HD TERMINATION SYSTEM

PERFECT FOR CREATING CUSTOM LENGTHS!

- Customise your lengths to dress racks or minimise excess cable
- Locking HD connector technology increases retention up to 400%
- Supports HDMI with Ethernet, CEC and bi-directional Audio formats
- Liberty's HD ribbon cable makes preparation much easier than working with individual wires!
- Send 1080p video up to 9m (typical) -Up to 16m with optional extender

GRADE **BEST**

GLOBAL CATALOGUE

THE SIMPLIFIED SELECTION OF PROFESSIONAL
AUDIO/VISUAL PRODUCTS FROM LIBERTY

Gary Michelson founded Liberty Wire & Cable in 1991. With only a receptionist, he started selling bulk cable and within a year he had hired his first sales person. Then a house refurbishment presented Gary with his first major product innovation. In every room he saw many cables for many uses but all with the same colour. Why not, he thought, differentiate cable function with different colours. Soon an industry standard was born. Liberty went national with coloured cable at the next CEDIA Expo and created a hit not just for the genius of its colour coding, but also its durable, flexible, easy-to-pull jacket.

Building on success, Liberty widened its range with interconnects, connectors, and plates & panels with the purchase of PanelCrafters®. By 1998 Liberty started exporting products.

The first years of the new millennium saw Liberty confound the recessionary economy by expanding at a compound rate of 42%. It entered the broadcast market rising quickly in prominence to become a trusted cable supplier for World Cup Skiing in 2000 and 2001 and for the Olympics in 2002.

In 2010 Liberty Wire & Cable changed its name to Liberty AV Solutions and acquired Intelix to round out their line of digital products and devices as our industry heads for the digital sunrise.

Today Liberty offers complete professional AV solutions, services, and a comprehensive range of high performance cables, connection systems & devices to over 60 countries around the world.

See a quick overview
of our great Pro A/V
products & solutions!

LUTRON IS A LEADER

In residential and commercial energy-saving lighting, dimming and shade control.

RESIDENTIAL LIGHTING & SHADE CONTROL

The urgent need for energy conservation can be seen in energy power blackouts and, most recently, price hikes across the world.

Lighting doesn't have to account for a significant part of home operating expenses with Lutron's HomeWorks® and RadioRA® 2 lighting control and shading systems. Utilising cable from Liberty AV Solutions, provides a quality, guaranteed outcome to your job.

COMMERCIAL LIGHTING & SHADE CONTROL

Lighting accounts for nearly 40 percent of energy costs in commercial buildings.

With Lutron's GRAFIK Eye®, Quantum® and EcoSystem® solutions paired with reliable, certified cable from Liberty AV Solutions, your project is guaranteed to operate effectively and efficiently every time. We can assist you in identifying the products that will help you control lighting through occupancy and/or vacancy sensing, daylight harvesting, personal or scheduled control, or load evaluations for whole building or single office applications.

SEND DIGITAL MEDIA SIGNALS OVER LONG DISTANCES

Liberty AV Solutions introduces a high quality low profile Digital Modular interconnection system. Our Digital EZ-LINK line of HDMI and DVI cables offers a low profile connector for pulling through small conduit and openings. This low profile connection offers very low loss, enhancing the ability of the product to send digital media signals over long distances.

- HDMI Standard Speed with Ethernet / single Link DVI
- Panel mount female HDMI receptacle on a 15cm lead
- Liberty internal testing to 1080p60 @ 20m 4.85 Gbps data rate
- Supports Audio Return Channel (ARC)
- 19-pin DIN connection, 0.081 mm² (28 AWG) construction
- ½ metre HDMI and DVI attachments.
- Pulling cap available
- Flexible small diameter cable

Rack Configurator

Use our free online Rack Configurator tool to build your own customised rack and see it in 3D before you buy.

Cool Spool System

Our exclusive time-saving packaging system allows for easy stacking, transport, and pulling of multiple cables at one time.

Off Site Staging

Reduce your multiple shipments to a single manageable delivery. Save time and money for your company!

Technical Services

From validating cable rating requirements to selecting the right product for your application, Liberty is here to help!

Custom Kitting

Streamline your installs with a pre-packaged kit, custom made to provide everything your installer needs to get the job done fast and efficiently.

Cable Bundling & Printing

A smart way to make multiple cable runs with one pre-bundled spool. Print your cable for easy install, plus your customers know who to call for their next project.

Customised Plate Design

Design & Quoting Software Tools - go from concept to a completed plate design in a matter of minutes!

Revolutionise your audio-visual installations with Intelix. Ideal for residential, retail, restaurant, bars, multimedia presentation and houses of worship.

Running HDMI to and from several sources over long distances can be tough. With our HDMI cables, switching and scaling products we make this process extremely simple, predictable & reliable.

To make your installs go smoothly and make more profit per install, choose Liberty AV Solutions, where our dedication to digital gives you the edge you need!

THE ANALOGUE SUNSET & DIGITAL SUNRISE

The majority of new video technology developments in the display devices, video sources, high resolution and 3D formats are digital in nature. Since June 12 of 2009 United States television stations have been broadcasting exclusively in a digital format.

Digital connections such as HDMI, DVI and DisplayPort are becoming standard on almost all video devices.

The analogue sunset is also a part of the **Advanced Access Content System, or AAC** license agreement.

Players manufactured after 2010 may only have standard definition analogue video outputs, and models manufactured after 2013 may not have any analogue video outputs, when the content is protected by AAC.

It is important for the A/V professional to understand this regulatory term and to know which video devices are legally required to be restricted by the analogue sunset and which are not. Liberty offers a wide range of digital solutions that will bring your company into the digital age.

