

JASON

LAWN, GARDEN & FARM EQUIPMENT BELTS

MXV™ Series
OEM
FHP Multi-Plus®

HOW TO USE THE JASON CROSS-REFERENCING GUIDE

It's Quick & Easy!

1. Simply look up the OEM manufacturer's part number on pages 7 - 8. Listed next to it is a cross-reference to MXV or standard Multi-Plus belt. Special OEM belts are listed on pages 5 - 6.

2. What if the belt I am trying to replace has no part number on it (or I can't read it)? Using the Belt Construction Reference on pages 11 - 12, determine the cross-section, then measure the outside length of the belt.

For example, a belt that has 1/2" top width and measures 35" in circumference would be cross-referenced into either a A33(4L350) or a MXV4-350 (Mega-Power).

3. Which do I use - MXV or Standard Multi-Plus belts?

Most manufacturer's part numbers can be cross-referenced into either a standard FHP/Classical belt or a Multi-Plus belt. If given a choice, we recommend the MXV belt, especially for lawn and garden equipment. It is a little more expensive, but provides longer life and fewer breakdowns. An MXV belt may be substituted for a standard Multi-Plus V-belt. The reverse, however, is not always true. A Multi-Plus belt simply may not work on a drive designed for a stronger belt and definitely where clutching idlers are used.

Some guidelines in deciding which type of belt to use:

HORSEPOWER - Whenever the motor horsepower is greater than 5 or the service life of a Multi-Plus belt is less than desired, move up to the premium MXV Mega-Power belt.

CLUTCHING - If the belt must clutch (gradually engage the drive), use the MXV Mega-Power belt. It has a "dry" cover fabric specially designed to allow it to clutch. If clutching is not a requirement, the standard Multi-Plus may be used.

BACKSIDE IDLER - While the Multi-Plus belt will operate with a backside idler, MXV belt is designed for longer life when used on a drive where a backside idler is used.

All references to original equipment manufacturers, their trade names and their part numbers, listed in this catalog are used for identification purposes only. It is not our intention to imply that the merchandise is original equipment.

Any reference to Original Equipment Manufacturers, their trade names or stock numbers in this catalog is for identification purpose only.

The replacement recommendations contained in this catalog are not, in all cases, intended to be identical to the belt specifications of the original equipment manufacturer. Reasonable performance and availability are the major considerations in arriving at these selections. Where clutching drives are involved, extreme caution must be exercised to assure correct belt recommendations are used.

WARNING

Aramid Cable Cord — Since MXV belts feature high strength aramid tensile cords, shocks can be transmitted that exceed the strength of some cast pulleys. Carefully check the condition of your equipment, keep all guards in place, and consult the manufacturer if replacing standard belts with high strength aramid cord belts on cast pulleys.

THE PROFESSIONAL SELECTION

ARAMID CORD - (MXV) Heavy Duty

Professional Aramid Cord, premium wrapped belts are designed for engine-powered applications and designed to handle the most demanding applications - from riding mowers to edgers and tillers. These belts have an extra long life, even when used in clutching and backside idler applications.

The Professional Aramid belts provide performance advantages over fractional horsepower belts:

- Aramid Cord provides a high tensile strength for severe shock load and stretch resistance. Aramid is pound for pound stronger than steel - it's the same material used in bullet proof vests!
- Lowered cord position within the MXV belt is a major performance advantage in backside idler applications.
- Our special clutching cover provides smooth engagement and prevents accidental engagement in clutching applications. This cover protects the belt from heat associated with clutching. It also allows smooth belt engagement and reduces the "grabbing" effect that can cause accidental belt engagement common with standard belts.

POLY CORD - (MULTI-PLUS®) Standard Duty

Professional Poly Cord belts are high quality standard duty replacement belt for use in less demanding applications, designed and constructed for motor powered applications. These belts are made from premium quality synthetic rubber compounds, and feature high-strength polyester cords.

These poly cord belts offer an economical alternative to the Aramid cord belts while still providing outstanding quality.

OEM Exact (XP) Replacement

The OEM Exact Replacement belts are of the highest quality, made to exact OEM specifications. These belts offer exact length and top width dimensions, and are guaranteed to meet or exceed OEM tolerances. While most of our Aramid and Poly Cord belts are interchangeable with the exact replacement belts we offer, if we make an OEM exact belt available, we recommend selecting that belt. We carry exact replacements because of their non-standard size or because we have determined that they offer superior performance.

