# Fast Facts Guide

Disposable gloves and apparel protect the hands and body from all types of hazards — chemicals, particulates, biologicals and other contaminants. The materials these products are made of each has its own benefits of use and can impact a worker's ability to perform their job tasks. Use our **FAST FACTS Guide** to aid you in your selection. Each material is color-coded throughout this catalog to help you identify the distinguishing characteristics of each product.

## Glove Materials

### LATEX

The benchmark for fit, comfort and protection. For those not concerned with latex protein allergies, these gloves provide superior elasticity and tensile strength.

### NITRILE

Provides exceptional puncture and chemical resistance with excellent barrier qualities — without the presence of any natural rubber proteins. Today's nitrile comes in a variety of mil thicknesses and colors depending on the application.

### CHLOROPRENE

This technologically advanced synthetic material fits and feels like natural rubber latex with better puncture and chemical resistance. Provides a dependable and comfortable alternative to latex gloves.

### VINYL

Exam grade vinyl can be used in medical applications but does not offer the highest level of protection and is not ideal where tactile sensitivity is important. Non-medical grade vinyl is ideal for non-hazardous applications such as food handling or janitorial/maintenance jobs; however, they should not be used for chemical applications.

### SYNTHETIC

Manufactured using a proprietary PVC formulation which offers enhanced elasticity, durability and fit as compared to conventional vinyl gloves. The glove is opaque and has a color similar to latex.

## Using the FAST FACTS Guide

material	<b>NITRILE</b>
powdered or powder-free	• Powder-Free
glove length	• 9½ inch length
glove thickness	• 5.5 mil (palm)
material grade	• Medical / Exam grade
glove color	• Green color

Note: This information is intended to provide general information about the various glove and apparel materials and is not based on specific scientific research. It is the responsibility of the user to select the appropriate material which is appropriate for the intended use and which meet all specific standards.

## Apparel Materials

### WBP (WATERPROOF BARRIER PROTECTION)

This cloth-like, microporous fabric provides general purpose protection from dirt, grime, splashes and spills. Economical and lightweight, yet strong and durable. Breathable for worker comfort. An economical alternative to Tyvek®.

### SPUNBOND POLYPROPYLENE

Provides protection in non-toxic work environments where dirt, grime and other non-hazardous substances are a problem. The porous construction provides "breathability" making the material cool and comfortable.

### SMS

Protects from numerous dry particulates and water-based liquids. The 3-layer construction provides strength, splash and particulate resistance. Light weight plus breathability keeps workers comfortable.

### PE COATED POLYPROPYLENE

Offers protection in general purpose applications. The fabric will not let water-based liquids penetrate. Lightweight and durable for protection for food processing, light industrial and similar industries.

### POLYETHYLENE

Impervious material resists liquid penetration. An inexpensive way to protect clothing from splashes in light to medium duty jobs.

## LATEX

### A+ ALOE® Latex Exam Gloves

- Soothing aloe helps keep hands healthy.

Gloves surround the hand with soothing aloe, protecting the skin against drying, cracking and chapping. Ideal for workers that have frequent glove changes. State-of-the-art manufacturing process minimizes water-soluble proteins reducing the risk of allergic reactions and skin irritation.

Cat. No.	Size

**PACKAGING:** 100/Box; 10 Boxes/Case

- Powder-Free
- 9½ inch length
- 5.5 mil (palm)
- Medical / Exam grade
- Natural color

#### SPECIFICATIONS

- Finish: Textured
- Type: Ambidextrous / Non-Sterile
- Cuff: Beaded
- Thickness  $\pm 0.01$ : 5.5 mil (palm); 6.0 mil (finger); 4.5 mil (cuff)
- Tensile Strength: 18 Mpa (min)
- Elasticity/Elongation: 750% (min)
- 1.5 AQL
- Contains 50 µg or less of total water extractable protein per gram (lowest protein claim allowed)
- Complies with FDA Biocompatibility Guidance for Medical Devices
- Passes viral penetration test (ASTM F1671)
- 510K /Approved for medical use
- ISO 9001 Certified QMS

## LATEX

### LONG CUFF Latex Exam Gloves

- Longer length for added protection.

Thicker and stronger than standard exam gloves to give the wearer extra protection in hazardous environments. These gloves have a beaded cuff and a textured finish for excellent gripping power. 510K approved for medical use.

