Hallowell-List.com

**Since 1903, every
Hallowell
component has
been designed and
manufactured
with the concept
that the highest
quality product is
crucial for success.**

OUR HISTORY

Hallowell was acquired by List Industries Inc. in 1992. List Industries was founded in 1936 with the idea that customer satisfaction and product quality would be the basis for success. This philosophy has been maintained for 75 years by the three presidents of List Industries Inc.: founder Max H. List, his son Herb List and his grandson and current president, Herb List, Jr. As an innovator and industry leader in product design and development, List Industries Inc. has and will continue to uphold Hallowell's tradition of quality and exceptional customer service.

MANUFACTURING

Hallowell Products are fabricated in three state-of-the-art manufacturing facilities located in Central and South Florida. Our Deerfield Beach corporate headquarters is a highly efficient manufacturing plant located in one of South Florida's premier office parks. Computer controlled fabrication and roll-forming equipment and the newest powder coating paint technology assure consistent quality workmanship. In addition to our primary manufacturing facility, we also have a second plant in a prestigious industrial park in Central Florida that more than doubles our manufacturing square footage. Our third Florida location, and newest addition, produces our new line of all-wood Recruiter sport lockers and wardrobe Club Lockers.

MADE-TO-ORDER PRODUCTS

In addition to Hallowell's industry leading variety of in-stock lockers, shelving and cabinets we also offer an extensive line of production items. Hallowell's complete line of production lockers can be manufactured in short lead-times and painted in one of our 24 standard designer powder coat colors. If a high-rise shelving system is what you require, our team of design engineers and sales professionals is eager to assist you.

THE HALLOWELL DIFFERENCE

Hallowell®

www.Hallowell-List.com

WE INVEST IN YOU OUR CUSTOMER

The Industry's Largest Inventory

- Six fully-stocked national distribution centers.
- Over 3,000 different skus to choose from in stock.
- The largest stock product variety.

Two Manufacturing Plants

- Hallowell is proud to be an American manufacturer
- Two state-of-the-art facilities in Florida
- Creating jobs since 1903

Environmentally Responsible

- All Hallowell steel products are GREENGUARD Children & Schools CertifiedSM
- All sheet steel contains 72% recycled content
- All cardboard packaging is of recycled material

All KD Cabinets And Lockers Are Available Fully-Assembled

- Lockers and cabinets are factory assembled by trained and highly skilled trade professionals.
- Lockers and cabinets arrive ready to setup and anchor, saving you time and money.

Powder Coat Finish

- All Hallowell products are finished with a durable powder coat finish
- Most environmentally friendly method of paint finishing.

Industry-Leading Customer Service

- A dedicated team of in-house trained professionals is ready to respond to inquiries related to product features, availability, specifications, order status and shipping information.
- All personnel are trained in every aspect of our Quick Ship program.

Quick Ship

THE FASTEST SHIPPING IN THE INDUSTRY...

INDUSTRY'S LARGEST
QUICK-SHIP PROGRAM***Our National QUICK-SHIP Program is the largest of it's kind in the material handling industry.***

Our six distribution centers are strategically located to allow for localized distribution. All Hallowell distribution centers are company owned and operated to insure your orders are properly prioritized and that all operations are per our company philosophy.

Our unparalleled array of products and services assures that your order will ship fast and secure while saving you time and money on shipping costs. Logistics, service and product offering is what positions Hallowell at the forefront of the industry.

✓ **QUICK-SHIP Shelving** is available in a variety of sizes, styles and color options. With shelf capacities up to 1,250 pounds, you can be sure our shelving will outperform all competitors. Choose from traditional, rivet type or our unique pass thru models which allow true four-sided access. Hallowell stocks a shelving system to meet your specific storage requirements.

✓ **QUICK-SHIP Cabinets** Cabinets are engineered above industry standards. With multiple colors, styles, sizes and accessories, we are confident we can be your one-stop cabinet supplier. Specialty cabinets offering corrosion resistance, antimicrobial properties or textured finish help you to offer your customer products targeted specifically to their needs.

✓ **QUICK-SHIP Workbenches** Workbenches Our new Ft. Knox Modular utility Storage System combines shelving, cabinets, workbenches and lockers to create a functional, durable and customizable work center. Our unique textured two-tone powder coat process provides an attractive durable protective finish.

✓ **QUICK-SHIP Lockers** Lockers are available in 25 different styles comprised of more than 1,200 SKUs which allows you the benefit of selecting a locker to meet your specific storage needs. A complete line of locker accessories is available from stock to help you complete your locker system. Order your lockers to ship fully-assembled to take full advantage of our expertise. Your lockers will be packaged above industry standards to insure a safe arrival.

Hallowell® is committed to minimizing the environmental impact of our products and protecting indoor air quality

- **GREENGUARD** is an indoor air quality certification program for low emitting products and materials that evaluates over 75,000 chemicals, including volatile organic compounds, carcinogens and reproductive toxins.
- **GREENGUARD** certification is referenced in both the Collaborative for High Performance Schools (CHPS) and the Leadership for Energy and Environmental Design (LEED) Building Rating System.
- **GREENGUARD** Children & Schools Certification establishes strict chemical emission standards for products intended for use in environments where children and others work, play or reside.

