## 3-1/2 DIGIT LCD PANEL DISPLAY

**LPI-1C**

### DESCRIPTION

Model **LPI-1C** is a loop-powered indicator featuring a large 3-1/2 digit LCD display with black digits. The Model **LPI-1C** displays engineering units of °F, °C, PSI, %, or no engineering units if desired. It is directly powered by the 4-20 mA signal and scaled to specifications.

### FEATURES

- **Indication of 4-20 mA signal in desired scale**
- **3-1/2 digit LCD display**
- **Snap-in panel mounting**
- **Easy-to-read digits**
- **NEMA 4X enclosure available**
- **Precalibrated for desired range**
- **Negative-to-positive indication**
- **Jumper-selectable engineering unit display**

### APPLICATION

- **Temperature**
- **Humidity**
- **Pressure**
- **Differential or static pressure**
- **Kilowatt demand**

### SPECIFICATIONS

Input Signal	4 - 20 mA loop-powered
Input Impedance	300Ω nominal @ 24 VDC
Accuracy	0.1% of scale
Digit Size	0.5" (1.27 cm)
Decimal Point	Three positions or none (1.0.0.0)
Display Color	Black
Range	-1999 to 1999
Operating Humidity	95% non-condensing
Operating Temperature	32° to 122°F (0° to 50°C)
Panel Clearance	1.97" (5.00 cm)
Cutout Requirement	1.00" H x 2.40" W (2.54 x 6.10 cm)
Dimensions	
Display	1.11" H x 2.51" W (2.82 x 6.38 cm)
E (NEMA 4X)	6.0"H x 6.0"W x 3.0"D (15.2 x 15.2 x 7.62 cm)
WMB	2.12"H x 3.12"W x 1.75"D (5.4 x 7.94 x 4.45 cm)
Approvals	RoHS
Weight	2.3 oz (56.7g) (Display only)
Warranty	1 year

## 3-1/2 DIGIT LCD AMBER / GREEN / RED PANEL DISPLAY

**LPI-1C-A, LPI-1C-G, LPI-1C-R**

### DESCRIPTION

Models **LPI-1C-A**, **G**, and **R** are 4-20 mA, 24 VDC-powered, brightly lit 3-1/2 digit color LCD displays, available with amber, green, or red digits. Models **LPI-1C-A**, **G**, and **R** also feature jumper-selectable built-in engineering units of °F, °C, PSI, %, or no units. The same 24 VDC power supply can be used to provide power to the 4-20 mA loop and the display.

### FEATURES

- Indication of 4-20 mA signal in desired scale
- Bright 3-1/2 digit LCD display
- Available in amber, green, and red
- Snap-in panel mounting
- Easy-to-read digits
- NEMA 4X enclosure available
- Precalibrated for desired range
- Negative-to-positive indication
- Jumper selectable engineering unit display

### APPLICATION

- Temperature
- Humidity
- Pressure

## 4-1/2 DIGIT BLACK / AMBER / GREEN / RED DISPLAY

**LPI-3C, LPI-3C-A, LPI-3C-G OR LPI-3C-R**

### DESCRIPTION

**Model LPI-3C** is a 4-20 mA, brightly lit, 4-1/2 digit display. Along with standard black digits, amber, green, and red (powered by 24 VDC) are also available. The **Model LPI-3C** also features jumper-selectable built-in engineering units of °F, °C, PSI, %, or no units. For those units with colored digits, the same 24 VDC power supply can be used to provide power to the 4-20 mA loop and the display.

