KOMELON Corporation

The world's most vertically integrated measuring tape manufacturer. From our raw material manufacturing plant to global marketing and distribution, KOMELON handles it all with the most advanced and innovative R & D technology. This assures our customers the highest quality products available.

For over 40 years, Komelon has manufactured a full line of quality measuring tools with dedication and a passion for craftsmanship while supplying markets throughout the world.

Komelon Corporation - Korea

This is the corporate headquarters housing all product design, engineering and research & development. This facility also manufactures the Meter-Man Measuring wheel line.

Komelon Steel Corporation - Korea

Komelon manufactures its own steel strip material for all blades and springs used in tape measure production. This ensures the highest quality tape measures on the market.

Komelon China

This state-of-the art measuring tool manufacturing facility, located in Qingdao, China was recently built to better serve Komelon's rapidly growing worldwide sales.

Komelon USA Division

This sales and distribution center for North America warehouses high inventory levels to ensure fast shipments and superior customer service.

Stainless Steel Gripper™

Why does someone need a stainless steel tape measure?

All metallic components of Komelon's Stainless Steel Gripper are stainless steel to resist rusting and extend the life of the tape. These tapes are ideal for working in wet or dirty conditions and have a non glare silver blade.

BLADE STRUCTURE OF KOMELON STAINLESS TAPES

- a. Stainless Steel Blade
- b. Surface treatment for better durability
- c. Strong baked on paint
- d. Transparent nylon coating
- e. Tough embossed finish

Non glare silver blade

KOMELON Magnetic Tapes

KOMELON offers a complete tape measure line with magnetic tips, which allows for easier one person measurement. Magnetic tapes are the ideal measuring tool for Electricians, Plumbers, Drywallers, Framers, Welders, HVAC (heating, ventilation and air conditioning) Installers, Steamfitters, and anyone working with ferrous metals.

The powerful magnetic tip holds the tape measure firmly in place on iron and steel surfaces. The magnet is strong enough to keep the end hook positioned either horizontally or hanging vertically.

※ Note : Magnetic strength will vary with different types of metal surfaces.

KOMELON is the exclusive manufacturer of worldwide patented magnetic tip which has been granted **U.S.PAT.6,678,967 , D486,086**.

Zero commencement of the magnetic tip

The tape still achieves accurate inside and outside measurements. Zero commencement is inside of the hook.

Hanging

Pulling

When hanging and pulling magnet, deduct 1/16 inch from the measurement.

Long tapes

Global hook

When using magnet, - Add 0.078 inch from the measurement.

Ring with fold-in claw to simplify measuring work.

※ Magnet - Add 0.078 inch ※ Ring - Add 1 inch

SELFLOCK™

What is Self Lock?

Komelon's Self lock tape measures allow the user to just pull out the blade and let go - the blade locks itself. Then to safely retract the blade press the top button to control the speed of return. After you try this tape you will agree this is the way tape measures should have always functioned.

Komelon's #1 selling tape Series

- d. Transparent nylon coating
- e. Tough embossed finish

KOMELON Nylon coating is permanently bonded to the entire blade for maximum protection. Embossed finish adds durability and reduces glare.

• Features and Benefits

De-burred edges : The rough edges cause corrosion and rust. KOMELON steel tapes with de-burred edge treatment prevents the rough blade edges from causing early corrosion and cracking.

Nylon coating : The new KOMELON DURA NY-Coat™ nylon coating reduces wear and abrasion. Featuring an embossed finish for added protection and reduced glare. The rust-resistant nylon coating covers the entire blade surface, ensuring long lasting readability and durability.

Heavy duty case construction with impact resistant ABS case or frame. Built-in wire guard to protect case.

Durable rollers guide the blade and prevent twisting.

Versatile ring end hook
(* Add 1 inch when measuring with the ring hook.)

Magnetic end hook allows for easier one person measurement. Available in MagGrip Gripper™

Zero commencement is inside of the hook. Add 0.078 inch when the magnetic tip is abbutted to a metal surface for an exact measurment.

ENGINEER SCALE SERIES

Magnetic Tape

- Magnetic dual end hook allows for easier one person measurement.
- Double sided printing provides precise marking and line drawing.
- Rubberized case protects end hook and button.