GREENGUARD Emission Criteria Children & Schools Program

Individual VOCs	$\leq 1/100$ TLV and $\leq$ CA chronic REL
Formaldehyde	≤ 0.0135 ppm/13.5 ppb
Total VOCs	≤ 0.22 mg/m ³
Total Aldehydes	≤ 0.043 ppm/43 ppb
Total Phthalates	≤ 0.01 mg/m ³
Total Particles($\leq 10\mu\text{m}$)	≤ 0.02 mg/m ³

**BOLTLESS
SHELVING UNITS**

THE FASTEST SHIPPING IN THE INDUSTRY...

RIVETWELL™**Boltless shelving is designed to maximize storage space and minimize installation set-up time.**

All components are engineered to attach snugly to one another without the use of loose fasteners. This unique design has rivets which are factory attached to all left-to-right and front-to-back beams. The rivets align with keyhole slots in the vertical posts. Once tapped into place using a standard rubber mallet, the units are tightly assembled providing maximum strength.

Standard units consist of vertical angle posts at the corners, double rivet angle beams at the top and bottom perimeter and single rivet angle beams running left-to-right only at the intermediate levels. Shelves are of standard 5/8" particle board, EZ-Deck steel or wire decking and simply drop into place. Shelf strength can be increased by upgrading to heavy duty beams, adding single rivet beams running front-to-back at the intermediate levels, upgrading to double rivet beams at the full perimeter of the intermediate levels or upgrading all levels to our strongest double rivet channel beams. Optional center supports can be added using supplied hardware to increase decking capacity.

Double Rivet unit
with 5 levelsSingle Rivet unit
with 4 levelsDouble Rivet unit
with 4 levels

The versatility of our Rivetwell boltless shelving system allows you to mix and match components to meet your unique application. From standard storage applications, record storage to automotive tire racks, Rivetwell boltless shelving is your storage solution.

BOLTLESS SHELVING COMPONENTS

Hallowell

www.Hallowell-List.com

RIVETWELL™ SHELVING

1 Angle Post

2 T-Post

1 Angle Post (Standard Duty): 1-1/2" x 1-1/2" x 14 gauge cold rolled steel corner post uprights. Perfect for standard load situations.

Angle Post (Heavy Duty): Shall be 1-7/8" x 1-7/8" x 14 gauge cold rolled steel uprights. The choice when heavy duty shelving is required. Perfect for multilevel installations.

2 T-Post (Standard Duty): 3" x 1-7/8" x 14 gauge cold rolled steel intermediate uprights.

T-Post (Heavy Duty): 3-3/4" x 1-7/8" x 14 gauge cold rolled steel intermediate uprights.

3 Single Rivet Shelf Beam (Standard Duty): This 14 gauge low profile standard intermediate level shelf beam is perfect when maximum clear opening is required between shelf levels.

Single Rivet Shelf Beam (Heavy Duty): An 11 gauge heavy duty version of our low profile intermediate shelf beam allowing maximum clear opening between shelf levels.

4 Double Rivet Angle Beam (Standard Duty): This 16 gauge shelf beam is essential for stability of standard units; therefore, is used on all four sides at the top and bottom levels. Can also be used front and back or on all four sides of intermediate levels to increase unit stability and load capacity.

Double Rivet Angle Beam (Heavy Duty): An upgrade to our standard duty double rivet angle beams, our heavy duty double rivet angle beams provide additional unit rigidity and even higher shelf capacity.

5 Double Rivet Channel Beam: Maximized left-to-right shelf capacity is achieved using our 14 gauge double rivet channel beams in lieu of double rivet angle beams. These beams cannot be used at the bottom level.

6 Center Support: Used to provide additional shelf support front-to-back by bolting between double rivet beams at prepunched locations. Ideal for wider spans.

7 Double Rivet Z-Beam (Standard Duty): For 12" thru 60" beams. Used in place of double rivet angle beams to add 1" additional clearance between shelf levels. Allows particle board decking to sit flush with beam. Protects decking edges. When used at bottom level of single rivet units, shelf clearance is increased by 1" at lower level. Standard Z beams are 14 gauge.

8 Double Rivet Z-Beam (Heavy Duty): For 69" and 72" beams. Used in place of double rivet angle beams to add 1" additional clearance between shelf levels. Allows particle board decking to sit flush with beam. Protects decking edges. Heavy-Duty Z beams are 14 gauge.

9 Center Support for Z-Beam: Used with Z-Beams for front to back decking support. Fabricated of 11 gauge cold rolled steel.