### FEATURES

- Indication of 4-20 mA signal in desired scale
- Optional, bright 4-1/2 digit LCD colored display
- Available in black, amber, green, or red digits
- Snap-in panel mounting
- Easy-to-read digits
- NEMA 4X enclosure available
- Precalibrated for desired range
- Negative-to-positive indication
- Jumper-selectable engineering unit display

### SPECIFICATIONS

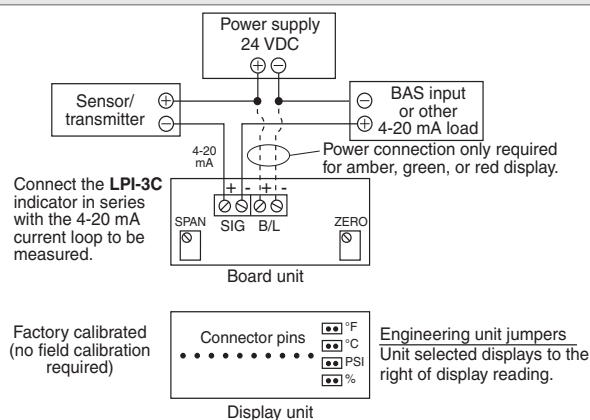

Supply VA	24 VDC @ 35 mA for colored digits
Input Signal	Loop-powered 4-20 mA signal
Input Impedance	300Ω nominal @ 24 VDC
Accuracy	0.1% FS
Digit Size	0.5" (1.27 cm) LCD
Decimal Point	Four positions or none (1.0.0.0.0)
Range	-19999 to +19999
Operating Humidity	95% non-condensing
Operating Temperature	32° to 122°F (0° to 50°C)
Panel Clearance	1.97" (5.00 cm)
Cutout Requirement	1.00"H x 2.40"W (2.54 x 6.10 cm)
Dimensions	
Display	1.11"H x 2.51"W (2.82 x 6.38 cm)
E (NEMA 4X)	6.0"H x 6.0"W x 3.0"D (15.2 x 15.2 x 7.62 cm)
WMB	2.12"H x 3.12"W x 1.75"D (5.4 x 7.94 x 4.45 cm)
Approvals	RoHS, Except: (LPI-3CA)
Weight	2.3 oz (56.7g) (Display only)
Warranty	1 year

### APPLICATION

## KELE 3-1/2 DIGIT LARGE BLACK/RED/GREEN/AMBER PANEL DISPLAY

### LPI-4

#### DESCRIPTION

The **Model LPI-4** loop-powered indicator features a large 1" (2.54 cm) 3-1/2 digit display. It is designed to display any 4-20 mA signal in desired scale. The **Model LPI-4** is powered directly from the 4-20mA signal loop, so there is no need for a power supply for the black digit model. It is also available in a 24 VDC powered version with red, green, or amber digits.

#### FEATURES

- Indication of 4-20 mA signal in desired scale
- 3-1/2 digit LCD display
- Large, easy-to-read digits
- Available in either black, red, green, or amber digits
- Precalibrated for desired range
- Snap-in panel mount with retainer
- Negative range indicator
- Includes weather-resistant seal
- Optional jumper-selectable display units °F, °C, %, PSI

#### APPLICATION

- Temperature
- Humidity
- Pressure
- Killowatt demand
- Gallons per minute
- Voltage/current

#### SPECIFICATIONS

Supply VA	Black Loop powered Red/Green/Amber 24 VDC, 35 mA max
Input Signal	4-20 mA
Input Impedance	300Ω
Accuracy	+/- 0.05% of scale plus one digit
Digit Count	3-1/2 digits
Digit Size	1" (2.54 cm)
Decimal Point	Three positions or none (1.0.0.0)
Range	-1999 to 1999
Operating Humidity	95% non-condensing
Operating Temperature	32° to 122°F (0° to 50°C)
Cutout Requirement	1.77" x 3.62" (4.5 X 9.2 cm)
Dimensions	1.89"H x 3.78"W x 1.8"D (4.8 x 9.6 x 4.6 cm)
Approvals	RoHS
Weight	4 oz (113g)
Warranty	1 year

## KELE 3-1/2 DIGIT SMALL BLACK/RED PANEL DISPLAY

LPI-5

### DESCRIPTION

The **LPI-5** loop-powered indicator features a small 0.37" (0.94 cm), 3-1/2 digit, black LCD or red LED display. The meter displays any 4-20 mA signal in desired scale. The **Model LPI-5** is powered directly from the 4-20 mA signal loop, so the black LCD display and red LED display do not require a separate power supply.