Liberty helped me move my business from analogue to digital, and they also improved my profitability at the same time!

Intelix HDshāk® processing guarantees HDMI signal distribution. Our products provide a reliable solution.

HDshāk® eliminates many of the challenges contractors face when designing and installing high-definition systems, including limited keys in source equipment, HDMI transmission distances,

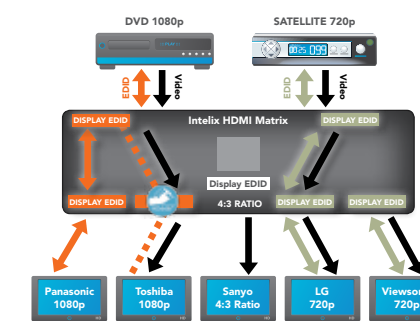

and limited bandwidth concerns. HDshāk® technology delivers the highest level of EDID negotiation, ensuring proper source & destination handshaking over twisted pair every time.

Avoids unnecessary signal interruptions and ensures every destination can view every source no matter what resolution.

Smart Negotiation

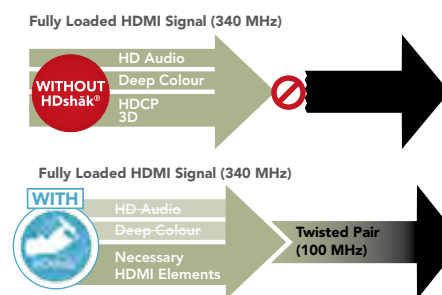

The chain is only as strong as its weakest link, but that doesn't mean the link has to break the chain. Each channel within Intelix switchers is discreet, and switching one source won't affect destinations viewing a different source.

Increases matrix switch speeds and ensures brilliant video quality.

EDID Storing

HDMI destination devices transmit their display properties—known as EDID—to source. This ensures both sources and destinations cooperate on aspect ratios, resolutions, and refresh rates. So what happens if there is a corrupted or incompatible EDID signal—a common problem when switching, splitting, or extending HDMI? HDshāk® processing stores and consolidates destination EDID at every matrix input. This not only reduces the incidence for error and guarantees a proper hand shake, but it also greatly increases matrix switching speeds. Plus, HDshāk® technology includes pre-stored EDID with the most common display settings, ensuring installers have one more trick up their sleeves.

Increases twisted pair cable make & grade compatibility, and guarantees required high-performance HDMI features are delivered.

Bandwidth Limiting

Twisted pair cable simply cannot match HDMI cable's bandwidth carrying capabilities. So how do you push a high-bandwidth signal down a restricted cable? HDshāk® processing allows the installer to select which HDMI elements are transmitted over the twisted pair cabling, effectively allowing customisation of the signal based on the installation's requirements.

Dynamic key processing allows devices with limited keys to be transmitted to numerous destinations.

Dynamic Key Processing

To ensure the highest quality native audio/video signal and to prevent unauthorised signal copying, HDMI devices contain signal encryption known as keys—and each device has a limited number. So what happens when a source doesn't have enough keys to talk to all of the required destinations? Intelix switchers employ independent key negotiation on the inputs and outputs of the matrix, thereby allowing limited key source devices to talk to numerous destination devices. Intelix switchers accept incoming audio, video and keys from source devices, process and store the source keys, and then create a new key with the audio and video for each output destination.

The Intelix DIGI-HD-8X8 combines a professional-grade HDMI matrix with Intelix's industry-leading extenders

Each system provides eight HDMI inputs, eight HDMI outputs, and eight twisted pair outputs. A built-in touch screen delivers front panel source selection and matrix routing with ease. Includes eight pass-through IR channels which distribute remote IR commands from in-room controllers, through compatible Intelix twisted pair extenders, up to 45m (150 feet) over twisted pair cable, and out of the matrix, allowing complete control of remote sources from the destination.

SOLUTION :

MULTIMEDIA DISTRIBUTION

SOURCE

DISPLAY

1X8 HIGH-DEFINITION HDMI TWISTED PAIR DISTRIBUTION AMPLIFIER DIGI-HD-1X8

FEATURES & BENEFITS:

- Built-in twisted pair extenders provide cabling distances up to 90m (300 ft) when used with compatible Intelix twisted pair receivers, such as the DIGI-HD-UHR2, DIGI-HD-IR2, and DIGI-HD-XR
- Custom EDID configuration and emulation
- HDCP compliant

APPLICATION:

- Seamlessly distributes one HDMI input to one HDMI output and seven extended outputs
- Compatible with single or dual UTP extenders

HIGH-DEFINITION HDMI TWISTED PAIR DISTRIBUTION AMPLIFIER

DIGI-HD-1X8 (1-INPUTS X 8-OUTPUTS) DIGI-HD-1X4 (1-INPUTS X 4-OUTPUTS)

FEATURES & BENEFITS:

- Built-in twisted pair extenders provide cabling distances up to 90m (300 ft) when used with compatible Intelix twisted pair receivers, such as the DIGI-HD-UHR2, DIGI-HD-IR2, and DIGI-HD-XR
- Custom EDID configuration and emulation
- HDCP compliant
- Wideband IR Support

APPLICATION:

- Distribute one HDMI input to four locations over twisted pair cable
- Compatible with single or dual UTP extenders

4X2 HDMI AND TWISTED PAIR MATRIX DIGI-HD-4X2

FEATURES & BENEFITS:

- 4 HDMI inputs
- 2 HDMI outputs & 2 twisted pair outputs
- HDMI 1.3 & HDCP compliant
- Front panel, ethernet, RS232, & IR control
- Built-in IR switching

APPLICATION:

