## Letter to Our Friends

Dear Friends:

Wow! Where did the first decade of the 21st century go? Seems like just yesterday we were saying goodbye to the old century and welcoming a new one. This new decade was a fantastic skyrocket until it crashed in flames. And what a crash it has been! We can all forget the past two years...

Actually we have been using the lull to develop new products and refine others, and here are the results. Please enjoy. There are new wire access grommets, power and data grommets, new legs and pulls, a whole new concept in a coat rack, new MPB's and, of course, our legendary design contest inspirations. Plus a few surprises.

Here and there you will see this new  symbol. This is way cool. First, download onto your iPhone or Blackberry or similar phone the free app tag reader [gettag.mobi](http://gettag.mobi). Then scan the "M" symbol by that product and – kaboom! – it will take you directly to a short explanatory video on that product.

We're always developing new ideas and fine tuning older ones. Between brochures we always post the new parts and changes on our highly acclaimed website, [mockett.com](http://mockett.com). Please check it out.

And many thanks for your loyalty. We appreciate it always, and we appreciate it far more during the slow times!

May this decade be a good one for you.

Cordially,

Douglas A. J. Mockett  
CEO

Price List

# “You Worry About the Big Things, Let Us Worry About the Little Details”

Three decades  
later and still  
our philosophy

Dear Friends –

The quote above is from the first direct mail letter I wrote and sent out in 1980. It remains as true in 2011 as it did 30 years ago.

Years have gone by, products and product design has changed dramatically, but we still live by those words. You worry about the Big Picture and let us worry about the little details – details that make your Big Picture stand out.

We are proud to be at the forefront of innovative furniture components, hardware and accessories. Enjoy the comparisons between our original ideas and some of our newest ones:

We are even more proud of our legendary customer service and our responsiveness to your needs. We are here for you and so is our inventory which usually ships the same day you order.

The last 30 years have been a great ride, thanks to your support; we eagerly look forward to the next 30. We appreciate the opportunity to enhance your designs.

Sincerely,

Douglas A. J. Mockett

# 2009 Design Contest Winners

Entries from 21  
Countries, Two  
Fine First Place Awards

2009 was the first year we accepted entries via email. We had more than 60 of them via email and a grand total of 120. Usually we get about 100, so in a down economy it was gratifying to see a 20% increase. And entries from all over the world, from every continent. So maybe almost halfway through its second decade, our little competition is making its mark!

The judges found two entries to be worthy of First Place.

**John O'Connor, Griffith, IN**

John designed an extraordinary extruded aluminum shelf support. As he said in his submission, "... simple architectural form creates an eye-catching and pleasing design". It will be about 6" by 8" overall in size and quite sturdy. It can be used with either the 6" or 8" side as the support, to accommodate shelves up to 10" deep. We think we'll bevel the edges and make it available in a nice Satin Aluminum finish as well as Black Anodized. See page 30.

**Jeffrey Bolen, Marina del Rey, CA**

Perhaps we've been at the furniture parts biz too long. There aren't too many table leg designs that elicit a "wow!" from our long time judges. (Or maybe we've had the judges too long?)

Jeffrey, an architect, sent in a leg design that was a "WOW!". It is very unique. Made of stainless steel and dark wood with stainless fasteners, with a stepped design that is broad at the top and steps down to almost a point.

Perfect for your contemporary furniture designs! We will be offering it on a custom basis, so we can make it to your exact dimension, stainless finish, wood choice, and wood finish.

## PCS51 Series - Beethoven

2002 Design Competition Winner

Designed by: Marvin Cooke, St. Louis, MO

This model has proven frustrating to make. However, after some fine tuning, we sharpened the design and are now proud to introduce it.

Press down on the top and flip the cradle mechanism all the way around to access the power and data components. Unit rotates 180° and locks in position with the power and data exposed, and then flips back to hide away when not in use.

It is perfect for blending with any surface.

It has a custom slot across the top to insert any matching wood or laminate. Or you can choose standard Satin Aluminum or Black Anodized finish.

Four standard configurations available.

Comes with a 6 ft. cord.

**Finishes: Satin Aluminum, Black Anodized.**

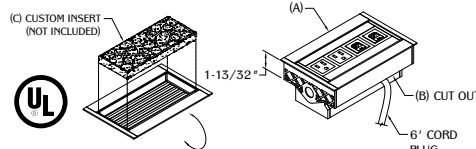

U.L. Listed.

PCS51	Configuration	Overall (A)	Cut Out (B)
PCS51A	2 power / 2 data	7 1/8" x 4 5/8"	6 29/32" x 4 1/2"

\* Circuit breaker plug.

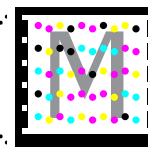

Custom configurations available.

## PCS50 Series

Unique pop up design incorporates a brush liner into the front edge for wire management. Gently push on the front end of the unit and the spring loaded lid pops up revealing a flat face for easy access to the power and data components. Clicks closed for a clean and low profile look. When the unit is closed, it allows the brush liner to catch and hold any stray cabling above the surface for future use to avoid stumbling under the desk to find it. A large gap area allows easier user access and wire pass through from underneath. Brush liner also prevents dust from getting into the unit. PCS50 enables plugs to remain in unit while closed. Five stock configurations to choose from. Also available hardwired; 5 to 8 week lead time.

**Finishes: Satin Aluminum, Black Anodized.**

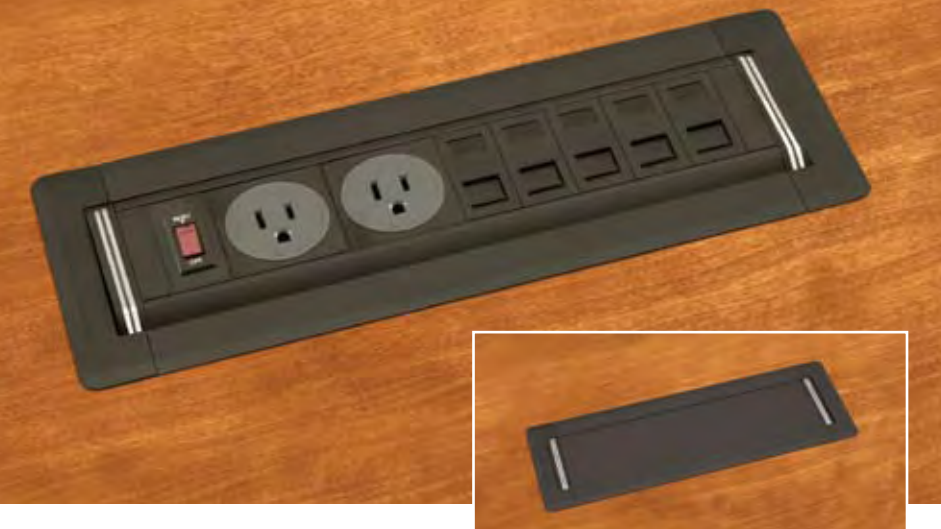

U.L. Listed.

## PCS52 Series - One Touch

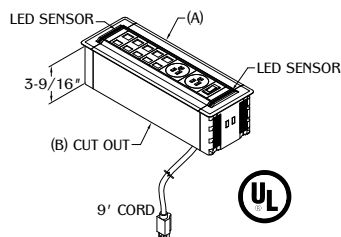

This wonder of modern technology is the perfect high tech solution to power your high tech accessories, and it all starts with a single touch of a finger. Power and data options are literally at your fingertips! Simply rub your finger over the LED sensor panel, watch for the light to turn from blue to red, and the unit automatically rotates to uncover the power and data components below. When no longer in use, sweep your finger over the LED sensor once again and the unit automatically flips back into the closed position. Visit [mockett.com/PCS52](http://mockett.com/PCS52) to see it work!

A blank top panel in the closed position allows the unit to blend with the counter top for an unsuspecting look. An awe-inspiring, fully automated mechanized system that operates solely by the power of touch. A truly innovative design that mechanically fuses convenience and style. Available in three stock sizes, each with different power and data configurations.

**Finishes: Matte Black.**

Get the free mobile app for your phone  
<http://gettag.mobi>

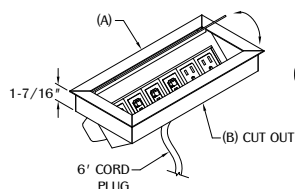

## PCS54 Series

Features a clean unobtrusive look on any desk or table. A thin, hinged lid opens manually to reveal its power and data components which are housed on the face of the angled back panel. The lid is lifted up to access the unit, and it can remain open or closed while the unit is in use. The gap between the lid and the frame allows wires to be plugged in while the lid is in the closed position.

Three standard configurations available. Custom screen printing is available on this model with *GoGraphics!* Two commissioned art pieces available in eight different orientations, (visit [mockett.com/PCS54](http://mockett.com/PCS54) for more options), or send in your own custom print to give workstations some personality and make them come alive. 6 ft. cord. Also available hardwired; 5 to 8 week lead time.

**Finishes: Satin Aluminum, Black Anodized.**  
**Custom *GoGraphics!* finish, allow 5 to 8 week lead time.**

PCS54B	3 power / 3 data	11 3/8" x 5 5/16"	11" x 5"
PCS54C*	4 power / 4 data	14 3/8" x 5 5/16"	14" x 5"

\* Circuit breaker plug. Custom configurations available.