NOTE: The above load chart refers to the deck materials only. Particle board decking is 5/8" industrial grade type 1-M-2. EZ-Deck steel decking is 22 gauge galvanized sheet steel fabricated in 6" deep channel planks (models listed above include multiple planks to meet unit depth). 15" deep Ez-Deck will be shipped in two (2) 7 1/2" deep planks. The allowable shelf load capacity may be reduced due to allowable post and / or beam capacities. Specific deflection limits may also reduce the shelf load capacity. **NOTE: EZ-Deck must be center supported on units 48" wide and wider.**

Particle Board Decking

EZ-Deck Steel Decking

NOTE: EZ-Deck steel decking is for use with double rivet units **ONLY**.

POST CAPACITY CHART

Recommended safe loads (per post) for use only where seismic forces are not a factor

BEAM SPACING	STD. ANGLE POST CAPACITY	HEAVY ANGLE POST CAPACITY
12"	1530	1735
18"	1520	1720
24"	1510	1695
30"	1490	1680
36"	1350	1660
42"	990	1560
48"	755	1195

BEAM SPACING	STANDARD/HEAVY-DUTY T-POST CAPACITY
12"	5045
18"	4965
24"	4850
30"	4705
36"	4525
42"	4315
48"	4075

Post capacities are based on the maximum vertical distance between left-to-right beams or front-to-back beams, whichever is greater. In single rivet beam units, the vertical distance between front-to-back beams will usually govern. Tie plates must be spaced no more than 48 inches apart to insure structural stability when joining angle post together. All units require tie plates at top and bottom.

The above capacities are not intended for use when designing multi-level systems or for specific requirements where seismic forces are a factor. For specific multi-level or seismic requirements contact your Hallowell Sales Manager.

BEAM LOAD TABLE (CAPACITY PER PAIR)

DESIGN CRITERIA:

All units must have a full perimeter of double rivet beams at the top and bottom to insure a stable and rigid unit. All units using single rivet beams 10'0" to 18'0" in height, require an additional double rivet perimeter beam level located approximately in the middle of the unit.

All single rivet beam units must have one (1) intermediate pair of front to back beams for 7'0" and 8'0" high units and (2) intermediate pair of front to back beams for 9'0" high units. For 10'0" to 18'0" high units refer to the above paragraph.

DO NOT exceed 48" between front to back beams. Single Rivet and Double Rivet Front-to-Back Beams may be common when using T-Posts on units up to 8' high.

All intermediate single rivet levels over 24 inches deep must also have single rivet beams supporting the particle board front to back.

All double rivet beam units must have front to back beams at each shelf level.

(*) One (1) support per pair of beams except 96" which have two (2) supports
 (**) Refer to shelf load capacities for beam capacities when depth is 30", 36" and 48".
 (***) Beam rotation is less than 5 degrees.

Hi-Tech shelving is a complete shelving line with the strength needed to handle most industrial applications and versatility for today's modern facilities. Every shelving unit is designed and engineered to meet the highest standards.

A full complement of accessories including full dividers, partial dividers, label holders, swinging doors, post splices for multilevel systems and foot plates are available to complete your system.

BOX FORMED SHELVES

- Tubular welded box beam front and rear for maximum strength
- Exclusive triple bend side flanges for added strength
- Lapped and welded corners
- Top of shelf is punched to accept shelf dividers

ANGLE BACK POSTS & T-POSTS

- Roll formed into a unique angle shape for maximum strength
- The long leg is punched on 1-1/2" centers to allow independent shelf adjustment
- Angle Posts can be used in place of Beaded Front Posts if desired

BEADED FRONT POSTS

- Beaded for strength
- Flush to permit straight-in/straight-out shelf installation, shelf changing and full use of shelf width
- Punched on 1-1/2" centers to allow independent shelf adjustment

H-POSTS

- Designed for high-density applications
- More than twice the capacity of standard posts
- Used at front and back
- Used with standard Hi-Tech components

ONE PIECE SHELF CLIP

- Four sturdy and compact clips per shelf
- Keys firmly into post slots to hold shelves securely in place
- Fits Beaded Front, Angle Back Posts and T-Posts
- Non-Intrusive clip sits flush with inside edge of front posts

HI-POST

HALLOWELL® High Capacity Shelving

**H-POST PROVIDES TWICE
THE CAPACITY OF
STANDARD POSTS**

H-Post High capacity Shelving is ideal when additional strength is required for any shelving installation. It is also recommended for multi-level high-rise applications.

H-Posts are fabricated from 14 gauge cold rolled steel and formed into a unique tubular design to provide more than twice the load capacity compared to standard posts.