- Compatible with single or dual UTP receivers
- Whole house HDMI distribution
- Digital signage
- Sports bars
- Houses of Worship
- Public speaking

HDMI 4X8 TWISTED PAIR MATRIX SWITCHER DIGI-HD-4X8

FEATURES & BENEFITS:

- 4-Inputs x 8-Outputs
- 1080p
- Built-in IR Switching
- Parallel HDMI and Dual Twisted Pair or single outputs
- Wideband IR Support
- Control with IR, RS232, or ethernet

APPLICATION:

- Distributed HDMI for whole house
- Digital Signage

Integrate multiple analogue and digital devices into a single, comprehensive high-definition environment

The DIGI-SCAL-11X2 features the processing of three different devices—switching, scaling, and format conversion—in a single, 1RU chassis. It provides switching between eleven different audio-visual sources, scales the sources up to 720p or 1080p, and converts the signals to HDMI for seamless integration into your HD environment. The DIGI-SCAL-11X2 makes your old equipment look good and your new technology state-of-the-art.

APPLICATION:

- Convert analogue to digital
- Bring legacy audio and video sources to High Definition HDMI
- Whole house HDMI distribution
- Digital Signage
- Sports bars

11X2 SWITCHER, MULTI VID-HDMI DIGI-SCAL-11X2*

FEATURES & BENEFITS:

- Switch between 11 different AV inputs
- 2 HDMI, 1 stereo audio & 1 optical output
- Scale sources up to 720p or 1080p
- Convert all sources to HDMI
- RS232 & IR front panel control
- Includes Rack Ears & Wireless Remote

AV Inputs:
4 HDMI, 2 YPbPr,
1 VGA, 1 S-Video,
1 optical digital audio,
2 composite video,
1 DVI-I, 5 stereo audio

FULL SPEED USB OVER TWISTED PAIR BALUN AVO-USB

FEATURES & BENEFITS:

- Supports speeds up to 12 Mbps
- Shielded RJ45 connectors
- Transmits low & full speed USB signals over twisted pair cabling
- Extends low speed USB 1.0 and 2.0 signals up to 100m (330 ft)
- Full speed USB 1.0 and 2.0 signals up to 30m (100 ft)
- Does not require driver software
- Clean, low profile installation.

APPLICATION:

- Ideal for education, government, houses of worship, corporate, residential and other application requiring USB to be run over long distances

intelix

✓
RoHS

HDMI TWISTED PAIR IN-LINE REPEATER/RECEIVER
DIGI-HD-XR

FEATURES & BENEFITS:

- Daisy chain up to five units per run
- Supports 7.1 multi-channel audio
- May be used as receiver for Intelix matrices
- Local HDMI output and IR input
- Doubles distance of 1080p video up to 45m (150ft) over Cat6a STP

APPLICATION:

- Transmit IR signals back to the source
- Compatible with single or dual UTP extenders
- Compatible with:
DIGI-HD-UHR2-S

HDBaseT Extender - HDMI Meets Ethernet

The Intelix DIGI-HDE Twisted Pair Extender Set – the first of Liberty AV Solutions HDBaseT product family, provides the capability to simultaneously distribute HDMI and Ethernet streaming video from source to display up to 100 metres over a single twisted pair cable. The DIGI-HDE extends HDMI with multi-channel digital audio, 100BaseT Ethernet, bi-directional IR and RS232 over a single twisted pair cable. Supports 1080p, 4K x 2K, and 3D video up to 100 metres. Incorporates HDshāk® processing to ensure reliable hand shaking between source and display. HDCP & HDMI v1.4 compliant. Features built-in surge protection and diagnostic LEDs to ensure hassle free and reliable installations.

APPLICATION:

- Extend HDMI up to 100 Metres, plenum and non-plenum
- Digital Signage, Home Theater, Commercial Video Systems

HDBASET EXTENDER SET TRANSMITTER & RECEIVER

DIGI-HDE

FEATURES & BENEFITS:

- 1080p60, 4K x 2K and 3D up to 100 metres
- 100Mb Ethernet Pass-Thru
- Bi-directional IR and RS232
- Built-in HDshāk processing
- HDCP compliant
- HDMI v1.4 compliant
- Built-in surge protection up to 16 kV
- Diagnostic LEDs
- Extend HDMI, Ethernet, RS232 and IR over a single twisted pair cable

INTELIX VGA/STEREO AUDIO/CONTROL RECEIVER

DIGI-VGASD-R

FEATURES & BENEFITS:

- VGA, Stereo Audio, and either infrared or RS232C control. Receive Balun only
- 1600x1200 UXGA up to 90m (300 ft)
- Uses a single category 5e or 6 cable
- When used with a compatible Intelix send balun, the DIGI-VGASD-R features 1600x1200 VGA video performance, high-fidelity 20 Hz to 20 kHz audio performance, and IR or bi-directional RS232 extension up to 100m (350 ft) over a single twisted pair cable

APPLICATION:

- Distributes VGA video, stereo audio, and control signals over a single twisted pair cable, such as Cat 5e or Cat 6.
- RS232 extension up to 100m (350 ft) over a single twisted pair cable

INTELIX 1X4 VGA/AUDIO/IR/RS232 DISTRIBUTION BALUN

DIGI-VGASD-T4

FEATURES & BENEFITS:

- Transmitter connects to the DIGI-VGASD-R Receive Balun with local monitor and audio outputs available as well
- 100m (350 ft) operating range
- 1600 x 1200 Maximum Resolution
- Control: IR or RS232; IR takes precedence when both are connected

APPLICATION:

- Transmit a single VGA, stereo audio, IR and RS232 signal to 4 remote destinations via cost-effective twisted-pair cable

HD TERMINATION SYSTEM

1080i HDMI TWISTED PAIR EXTENDER

DIGI-HDMI-HR

FEATURES & BENEFITS:

- Fully compatible with Cat 5e and Cat 6
- In environments susceptible to high electromagnetic interference, two shielded twisted pair cables should be used
- Includes one send balun, one receive balun, one power supply, and two mounting brackets
- The system is powered on either the send or receive end.

