terms of payment: 10 days 2% discount or 30 days net
- Terms of delivery: ex works plus shipping and packaging, freight prepaid for orders with a value of at least €250
- Replacement parts service: minimum order value of €20 net
- Service guarantee: six months for work executed by ourselves, and for replacement parts
- Costs for preparing an estimate (€25 flat-rate fee) are credited against the invoice in the event of a repair order.

Notes

Getting to GMC-I Service GmbH

Travelling by Car

GMC-I Service GMBH is located in Nürnberg Langwasser, and can be easily reached from the motorway.

Take the "Langwasser" exit from the A6 motorway to Gleiwitzerstraße, and then continue on to Thomas-Mann Straße.

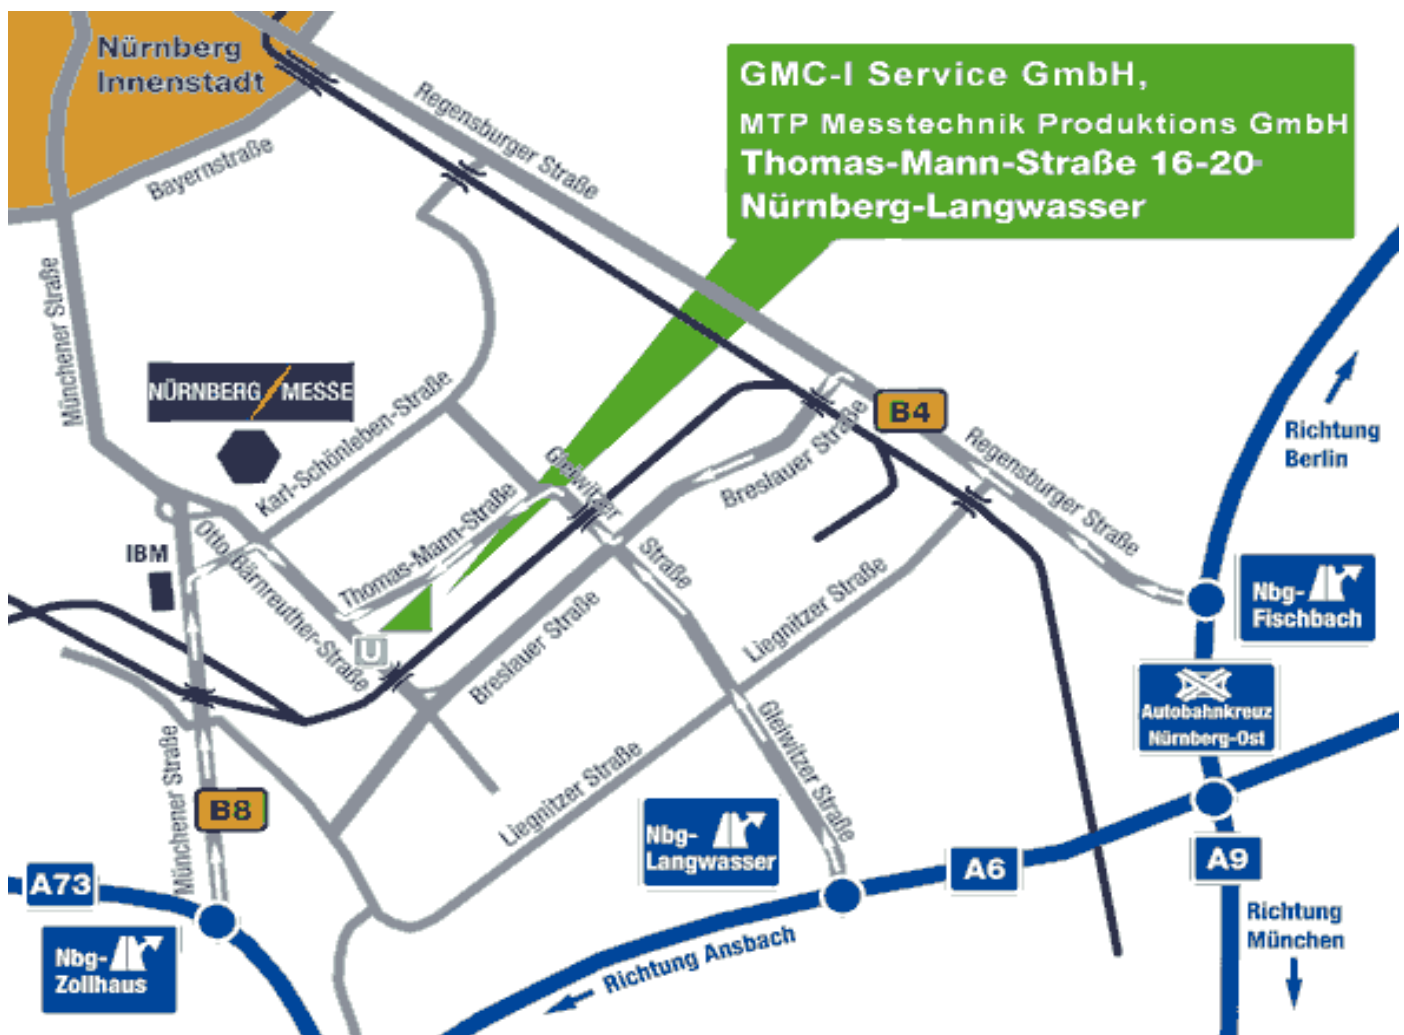

There's a company parking lot directly in front of the main entrance.

Travelling by Rail

After arriving at Nuremberg Central Station, you can take a taxi to Thomas-Mann-Straße 16-20 (about 15 minutes), or take the U1 subway to Langwasser and get off at the "Scharfreiterrung" stop. From there it's about 300 meters to GMC-I Service GmbH

Travelling by Air

After arriving at Nuremberg Airport, you can take a taxi to Thomas-Mann-Straße 16-20 (about 25 minutes), or take the U2 subway to the central train station and continue from there with the U1 subway to Langwasser, and get off at the "Scharfreiterrung" stop. From there it's about 300 meters to GMC-I Service GmbH