### FEATURES

- **Indication of 4-20 mA signal in desired scale**
- **Loop powered**
- **3-1/2 digit display**
- **Snap-in panel mounting**
- **Small, easy-to-read display**
- **Precalibrated for desired range**
- **Selectable decimal point location**
- **Positive-to-negative indication (black LCD display)**

### APPLICATION

- **Temperature**
- **Humidity**
- **Pressure**
- **GPM**
- **Kilowatt demand**
- **Voltage/Current**

## 3-1/2 DIGIT LCD PANEL DISPLAY

### VPI SERIES

#### DESCRIPTION

The **VPI Series** is a voltage (0-5V, 0-10V) input 24 VDC powered, 3-1/2 digit display. The **VPI Series** uses a voltage signal of 0-5 or 0-10 VDC that can be scaled to a span of 2000 digits within a range of -1999 to 1999. This display also features jumper selectable, built-in engineering units. The **VPI-4** offers large, easy to read 1" (2.54 cm) digits.

#### FEATURES

- 0-5 or 0-10 VDC input signal
- 3-1/2 digit, easy to read LCD display (VPI-1, VPI-4)
- 4-1/2 digit, easy to read LCD display (VPI-3)
- Available in black amber, green and red digits
- Snap-in panel mounting
- NEMA 4 enclosure available
- Precalibrated before shipping
- Positive-to-negative indication
- Jumper selectable engineering unit display of °F, °C, PSI, %

#### SPECIFICATIONS

## KELE BIG DISPLAY READOUT, 3-1/2 DIGIT LED, RED/BLUE/GREEN BDR SERIES

### DESCRIPTION

The **BDR** Big Display Readout has large 2.3" size LED digits. It provides 3-1/2 digits and comes in three bright LED colors: red, green or blue. The **BDR** has a selectable decimal point position and accommodates negative sign readouts. The readouts are in linear proportion to the 4-20mA, 0-10VDC, 0-5VDC signal inputs or a voltage monitor input from 0-20VDC. These displays are easy to field calibrate with non-interactive zero and span pots as well as free pre-calibration service from Kele at time of order.

### FEATURES

- **Large 2.3" (5.8cm) digital display**
- **LED colors in red, green or blue**
- **3-1/2 digit with negative signal as needed**
- **Standard signal inputs: 4-20mA, 0-10VDC, 0-5VDC**
- **Wall, Ceiling or Panel mount**
- **Non-interactive zero and span pots**
- **Pre-calibration**

### SPECIFICATIONS

<b>Supply Voltage</b>	90-240 VAC, 12 VA / 10.5 - 30 VAC/VDC 6VA
<b>Input Current</b>	4-20 mA, 300Ω
<b>Input Voltage DC</b>	0-5 VDC, 0-10 VDC, 1 MΩ
<b>Input Monitor</b>	DC power (no offset, 10 MΩ 0-200 mVDC, 0-2 VDC, 0-20 VDC
<b>Accuracy</b>	+/- 1% full scale plus 1 count
<b>Digit Span</b>	3-1/2 digit
<b>Decimal Point</b>	Off, DP1, DP2, DP3 (1999, 199.9, 19.99, 1.999)
<b>Display Color</b>	Red, Green, Blue
<b>Display Size</b>	2.3" (5.8 cm)
<b>Display Type</b>	Seven-segment LED
<b>Range</b>	-1999 to 1999
<b>Calibration</b>	Zero and span, non-interactive
<b>Operating Humidity</b>	5-95% RH non-condensing
<b>Operating Temperature</b>	14 to 122F (-10 to 50C)
<b>Cutout Requirement</b>	4.0"H x 10.4"W x 2.0"D (10.0 x 26.4 x 5.0 cm)
<b>Dimensions</b>	4.2"H x 10.6"W x 2.2"D in (10.6 x 27.0 x 5.5 cm)
<b>Enclosure Options</b>	NEMA 1, aluminum and plastic
<b>Mounting</b>	Panel: Steel U-bracket Wall/ceiling: Steel swivel bracket
<b>Approvals</b>	RoHS
<b>Weight</b>	2.8 lb (1.3 kg)
<b>Warranty</b>	1 year