## PCS46

Ideal for large conference room settings, this dual sided unit is perfect for accommodating multiple users. With a generous sized opening and deep bottom surface area, it is easily accessible from either side with the power and data seated on inward slanting faces. It comes equipped with six power outlets rated 15A/125VAC and four Category 5e data connections. The two lids open and tuck away on either side, or can remain closed with a gap in the middle to allow cords to be plugged in while the unit is in use. Insert options available.

PCS46 mounts securely and easily.

Also available hardwired;

5 to 8 week lead time.

PCS36A-90

PCS36B-90

## PCS36 & PCS36/2 Options

### PCS36 series in New Black Anodized Finish!

Previously only available as a custom finish, the new Black Anodized finish is now available as stock. The same classy look and sheen of our Satin Aluminum model, but now in a sophisticated Black Anodized. Offering new versatility to our already popular PCS36 and PCS36/2 series, the Black Anodized finish now opens up an entirely new option to suit your power and data needs.

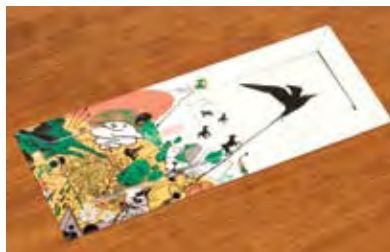

### PCS36 with GoGraphics!

*GoGraphics!* Our PCS36 Series is now available with the option of a custom painted screen finish. Why settle for monotone, bland, and dull furniture when you can add a splash of color and make your work surface come alive? Two commissioned art pieces available in eight different orientations, (visit [mockett.com/PCS36](http://mockett.com/PCS36) for more options), or send in your own graphic and have a custom screen print match an existing top or to give your work surface a kick. Allow 5 to 8 weeks for production.

View the complete PCS36 Series online at [www.mockett.com/pcs36](http://www.mockett.com/pcs36)

PCS36-GoGraphics! by Kiselev

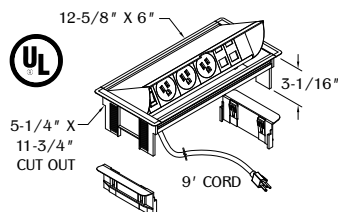

PCS36-GoGraphics! by Marumiyan

PCS21/M-94

### PCS21/M

Horizontal, recessed grommet now available in an aluminum housing with a new rectangular trim ring. The horizontal aluminum casing provides a strong, durable body with an overhead enclosure protecting plugs and wires. Features a manual top that sweeps upwards above the surface and locks into place at a 60° angle to access the power and data components. The cover then closes with the plugs in place, concealed by a flexible strip. The unit lays flat and virtually flush with the desktop in the closed position. Wide face for added ease of accessibility. Consists of three power outlets rated 15A/125VAC and two Category 5e data modules. Includes a 9 ft. electrical cord.

**Finishes:** Satin Aluminum, Matte Black. U.L. Listed.

### PCS5/M, PCS17/M, PCS18/M

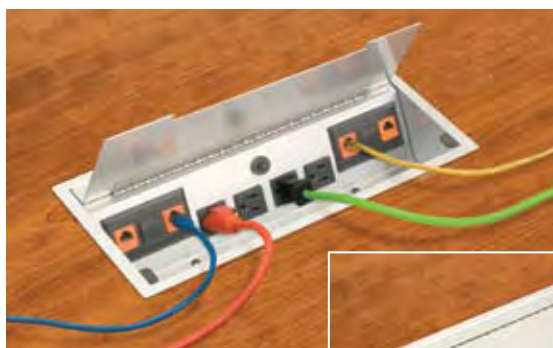

Each of these models is now available with a new lid featuring a new slot design. This new design allows cords to be plugged in while the lid is closed and the unit is in use. While the previous model had two small holes for wire pass-through, the new slot design has a long, continuous opening which makes the lid easier to open and allows wires to move freely back and forth across the front of the unit. A simple modification on a classic design that goes a long way to enhance ease and accessibility.

**Finishes:** Satin Stainless Steel, Matte Black.

**PCS18/M in Matte Black only.**

PCS5/M

PCS17/M

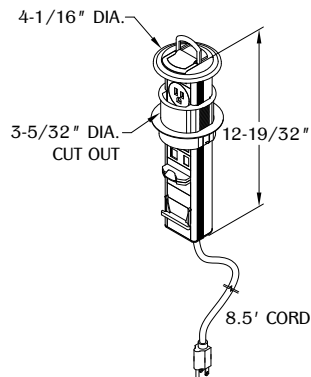

PCS18/M

**PCS34A****Now Available with Data**

Introducing the first ever Power and Communications Grommet specifically designed for areas with potential spill hazards. The new data feature creates new network versatility and opens new avenues for usage. A water-tight seal from the rubber trim ring makes this the ideal addition to any kitchen, laboratory, or medical office, with the data connections providing added convenience and functionality. This new configuration consists of two power outlets rated 15A/125VAC and two Category 5e data modules with an 8 1/2 ft power cord. Simply pull up on the two metal D-rings to pull the unit up out of the table. The unit clicks and locks into place once fully extended above the surface. To close the unit, press the red button on the bottom and push the unit back down into its base. Also has a reset switch that lights up when the power is "on." Installation is as easy as drilling a 3 5/32" hole and dropping the unit into the table. A locking flange piece is hand tightened from underneath to hold the unit snugly in place. Also available in an all power configuration as PCS34. Designed as a relocatable power tap for retrofit only. Does not meet NEC requirements. Kitchen use requires GFI.

PCS47A-95

PCS47	Configuration
PCS47A	1 power/3 data
PCS47B	2 power/2 data
PCS47C*	4 power only
* Circuit breaker plug.	

PCS48B-95

PCS48	Configuration
PCS48A	iPod®/iPhone® dock/2 power
PCS48B	iPod®/iPhone® dock/2 power/2 data

PCS49A-90

PCS49	Configuration
PCS49A	2 power/2 data
PCS49B*	4 power only
* Circuit breaker plug.	

This innovative series is available in three styles, each mounted in its own unique way. With the option to mount in or above the desk standing upright or laying flat, these have you covered!

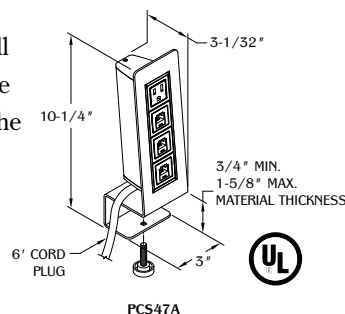

### PCS47

This vertical tower offers all the convenience of a pop up unit without actually having to drill into the table. With a clamp mount to the edge of a desk or table top, this unit stands above the surface and can be moved at any time.

Three stock options for power and data configurations.

**Finishes: Black, White.**

U.L. Listed.

### PCS48

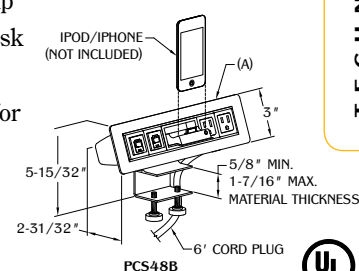

When a work surface simply won't allow a recessed unit or a "permanent" power solution, simply clamp this power and data system onto the side of the desk and problem solved! Horizontal frame with soft, rounded edges sits at an angle above the surface for easy access. Also comes equipped with an iPod®/iPhone® dock which snaps closed when not in use. A charging station that doesn't involve any wires? What a relief!

Available in two standard configurations.

Also available hardwired; 5 to 8 week lead time.

**Finishes: Black, White.**

U.L. Listed.

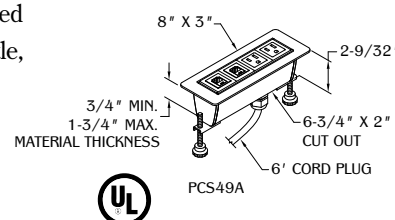

PCS48	Length (A)
PCS48A	6 5/8"
PCS48B	11"

### PCS49

With a flat, horizontal face that sits slightly above the desktop, this model is ideal for workstations that require heavy usage but still want to maintain a streamlined look. No guessing games here. No hideaways or pop-ups to figure out; this unit is exposed at all times for easy access. Rounded edges and a sleek finish for a universally subtle, yet sophisticated look. Two standard configurations available. Also available hardwired; 5 to 8 week lead time.

**Finishes: Black, White.**

U.L. Listed.

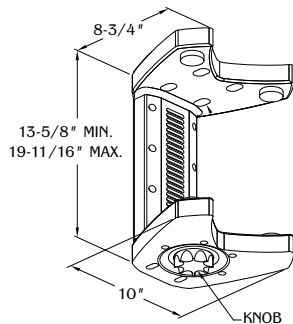

## CPU8

### Adjustable CPU Holder

Universal design allows for any size computer to be suspended underneath the desk for easy user access. Opens up extra floor space for easier cleaning under the workstation. Fits any computer 10" to 15" tall. Simply rotate the knob to adjust the height. Rubber pads on the top and bottom will securely hold the computer in place without scratching the surface area.

Weight capacity: 30 lbs.