**USE WITH STANDARD
HI-TECH COMPONENTS**

Hallowell®

www.Hallowell-List.com

HI-TECH™ H-POST SHELVING

H-POST

- Designed for high-density applications
- More than twice the capacity of standard posts
- Used at front and back
- Used with standard Hi-Tech components

BOX FORMED SHELVES

- Tubular welded box beam front and rear for maximum strength
- Exclusive triple bend side flanges for added strength
- Lapped and welded corners
- Top of shelf is punched to accept shelf dividers

ONE PIECE SHELF CLIP

- Each shelf requires four of these sturdy and compact clips
- Clips key firmly into post slots to hold shelves securely in place
- Also fits Beaded Front, Angle Back Posts and T-Posts
- Provides independent shelf positioning on 1-1/2" centers
- Non-Intrusive clip sits flush with inside edge of front posts

BACK AND SIDE SWAY BRACES

- Standard for open units only
- 11 gauge back and side sway braces create a rigid structure
- Special triple point brace clip provides a strong rigid anchor point for back sway braces

BACK AND SIDE PANELS

- Standard for closed units only
- Standard stock models include heavy 18 gauge back and side panels for a strong and durable structure
- Multiple panels are used to create full panel height

FOOT PLATES

- Standard stock units include #5025 standard duty foot plates
- Provide a strong and secure anchoring point

SYSTEM LAYOUT INFORMATION

Standard Shelving with Hi-Tech Shelves

PLUS ADD $3/4"$ PER ROW

FOR "D" - *SINGLE FACE* ADD $3/16"$ TO NOMINAL SHELF DEPTH

FOR "D" - *DOUBLE FACE* ADD $3/8"$ TO NOMINAL SHELF DEPTH

H-Post Shelving with Hi-Tech Shelves

PLUS ADD $1-1/2"$ PER ROW

FOR 'D1' - *SINGLE FACE* ADD $5/16"$ TO NOMINAL SHELF DEPTH

FOR "D1" - *DOUBLE FACE* CLOSED MODELS ADD $13/16"$ TO NOMINAL SHELF DEPTH

FOR "D1" - *DOUBLE FACE* OPEN MODELS ADD $29/32"$ TO NOMINAL SELF DEPTH

NOTE: SHELF WIDTH IS $5/16"$ UNDER NOMINAL

NOTE: Width of posts should be added to the nominal shelf width in any floor plan to determine the overall shelving width.
Check "D" and "D1" dimensions for depth/creepage.

UNIT LOAD CAPACITY INFORMATION - 1.65 SAFETY FACTOR

STANDARD POST

H-POST

Before selecting type of post, consideration should be given to loads to be carried. Use the formula below to get unit load, then select post type from table.

$$(B-2) \times A = \text{Unit Load}$$

A=Shelf Load
(See note 2)
B=Shelves per unit
(includes top and bottom shelves)

WARNING:

Use H-Posts for:

- High-rise applications
- Pass-through applications regardless of load
- High-density, multi-level applications

TYPICAL SWAY BRACE INSTALLATIONS FOR SEISMIC ZONE NO. 0 & 1

Standard Shelving (Beaded Front Posts)
High-Density Shelving (H-Posts)

Use of Side Sway Braces
(Part No. 5344 – Standard Shelving)
(Part No. 5341–High-Density Shelving)

Use of Back Sway Braces (Part No. 5342)
for both standard and high density shelving

NOTES: 1-When splicing posts for increased heights or for multi-level shelving, use the proper number of braces required for the height of the posts being added.
Example: a 10'-3" model increased another 10'-3" in height would require 4 sets of side sway braces and 4 sets of back braces.
2-For additional bracing requirements in Seismic Zones No. 2, 3 and 4, consult the Hallowell Applications Engineering Department.

HEAVY-DUTY INDUSTRIAL GRADE STEEL SHELVING

NO CROSS BRACES

DURATECH™

PASS-THRU STEEL SHELVING

DuraTech is Hallowell's newest line of pass-thru steel shelving requiring no cross braces allowing access from all sides while providing the maximum strength, durability and stability needed to handle most industrial applications. DuraTech offers versatility and durability for today's modern facilities.

Our complete line of shelving is designed and engineered to the highest standards.

FEATURES:

- Access from all 4 sides
- Top and bottom firmly attached with steel-grip nuts for superior strength
- Available in 5, 7 and 8 shelf models
- Four Angle Posts are used per section allowing units to be individually located, bolted side-by-side or bolted back-to-back.
- Each intermediate shelf uses four sturdy and compact clips
- Clips key firmly into post slots to hold shelves securely in place
- Provides independent positioning of intermediate shelves on 1-1/2" centers
- Bottom shelf is positioned to prevent debris from collecting beneath unit

OUR UNIQUE GRIP NUT DESIGN CREATES A VERY STRONG AND RIGID STRUCTURE

360° ACCESS CREATES A MORE EFFICIENT STORAGE SYSTEM!

DURATECH PASS-THRU STEEL SHELVING SPECIFICATIONS

Angle Posts: Fabricated of 14 gauge cold rolled steel and roll formed into a modified unequal angle shape. The long leg shall have holes punched on 1-1/2" centers with 3/8" x 7/8" rectangular slots to receive shelf clip. Provide (4) Angle Posts at each unit.

Top and bottom shelves: Fabricated from 18 gauge cold rolled steel and are triple flanged at all four sides. All four corners are punched to allow top and bottom shelves to be securely bolted to angle posts using specially designed shoulder bolts and steel-grip nuts. Minimum four nuts and bolts per corner. Used for uniformly distributed loads up to 800 pounds.