## PANELPILOT SMART GRAPHICAL DISPLAY

**SGD-24, -28**

### DESCRIPTION

The **PanelPilot Smart Graphics Display** is a configurable panel-mount volt meter with selectable graph colors, input signal scales, and meter display types. It can be used to display any proportional control or transmitter signal represented by a voltage span within 0 to 40 VDC. It is easily and quickly field-configured using simple software, via a USB cable, or is available preconfigured from Kele. It has a customizable splash screen and comes in a 2.4" or 2.8" screen size. A NEMA 4X enclosure is also available which can house one or two displays, preassembled at Kele or separately available for field installation.

### FEATURES

- 2.4" or 2.8" color TFT screen for high visibility
- Free PanelPilot software saves money
- Simple USB cable connection for quick setup
- 6 standard meter types, selectable colors, scales, and labels for display flexibility
- Splash screen accepts common picture files allows customization
- Snap-in panel mount for fast installation
- NEMA 4X enclosure option with single or double display mounting

SGD-28-M-C-E

SGD-28-M

**NEW!**

### APPLICATION

- Temperature
- Humidity
- Pressure
- Air quality
- Valve or damper position
- Air or water flow
- Water level
- Light level
- Motor speed
- Any 4-20 mA or 0-10 VDC transmitter signal

## PULSE OR RUN-TIME ACCUMULATOR DISPLAY

### ALD-1

#### DESCRIPTION

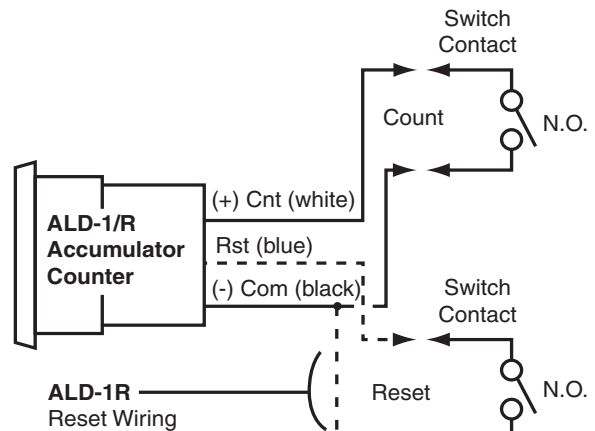

The **ALD-1** is a 5-1/2 digit LCD resettable accumulator or run-time counter. The lithium battery provides years of trouble-free service. Two wires are all that are necessary to totalize consumption, flow data, or run-time data. No external power supply is necessary.

#### FEATURES

- **Resettable accumulator or run-time counter**
- **Long life lithium battery**
- **No external power supply**

#### WIRING

## 75 MM TOWER LIGHTS TWS SERIES

### DESCRIPTION

The **TWS Series Tower Lights** enable stacking of up to five signaling devices. Each device has its own set of contacts. Starting with a bottom module, up to five devices can be added in any combination of continuous and flashing incandescent lights, continuous and flashing LED lights, and Xenon strobes. Each stack can be capped with a horn. Each light comes in a variety of colors, and all lamps are replaceable. Several wall- and pedestal-mounting configurations are available.

### OPERATION

- **Horns**
- **IP20 upward mount**
- **IP24 downward mount**
- **Ratings IP66**

# ALARMS & INDICATION

## KELE REMOTE ALARM INDICATION STATION

**RAD-1**

### DESCRIPTION

The **RAD-1** is a wall mounted remote alarm indication station mounted on a stainless steel plate. Any contact closure alarm initiating device that can switch 24VAC or DC can be used with the **RAD-1**.

### SEQUENCE OF OPERATION

When 24 VAC or VDC is applied to the **RAD-1** through an alarm-initiating device, the red alarm LED will light, the horn will sound, and the alarm status relay will energize. If an initial alarm delay has been set, when 24 VAC or VDC is applied, the red alarm LED will blink until the delay period has expired. Then it will light continuously, the horn will sound continuously, and the relay will energize. If power is interrupted, the RAD-1 will reset to normal state.