**Color: Two-tone Grey.**

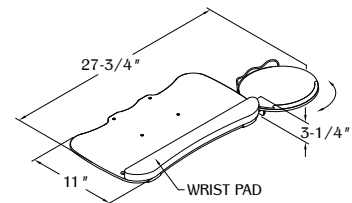

CPU8-92

## KP7

Adjustable keyboard tray combining comfort with a sleek and stylish look. Ultra thin with soft, rounded edges. A thick removable gel pad lines the front edge of the tray for optimal wrist support. Includes a round, swiveling mouse platform that can be mounted on the left or right side. The front of the mouse platform features a handy bumper railing with a nifty shape that prevents the mouse from sliding over the edge. A must have as a complementary accessory for contemporary office furniture.

**Color: Black.**

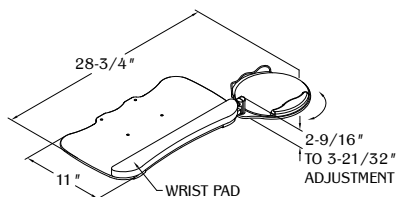

KP7/M2-90

KP8/M2-90

### KP8

Similar to the KP7, however this keyboard tray sets itself apart with its amazingly functional mouse platform. This omni-directional platform can swing from the left to the right, sweeping across the front of the tray, and it also tilts or rotates all the way around to sit above or below the keyboard surface. This is a great design for training tables or workstations that have multiple users as the mouse platform can easily accommodate right or left-handed users. The slim design of the tray itself along with the soft removable gel pad across the front edge make this an extremely practical stroke of genius.

**Color: Black.**

### KP9

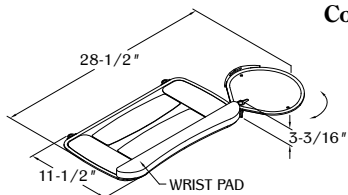

Unique design with grip pads on either side of the top of the tray to help provide traction for the keyboard and keep it in place. The oblong mouse platform can be mounted on either the left or right side and swivels to the optimal setting.

A simple industrial overall look, but equipped with all the right accessories. Also includes a gel pad for wrist support and clips along the back side for wire management.

**Color: Black.**

KP9/M2-90

### MUTTS by Patrick McDonnell

### Metallic Silver Grommets

Our entire line of plastic grommets is now available in a stunning Metallic Silver color. All of them – 10 round grommets, our RG rectangular and LO large oval, and now 15 different colors and finishes, our plastic grommets can fit virtually every size hole or plug. A removable cap completely covers the grommet liner and has our patented “flip-top”™ tab feature. Sold individually as caps and liners or as a set. Forstner Bits are available for all sizes.

### CHP3 - Star Grommet

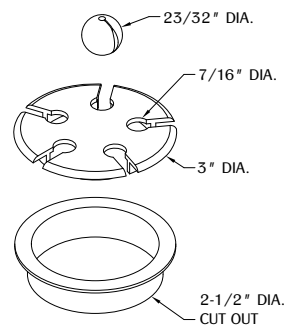

Designed by: Michael W. Davis - Rockford, MN  
2008 Design Contest Winner

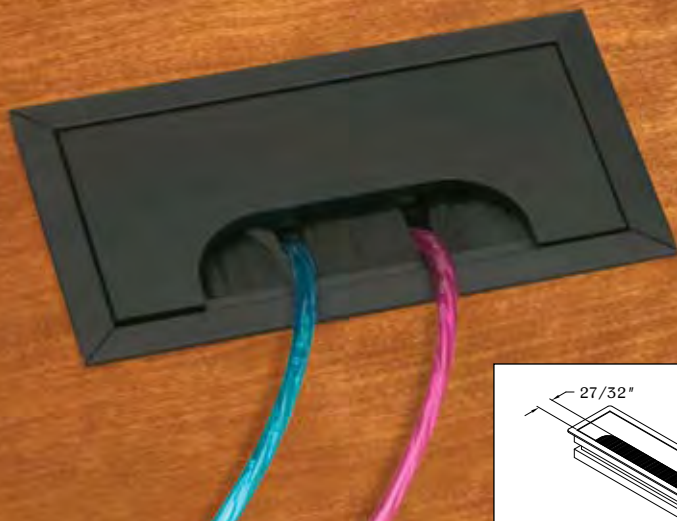

Tired of rummaging under the desk for loose cords and plugs? This handy grommet keeps all those cords at your fingertips above the surface without the need to scour through heaps of cables below. It holds up to five cords. Each one of those cords is held by a retainer ball which prevents the plug from falling through. Each ball has a slit where the cable is inserted. Designed to go into a 2 1/2" hole cut and a 3" overall diameter. The CHP3 set includes a cap, liner, and five balls.

Colors: Black w/ Black balls, Navy Grey with Navy Grey balls, White with Electric Pink balls.

Color Combinations	Cap & Liner	Balls
CHP3-90/90	Black	Black
CHP3-92N/92N	Grey	Grey
CHP3-93/50E	White	Pink

### MAX1 Series Grommet in Black

Our sleek new Max series grommet is now available in a sophisticated Black Anodized finish creating a more versatile look in any furniture. A staple in our line of stylish grommets, our Max series brings an elegant look to otherwise bland wire management applications. Equipped with a brush liner that prevents cables from dropping through the surface and a new lid design that features a wider opening to allow more wire access.

**Finishes: Satin Aluminum, Black.**

MAX1	Overall (A)	Cut Out (B)
MAX1/A	4 25/32" x 2 13/16"	4 5/6" x 2 5/16"
MAX1/B	13 7/8" x 2 13/16"	13 11/32" x 2 11/32"
MAX1/C	27 5/8" x 2 13/16"	27 7/32" x 2 11/32"

### MAX2 Series

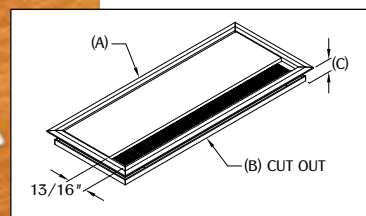

#### Hinged Aluminium with brush grommet –

Our popular aluminum brush grommet series is now available with a hinged lid for easier wire access. Simply lift the aluminum lid to access the grommet hole to insert wires and pull them through the brush liner before closing the top. The dust-blocking brush liner across the front of the unit prevents cables from falling down through the table when not in use by grabbing the wires and keeping them in place. Sits nearly flush with the table surface.

**Finish: Satin Aluminum.**

MAX2/A-94

MAX2	Overall (A)	Cut Out (B)	C
MAX2/A	3 15/16" Sq.	3 19/32" Sq.	9/16"
MAX2/B	9 15/32" x 3 15/16"	3 15/16" x 3 19/32"	9/16"
MAX2/C	4 23/32" Sq.	4 3/8" Sq.	1"
MAX2/D	17 23/32" x 4 23/32"	17 7/32" x 4 7/32"	1 15/32"

### MAX3 Series

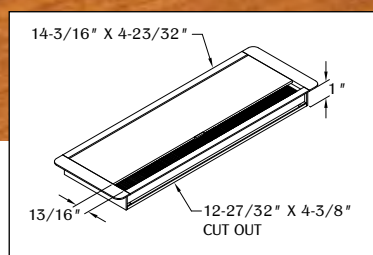

#### Hinged Aluminium with brush and rounded end caps, two finishes –

This extension of the Max series features a lockable lid and rounded end caps on either side. With the same hinged door as the MAX2 model, the top is lifted to allow wires to be inserted through the brush liner. Only now there is a sliding plastic tab on the underside of the lid that slides to either side of the unit locking the lid in place in the closed position. When the tab is slid all the way to one side, a smaller notch grabs the edge of the frame from underneath. Since the tab is attached to the underside of the lid, this locking mechanism with the frame prevents the lid from opening.

**Finishes: Satin Aluminum, Brushed Satin Aluminum.**

MAX3-94

## Stainless Steel TM Series

6" & 8" in 3" depth

With this expansion to our already extensive line of trash liners, we now have virtually every job covered. With the growing demand for a deeper drop on the liner, we have extended our line to include a 3" depth on all sizes of our Stainless Steel TM series. Our 6" diameter trash grommets are available in plastic in a 1" depth, and all larger sizes are available in Polished or Satin Stainless Steel. Our trash liners are a perfect way to protect the inner core of your counter and can easily

be removed for cleaning. Ideal for inspection ports in garage doors, food waste holes in restaurants, and power cord grommets for large jobs. Our larger stainless steel options meet local codes for restaurant and public rest room facilities. Other custom sizes available.

Call for details.

TM Depth	6" Dia.	8" Dia.	10" Dia.	12" Dia.
1"	TM1	TM2	TM10	TM12
2"	TM1B	TM2B	-	-
3"	TM1C	TM2C	TM10B	TM12B*
6"	TM1A	-	-	-

\* Special order, allow 6 to 8 week lead time.

## WM27

Designed by: Scott Sikkema, Grand Rapids, MI

This track system wire manager incorporates individual vertebrae-like links into a traditional continuous channel. Mounts horizontally behind a desk or below the surface. Before the mounting end caps are attached, the individual L-shaped brackets can slide in and out of the track and interlink to one another. Use as many or as few of the brackets as you need on a single track, or join additional tracks to extend the connection. Brackets can be mounted onto the track in two ways, one extending horizontally and the other extending below the work surface, depending on the job and the space allotted behind the work surface. Large enough to run heavy duty cabling or multiple wires. End pieces screw into the surface area to mount. To add or remove brackets, simply unscrew the end caps from the surface.