Cat. No.	Size
L911	Small

L913	Large
L914	X-Large

**PACKAGING:** 50/Box; 10 Boxes/Case

- Powder-Free
- 12 inch length
- 7.0 mil (palm)
- Medical / Exam grade
- Natural color

#### SPECIFICATIONS

- Finish: Textured
- Type: Ambidextrous / Non-Sterile
- Cuff: Beaded
- Thickness  $\pm 0.01$ : 7.0 mil (palm); 8.0 mil (finger); 5.0 mil (cuff)
- Tensile Strength: 18 Mpa (min)
- Elasticity/Elongation: 650% (min)
- 1.5 AQL
- Contains 50 µg or less of total water extractable protein per gram (lowest protein claim allowed)
- Complies with FDA Biocompatibility Guidance for Medical Devices
- Passes viral penetration test (ASTM F1671)
- 510K /Approved for medical use
- ISO 9001 Certified QMS

## LATEX

### E-GRIP® Latex Exam Gloves

- Offers enhanced tactile sensitivity and grip.

The micro-textured satin finish provides enhanced gripping power and excellent tactile sensitivity. Made using a proprietary on-line chlorination process. Beaded cuff for easy donning. 510K approved.

Cat. No.	Size
L970	X-Small
L971	Small
L972	Medium
L973	Large
L974	X-Large

**PACKAGING:** 100/Box; 10 Boxes/Case

- Powder-Free
- 9½ inch length
- 5.0 mil (palm)
- Medical / Exam grade
- Natural color

#### SPECIFICATIONS

- Finish: Textured
- Type: Ambidextrous / Non-Sterile
- Cuff: Beaded
- Thickness  $\pm 0.01$ : 5.0 mil (palm); 6.0 mil (finger); 4.0 mil (cuff)
- Tensile Strength: 22 Mpa (min)
- Elasticity/Elongation: 800% (min)
- 1.5 AQL
- Contains 50 µg or less of total water extractable protein per gram (lowest protein claim allowed)
- Complies with FDA Biocompatibility Guidance for Medical Devices
- Passes viral penetration test (ASTM F1671)
- 510K /Approved for medical use
- ISO 9002 Certified QMS

## LATEX

### Latex Exam Gloves

- Lightly powdered with a smooth finish.

The silky smooth finish of this powdered latex exam glove offers enhanced tactile sensitivity while still providing an excellent grip. Lightly powdered with USP cornstarch.

Cat. No.	Size
L780	X-Small
L781	Small
L782	Medium
L783	Large
L784	X-Large

**PACKAGING:** 100/Box; 10 Boxes/Case

- Powdered
- 9½ inch length
- 5.0 mil (palm)
- Medical / Exam grade
- Natural color

#### SPECIFICATIONS

- Finish: Smooth
- Type: Ambidextrous / Non-Sterile
- Cuff: Beaded
- Thickness  $\pm 0.01$ : 5.0 mil (palm); 5.5 mil (finger); 3.9 mil (cuff)
- Tensile Strength: 24.5 Mpa (min)
- Elasticity/Elongation: 820% (min)
- 2.5 AQL
- Complies with FDA Biocompatibility Guidance for Medical Devices
- Passes viral penetration test (ASTM F1671)
- 510K /Approved for medical use
- ISO 9002 Certified QMS

## LATEX

### Latex Gloves, General Purpose

- Not approved for medical use.

Great for work areas such as food processing and other industrial areas where a medical grade glove is not required. Offers exceptional dexterity. Component materials comply with FDA regulations for food handling.

- Powdered or Powder-Free
- 9½ inch length
- 4.5 mil (palm)
- Industrial / Food grade
- Natural color

#### SPECIFICATIONS

- Finish: Textured
- Type: Ambidextrous / Non-Sterile
- Cuff: Beaded
- Thickness  $\pm 0.01$ : 4.5 mil (palm); 5.5 mil (finger); 3.5 mil (cuff)
- Tensile Strength: 20 Mpa (min)
- Elasticity/Elongation: 700% (min)
- 4.0 AQL
- Component materials comply with FDA regulations for food contact

**PACKAGING:** 100/Box; 10 Boxes/Case

### COBALT® Nitrile Gloves

- Soft and stretchy with exceptional durability.