APPLICATION:

- Transmits an HDMI audio and video signal up to 30m (100 ft) at 1080/720p resolution via inexpensive twisted pair cabling, such as Cat 5e or Cat 6.
- Supports standard HDTV resolutions and is HDCP compliant.

1X4 DVI TWISTED PAIR EXTENDER

DIGI-DVIT4R-F (4 STP OUTPUTS) DIGI-DVI-R-F (RECEIVER ONLY) DIGI-DVIT2R-F (2 STP OUTPUTS)

FEATURES & BENEFITS:

- Transmits high-definition, 1920x1080 resolution DVI-D signals up to 65m (220 ft) using a single shielded Cat 6 cable
- Includes one multiple output transmitter, one receiver, and two power supplies
- Local monitor output
- Compatible Twisted Pair Receiver: DIGI-DVI-R-F

APPLICATION:

- Ideal solution for sending digital, high-performance signals over structured cabling

SOLUTION : DVI DIGITAL SIGNAGE

SOLUTION : VGA DIGITAL SIGNAGE

Your Building Already has Coaxial Cable Installed, Leverage it for an HDMI Upgrade!

Designed for demanding commercial and residential audio-visual applications, our digital coax baluns employ Intelix's industry-leading digital processing to transmit high-definition HDMI signals over a single RG6 or RG59 cable. Plus, built-in amplified signal splitting provides seamless daisy-chain distribution to ten remote destinations.

intelix

RoHS

APPLICATION:

- Extend 1080p HDMI signal up to 09m (300 ft)
- Extend 720p/1080i HDMI signal up to 205 m (675 ft)
- Extend HDMI over single coaxial cables

DIGITAL COAXIAL HDMI EXTENDERS

- DIGI-HD-COAX-S** (Sender)
- DIGI-HD-COAX-R** (Receiver)

FEATURES & BENEFITS:

- Extend HDMI over a single coaxial cable
- Built-in buffered 1x2 distribution amplifiers provide room to room viewing
- Daisy Chaining up to 6 additional RX on the same TX
- 1080p resolution at 90m (300 ft) for RG6, 76m (250 ft) RG59, 46m (150 ft) MRG59

Digital Signage applications are plagued by distance and resolution limitations. The DIGI-HD-COAX expands horizons with 1080p distances up to 90m (300 ft) and 720p/1080i distances up to 205m (675 ft). Plus, built-in amplified splitters provide seamless daisy-chaining between displays.

Schools, churches, homes, restaurants, and most other buildings are riddled with coax—why not use it for an HDMI upgrade? The Intelix DIGI-HD-COAX leverages existing RG59 and RG6 for beautiful, high-definition audio and video. Plus, dual outputs provide seamless multiple room support.

Homes want HDMI but are stuck with coax. The solution? The DIGI-HD-COAX distributes 1080p HDMI over a single RG59 or RG6—just plug it into the wall and go! Plus, built-in amplified splitters provide seamless integration between rooms.

C-TEC² CONNECTOR SYSTEM

FOR CM-RG59M, CM-RG6M & CM-RG6L SERIES OF BNC, RCA & F CONNECTORS

C-TEC² connectors replace Liberty's previous **ConnecTec** connector line. Contact your sales rep for availability.

CONNECTEC

VERSATILE FERRULE-LESS CONNECTOR DESIGN!

C-TEC² is Liberty's new break-through connector system! Our new BNC, RCA and F connectors are manufactured without inner ferrules which allows virtually any cable from any manufacturer to easily fit! Utilise our C-Tec² tool kit for perfect terminations and organising everything in one case.

CM-RG59M SERIES

- Yellow colour band
- Fits solid conductor plenum & non-plenum cable
- Single thru Tri-Shield

CM-RG6L SERIES

- Orange colour band
- 18 AWG Quad Shield PVC
- Fits 18 AWG Single Braid PVC thru

CM-RG6M SERIES

- Purple colour band
- Single thru Quad Shield
- Fits RG6 solid conductor plenum cable
- Fits all PVC types to Tri-shield

C-TEC² KIT - EVERYTHING YOU NEED FOR PERFECT TERMINATION!

CUSTOM STOCK YOUR CASE WITH WHICH EVER CONNECTORS YOU NEED!

C-TEC² TERMINATION SYSTEM TOOL KIT

FOR RG59, RG6, RG11, & AUDIO CONNECTORS

CM-TOOL-PAC

- Compression Tool
- 25/26 AWG Stripper (stranded)
- 23/25 AWG Stripper (solid)
- RG59/6 Stripper
- Cable Cutter & Holster

Watch it at www.LibAV.com!