**Finish: Aluminum track with Black brackets.**

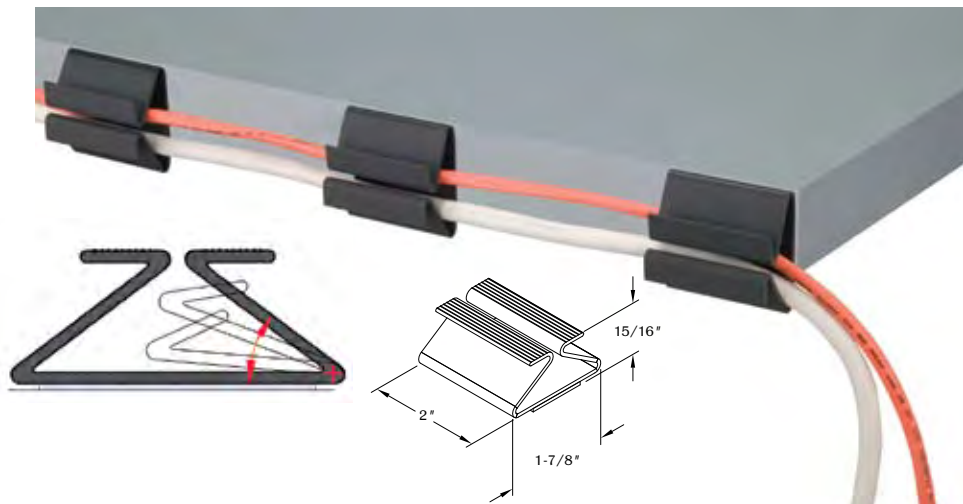

## WM28

Designed by: William Lawrence of Anna, TX

2008 Design Contest Winner

Simply press down on either side to insert the cabling, then let go and the wires are held securely in place. A simple, cost-effective, and versatile wire manager. These clips can be used individually or in groups to form a path for routing and organizing wires. Can be easily mounted with double sided tape or screwed into the surface for a more permanent application.

**Color: Black**

# 2010 Racing Recap – Two Fabulous Finishes, One Not So Hot...

## Chihuahua Express

A wonderful three day event that starts and ends daily in Chihuahua, so you sleep in the same hotel bed nightly! Plus, in 1100 miles it has 350 miles of speed stages, so good value.

First day the route goes northwest to the logging town of Madera, second day due west to the rim of the Copper Canyon, third day northeast to the Rio Grande River and the border with the USA.

We qualified first in the Carrera car class, and basically, smoked 'em Day One. Unfortunately, the event was marred by a racing crash on a speed section that took the life of the navigator.

Day Two was the same. Angelica's brilliant navigating was as good as it gets, and we smoked 'em again. But an awful, tragic day. Two cars were street racing on the way back, touching side by side at 150mph+, and that was that. Two were killed, including a good friend of mine, Nanan Solana.

The Third Day was, mercifully, cancelled.

I've been doing this madness for a long, long time. Trust me, you never get used to a racing accident that ends in a fatality, especially of a good friend. Never...

## Pikes Peak Hill Climb

Second oldest racing event in the USA (after the Indy 500) and a classic hill climb: 12 1/2 miles with a 4800 ft. elevation gain, from the start line at 9300 ft. to the summit at 14,110 ft., partially paved and partially dirt, and 156 challenging turns. And yes, some dreadful cliffs... not for the faint of heart!

Angelica navigated us to Pole Position in the Vintage class. We started first of some 100 cars and I'm glad we did – we had a smooth road. A little light rain overnight had made the dirt just right.

When you're doing it the drive is over in an instant and it takes forever. Yes, that feeling.

We waited for the others in our class. Woo hoo! We won, and set a new course record, 13 minutes, 5 seconds, nearly a full minute ahead of the old record. Our 1954 Olds -- albeit with 630hp -- was faster than a full 50% of the modern cars!

But the best was we were awarded the Race Director's Trophy and were duly humbled by the award.

## Carrera Panamericana

If Pikes Peak was the high of 2010, Carrera was the low.

This annual 2300 mile, 7-day drive from southern to northern Mexico traces largely the original road that connected Mexico to the USA and to Central America. From 1950 to 1954 the Mexican government sponsored a race to promote the Panamerican Highway. In 1988 Eduardo Leon revived it as a rally, and here we are.

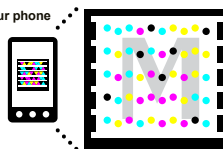

After qualifying 9<sup>th</sup> of 118 cars, our race ended before it began. I still don't believe it, but the driveshaft sheared as we were leisurely cruising from the hotel to the starting line. The race began without us. We got towed 200 miles (and \$800!) to our service truck, they changed the driveshaft in a few minutes. But we lost all of Day One.

Days Two, Three, Four, Five and Seven we finished 3<sup>rd</sup> behind two ringers – eventual winner Harri Rovenpera, a former big time rally driver from Finland, and second place Mexican Michel Jourdain, a former Indy car star. We even beat Harri on a speed stage!

Which leaves Day 6. Rather than embarrass myself in print, go to Youtube and enter "Trouble on the Road to Aguascalientes". My 12 seconds of fame... enough laughing...

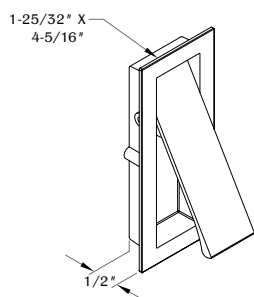

We ended up 27<sup>th</sup> overall and 10<sup>th</sup> in class. Not bad, I suppose, for missing all of Day One.

Get the free mobile app for your phone  
<http://gettag.mobi>

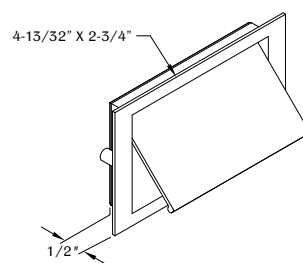

**DP152A****Designed by: Adam Laws**

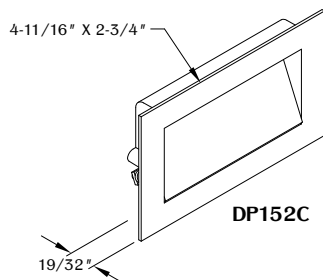

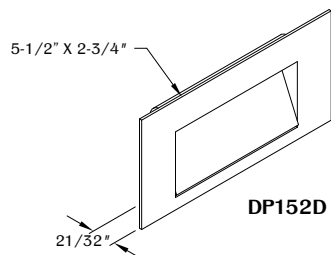

Similar to our other hinged pulls, but mounted vertically with a longer handle. Simply press the top to access the hidden hinged pull. Closes flush against a rubber support when not in use.

**Finishes: Satin Nickel.****Polished Chrome by special order.****DP152A-17S - Satin Nickel****DP152B****Designed by: Adam Laws**

Similar to our DP152 (see pg. 128 in Catalog 22), but with a much larger profile and mounted horizontally. The hinged pull opens outwards with a very generous opening for an excellent grip surface.

**Finish: Satin Nickel.****DP152B-17S - Satin Nickel****DP152C & DP152D****Designed by: Adam Laws**

These pulls look very similar to DP152A & DP152B, but offer a spring loaded feature. Rather than pushing in at the top to have the hinged pull open at the bottom, simply push the top and grab the inside of the frame. When not in use, the spring loaded door shuts inward flush against the exterior.

**Finishes: Satin Nickel.****Polished Chrome by special order.****DP152C****DP152D****DP152C-17S - Satin Nickel****DP152D-17S - Satin Nickel**

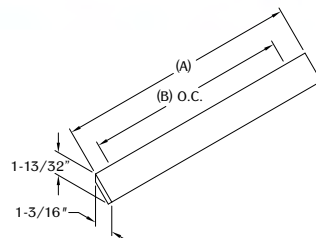

## DP174 Series

Long, flat, and elegant, the DP174 offers a clean and simple solution for any large drawer surface. Though the angle of the Aluminum extrusion itself already allows for an easy grasp, it features a recessed finger grip for added leverage. To be mounted on the face of the drawer for a bold, contemporary look.

**Finishes: Satin Nickel & Polished Chrome.**

DP174	A	B
DP174A	10 $\frac{1}{32}$ "	7 $\frac{9}{16}$ "
DP174B	15 $\frac{3}{32}$ "	12 $\frac{19}{32}$ "
DP174C	20 $\frac{1}{8}$ "	17 $\frac{5}{8}$ "

## DP175 Series

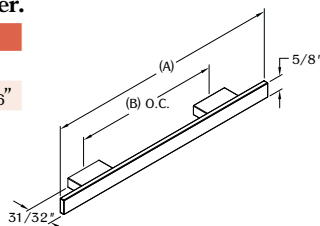

**Designed by: Designit**

A slim-line look with a long and slender body, the flat-faced bar design and sturdy posts give it a bold, yet sleek identity. Note the smallest version has only a single post.

**Finishes: Satin Nickel.**

**Polished Chrome by special order.**

DP175	A	B

DP183B-17S - Satin Nickel

DP183A-26 - Polished Chrome  
(Special Order)

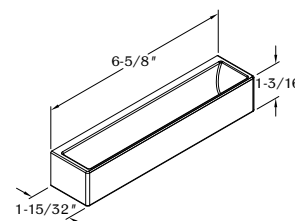

## DP184

**Designed by: Neuhaus Design**

A box version of the DP176 and DP177.