Heavy-Duty Intermediate Shelves: Formed with two ribs along the horizontal front and rear edge and are stamped on the top left corner for identification. Class 1 shelves are fabricated from heavy gauge cold rolled steel and have roll formed rectangular tubular shaped front and rear edges with return bends resistance welded to the under side of shelf. Welds are spaced 3" on center to provide maximum strength. Sides are triple flanged to form a channel. All four corners are lapped and resistance welded to provide a rigid corner and add extra strength to the shelf. Top surface shall be punched for attaching Shelf Dividers from left to right on 1-1/2" centers, front and back, for 36" wide x 12", 15", 18" and 24" deep shelves. All other sizes are

punched on 3" centers. Front and rear surfaces are punched for attaching accessories. Tubular front edge is designed to protect against impact loads. Used for uniformly distributed loads up to 800 pounds. Medium-Duty intermediate shelves with capacities up to 500 pounds and Extra Heavy-Duty intermediate shelves with capacities up to 1,200 pounds are also available.

Shelf Clips: Shall be a one piece compression clip drawn from 13 gauge cold rolled steel and zinc plated. Fits snugly against side of post to hold shelves in place. Provide four per intermediate shelf.

Foot Plates: 2-1/4" x 3-1/2" x 12 gauge steel plate with angle bracket welded on top. The angle bracket is punched for fastening to front and back posts. The plate shall have a 7/16" diameter hole punched on one end for floor anchoring and be embossed on the other end for Shim Plate alignment. Provide as required for floor anchoring or when shims are required for a level installation.

Shim Plates: 2-1/4" x 3-1/2" x 16 gauge cold rolled sheet steel. Fabricated to fit under the Foot Plate. One end is embossed to fit into the embossment in the Foot Plate to keep them properly aligned. The other end shall have a 7/16" diameter hole to allow floor anchoring. Provide as required when shimming is required for a level installation.

DURATECH ANGLE POSTS

- Roll formed into a unique angle shape for maximum strength
- The long leg is punched on 1-1/2" centers to allow independent shelf adjustment
- Four Angle Posts are used per section allowing units to be individually located, bolted side-by-side or bolted back-to-back.

DURATECH ONE PIECE SHELF CLIP

- Each intermediate shelf requires four sturdy and compact clips
- Clips key snugly into post slots to hold shelves securely in place
- Provides independent positioning of intermediate shelves on 1-1/2" centers

DURATECH HEAVY DUTY INTERMEDIATE SHELVES

- Tubular flange front and rear for greater strength
- Exclusive triple bend side flanges for added strength
- Lapped and welded corners
- Available in three load capacity classes up to 48" wide spans and 36" depths
- Top of shelf is punched to accept shelf dividers
- Uses four one piece shelf clips per shelf

DURATECH TOP/BOTTOM SHELVES

- Triple flanged at all four sides for maximum rigidity, durability and stability
- Bottom shelf is positioned to close space to floor preventing debris from collecting beneath
- Bolted to angle posts at all four corners using special bolts and steel-grip nuts preventing unit sway without the use of intrusive sway bracing for complete 4-sided access

All units shown include Hallowell heavy-duty intermediate shelves. Medium-Duty and Extra Heavy-Duty units are also available.

HALLOWELL GUARDRAIL

Hallowell guardrail is designed, engineered, and manufactured to the highest industry standards, using heavy gauge steel, and a unique integrated fastening system. This integrated system incorporates the fastening hardware as part of the column design so there will be no “stripped” out connections. A properly installed and anchored guardrail system is designed to safeguard people, property and facility assets from accidents involving material handling equipment.

Each Hallowell Guardrail system is designed for your specific safety application. It is recommended to use 18” high for impact protection of facility assets including office in-plants, conveyor systems, mezzanines, shelving and racking systems. The use of the 42” double rail system is recommended when protecting and separating pedestrians and personnel from your material handling equipment. These areas include walkways, bathrooms, entry and exit points, electrical panels, break areas, and exposed work stations.

Guardrail components have an industry approved, safety-yellow powdercoated finish. All guardrail sections are shipped with the required fasteners and other necessary hardware to properly install and anchor into your concrete floor.

ADAPTABLE

800 SERIES Heavy-Gauge KD Cabinets

Provides maximum protection to tools, dies, delicate instruments, supplies, and personal belongings. Neat and attractive in appearance. Designed to meet government requirements.

FEATURES:

- Cabinet is fabricated from heavy gauge steel for appearance and durability.
- All metal parts are precision engineered. No bolt heads show in front or on side panels.
- Positive three-point locking (top, center and bottom) and theft resistant hinges for security.
- Chrome-plated locking handle has built-in grooved key cylinder lock.
- Shelves easily adjust up or down in 2" increments. Triple flanged front for added strength (300 lb. capacity).
- Doors swing out quietly a full 180° and are "HAT" section reinforced.
- Corner Foot Gussets provide added rigidity and stability

MAXVIEW™ CORROSION RESISTANT CABINETS

HIGH VISIBILITY All-Welded Cabinets

Taking the MaxView Locker to the next level by incorporating high security 3-point turn-handle latch and adjustable shelves.