C-TEC² CM-RG59M SERIES FEATURES & BENEFITS:

- Ferrule-less universal connector for RG59 sized coaxial cable
- Single Piece compression connector
- Fits plenum & non-plenum formats
- Single braid shield through quad shield formats
- Does not fit RG59 head end quad format (CM-RG59Q-series)
- **Yellow** band for identification
- Machined slot to accept coloured silicone ID bands

CM-RG59M-BNC

APPLICATION:

- BNC PLUG, RG59
- Line Level Audio, S/PDIF and AES3id Digital Audio
- Base Band Video, IR, Digital Video

CM-RG59M-RCA

APPLICATION:

- RCA PLUG, RG59
- Line Level Audio, S/PDIF Digital Audio
- Base Band Video, IR

CM-RG59M-F

APPLICATION:

- F PLUG, RG59
- RF Video - CATV, MATV, Direct Broadcast Satellite
- Base Band Video

C-TEC² CM-RG6L SERIES FEATURES & BENEFITS:

- Ferrule-less universal PVC Connector for RG6 sized Coaxial Cable
- Single Piece Compression Connector
- PVC Single Braid shield through Quad shield formats
- Plenum Dual shield through Quad-Shield formats
- **Orange** band for identification
- Machined slot to accept coloured silicone ID bands

CM-RG6L-BNC

APPLICATION:

- BNC PLUG, RG6L
- Line Level Audio, S/PDIF and AES3id Digital Audio
- Base Band Video, IR, Digital Video

CM-RG6L-RCA

APPLICATION:

- RCA PLUG, RG6L
- Line Level Audio, S/PDIF Digital Audio
- Base Band Video, IR

CM-RG6L-F

APPLICATION:

- F PLUG, RG59L
- RF Video - CATV, MATV, Direct Broadcast Satellite
- Base Band Video

C-TEC² CM-RG6M SERIES FEATURES & BENEFITS:

- Ferrule-less universal Plenum Connector for RG6 sized Coaxial Cable
- Single Piece Compression Connector
- Plenum Single Braid shield through Quad shield formats
- Non-Plenum Single Braid shield through Tri-Shield format
- **Purple** band for identification
- Machined slot to accept coloured silicone ID bands

CM-RG6M-BNC

APPLICATION:

- BNC PLUG, RG6M
- Line Level Audio, S/PDIF and AES3id Digital Audio
- Base Band Video, IR, Digital Video

CM-RG6M-RCA

APPLICATION:

- RCA PLUG, RG6M
- Line Level Audio, S/PDIF Digital Audio
- Base Band Video, IR

CM-RG6M-F

APPLICATION:

- F PLUG, RG59M
- RF Video - CATV, MATV, Direct Broadcast Satellite
- Base Band Video

CONNECTEC

C-TEC² connectors replace Liberty's previous **ConnecTec** BNC, RCA & F connector line. Contact your sales representative for availability. www.LibAV.com | +1.719.388.7542

C-TEC² COMPRESSION CRIMP TOOL
CM-TOOL

FEATURES & BENEFITS:

- This ergonomically designed crimping tool is milled from a solid piece of NASA-grade aluminium, our tool is light weight yet highly durable. Anodised in an easy-to-find red finish, the exclusive tool is easy to work with
- Plunger effortlessly adjusts to accommodate the entire line of C-Tec² Connectors

APPLICATION:

- Terminates BNC, F and RCA connectors without using any adaptors
- Terminates mini BNC and RCA connectors
- Terminates Audio Connectors

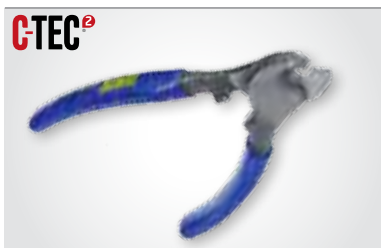

C-TEC² EXTRA DIE FOR CRIMP TOOL
CM-TOOL-DIE

FEATURES & BENEFITS:

- For use with C-Tec² Compression Tool for all Mini High Resolution through RG6 Quad shield connectors featuring tuning fork die and aircraft grade aluminium frame

APPLICATION:

- Replacement die for CM-TOOL

C-TEC² CABLE CUTTER
CM-206-L

FEATURES & BENEFITS:

- Convex Scissor Blade action to cut coaxial cable
- Cuts copper to 14 AWG and Copper Clad Steel to 18 AWG
- Durable and inexpensive

APPLICATION:

- Cut coaxial cables without flattening them
- Perfect for cutting steel cable

C-TEC² COMPRESSION CONNECTOR INSERTION TOOL
CM-CGT-FBR

FEATURES & BENEFITS:

- Alleviates wear and tear on your fingers when seating large numbers of Compression Connectors

APPLICATION:

- Helps insert connector onto stripped cable end without using your fingers

C-TEC² RGB 25 & 26 AWG MINI COAX STRIPPER AND REPLACEMENT BLADE
CM-MINI (STRIPPER) | M-MINI-BLADE (REPLACEMENT BLADE)

FEATURES & BENEFITS:

- Cable Prep for C-Tec² Compression Connectors
- 4mm x 1/4" 2-stage Connector Strip (Black Cartridge)
- Stop bracket to facilitate strip lengths
- Number of spins equates to depth of cut

APPLICATION:

- RG59 Single, Dual, Tri, and Quad Shield cables
- RG6 Single, Dual, Tri, and Quad Shield cables
- Plenum & Non-Plenum

C-TEC² RG59, RG6, OR RG6 QUAD CABLES STRIPPER AND REPLACEMENT BLADE
CM-59/6 (STRIPPER) | CM-59/6-BLADE (REPLACEMENT BLADE)

FEATURES & BENEFITS:

- Cable Prep for C-Tec² Compression Connectors
- 1/4" x 1/4" Standard F connector Strip (Yellow Cartridge)
- Stop bracket to facilitate strip lengths
- Number of spins equates to depth of cut

APPLICATION:

- 26 AWG stranded Mini High Resolution RGB cables
- 25 AWG stranded Mini RG59 RGB cables
- Plenum & Non-Plenum

C-TEC² RGB 23 & 25 SOLID AWG MINI COAX STRIPPER AND REPLACEMENT BLADE
CM-23/25 (STRIPPER) | CM-23/25-BLADE (REPLACEMENT BLADE)