Rather than keeping with the modest profile, these bold pieces take center stage. The hollowed surface area allows for an enormous grip. Mounted flat onto the surface projecting outward in a very clean fashion.

**Finish: Satin Nickel.**

DP184-17S - Satin Nickel

## DP185

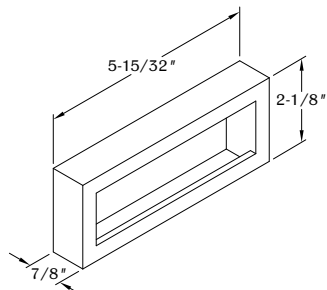

**Designed by: Danny Falch**

Rectangular box pull sits above the surface with inset finger grips. A prominent projection with sharp, rigid lines.

Think inside the box!

**Finishes: Satin Nickel.**

**Polished Chrome by special order.**

DP185-17S - Satin Nickel

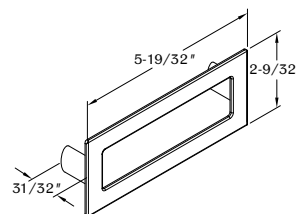

## DP186

**Designed by:** Danny Falch

Elongated rectangular "picture frame" pull stands off the surface with posts on either side. Smooth, subtly rounded edges create a soft and alluring look.

**Finishes:** Satin Nickel.

**Polished Chrome** by special order.

DP186-17S - Satin Nickel

DP186-26 - Polished Chrome  
(Special Order)

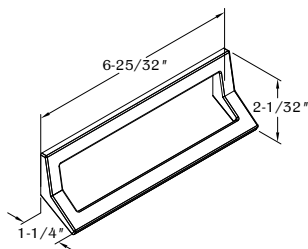

## DP187

**Designed by:** Danny Falch

A distinct bend at the center of the pull presents a solid handgrip and an interesting profile. Can be mounted to face up or down.

**Finishes:** Satin Nickel.

**Polished Chrome** by special order.

DP187-17S - Satin Nickel

DP187-26 - Polished Chrome  
(Special Order)

DP188-26M - Matte Chrome

(Special Order)

DP190-26 - Polished Chrome  
(Special Order)

## DP190

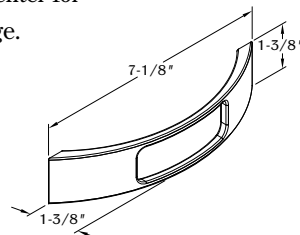

Designed by: Neuhaus Design

Elegantly arced clasp design.

Hollowed rectangular center for optimal grip and leverage.

**Finishes: Satin Nickel.**

**Matte Chrome and Polished Chrome**  
by special order.

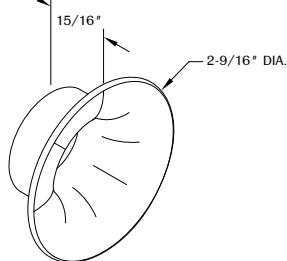

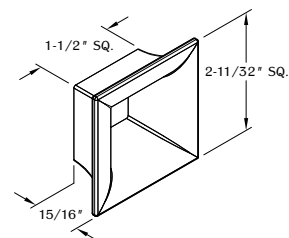

DP191-17S - Satin Nickel

**DP191****Designed by: Adam Laws**

Picture frame pull sits above the surface with gentle inward-arching sides to create depth. Smooth rounded edges for easy grip.

**Finishes: Satin Nickel.****Polished Chrome**

by special order.

**DP192****Designed by: Adam Laws**

Resembling a radio horn, this conical shaped design is both fanciful and functional. A smooth edge for varying grips and ease of use.

**Finishes: Satin Nickel.****Polished Chrome**

by special order.

DP192-17S - Satin Nickel

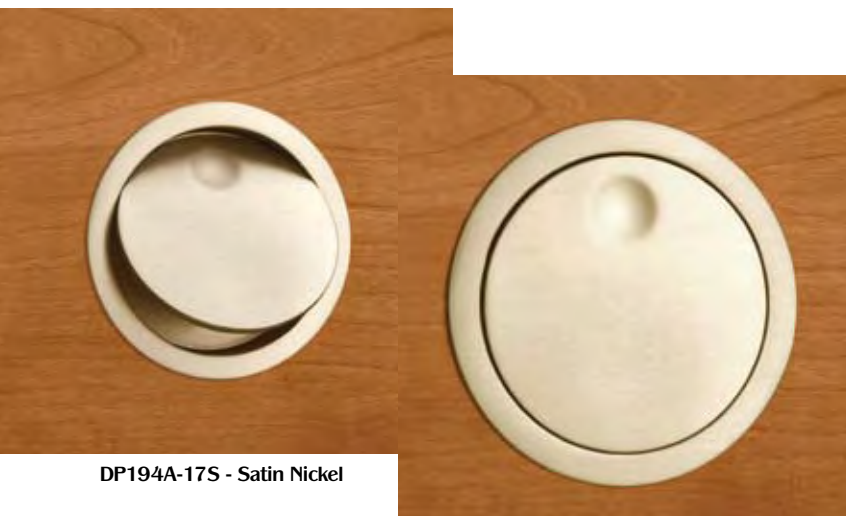

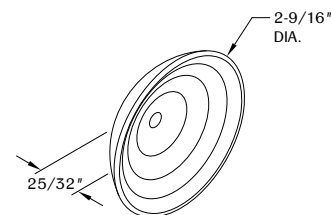

DP193-17S - Satin Nickel

**DP193****Designed by: Hans Sandgren**

A concave bowl shape design gives this pull an interesting feel and grip as well as a unique identity all its own. A bold statement on the face of any drawer or cabinet.

**Finishes: Satin Nickel.****Polished Chrome**

by special order.

DP194A-17S - Satin Nickel

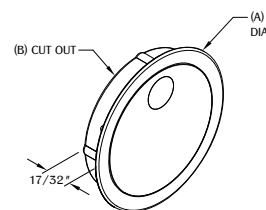

DP194B-17S - Satin Nickel

**DP194 Series****Designed by: Adam Laws**

Flap design with invisible hinges perfect for a concealed look. Simply press the top to expose the pull. Cylindrical inset for recessed mounting.

**Finishes: Satin Nickel.****Polished Chrome**

by special order.

DP194	A	B
DP194A	2 1/32"	1 11/16"
DP194B	3 5/32"	2 25/32"

## DP195

**Designed by:** Hans Sandgren

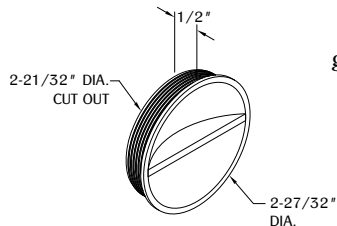

Our "belt buckle" pull has a bowl shaped cavity with a raised grab bar inset across the middle.

Recessed mounting with rigid grooves on the cylindrical base.

Simply glue in place.

**Finishes:** Satin Nickel.

Polished Chrome  
by special order.

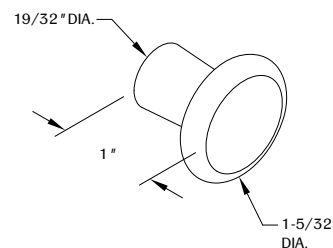

DP195-17S - Satin Nickel

## DP196

Mushroom shaped pull with a smooth, flat top great for use as a pull or a coathook.

Small and easy with a great finger grip.

**Finish:** Satin Stainless Steel.

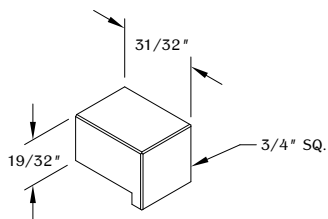

## DP197

Small finger grip pull with protruding edge piece for added leverage. Ideal for that perfect accent on smaller drawers.

Or use as a coat hook!

**Finish:** Satin Stainless Steel.

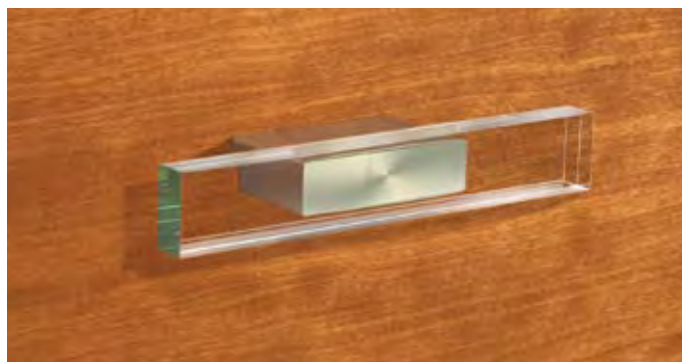

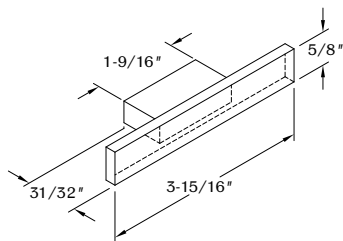

## DP198

**Designed by:** Designit

A glass pull floating atop a single Satin Nickel base.

A striking contrast.