For Lawn and Garden Power Equipment

Aramid Cable Cord Construction - Built for Strength and Endurance

The Jason MXV Premium V-belt is designed to provide optimum performance on demanding outdoor power equipment in use today, as well as all other light-duty FHP drives.

- Superior Tensile Strength • De-Clutching Cover • Longer Drive Life
 • Superior Length Stability • Greater Heat/Oil Resistance

APPLICATIONS: Power Mowers • Riding Mowers/Garden Tractors • Tillers
 Snow Throwers • Sprayer Pumps

*UniMatch® series belts ensure all belts are same size and type will measure within RMA matching limits. Combination branded i.e. A40 (4L420), B78 (5L810).

V-BELT ACCESSORIES

V-BELT DISPLAY

Display up to 184 belts at once. 49 hooks hold up to 4 belts each. Display height is 16", width 47", 22" deep. Includes header sign and bracket accessories for easy set up. **Part No. WFD-42**

V-BELT WALL RACK

36" long mounting rack with eight 8" hooks provided. Includes two brackets for quick, easy, durable mounting. **Part No. WHD-7**

110" BELT MEASURER

Measures all size Industrial belts up to 110" in ranges of 3/8", 1/2" and 5/8" accurately and efficiently. **Part No. 32-9108**

AG EQUIPMENT & PUMP BELTING PART NUMBERS

NOTE: FHP Belt may be upgraded to the MXV Belt, however the FHP Belt SHOULD NOT be substituted for the MXV Belt

MXV™ MEGA-POWER BELT

Jason **MXV** belts are recommended for **Heavy Duty Lawn and Garden** equipment, especially where **superior load carrying capacity**, extra heavy **clutching** and **reverse bend** characteristics are required. New length-stable **ARAMID** cord provides **higher tensile strength** and requires fewer take-ups. High quality synthetic compounding results in **longer life** and greater heat and oil resistance.

CROSS SECTIONS AVAILABLE

MULTI-PLUS BELT

Built with super strength cords, withstands overloads, shocks, vibrations and pulsations; resists extreme temperatures, humidity and excessive oil; high static conductivity.

CROSS SECTIONS AVAILABLE

MOLDED COG BELT

The premier V-Belt for industrial applications; extremely flexible for substandard sheaves; greater horsepower rating for longer service life; operates with lower drive tension. Its combination of molded cogs and Raw-Edge construction allows Jason Cog-Belt to bend more easily around the sheave. This means less energy is wasted so less energy is required from the motor. Belt is static dissipating.

CROSS SECTIONS AVAILABLE

GRIP-FLEX

Grip-Flex's stress-relieved bias cut side walls provides maximum flexibility and gripping action while adding increased horsepower capacity. Layers of laminated fabric provide resistance to cracking when engaged in clutching actions. Hi-Modulus polyester or aramid cord specially treated to maintain belt loads without stretching.

Neoprene core rubber provides ideal resistance to flex fatigue, oil and heat degradation.

Belt Constructions

WEDGE V-BELT

The deep V-design of the **Wedge V-Belt** enables a smaller belt to carry a bigger load. It can operate at higher speeds up to 6,500 feet-per-minute. In most installations, smaller diameter sheaves can be used permitting shorter center distances. Heat and oil resistant, static dissipating.

CROSS SECTIONS AVAILABLE

DOUBLE ANGLE V-BELT

For serpentine type drive applications where power must be transmitted to sheaves from both sides of the belt. One or more of the driven sheaves can be operated in a reverse direction without crossing belt. The **Double Angle V-Belt** flexes equally well in either direction and provides natural wedging action on both sides for maximum pulling power regardless of which side of the belt engages the sheave. Belt is static dissipating.

CROSS SECTIONS AVAILABLE

MULTI V-BELT

Delivers 50% more horsepower in two-thirds the space required for standard belts. For high-speed, high-ratio applications where compact drive conditions exist.

UNI BAND (Machined Edge)

Musclled with high strength, low stretch aramid tension members for extended flex life and excellent resistance to shock loads. **Laminated** style is designed specifically for backside idler operation, lower belt laminations reduce surface fatigue and resist cracking. Where drive application requires secure power engagement over small diameter pulleys, **Molded Cogged** style resists slip-page, even at low drive tensions.