METER-MAN[®] by KOMELON[®]
Wherever You Measure, Get Noticed!

6 Series

The revolutionary ML6 looks and performs like no other measuring wheel. Its wide-wheel stability, excellent balance, and light weight, all combine to offer the best smooth surface, indoor measuring available.

Applications include:

Interior designer, Homeowners,
Indoor contractors, Home appraisers,
Insurance adjusters

Twist and Lock Adjustable Aluminium Handle

Centrally Mounted Handle for Added Stability

Gear-Driven, 5 Digit Counter Reads up to 10,000 feet

1.6" Wide Wheel for Excellent Straight Line Stability on Hard Surfaces

EXTRA LIGHTWEIGHT AND COMPACT

6 Series

Item No.	Diameter	Color			
ML6	2" (Feet/Inches)	Hi-Viz	1	6	6 55348 10200 0

12 & 18 Series

The 4" and 6" diameter measuring wheel is ideal for indoor measuring on smooth, hard surfaces. The 6" is large enough to be used outdoors on hard surfaces making it versatile. Both are lightweight and compact for convenience.

Applications Include:

Adjusters, Appraisers, Decorators,
Insurance agents, Painters,
Realtors

Adjustable Twist and Lock Handle

Polyvinyl Tread for Improved Traction

Magnifying Lens for Improved Readability

Accurate Gear Driven Counter with Push Button Reset

NEW HI-VIZ SAFETY COLOR

12 Series

31 & 45 Series

The 10" and 14.3" diameter wheels are the most popular wheels in the market place. The 10" is versatile enough for indoor and outdoor use, while the 14.3" is perfect for almost any outdoor use.

The wheels are covered with a composite tread to provide improved traction on smoother surfaces. These are the perfect wheel for almost any application.

Applications Include:

Athletic and Rec. Departments, Concrete and Asphalt contractors, Estimating, Fencing, Grounds maintenance, Irrigation, Surveying

Comfortable Pistol Grip Handle

Adjustable Twist and Lock Handle

Gear-Driven, 5 Digit Counter Reads up to 10,000 Feet

Accurate Gear Driven Counter with Push Button Reset

60 & 79 Series

The 19" and 25" diameter wheels are designed to be used in the roughest terrain and for measuring large areas. The 19" is covered with a composite tread which is also perfect for smooth surfaces, while the 25" has a polystyrene wheel that is more suited to very rough surfaces and is commonly used to compute acreage using the 6.6 foot circumference.

Applications Include(60 Series):

Athletic field and Rec. depts., Concrete and Asphalt contractors, Estimating, Fencing, Grounds maintenance, Survey

Applications Include(79 Series):

Agricultural, Conservation, Forestry, Utilities

Electronic Measuring Wheel Series

The Electronic Measuring Wheel features easy to use electronic counters. These are easy-to-read LCD displays that show distances in feet or meters simply by pushing a button.

LCD Display

Shows six digits or four whole numbers and two decimals.

Operates in forward and reverse

Adjustable Twist and Lock Handle

Polyvinyl Tread for Improved Traction

Electronic Wheels feature electronic counters located at the end of the handle shaft

ON/CLR Button

This function key turns the electronics on when pressed once and clears the existing reading when pressed a second time. If the wheel controls are not operated for a period of three minutes, the unit will turn off to conserve battery life, but will continue to retain data.

M / FT

Select from 3 measuring modes:
Feet & Inches (000'00")
Feet & Hundredths of a foot (0000.00)
Meters & Centimeters (0000.00)

HLD/CLR

Pressing this bottom once holds the #1 or #2 reading. Pressing a second time clears the reading and hold.

#1 / #2

This button alternates the display between #1 or #2 data.

EW Series - Electronic Wheel

Item No.	Diameter	Color			
EW31	10" (Feet&Meter)	Hi-Viz	1	2	6 55348 90310 2

Pro 200 Series

The Pro200 is a true professional's measuring wheel. This 12.5" diameter wheel features sealed bearings, handle-mounted counter with "HOLD" button, adjustable handle, and cushioned grip. This quality wheel has heavy duty construction and weight that makes it perfect for smooth surfaces as well as the roughest terrain.

Includes:

- Heavy duty carrying case
- Marking flags
- Marking tape
- Marker
- Writing pad