**Finish:** Satin Nickel  
with glass.

DP198-17S - Satin Nickel

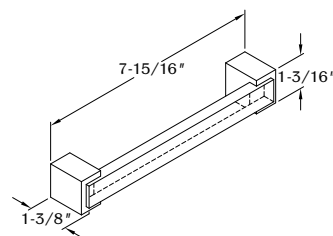

DP199-26 - Polished Chrome

**DP199**

Two Polished Chrome finished bases grasp a radiant glass top on either side, creating a dazzling contrast. A stylish and versatile pull that makes a statement virtually anywhere.

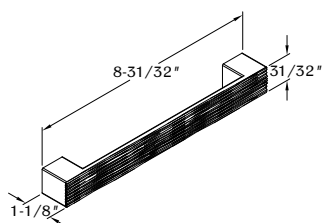

**Finish: Polished Chrome.**

**DP200**

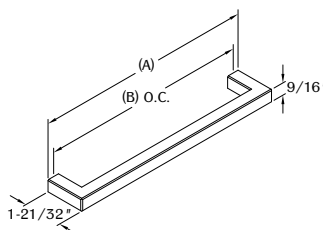

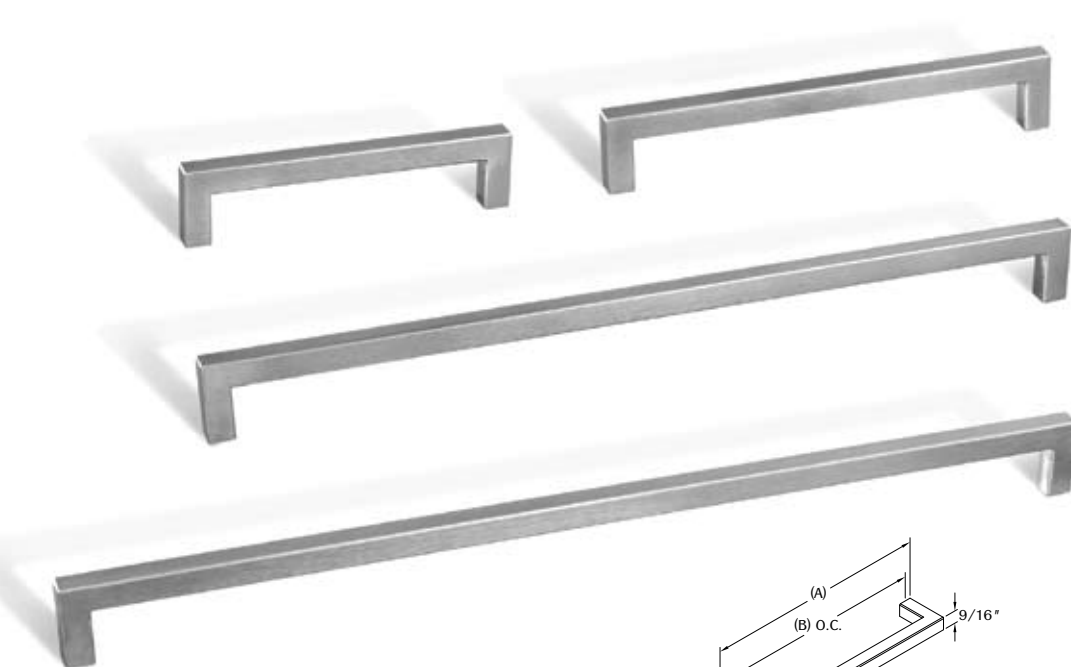

The sculptural relief ingrained on the broad face of this pull conveys a soothing sense of continuous motion. A beautiful and complementary finishing touch to a classic design.

**Finishes: Satin Nickel.**

**Polished Chrome by special order.**

DP200-17S - Satin Nickel

DP200-26 - Polished Chrome  
(Special Order)**DP105/3****New Sizes**

Our selection of stylish DP105 pulls continues to grow yet again! With a variety of sizes already available in stainless steel and chrome and nickel plated options, we experienced a growing demand for these sleek and modern pulls, and we answered with the introduction of four new sizes in Satin Stainless Steel. Available with a  $\frac{9}{16}$ " square profile. See [www.mockett.com/DP105](http://www.mockett.com/DP105) for full list of sizes.

**Finish: Satin Stainless Steel.**

DP105D/3	20 $\frac{23}{32}$ "	20 $\frac{5}{32}$ "

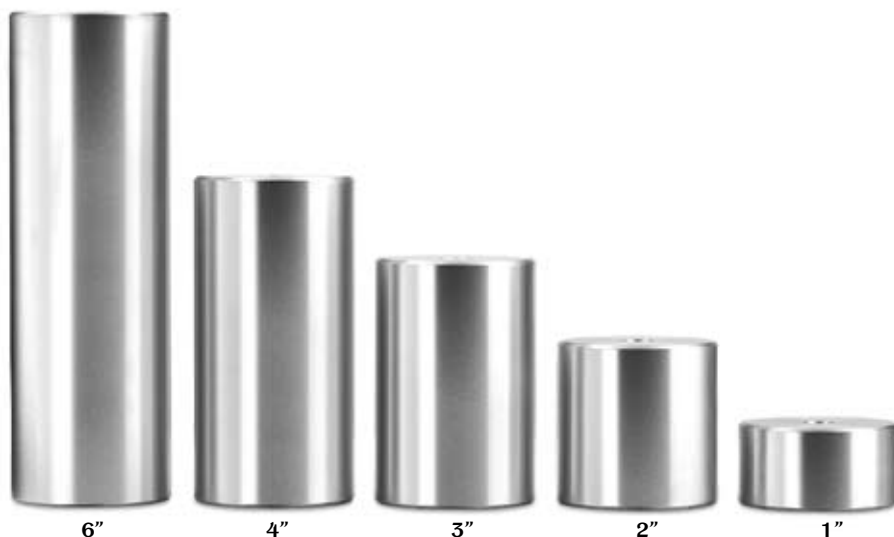

### MPB12 Series

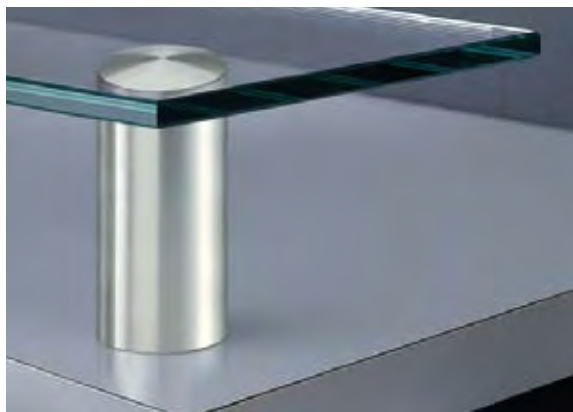

Our largest stand-off yet! MPB12 has a beefy 2" diameter and is available in five lengths. Ideal for heavy duty applications or just a heavy duty look. Extremely durable and versatile. Perfect for signage, display panels, or adding a shelf above a desk. These multi-purpose support hangers are right up your creative alley! Made of aluminum and then anodized. Available in 1", 2", 3", 4" and 6" lengths.

**Finish: Satin Aluminum.**

Please see chart on page 28.

MPB12 with Low Profile Cap

MPB12/CAP2

MPB11/CAP2

MPB10/CAP2

MPB9/CAP2

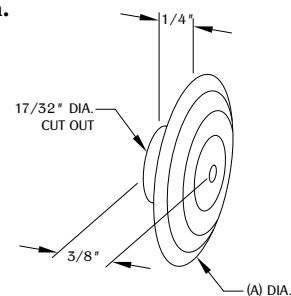

### MPB/CAP2

#### Low Profile Caps

All your MPBs come with the traditional cap, above. Now many of our multi-purpose support hangers are available with a sleek low profile cap. Great for shelves and counter-tops, these new caps not only sit closer to the surface for a cleaner look, but they are also less obtrusive to the overall design. While our beautiful stand off systems tend to attract the eye naturally, sometimes it's nice to have the option to let them take a back seat to the display itself. These low profile caps are the perfect solution, opening up even more options to your endless display ideas. All sizes have a 1/2" diameter by 1/4" height mounting stem. Minimum glass/acrylic thickness is 1/4".

**Finish: Satin Aluminum.**

MPB/CAP2	A
MPB9/CAP2	1"
MPB10/CAP2	1 1/4"
MPB11/CAP2	1 1/2"
MPB12/CAP2	2"

### MPB Satin Stainless Series

MPB6.5, 7.5, 9, 10 series in SSS

In the tradition of expanding our line of multi-purpose standoffs, we are now introducing them in Satin Stainless Steel. Available from 1/2" up to 1 1/4" diameter, these extremely durable pieces are the perfect solution for your display and shelving applications. Ideal for kitchens or to match existing Stainless Steel appliances, this option opens up more avenues with signage and display counters.

A unique set screw locks the cap in place to provide the most secure standoff yet! Available in four diameters and varying lengths.

**Finish: Satin Stainless Steel.**

Please see chart on page 29.

### APG Series – Panel Grips

No longer any need to support panels in each corner, APGs can be mounted anywhere along panel length. Just screw outer barrel to wall. Mount display panel onto inner barrel; secure panel by tightening inner barrel allen screw. Insert inner barrel into outer barrel, tighten outer barrel allen screw.