FEATURES:

BODY CONSTRUCTION: All-welded 16 gauge heavy-duty tubular frame construction from galvanized sheet steel, sides and back are 1/2" 13 gauge flattened expanded metal. Top and bottom are heavy-duty galvanized corrosion resistant sheet steel, fully-assembled

BODY STYLES: Single tier

DOOR: 14 gauge door is diamond perforated for maximum visibility and ventilation. Includes a welded-in full height door stiffener

HINGES: Heavy-duty 13 gauge 7-knuckle (3 hinges per door)

HANDLE: Cremone 3-point high-security turn handle latching with heavy-duty 3/8 lock rods which engage the top and bottom locker frames while the cam engages the frame at the door jamb near the handle.

SHELVES: Four 16 gauge sheet steel welded-in fixed shelves are fabricated from galvanized corrosion resistant sheet steel. Adjustable on 1" centers.

Heavy gauge tubular frame. Bottom shelf of locker sits a full 2-3/4" above finished floor protecting locker contents from water damage.

FOR REALLY TOUGH INDUSTRIAL APPLICATIONS

DURATOUGH™

Classic and Galvanite™ Series All-Welded Cabinets

Classic Series cabinets are fabricated from prime grade cold rolled sheet steel.

Galvanite Series cabinets are fabricated from galvanized sheet steel which has a zinc-iron alloy coating that is applied at the mill providing protection against high-humidity and moist environments. This coating also prevents corrosion from spreading when the paint and/or coating is scratched away.

Heavy-Duty cabinets are fabricated from 16 gauge sheet steel and are fully-welded creating a rigid, durable unit.

Extra Heavy-Duty cabinets are fabricated from 14 gauge steel which is 25% thicker than 16 gauge providing MAXIMUM durability.

Safety-View® Series cabinets incorporate polycarbonate panels in both doors of our extra heavy-duty Classic Series cabinets allowing contents to be visible without compromising security.

Ventilated Series cabinets are fabricated to the same rugged standards as our extra heavy-duty Classic Series cabinets with the added benefit of being fully ventilated with diamond perforated doors and sides and a 13 gauge flattened expanded metal back.

18-gauge full-height door stiffener provides maximum rigidity to both doors

Heavy-Duty 3/16" thick steel handle with padlock hasp.

1/8" thick latch and 3/8" diameter lock rods insure maximum security

Standard Features for all DuraTough™ Classic and Galvanite™ Series Cabinets

- All-welded construction
- Double door design
- Solid doors are reinforced with an 18 gauge full-height door stiffener providing a rigid torque-free door.
- 3-point turn handle locking using 3/8" diameter locking rods operated by a 3/16" gauge steel handle. Handle is painted to match cabinet.
- Heavy-duty 13 gauge 7-knuckle 3-1/2" butt hinges welded to door and securely riveted to frame.
 - Solid sides are formed to be integral with vertical door frame.
 - Top is formed to be integral with horizontal top door frame.
 - Bottom is formed to be integral with horizontal bottom door frame and includes double return bends at all four sides maximizing unit rigidity.

- Back is welded to cabinet top, bottom and sides
- Shelves are formed to provide maximum capacity and are adjustable on 3" centers. Shelves bolt to shelf support channels which are welded to sides.
 - 78" high storage cabinets include 4-adjustable shelves
 - 60" high storage cabinets include 3-adjustable shelves
 - 42" high storage cabinets include 2-adjustable shelves
 - 78" high combination cabinets include one full-width upper shelf, a center partition, 3 partial-width shelves and one partial-width coat rod
- Optional leg kits are available and can be bolted on to all DuraTough cabinets.
- Color: 738 Charcoal

PRACTICAL, COMPACT AND DURABLE WORKBENCHES

Hallowell

www.Hallowell-List.com

WORKBENCHES

1-3/4" WORK SURFACES

STEEL TOP

Heavy 12 gauge steel with no holes on the work surface withstands hard shop use for years. Will not crack, splinter, gouge, or absorb oil.

SHOP TOP

Shop Top's layered highdensity particleboard offers superior screw holding characteristics. The top and bottom layers are seal to resist conventional spills. The nonconductive, splinter-proof top is 30 percent harder than maple.

LAMINATED HARDWOOD TOP

Thoroughly seasoned, kiln dried hardwood, face-glued to provide an extremely durable, attractive and long lasting work surface.

Work Top Capacity: 200 lbs/sq ft evenly distributed over entire surface.

HEAVY-DUTY ADJUSTABLE LEG WORKBENCHES

Hallowell Workbenches are constructed of only the finest materials and represent the pinnacle in quality, strength, and stability. Our industrial workbenches are designed to withstand the harshest work environments year-in and year-out. With the flexible selection of standard and cost-effective components, these highly efficient units insure maximum productivity in the workplace.

