King Canopy Now and in the Future

Since 1940, King Canopy™ has grown from a small family business to be a leader in the supply of Shade and Shelter products to the World. We are a dedicated team operating with traditional values and respect for the quality and integrity of each of our products.

Prior to the acquisition of the King Canopy brand in January of 2011, we experienced some very challenging times. The downturn in retail markets combined with delays in getting inventory in the prime selling season of 2010 stretched our cash flow to the breaking point.

In January of 2011, one of the largest tarp suppliers in the world purchased the King Canopy brand along with the operating assets of the company. The new parent company has annual sales in excess of \$90 million per year, and has manufacturing and distribution operations in six countries. The acquisition and resulting cash infusion have positioned King Canopy to rebuild inventory levels and establish strong supplier relationships across all product lines.

The new King Canopy is consumer focused to meet the superior level of quality and dependability that we have achieved historically. We strive to always remember that you and your customers are our #1 priority. Through progressive approaches in product design, packaging, and distribution we pride ourselves on our ability

to constantly meet the needs of the marketplace in ways that set us apart from the competition.

Our mission is to manufacture products that will provide the highest level of protection from the elements for your family, your boat, RTV, craft show items, or anything else that requires shelter from the outside world.

We care about quality... some things do not change. It's a family commitment we made over sixty years ago that still guides us today.

The future is very bright for King Canopy™. We have a new management team that is committed to the same business ethics and product quality standards that were instilled by the Powell family that began our business in 1940. Yes, we are a very different company in many ways today and undoubtedly will continue to change and evolve in the future. We believe in the old axiom that "change is inevitable but growth is optional".

King Canopy™ will grow and prosper because we work tirelessly to do so. Our ability to establish a long term and prosperous business program with you is one of our highest priorities. We may never be your largest supplier, but we will make every effort to be one of the best!

A Step Ahead Of The Competition.

Easy Open Stress Relief Corner Sliders for Truss Stability.

Easy to Use Push-Button Release for Height Adjustment.

Solar Armor™ Double-Layered UV Barrier.

Fiberglass/Composite Materials for Strength, Durability and Weight Reduction.*

Customer Service

We're so dedicated to serving all your needs that we've built the best customer service department in the industry. Our customer service team is a highly trained, dedicated group of individuals with one single objective – to ensure that each and every King Canopy™ customer is fully satisfied with their purchase. Whether effectively communicating with you directly, or answering a question for your retail customer, we're here for you. We work hard to ensure that you will never need it, but if you do, we're always just a phone call away.

You can contact a customer service representative at:

Custom Printing

King Canopy offers Custom Printing on our Instant Pop-Up Canopies. Proudly display your logo, company name or event and stand out in the crowd. For a FREE estimate please download the PDF form from our website and fax or email the details back to us at: Fax: (919) 552-5069, klawrence@kingcanopy.com or vruiz@kingcanopy.com

We will create a layout for you to approve and will then contact you with an estimate and approximate delivery date. All artwork emailed to us needs to be High Resolution (300 DPI .jpg) or Vector/Line Art (.eps). We also need any Pantone Color formulas for your artwork if you have them.

Full Digital Printing

Full Digital Printing is best for designs that require full bleed and have complex designs with lots of colors and details involved.

Visit us online at www.kingcanopy.com
View our Custom Printing Page,
download request form, release form and
send it back today for a **FREE** quote!

Screen Printing

Screen Printing is best for designs that require 1 or 2 colors only and have simple designs that don't have complex detail involved.