During an alarm (24V applied to the **RAD-1**), the horn may be silenced by momentarily pressing the silence switch. The alarm LED will remain lighted, and the alarm status relay will remain energized when the horn is silenced until the alarm condition is cleared (24V removed). If an alarm repeat after silence time has been set, the horn will resound at the end of the repeat time. If the relay-follows-horn jumper is installed, the alarm status relay will de-energize when the horn is silenced and re-energize when the horn sounds at the end of the repeat-after-silence time.

If a pulsed (instead of continuous tone) horn is desired, the horn-pulsed jumper may be installed. If both the horn-pulsed jumper and the relay-follow-horn jumper are installed, the alarm status relay will energize and de-energize with the pulsed horn.

### FEATURES

- **Red alarm LED**
- **Alarm horn, continuous tone or pulsed**
- **Alarm horn silence switch**
- **Adjustable alarm delay time**
- **Adjustable alarm repeat time**
- **Alarm status SPDT relay**
- **Relay operates with the alarm horn option**

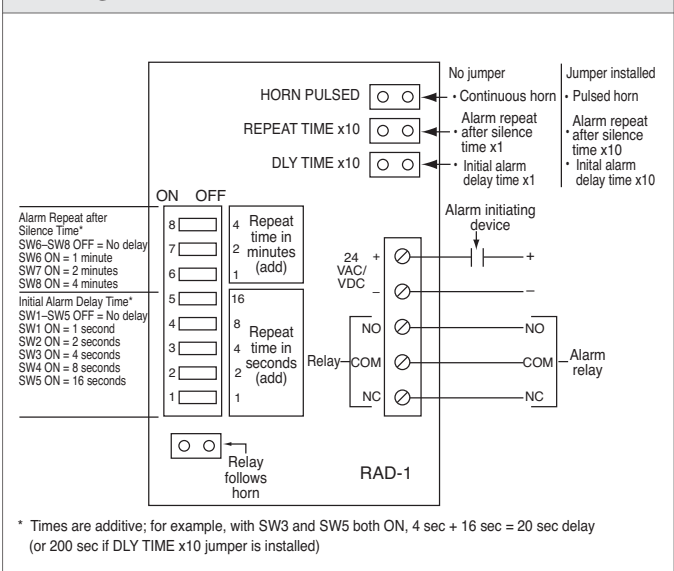

**Kele**

## KELE ALARM INDICATION STATION

**AIS**

### DESCRIPTION

The **Model AIS** Alarm Indication Station features an indication light, alarm horn and an alarm horn silence switch.

### SEQUENCE OF OPERATION

**3** Upon an alarm contact closure, the LED indicator will light, and the horn will sound. The horn can be silenced through the alarm silence switch, while the visual indication will continue to be lighted until the alarm condition has been corrected. A power interruption or open alarm contact will reset the AIS.

### FEATURES

- Long lasting, red LED indication
- Distinct continuous audible tone
- Horn silence switch
- Compact and rugged design
- Available in 24 VDC, 24 VAC, or 120 VAC
- Bright yellow panel face

### APPLICATION

- Refrigerant leak alarm indication
- Water level alarm indication
- Pressure alarm indication
- High/Low temperature limits
- Gas leak indication
- Humidity limit alarm indication
- Vibration limit
- Voltage/Current level limit
- Any contact closure alarm application

## EMERGENCY OPERATOR STATIONS ESB SERIES

**Kele**  
Precision  
Manufacturing

### DESCRIPTION

The **ESB Series** Emergency Operator Stations offer a highly visible method to shut down equipment, initiate alarms, or give a controller input during emergency conditions. Operation occurs with the breaking of a lens, and then pushing the red push-button inside. Both break-lens to release button and field replacement lens are available.

### FEATURES

- **Highly visible yellow/black background**
- **UL listed for Category NKCR Emergency Operator Stations**
- **Various NEMA rated enclosures**
- **Red push-button operators**
- **1 N.O. and 1 N.C. contact included**