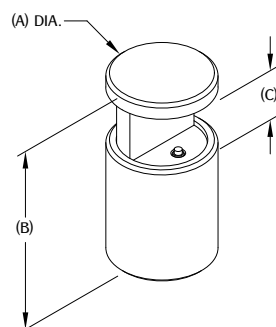

**Two sizes: Smaller 1" diameter,** holds panels 1/8" to 1/2" thick.

**Larger: 1 1/4" diameter,** holds panels 1/8" to 3/4" thick.

**Finish: Satin Aluminum.**

MPB/APG	A	B	C
MPB9/APG-94	1"	1 9/16" to 1 15/16"	1/8" to 1/2"
MPB10/APG-94	1 1/4"	1 13/16" to 2 7/16"	1/8" to 3/4"

Ordering is easy as one, two, three... (four and five)!

## Aluminum Stand-Offs

NEW  
SIZE!

### Step 1: Specify Cap

Cap Diameter	Component	MPB6 3/8" dia. (10-24 thread)	MPB7 5/8" dia. (5/16-18 thread)	MPB8 7/8" dia. (5/16-18 thread)	MPB9 1" dia. (5/16-18 thread)	MPB10 1 1/4" dia. (5/16-18 thread)	MPB11 1 1/2" dia. (5/16-18 thread)	MPB12 2" dia. (5/16-18 thread)	MPB/SQ 1" square (5/16-18 thread)
1/4" HEIGHT		MPB6/CAP1-94	-	-	-	-	-	-	-
5/16" HEIGHT		-	MPB7/CAP1-94	-	-	-	-	-	-

	1 1/2" HEIGHT	-	-	-	MPB10/1.5-SSS

### Step 4A: Specify Hardware (See chart on top of this page)

## SH40 - O'Connor Shelf Support

2009 Design Competition Winner

John O'Connor, Griffith, IN

A unique extruded Aluminum design that features an arched bottom piece connected by several smaller slats making a harmonious support structure. This creates added stability from underneath as well as providing an interesting and pleasant overall aesthetic. It is able to accommodate shelves up to 10" deep.

**Finishes: Satin Aluminum, Black Anodized.**

SH40-90 - Black Anodized

Weight Capacity: 45 lbs.\* per bracket.  
Maximum shelf depth is 10".

Satin Aluminum	Black Anodized
SH40-94	SH40-90

## SH41 Series

Bold, elliptical shape that juts out straight from the wall. Top clamp piece holds shelf in place. Tightens from underneath; the shelf sits atop the support and tightens up to the top piece. Available in three sizes. Sold in pairs.

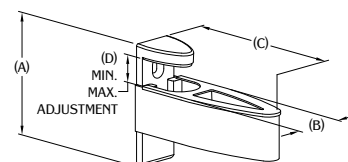

**SH41A** has a weight capacity of 26 lbs.\* per pair with a material thickness ranging from 1/4" to 5/8".

**SH41B** has a weight capacity of 66 lbs.\* per pair and holds material 3/4" to 1 1/2" thick.

**SH41C** holds up to 88 lbs.\* per pair and holds material from 7/8" to 1 7/8" thick.

**Finishes: Polished Chrome, Satin Nickel, Metallic Silver.**

**Note: SH41C-17S requires a 250 pair minimum order.**

SH41A maximum shelf depth is 7 1/2". Mount no more than 23 1/2" apart.  
SH41B maximum shelf depth is 9 1/2". Mount no more than 35" apart.  
SH41C maximum shelf depth is 11". Mount no more than 39" apart.

Maximum shelf depth is 8".

## Back by Popular Demand!

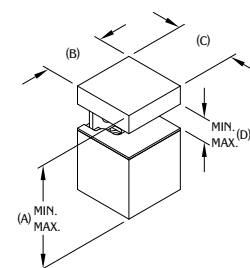

### SH35, SH35A, SH36, SH36A & SH37

Our line of smaller shelf supports is now back by popular demand! Not only did we bring them back, but we now offer new finishes for them as well. Introducing Satin Nickel and Matte Black. Round, square, and L-shaped, these three designs may look different from one another, but they all share the same low profile look and the same overwhelming popularity. Each expands and tightens to the desired shelf thickness, having a visible top and bottom piece above and below the shelf.

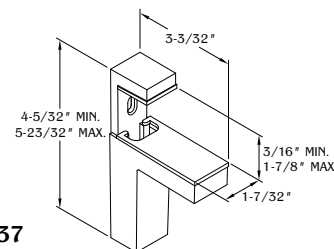

**Finishes: Polished Chrome, Metallic Silver, Satin Nickel, Matte Black.**

SH35

SH36

SH37

SH37-90  
Matte Black

\* When mounted into studs or concrete.

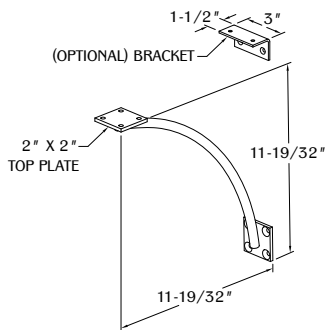

## SWS6A

### Smaller version of the SWS6 –

Another Design Competition Winner that has spawned an extension of its original design! With a growing demand for a smaller version of the popular SWS6, we are now introducing our SWS6A Newport counter support in a shorter overall size. Still using the same  $\frac{1}{2}$ " diameter Stainless Steel rod mounted to a Stainless Steel mounting plate, but now only  $11\frac{19}{32}$ " high, reaching out  $11\frac{19}{32}$ " from the wall. SWS6A holds up to 45 lbs.\* with L-bracket (sold separately) for back support. It accommodates shelves up to 14" deep.

**Finishes: Satin Stainless Steel, Polished Stainless Steel.**

SWS6A-SSS - Satin Stainless

SWS6A-PSS - Polished Stainless

\* When mounted into studs or concrete with L-bracket.

# We Get Mail!

From: John [REDACTED]

To: Cookie  
Subject: Return

I'm curious, I'm not complaining, but why would you refund the freight? This is the customer changing their mind. They caused you the outbound freight expense to ship it, why would you return that amount to them (me)? It is a non-recoverable cost for you. It just seems too generous on Doug Mockett's part.

Whether you include it or not for me is your policy and how you do things, I'm am just curious at to why you would.

Later,

John

Hi John -

Thank you for your comments.

Our policy may be unusual but makes good sense to us. We want to assure you have the best possible experience with us. And if that means bending over backwards in customer service, it is our pleasure.

We pride ourselves in giving clients world class service, the best we know how.

This policy is an outgrowth of an LL Bean one. For years, until recently, they offered to take back any item, any time. As their biz was largely mail order, it was good insurance to reap customer loyalty.

On top of that - and a polar opposite - we used to have a screw supplier who tried to charge us a 20% restocking fee - when they sent the wrong size screws! So they lost a client... My theory has always been to make dealing with us as easy as possible.

As a mail order company you are unable to see the product until you receive it. It may not be exactly what you had in mind, so why not make it easy to exchange or returns...

Many thanks again,

Doug

Subject: Thank you for your Customer Service

To whom it may concern:

As one of the partners of LL&H Woodworks, I always like these types of notes for clients and customers.

We had a situation with one of your hardware pieces that we bought from Doug Mockett. Working with Kelly (ext. 6358), she was able to handle the situation and get me the replacement handles in a quick manner. It is values that we look for in Vendors because it is one of the models of our company. Customer Service.

We were able to replace the new hardware faster than what the client expected and they were very pleased how quickly it was done. Very much a surprise to them, because working with different vendors it usually takes a couple of weeks.

Thanks to Kelly (Doug Mockett) we were able to turn a bad situation into a positive one.

Thanks again, keep up the Customer Service.

You know something guys, I'm a Parsons graduate with a sideline in graphic design, and I think you have some of the best graphic layout on your website and your billing sequence of anybody online. I can't understand why someone else hasn't figured out to put the summary boxed out sequentially as you check out, the way you do. It's beautiful, practical, user-friendly, like your products.

What a pleasure!!

Bolen Leg

2009 Design Competition Winner

Jeffrey Bolen – Marina Del Rey, CA

A fascinating leg offering a striking contrast of wood and metal that together create an extremely unique blend of modern design. A solid wood top tapers down and merges with a stainless steel leg that steps down to almost a point. A brilliant display of style and architectural innovation, and available strictly as a custom item to your exact dimension, stainless finish, wood choice, and wood finish.

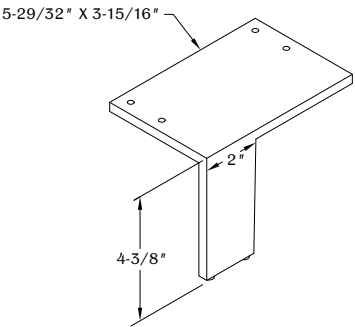

FL16L & FL16R

This slim furniture leg continues the line created by the corner of your furniture and carries it to the floor. An interesting perspective from any angle with a wide profile on one side and a thin, narrow edge on the other. Available as a Left or Right leg for either side of the furniture. Back by demand and now available with new finish options to make this the perfect solution for any small furniture application.