Riser

Provides a 12" high x 10" deep shelf above the work surface

Drawer

24" deep x 18" wide x 6" high. Easily installs under the bench top and can be secured with an optional padlock

Back and End Stops

A 3" high barrier with rounded front corners.

Stringer

Required for lateral stability and acts like a stop for a second bottom shelf.

Lower shelf

Full width 11-3/16" deep.

FORT KNOX MODULAR SYSTEM COMPONENTS & FEATURES

THE FASTEST SHIPPING IN THE INDUSTRY...

FORT KNOX SHELVING

Versatile quick assembly Rivetwell shelving provides heavy-duty storage while allowing four sided access by eliminating the need for anti-sway bracing. Four-sided beam design provides maximum decking capacity. Each unit includes 5 shelf levels including top and bottom and is available in choice of 36" and 48" wide units. Order additional levels as needed. The unique color combination of black uprights and red beams provides an attractive appearance and allows perfect integration into your custom configured system. We offer three decking choices. Order particle board or EZ-Deck steel decking for maximum capacity. Featherdeck is perfect when a clean, lightweight solution is desired. Featherdeck will stand up to most chemicals and liquids.

FORT KNOX SHELF OPTIONS

EZ-Deck

Particle Board

Featherdeck

If additional levels are needed for your setup, shelf levels can be ordered in each of the three available deckings to meet your specific requirements.

FORT KNOX CABINETS

Shown with optional
drawer kit

Fabricated of extra heavy-duty 14 gauge steel, reinforced doors and 1,450 lb. capacity adjustable shelves, durability is an understatement. Best-in-class super-duty 13 gauge full height hinge and 3/16" ergonomically engineered cremone turn-handle insure proper door alignment and operation for a lifetime of use. Each cabinet includes 4 full-width shelves.

Doors are secured in the closed position with our high-security 3-point locking system which includes 3/8" diameter round locking rods that are held securely in place by welded-in pry-resistant retainers. These rods engage both the top and bottom of the cabinet door frame when the door is closed which the center latch rotates behind the slave door. Handle includes provisions for a padlock (locks not included).

Shelves are fully adjustable on 3" centers allowing you to maximize the cabinet's interior space. Cabinets are available in 36" and 48" widths and can accommodate our modular cabinet drawer units. With durable textured powder coat finish presented in an attractive two-tone color combining a black body with red door, you can be sure our system will be the highlight of your workspace environment.

FORT KNOX OPTIONAL DRAWER KITS

Choose From 2 or 3 Drawer Inserts

Each modular drawer unit is 15" high and is available in a 2-drawer or 3-drawer version. Drawers allow maximum weight bearing capacity by combining heavy 14 gauge construction with super-strength 500 lb. capacity full-extension glides. The full extension allows full use of each drawer.

Drawer units can be easily added to any Fort Knox and DuraTough All-Welded Cabinet allowing you to custom configure your cabinets to your specific needs.

Note: Drawer units should always be installed into the lower portion of the cabinets to insure stability when opening the drawers. *Only one drawer should be opened at a time.*

FORT KNOX WORKBENCHES

FORT KNOX PEDESTAL UNITS

3 Drawer Pedestal

6 Drawer Pedestal

Double Door Pedestal

Perfect as stand-alone units or as supports for workbenches. These versatile all-welded heavy-duty modules are available in multiple sizes and configurations and provide ample storage for tools.

Double Door Workbench Pedestals are perfect for storage of larger items. Our high security 3-point latching system is pad-lockable (locks not included).

Drawer Workbench Pedestals are engineered for years of smooth operation while the ergonomic handles add style. Full-extension drawer glides allow full use of drawer space. Available in both 6-drawer and 3-drawer models.

FORT KNOX WORKBENCH TOPS

Workbench Shop Top

Workbench Laminated Hardwood Top

Workbench Steel Top

Choose from rugged steel, laminated hardwood and composite core resin board workbench tops. Each is 1-3/4" thick and provides a perfect working surface.

FORT KNOX WORKBENCH ACCESSORIES

A - LIGHT KITS provide a convenient way to illuminate your work surface. Each light kit easily attaches to our steel pegboards allowing you to mount is where light is needed most.

B - STEEL PEGBOARD PANELS are engineered in three convenient sizes to fit perfectly into our Fort Knox System. Our unique design allows panels to be wall mounted or attached to the sides of our Fort Knox lockers and cabinets. Heavy-gauge design is perfect for industrial applications.

C - PEGBOARD SHELVES mount to the pegboard providing shelf space exactly where you need it. Available in three sizes.

D - ELECTRICAL POWER BAR provides additional power when needed. Available to match both 60" and 72" wide workbenches.

E - LOWER PEDESTAL SHELF mounts between two bench pedestals to provide out of the way storage. Available in three lengths to work with most pedestal configurations.

F - SIDE AND BACK RAIL KITS provide edging to your workbench surface to prevent items from sliding and/or rolling off. Perfect when workbenches and being used stand alone.