FEATURES & BENEFITS:

- Cable Prep for C-Tec² Compression Connectors
- Standard F connector Strip (Blue Cartridge)
- Stop bracket to facilitate strip lengths
- Number of spins equates to depth of cut

APPLICATION:

- Mini-RG59 23 AWG Single & Dual Shield cables
- Mini-High Resolution 25 AWG Dual Shield cables
- Plenum & Non-Plenum

C-TEC² COLOURED CONNECTOR BANDS
CM-R-COLOUR

FEATURES & BENEFITS:

- Packaged in bags of 100 pieces
- Colours: Green, Orange, Red, White, Yellow, Black, Blue

APPLICATION:

- Removable ID ring for marking CoaxMaster CM series RCA, BNC, and F connectors

C-TEC² MINI BNC BOOT
CM-BOOT-BLK

FEATURES & BENEFITS:

- Perfect for finishing off your RGBHV termination
- Packaged in 25-piece packages
- Black only

APPLICATION:

- Boot for 23/25/26 AWG C-TEC² plugs
- Fits BNC, RCA

C-TEC² MINI HIGH-RES COLOURED BOOTS
BMHR-COLOUR

FEATURES & BENEFITS:

- Perfect-fit strain relief boots
- Packaged in 100-piece packages
- Colours: Green, Orange, Red, White, Yellow, Black, Blue

APPLICATION:

- Silicone boot for Mini Hi-Res BNC & RCA Connectors

**RG11
SOLUTIONS
CONNECTEC**

CONNECTEC® RG11 COMPRESS TOOL CM-TOOL-11

FEATURES & BENEFITS:

- Works with ConnectTec and Snap and Seal Connectors
- ConnectTec® linear compression tool for compressing all ConnectTec® RG6 and smaller sized connectors

APPLICATION:

- Compression connector tool

**RG11
SOLUTIONS
CONNECTEC**

CONNECTEC® RG11 STRIPPER CM-8/11

FEATURES & BENEFITS:

- 1/4" x 1/4" Standard F connector Strip
- Number of spins equates to depth of cut
- Also works on RG8 and RG213 Cables if needed.
- NOTE: No stop bracket on this tool, user to trim conductor

APPLICATION:

- For RG11 Single, Dual, Tri, and Quad Shield cables
- Plenum and non-plenum

**RG11
SOLUTIONS
CONNECTEC**

CONNECTEC® COMPRESSION BNC PLUG (MALE) FOR RG11 CM-RG11-BNC

FEATURES & BENEFITS:

- Features a robust cable termination that meets or exceeds all BellCore applicable standards
- 75-Ohm connector is rated to 1 GHz and features a very low return loss factor
- Identified by a black O-ring

APPLICATION:

- 14 AWG Solid conductor dual shield non-plenum cable

**RG11
SOLUTIONS
CONNECTEC**

CONNECTEC® CONNECTEC N RG11 CATV NICKEL CM-RG11-N

FEATURES & BENEFITS:

- Features a robust cable termination that meets or exceeds all BellCore applicable standards
- 75-Ohm connector is rated to 1 GHz
- Features a very low return loss factor

APPLICATION:

- Compression N Plug (Male) for RG11 14 AWG solid conductor dual shield non-plenum cable

**RG11
SOLUTIONS
CONNECTEC**

CONNECTEC® F-TYPE FEMALE RG11 SINGLE PIECE COMPRESSION CONNECTOR CM-RG11P-F

FEATURES & BENEFITS:

- Plenum Single Braid shield through Quad shield formats
- Solid 14 AWG conductor required
- White Silicone band for easy identification
- Machined Slot to accept CM-(colour) ID Bands

APPLICATION:

- RF Video - CATV, MATV, Direct Broadcast Satellite
- Base Band Video
- Universal Plenum Connector for RG11 sized Coaxial Cable

**EUROPEAN
SOLUTIONS
CONNECTEC**

CONNECTEC® EUROPEAN LINEAR COMPRESSION TOOL CM-TOOL-IEC

FEATURES & BENEFITS:

- Die is in a fixed position on tool, should not be removed
- Manufactured from a single block of aircraft grade aluminium for a strong, durable & light weight application tool
- Wear safety glasses when using any tooling

APPLICATION:

- For compressing all ConnectTec® IEC PAL connectors for the European market

**EUROPEAN
SOLUTIONS
CONNECTEC**

CONNECTEC® CABLE CUTTER CM-206-L

FEATURES & BENEFITS:

- Convex Scissor Blade action to cut coaxial cable
- Cuts copper to 14 AWG and Copper Clad Steel to 18 AWG
- Durable and inexpensive

APPLICATION:

- Cut coaxial cables without flattening them
- Perfect for cutting steel cable

**EUROPEAN
SOLUTIONS
CONNECTEC**

EUROPEAN RG59 COAXIAL PLUG CM-RG59-IECM

FEATURES & BENEFITS:

- Single Piece European PAL or IEC Male in-line compression connector
- Connector retention exceeds 36 kg after install
- Shipped in quantities of 25

APPLICATION:

- For Non-Plenum RG59 Dual Shield coaxial cable with a solid 20 AWG center conductor

**EUROPEAN
SOLUTIONS
CONNECTEC**

EUROPEAN RG6 COAXIAL PLUG CM-RG6-IECM

FEATURES & BENEFITS:

- Single Piece European PAL or IEC Male in-line compression connector
- Connector retention exceeds 36 kg after install
- Shipped in quantities of 25

APPLICATION:

- For Non-Plenum RG6 Dual Shield
- Coaxial Cable with a solid 20 AWG center conductor

**EUROPEAN
SOLUTIONS
CONNECTEC**

EUROPEAN RG59 COAXIAL CONNECTOR CM-RG59-IECF

FEATURES & BENEFITS:

- PAL or IEC Female in-line Compression Connector
- Connector retention exceeds 36 kg after install
- Shipped in quantities of 25

APPLICATION:

- For Non-Plenum RG59 Dual Shield coaxial cable with a solid 20 AWG center conductor

AUDIO CONNECTEC

Audio ConnectTec® connectors slip on easily to the speaker cable conductor & compress on effortlessly with the easy-to-use Audio ConnectTec crimp tools!