**Finishes: Satin Nickel, Metallic Silver, Polished Chrome, Matte Black.**

FL16	Polished Chrome	Metallic Silver	Satin Nickel	Matte Black	Overall Height
FL16/L	FL16/L-26	FL16/L-23	FL16/L-17S	FL16/L-90	4 3/8"
FL16/R	FL16/R-26	FL16/R-23	FL16/R-17S	FL16/R-90	4 3/8"

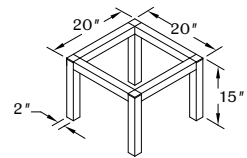

### Parsons Table Base - New Slimmer End Cap

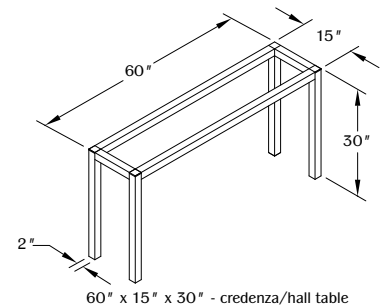

Our classic Parsons Table design is custom-sized to your choice, 7" to 60". It is now available with the perfect finishing touch – new low profile end caps, in a new color that coordinates beautifully with the Dark Satin Aluminum extrusion. Caps available in a Smoke Grey finish and are extremely thin and unobtrusive, blending seamlessly into the design. Assembly is easy with the extruded Satin Aluminum construction. A contemporary twist on a traditional wood design available in most any size and made to your specifications. Simply fasten the attachment plugs into the legs, align and fasten down the horizontal tubes, then place the finishing plugs in each corner and the glides (non-adjustable) into the legs. Allen wrench included.

**Finish: Dark Satin Aluminum.**

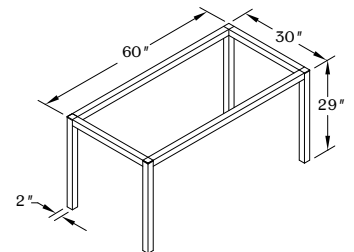

Size examples:

20" x 20" x 15" - cocktail table

60" x 15" x 30" - credenza/hall table

60" x 30" x 29" - dining table or desk

TLPAR/CZ-94  
Dark Satin Aluminum

Note: Maximum length and width is 60"

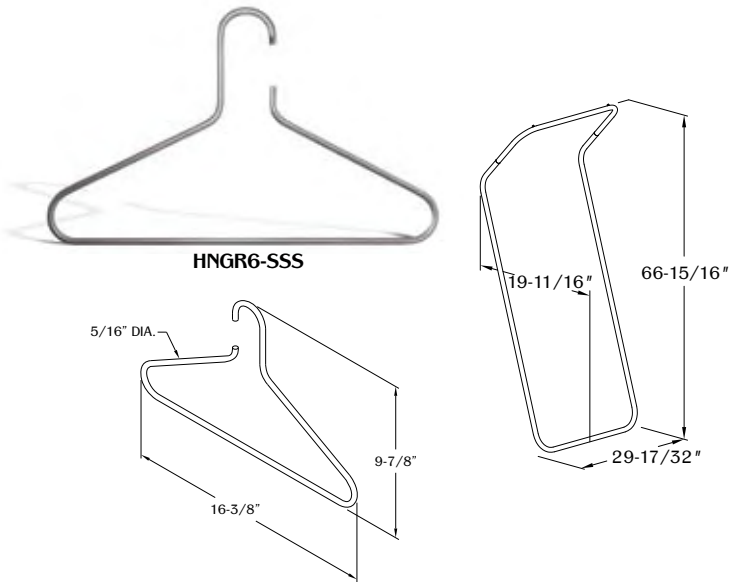

Cocktail	Credenza	Dining or Desk
TLPAR/CK-94	TLPAR/CZ-94	TLPAR/DN-94

CH50 - Lean On Coat Stand

A sophisticated and stable coat stand that is simply propped against the wall. No drilling or mounting necessary! Standing 66 15/16" tall with a 1" diameter tube frame, this unconventional stand is easily movable throughout the home or office. Simple in form, yet dashingly modern in style, a true avant-garde design for the ages. Stainless steel combined with white powder-coating and with optional hangers.

Finish: Satin Stainless Steel.

CH50-SSS - Satin Stainless Steel

LWAVG2/610-83 - Maple

LWAVG2/214-86 - Cherry

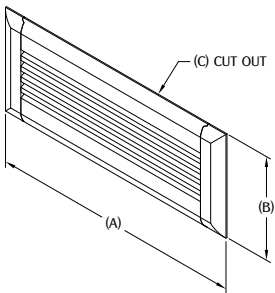

Wood Air Vents

An extension of the LWAVG series, these new rectangular Wood Air Vent Grilles are available in new sizes with a new design. Exquisite craftsmanship on the sturdy louvered vents and the smooth, rounded edges. Perfect for anyone who takes great pride in his work or living space. A classy way to vent unwanted heat. Four wood species to suit your personal design needs.

Finishes: Cherry, Maple, Red Oak, White Oak.

Wood Air Vents	Overall (A)	(B)	Cut Out (C)

LWAVG2/614	15 1/2"	7 1/2"	6" x 14"

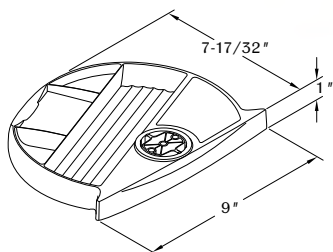

## DWR5A & DWR5B

This may take some getting used to. Rather than pulling to open like a traditional drawer, this swiveling circular design pivots around a central mounting post and swings out for user access. Equipped with pen and pencil trays, miscellaneous storage compartments, and a clever notepad slot, the DWR5 series has all the basic components of a traditional office drawer but puts a new spin on the design. Keeps your office supplies neatly organized and tucked away. Rotates in both directions for easy access. Two sizes.

**Finishes: Matte Black, Metallic Silver.**

DWR5	Length	Height	Depth
DWR5A	9"	1"	7 17/32"
DWR5B	13 19/32"	1 1/4"	7 13/16"

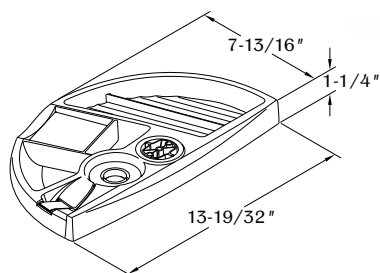

DWR5A-23 - Metallic Silver

DWR5A-90 - Matte Black

DWR5B-23 - Metallic Silver

DWR5B-90 - Matte Black

## About Us

### Guarantee

We stand 100% behind everything we sell you. If you are not satisfied, for any reason, let us know. If we cannot satisfy you, we will accept back all items sold to you (except custom-made-to-order items, of course) and give you a 100% credit or refund, freight included.

### Shipping and Delivery

96% of all orders are shipped the same day the order is received, except in the rare instance that we are out of stock, or when an item is to be custom-made. We ship UPS, FedEx or Priority Mail - unless you specify another carrier. Large items or quantity orders may ship by truck. Southern California delivery via our plane or truck: \$35 - \$250. Freight charges will be prepaid and added to your invoice. Or, you may charge freight to your own account. We pay ground shipping on all orders for grommets, drawer pulls and coat hooks within the continental USA accompanied by check.

### EZ Ordering

www.mockett.com for secure online ordering or...

- 1 Make copy of order form on next page
- 2 Fill out with your order
- 3 Fax it to us 800-235-7743
- 4 96% of the time your order will ship same day!

### To Call

800-523-1269 from the USA, Canada, Puerto Rico and U.S. Virgin Islands. 310-318-2491 from everywhere else.

### To Fax

800-235-7743 from the USA, Canada, Puerto Rico and U.S. Virgin Islands. 310-376-7650 from everywhere else.

### To E-mail

info@mockett.com

### To Order Online

www.mockett.com

### To Write

Doug Mockett & Company, Inc.  
P.O. Box 3333  
Manhattan Beach, CA 90266

### To Visit/Ship

1915 Abalone Avenue  
Torrance, CA 90501, USA

### Hours

Monday through Friday,  
6:00 a.m. to 5:30 p.m., Pacific Time. (Will call: 8:00 a.m. to 5:00 p.m.)

### Custom Orders

Items custom-made to your exact specifications require a 50% deposit with order and are not returnable, of course.

### Blanket Orders

We welcome your large order to ship over 6-12 months. Please call to arrange pricing and terms.

### Prices

Effective January 2011 and subject to change without notice.

### Price Quotations

When you need a price quote, please ask that it be faxed or emailed to you so we both know who said what to whom.

Prices in this catalog prevail over verbal quotes.

### Packing

Packing is included in the price of all items, except for Cylinders or Cubes and Table Legs that require cartoning, crating or boxing. Approximate charges are: Cylinder \$30 to \$50 depending on size; Table Leg \$8.50 for 1 or 2, depending on how many will fit into our standard box. Call for exact quote.

### Colors

The color photographs of products shown in this catalog may not exactly match the actual color of the product. If you need to confirm a color, please call and we can send a color sample for approval.

### Terms

We accept VISA, MasterCard, American Express or Discover. Net terms may be established, please request our credit application. C.O.D. available.

### Returns

We accept back any item (except custom-made items, of course) at NO RESTOCKING CHARGE. Call before shipping items for Return Authorization Number. We do ask that it be packed well to arrive back here in resalable condition. Please be sure to pack well to assure credit.