TERMS, CONDITIONS AND LIMITED WARRANTY OF SALE

All prices, terms and conditions of sale are subject to change without prior notice. Buyer agrees to all terms and conditions of seller upon the placement of any and all purchase orders.

GENERAL

- All orders are subject to a minimum charge of \$25.00.
- All claims must be made within seven (7) days of receipt of merchandise.
- The company reserves the right at all times to reject any and all orders for any reason.

PAYMENT TERMS

- Net 30 days (to approved and qualified accounts).
- We reserve the right to hold shipments against past due accounts.
- Seller may require full or partial payment in advance if, in its sole judgement, the financial condition of the buyer does not justify the terms specified.
- All past due accounts are subject to a late payment charge of 1.5% per month, or maximum allowed by law if different, along with the expenses incidental to collection including reasonable attorney's fees.
- Returned checks are subject to a minimum \$50.00 charge.

FREIGHT TERMS

- Freight Prepaid on \$1,000 net.
- Orders with different numbers and dates may not be combined to make freight allowance.
- Prepaid orders requiring immediate delivery that must be shipped from different Jason locations may be subject to a freight surcharge. Such determination will be made at the time of order.
- Backorders will be shipped in the most practical fashion with charges consistent with our freight policy established with the original order.

ACCEPTANCE, ALTERATION AND CANCELLATION OF ORDERS

Orders for other than standard items or standard lengths may not be cancelled after purchase has been committed, production scheduled or any costs incurred.

RETURN OF DEFECTIVE MERCHANDISE

Defective or failed material to be held at the buyer's premises until authorization has been granted by seller to return or dispose of merchandise. Merchandise to be returned for final inspection must be returned Freight Prepaid in the most economical way. Credit will be issued for material found to be defective upon our inspection based on prices at time of purchase.

MERCHANDISE SHIPPED IN ERROR

Buyer must notify seller immediately on any merchandise shipped in error. Upon notification, merchandise is to be returned to seller either via truck on a Freight Collect basis, via carrier of our choice, or via UPS on a Freight Prepaid basis. Buyer will be reimbursed for cost of merchandise, plus any additional freight which may have been incurred due to shipping error.

MERCHANDISE ORDERED IN ERROR

Standard packaged merchandise only may be returned, provided that the merchandise is in the original buyer's possession not more than 30 days. If merchandise is accepted for return, merchandise must be returned Freight Prepaid, and buyer will be charged a minimum of 15% rehandling charge, plus a chargeback for outbound freight charges if the original order was shipped prepaid. Returns are not accepted for any merchandise that is specifically manufactured to meet the buyer's requirement of either specifications or large quantity.

DELIVERY, DAMAGES, SHORTAGES

Delivery to the initial common carrier shall constitute the delivery to the buyer. Our responsibility, insofar as transportation risks are concerned, ceases upon the delivery of the merchandise in good condition to such a carrier, and all the merchandise shall be shipped at the buyer's risk.

GOODS DAMAGED IN SHIPMENT

Upon receipt of shipment, any evidence of damage to original shipping package must be reported by the receiving party and a claim made with the delivering carrier upon receipt of shipment.

CONCEALED DAMAGE

Any evidence of damage to material shipped, upon the opening of the original shipping package, must be reported by the receiving party to and a claim made with the delivering carrier without delay.

LIMITED WARRANTY

The merchandise or products sold or distributed by Jason Industrial, Inc. are warranted to our customers to be free from defects in material and workmanship at the time of shipment by us. All warranty claims shall be made within 90 days after we have shipped the merchandise. Our liability hereunder is limited to the purchase price of any merchandise proved defective, or, at our option, to the replacement of such merchandise upon its authorized return to us.

THIS WARRANTY IS IN LIEU OF AND EXCLUDES ALL OTHER WARRANTIES, EXPRESSED, IMPLIED, STATUTORY, OR OTHERWISE CREATED UNDER APPLICABLE LAW INCLUDING, BUT NOT LIMITED TO, THE WARRANTY OF MERCHANT ABILITY AND THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL WE BE LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, INCLUDING LOSS OF PROFITS.
