# Nuestra Historia • *Our History*

Interceramic inició operaciones en Chihuahua, México en 1979, introduciendo al mercado lo más nuevo en tecnología para fabricación de pisos y azulejos de ese entonces. Hoy en día, es uno de los más grandes fabricantes de América del Norte con una capacidad de producción de 42 millones de metros cuadrados anuales en nueve plantas localizadas en cuatro complejos industriales: tres en Chihuahua, México y uno más en Garland, TX en los Estados Unidos.

Después de casi 30 años en el mercado, Interceramic se ha convertido en líder indiscutible, no solamente como fabricante, sino también como distribuidor de pisos y azulejos cerámicos, muebles de baño, materiales para instalación y piedra natural.

Para complementar los productos manufacturados por Interceramic, se importan anualmente 6 millones de metros cuadrados de pisos y azulejos. A través de un innovador sistema de distribución que incluye 230 tiendas de franquicia en México, 26 tiendas propias en Estados Unidos y alrededor de 65 distribuidores independientes en Estados Unidos y Canadá, las ventas de Interceramic exceden los \$500 millones de dólares anuales.

*Interceramic began operations in Chihuahua, Mexico in 1979 as a ceramic tile manufacturing company with the most innovative technology at the time. Today it is one of the largest ceramic tile manufacturers in North America with a total production capacity of approximately 450 million sq ft per year in nine facilities housed in four different complexes: three in Chihuahua, Mexico and one in Garland, TX in the US.*

*With almost 30 years in the market, Interceramic has become a leader not only as a manufacturer, but as also as distributor of ceramic tile, bathroom fixtures, setting materials and natural stone. To complement manufactured products, Interceramic also outsources approximately 70 million sq ft of floor and wall tile annually. We go to the North American market through a unique franchised-store distribution system in Mexico comprised of 230 stores and 27 wholesale showroom and warehouse facilities plus 65 independent distributors in the US and Canada, annual sales nearing the \$500 million mark.*

The background of the image is a solid black field covered with a repeating pattern of stylized, bright pink flowers. Each flower has multiple layers of petals and a central stem with small leaves, creating a dense, ornate texture.

# Inter ceramic

En la Colección In Design de Interceramic convergen los lenguajes más sofisticados, la exclusividad, la elegancia y lo último en tendencias vanguardistas globales. La Colección In Design destaca en el ámbito mundial del diseño por su alto contenido estético, su originalidad y versatilidad.

In Design marca tendencia, estilo y moda con un lenguaje atrayente, práctico y armónico. Es lo más sofisticado en el mundo de la cerámica. Es Interceramic... Simplemente lo mejor.

*The obvious leadership in innovation and design was underlined by the creation of Interceramic's InDesign Collection. The definition of the most sophisticated languages: exclusivity, elegance and the latest in daring global trends. This collection shines in the design world for its aesthetic content, its originality and versatility.*

*InDesign sets the pace in trend, style and fashion with an attractive language both practical and harmonious. It is sophistication in the ceramic world. It is Interceramic, simply the best.*

2mm

## *Las Joyas de Interceramic • Interceramic Treasures* piso y azulejo rectificado • *floor and wall tile rectified*

Hemos llamado Las Joyas de Interceramic a una serie de líneas que llevan, además del cuidadoso proceso de producción, un proceso adicional de rectificado.

Los bordes rectos de las líneas rectificadas Interceramic permiten su instalación con una separación mínima de 2 mm entre pieza y pieza para lograr esa apariencia que solo se logra con piedras naturales.

Las Joyas Interceramic son la alternativa que Interceramic ofrece a clientes que buscan la apariencia estética que brindan las piedras naturales pero que requieren de un producto de fácil mantenimiento.

*We have given the name Interceramic Treasures to a collection of series that, after following the careful manufacturing process, go through an additional rectifying stage.*

*The straight borders of these rectified Interceramic series allow them to be installed with a very thin grout of only 2mm which results in a beautiful look achieved only with natural stone.*

*Interceramic Treasures are an alternative offered by Interceramic to those customers that appreciate the aesthetic look of natural stones but need a product that requires little or no maintenance.*

azulejo / wall tile

# ETT / STS

piso y azulejo / floor and wall tile

ETT. Espectro de Tono y Textura  
STS. Shade and Texture Spectrum

---

ETT 1  
STS 1

ETT 1 bajo. Tono y textura uniformes dentro de cada caja, tanto como los productos de arcilla lo pueden permitir.  
Light STS. The least amount of shade and texture variation attainable in naturally fired clay products.

ETT 2  
STS 2

ETT 2 moderado. Variaciones de tono y textura de bajo a moderado dentro de cada caja.  
Moderate STS. Light to moderate shade and texture variation within each carton.

ETT 3  
STS 3

ETT 3 alto. Variaciones de tono y textura altas dentro de cada caja.  
High STS. High shade and texture variation within each carton.

ETT 4  
STS 4

ETT 4 aleatorio. Variaciones de tono y textura muy altas de pieza a pieza dentro de cada caja.  
Random STS. Very high shade and texture variation within each carton.

# PEI

piso / floor tile

Tráfico  
Group rating

---

PEI I

Uso residencial tráfico ligero. En todas las áreas residenciales salas, recámaras, baños siempre y cuando no tenga acceso directo de exteriores.  
Light traffic. Residential bathrooms floor and all interior wall applications.

PEI II

Uso residencial tráfico moderado. En todas las áreas residenciales cocinas, pasillos y aún aquellas con acceso directo de exteriores.  
Medium traffic. Residential interior floor areas except entry ways, kitchens, stairs and pivot points.

PEI III

Uso comercial tráfico ligero. En todas las áreas comerciales boutiques y tiendas de especialidades sin acceso directo de exteriores.  
Medium heavy traffic. All residential and very light commercial floor applications. Not recommended for commercial entry ways.

PEI IV

Uso comercial tráfico moderado. En todas las áreas comerciales restaurantes, tiendas y aún aquellas con acceso directo de exteriores.  
Heavy traffic. All residential and most commercial floor applications, including shopping malls and most public areas.

PEI V

Uso comercial tráfico intenso. Todo tipo de tráfico comercial restaurantes, centros comerciales, edificios públicos.  
Heavy plus traffic. All residential and all commercial floor applications, where extra heavy duty wearability is required.

**COF** (Coeficiente Estático de Fricción), mide la resistencia de un piso a resbalar, **COF** <0.6 menos resistencia al resbalar, **COF** >0.6 más resistencia al resbalar. **COF** >0.6 no garantiza que las personas no se resbalaran y provocaran caídas, múltiples variables interactúan para que una persona se resbale: tipo de líquido derramado, tipo de suela, tipo de tacón, ángulo del pie al caminar, edad, inclinación del piso, etc...

Interceramic recomienda extremar precauciones cuando un líquido es derramado y/o cuando se está limpiando el piso; deberán colocarse avisos de piso mojado, precaución al caminar.

**SCOF** (Static Coefficient of Friction) measures slip resistance of ceramic tile surface, **SCOF** < 0.6 means lower slip resistance; **SCOF** > 0.6 means higher slip resistance. **SCOF** test does not guarantee non slips; other factors can affect slip resistance, such as the degree of wear on the shoe and flooring material; presence of foreign material, such as water, oil, and dirt; the length of the human stride at the time of slip; type of floor finish; and the physical and mental condition of humans.