**JUST 5 STEPS
TO PERFECT
TERMINATION!**

- Works with any speaker plug-in plate format or design
- Strip-Free, works with all Liberty speaker cable & twists on easily
- For in-wall and non in-wall audio applications

1 Cut the outer jacket away leaving the desired conductor length. Slide heat shrink tube in to position and shrink

2 Slide connector boots over each conductor

3 Without stripping, twist the correct AWG connector base clockwise on to the conductor

4 Using the C-Tec² Crimp Tool - with the die set to the F connector position - compress the connector to the cable

5 Slide boot over the connector base and screw the tip option on to the threaded connector base

AUDIO CONNECTEC COMPRESSION CRIMP TOOL CM-TOOL

FEATURES & BENEFITS:

- This ergonomically designed crimping tool is milled from a solid piece of NASA-grade aluminium, our tool is light weight yet highly durable. Anodised in an easy-to-find red finish, the exclusive tool is easy to work with.
- Plunger effortlessly adjusts to accommodate the entire line of C-Tec² Connectors

APPLICATION:

- Terminates Audio Connectors
- Terminates BNC, F and RCA connectors without using any adaptors
- Terminates mini BNC and RCA connectors

AUDIO CONNECTEC MINI BNC BOOT CM-BOOT-BLK

FEATURES & BENEFITS:

- Perfect for finishing off your RGBHV termination
- Packaged in 25-piece packages
- Black only

APPLICATION:

- Boot for 23/25/26 AWG C-TEC² plugs
- Fits BNC, RCA

AUDIO CONNECTEC HEAT SHRINK TUBE HSK-3:1BK-1/2

FEATURES & BENEFITS:

- Standard Crimp Style (Non-Catmaster)
- 8 position 8 conductor
- Size: 9cm x 1.3cm (3.5" x .5")
- This product is sold in packages of 100

APPLICATION:

- RJ45 Plugs for category 3 through 5e 24 AWG solid conductor unshielded round twisted pair cable

AUDIO CONNECTEC AUDIO COMPRESSION BASE 10-12 AWG CM-A-12

FEATURES & BENEFITS:

- Threaded penetration of the speaker wire, works with all Liberty speaker cable
- Incredible retention exceeding 36 kg
- Will accept 10 and 12 AWG wires up to 4.0mm in diameter
- Identified with a black ring, shipped in packages of 25

APPLICATION:

- Compression base connector for 5.0 mm² (10 AWG) and 3.0 mm² (12 AWG) speaker wire
- Works with all Liberty speaker cable

AUDIO CONNECTEC AUDIO COMPRESSION BASE 14 AWG CM-A-14

FEATURES & BENEFITS:

- Threaded penetration of the speaker wire, works with all Liberty speaker cable
- Incredible retention exceeding 36 kg
- Will accept 14 AWG wires up to 3.5mm in diameter
- Identified with a red ring, shipped in packages of 25

APPLICATION:

- Compression base connector for 2.0 mm² (14 AWG) speaker wire

AUDIO CONNECTEC AUDIO COMPRESSION BASE 16 AWG CM-A-16

FEATURES & BENEFITS:

- Threaded penetration of the speaker wire, works with all Liberty speaker cable
- Incredible retention exceeding 36 kg
- Will accept 16 AWG wires up to 2.9mm in diameter
- Identified with a blue ring, shipped in packages of 25

APPLICATION:

- Compression base connector for 1.5 mm² (16 AWG) speaker wire
- Works with all Liberty speaker cable

AUDIO CONNECTEC AUDIO SPADE LUG - GOLD PLATED CM-A-16

FEATURES & BENEFITS:

- Strip-Free, twists on easily, works with all Liberty speaker cable
- Works with any speaker plug-in plate format or design
- For in-wall and non in-wall audio applications
- Fits stud sizes #5, #10, Metric M3, M5, M6
- Shipped in packages of 25

APPLICATION:

- Spade Lug threaded attachment for Audio ConnectTec Compression Bases
- Works with all Liberty speaker cable

AUDIO CONNECTEC AUDIO ANGLE PIN - GOLD PLATED CM-APAP

FEATURES & BENEFITS:

- Strip-Free, twists on easily, works with all Liberty speaker cable
- Works with any speaker plug-in plate format or design
- For in-wall and non in-wall audio applications
- Shipped in packages of 25

APPLICATION:

- Angle Pin threaded attachment for Audio ConnectTec Compression Bases
- Works with all Liberty speaker cable

AUDIO CONNECTEC AUDIO BANANA PLUG - GOLD PLATED CM-A-16

FEATURES & BENEFITS:

- Strip-Free, twists on easily, works with all Liberty speaker cable
- Works with any speaker plug-in plate format or design
- For in-wall and non in-wall audio applications
- Shipped in packages of 25

APPLICATION:

- Banana Plug threaded attachment for Audio ConnectTec Compression Bases
- Works with all Liberty speaker cable

COMPRESSION FIT PAIR RED/BLK BANANA PLUGS ZB03

FEATURES & BENEFITS:

- Gold plated contact surfaces
- Pairs banded with red and black for positive and negative signals
- Hand twist compression style connector, requires no tools
- Sold in packs of 5 pairs

APPLICATION:

- Speaker Termination Connectors

AUDIO CONNECTEC AUDIO BANANA AUDIO JACK - GOLD PLATED CM-APBJ

FEATURES & BENEFITS:

- Can be installed into a custom PanelCrafters® plate or snapped into an industry standard keystone plate to finish any speaker installation
- Shipped in packages of 25

APPLICATION:

- Audio ConnectTec banana audio jack threaded attachment

**DON'T FORGET THE
SPEAKER CABLE!**

- DISTRIBUTED AUDIO
- AMPLIFIED AUDIO
- VOLUME CONTROL
- DIRECT BURIAL

AUDIO/VISUAL SOLUTIONS

DON'T SEE EVERYTHING YOU NEED?