The soft stretchy formula provides a superior fit and feel. Ideal for jobs requiring exceptional tactile sensitivity. Durable and puncture-resistant. Features a fully textured surface for enhanced gripping in wet or dry conditions.

- Powder-Free
- 9½ inch length
- 4.0 mil (palm)
- Medical or Industrial grade
- Cobalt blue color

#### SPECIFICATIONS

- Finish: Textured
- Type: Ambidextrous / Non-Sterile
- Cuff: Beaded
- Thickness  $\pm 0.01$ : 4.0 mil (palm); 4.5 mil (finger); 4.0 mil (cuff)
- Tensile Strength: 19 Mpa (min)
- Elasticity/Elongation: 600% (min)
- 2.0 AQL (exam) or 4.0 (non-medical)
- No MBTs, Thiurams used in manufacturing process; no Carbamates detectable using HPLC test
- Complies with FDA Biocompatibility Guidance for Medical Devices
- Passes viral penetration test (ASTM F1671)
- 510K/Approved for medical use (exam)
- Component materials comply with FDA regulations for food contact
- ISO 9001 Certified QMS

**PACKAGING:** 100/Box; 10 Boxes/Case

- Powdered or Powder-Free
- 9½ inch length
- 4.0 mil
- Industrial / Food grade
- Clear color

#### SPECIFICATIONS

- Finish: Smooth
- Type: Ambidextrous / Non-Sterile
- Cuff: Beaded
- Length: 9½ inches
- Thickness  $\pm 0.01$ : 4.0 mil
- Tensile Strength: 20.5 Mpa (min)
- Elasticity/Elongation: 600% (min)
- 4.0 AQL
- Exceeds ASTM D5250 standard
- Component materials comply with FDA regulations for food contact
- ISO 9001 Certified QMS

## VINYL

### Vinyl Gloves, Non-Medical

- Blue color for food processing applications

Blue color identifies gloves used for contamination control in food handling applications. These exceptionally stretchy gloves offer a great fit as compared to competitive vinyl gloves.

AL605	2XL

**PACKAGING:** 30/Case

## WBP Sleeve

These general purpose sleeves can be used in areas where dirt, grime, spills and splashes are prevalent. The microporous construction gives added durability.

Cat. No.	Size
AS106	18" length

**PACKAGING:** 200/Case

## Poly Coated Sleeve

Polyethylene coated polypropylene sleeves offer an excellent barrier for dry particulates and light liquid splash. Offers durability and flexibility.

Cat. No.	Size
AS498	18" length

**PACKAGING:** 200/Case (2 Bags of 100)

## Poly (PE) Sleeve

Provides economical protection from liquid splashes. Embossed pattern helps resist cling. Great for food service applications.

Cat. No.	Size
AS401	18" length

**PACKAGING:** 2000/Case (20 Bags of 100)

## SMS Iso Gown

- Gives added durability

Wraparound design shields clothing from particulates and light splash. 3-layer construction offers durability with comfort due to its breathability.

Cat. No.	Size
AG304	X-Large

**PACKAGING:** 50/Case

## WBP Apron

- Front body protection

Bib styling protects the front of clothing from dust, dirt, oils, grime and light splashes. Neck loop and extra long ties make on and off easy. The microporous construction gives added durability.

Cat. No.	Size
AA409	28 x 36"

**PACKAGING:** 100/Case

## Spunbond Iso Gown

- Economical protection

Spunbond polypropylene construction resists the penetration of dust, dirt and grime. Breathable, wrap-around styling and generous full cut adds to the comfort.

Cat. No.	Size
AG164	X-Large
AG165	2XL

**PACKAGING:** 50/Case

## Poly (PE) Apron

- Great for food service applications

All polyethylene material protects clothing from liquid splash. Embossed texture provides non-cling comfort. one-piece design is ideal for safer food handling. Dispenser pack.

Cat. No.	Size
A600	28"W x 46"L

**PACKAGING:** 500/Case (10 Boxes of 50)

## Spunbond Shoe Cover with Tread

- Tread improves traction on slick, slippery floors.

Sanitary shoe covers feature a 2½" wide tacky strip on the sole to keep wearer from slipping and sliding. Made of strong, abrasion-resistant spunbond polypropylene. The full elastic top stretches to allow for easy on and off. Available in Universal and X-Large sizes.

### Bulk Pack

Cat. No.	Size
AS623	Universal
AS624	X-Large