FORT KNOX LOCKERS

All-welded heavy-duty Fort Knox lockers are available in multiple sizes and configurations allowing maximum versatility. All doors include a stainless steel recessed handle with padlock hasp (locks not included).

FULL DOOR LOCKERS includes an upper fixed shelf with four adjustable stainless steel shelves.

COMBINATION LOCKERS include three stainless steel adjustable shelves with choice of 3 or 6 lower drawers. Drawers are interchangeable with our pedestal drawer units.

GOLF LOCKERS are engineered specifically for the golfer allowing ample space for your golf bag, clubs, shoes and accessories. Locker doors include ball & tee ventilation. Two adjustable stainless steel shelves are included in addition to one fixed upper shelf.

Single-point thru-the-door friction catch door pull designed for use with a padlock or built-in lock. Shown with optional strike plate which protects door from being marred by padlock and standard piano hinge.

4-Wide Wall Mount Lockers

Sixteen-Person
Lockers

**RUST
RESISTANT**
GALVANITE
SHEET STEEL
can be ordered
ON ANY PRODUCTION
LOCKER OR CABINET
AS AN OPTION

When you order the Galvanite Option, Lockers are fabricated from prime galvanized (hot-dipped zinc coated, annealed) sheet steel, then finished with an electrostatically applied high grade powder coat finish providing double protection against corrosion.

PREMIUM BOX KD STOCK LOCKERS

Hallowell

www.Hallowell-List.com

PREMIUM KD STOCK BOX LOCKERS

Hallowell Premium box lockers include louvered doors and are perfect for storing personal items.

FEATURES:

BODY CONSTRUCTION: Knock-down, 24 gauge

BODY STYLES: Four, five, six tier, 16 Person and wall mount

DOOR: 18 gauge, Louvered for added ventilation

HINGES: Continuous piano type

HANDLE: Single-point projecting friction catch door pull prepared for both padlock or built-in lock. No moving parts insures quiet maintenance-free operation.

HOOKS: None

COAT RODS: None, standard on the 16 person

SHELVES: None

LEGS: 6" high legs are standard. Lockers without legs are available for a nominal charge.

APPEARANCE: Parchment, Hallowell Gray and Marine Blue lockers include matching body colors. Maroon and Green Mist lockers include Parchment body and sides. Order Finished End Panels for exposed row ends if desired. Finished End Panels install over top of universal side panels adding strength and rigidity at exposed row ends and can be ordered to match locker door/frame color.

GENERAL FEATURES:

- Lockers can be ordered fully-assembled or knock-down for assembly at destination.
- Order 3-wide units for best value. Order 1-wide units to complete quantity needed for each continuous row.
- Lockers can be ordered in combination with Premium wardrobe lockers.
- All items shown are available for shipment within 5 business days of receipt of order.
- Aluminum number plates (#1-up) with mounting hardware are included. Number plate face is black with silver etched numerals. If a special numbering sequence is required, please specify when ordering. Number sequence must be consecutive numbers equal to the number of openings (doors) ordered.
- Locks are not included.

MAXVIEW™

All-Welded Lockers

Hallowell All-Welded MaxView lockers are perfect for tool, equipment and gear storage.

FEATURES:

BODY CONSTRUCTION: All-welded 16 gauge heavy-duty tubular frame construction from galvanized sheet steel, sides and back are 1/2" 13 gauge flattened expanded metal. Top and bottom are heavy-duty galvanized corrosion resistant sheet steel, fully-assembled

BODY STYLES: Single tier

DOOR: 14 gauge door is diamond perforated for maximum visibility and ventilation.

Includes a welded-in full height door stiffener

HINGES: Heavy-duty 13 gauge 7-knuckle (3 hinges per door)

HANDLE Single-point projecting friction catch door pull prepared for both padlock or built-in lock.

SHELVES: Four 16 gauge sheet steel welded-in fixed shelves are fabricated from galvanized corrosion resistant sheet steel add additional rigidity to the unit.

- ✓ All-welded heavy-duty construction
- ✓ 4 sided viewing of locker contents
- ✓ 4 sided ventilation
- ✓ Corrosion resistant
- ✓ Lifetime warranty
- ✓ Full height 3-1/2" wide door stiffener

Heavy gauge tubular frame. Bottom shelf of locker sits a full 2-3/4" above finished floor protecting locker contents from water damage.

U-BOAT UTILITY CART

U-Boat stocking carts are designed to replenish finished products in high traffic areas such as a retail location. Heavy-duty and durable steel construction makes it easy to handle the heaviest of loads. The 16" wide X 60" long cart turns on the two fixed 8" center casters allowing it to rotate on its central axis. The four 4" swivel end casters help make turning easy. Each handle is engineered to be comfortable and useful; the cross members act as reinforcements and as supports for an optional shelf. The non-slip diamond plated main deck helps keep loads from shifting during use.

Width	Length	Capacity	Catalog No.	Color