GO TO
WWW.LIBAV.COM
FOR OUR FULL LINE
OF AV PRODUCTS
& SOLUTIONS!

Liberty AV Solutions is dedicated to the profitability of professional integrators all over **the world**. Our **vast AV product offering** makes it easy to get the job done with the right products for the right value. From **racks** specifically designed for AV equipment to **bulk cable**, C-Tec² and audio **connectors** that terminate in seconds, **digital devices** to propel you into the digital sunrise, and **professional tools** to make your job easier...we have it all!

Not to mention a seriously **powerful website** which integrates simple ordering with a smart interface that remembers you and your needs the way really great business partner should.

Our **custom kitting, cable bundling & printing** are just a few of the **LibertyEdge** services we offer, all designed to help you and your business stay successful and continue to grow.

Improve your profitability from source to display!

That's our commitment to you.

Analog Video	Composite Video	RG59-SD-HF	RG59/U High Definition Serial Digital LSZH Coaxial Cable	0.237	6.0	A,B,C*	Better		CM-RG59M series	112951
Analog Video	YPbPr Component and HD Component	RG63-MINI-HF	Mini RG59/U base band LSZH Coaxial Cable x 3 Jacketed	0.401	10.2	A,B,C*	Best		CM-RGB25 series	112955
Analog Video	RGB Video non-ID/DDC Compliant	RG65-MINI-HF	Mini RG59/U base band LSZH Coaxial Cable x 5 Jacketed	0.500	12.7	A,B,C*	Best		CM-RGB25 series	112955
Analog Video	Low Skew UTP	TRUPHASE-HF	23 AWG 4 Pair UTP LSZH Low Skew Video Cable	0.260	6.6	A,B,C*	Best		100 0111W	
Analog Video	CATV	RG6-HF	RG6/U CCS Dual Shield LSZH CATV 3.0 GHz	0.275	7.0	A,B,C*	Best		CM-RG6L series	
Digital Video	DBS/Broadband	RG6Q-HF	RG6/U Quad Shield Bare Copper LSZH CATV 3.0 GHz	0.310	7.9	A,B,C*	Best		CM-RG6L series	
Digital Video	SMPTE Standards	RG6-SD-HF	RG6/U High Definition Serial Digital LSZH Coaxial Cable	0.270	6.9	A,B,C*	Best		CM-RG6L series	112957
Digital Video	SMPTE Standards	RG59-SD-HF	RG59/U High Definition Serial Digital LSZH Coaxial Cable	0.237	6.0	A,B,C*	Better		CM-RG59M series	112951
Voice/Phone										
Telephone/Voice	Low speed Data, telephone, DSL	CAT5E-SH-HF	Category 5e Shielded LSZH F/UTP Cable	0.250	6.4	A,B,C*	Good	100020		
Telephone/Voice	Low speed Data, telephone, DSL	CAT5E-STR-HF	Category 5e Stranded LSZH UTP Cable	0.245	6.2	A,B,C*	Best	100020		
Speaker										
Speaker	Amplified Audio Shielded	14-4C-HFSH	14 AWG 4 Conductor twisted shielded LSZH Speaker Wire	0.350	8.9	A,B,C*	Best	CM-A-14		
Speaker	Amplified Audio Shielded	14-2C-HFSH	14 AWG 2 Conductor twisted shielded LSZH Speaker Wire	0.300	7.6	A,B,C*	Best	CM-A-14		
Speaker	Amplified Audio Shielded	16-4C-HFSH	16 AWG 4 Conductor twisted shielded LSZH Speaker Wire	0.323	8.2	A,B,C*	Best	CM-A-16		
Speaker	Amplified Audio Shielded	16-2C-HFSH	16 AWG 2 Conductor twisted shielded LSZH Speaker Wire	0.285	7.2	A,B,C*	Best	CM-A-16		
Speaker	Amplified Audio Shielded	16-2C-HFSH	16 AWG 2 Conductor twisted shielded LSZH Speaker Wire	0.285	7.2	A,B,C*	Best	CM-A-16		
Specialty										
Video	CATV/DBS/RF	RG11-HF	RG11/U Dual Shield Solid Copper LSZH Coaxial Cable	0.404	10.3	A,B,C*	Best	N/A		112606
Lighting Control										
Lighting Control	Lutron Systems	18/22-2C-HF	22 AWG Shielded Pair+18 AWG Power LSZH Violet	0.246	6.2	A,B,C*	Best			
Specialty										
Multipurpose	Rack Interconnection	INTERFLEX-SD	RG59/U High Definition Serial Digital Coaxial Cable	0.236	6.0	N/A	Best		CM-RG59M series	112951

*A IEC 60332.3 Category C Flame Retardant
*B IEC 61034 Low Smoke
*C..... IEC 60754 Halogen Content
All = EU RoHS 2002/95/EC Compliant
