MOPTECH HISTORY

MOPTECH was founded in 1996 with a focus on manufacturing Mop frames and components for the sanitary supply industry. Over the course of 14 years, MOPTECH has grown to become a world leader in the design and manufacturing of industrial sanitary supply equipment.

MOPTECH takes a project management approach to ensure on time delivery, quality control and cost management.

In 2009, MOPTECH was acquired by Normont Industrial which gives MOPTECH a host of World Class support:

- *Manufacturing Facilities:* Granby (QC), Québec (QC), Champlain (NY), New York City (NY), Cixi (China)
- *Manufacturing Capabilities:* Tool & Die making, Stamping, Welding, Fabricating, Machining, Powder Coating, Assembly
- *Engineering Services:* Product design & development, 3-D modeling, Stereo lithography, Finite Element Analysis
- *Warehousing Facilities:* Laval (QC), Calgary (AB), Plattsburgh (NY), New York City (NY) and Mexico City (Mexico)

ABOUT NORMONT INDUSTRIAL

Normont Industrial is recognized as a leader in the design, manufacturing and supply of industrial and access hardware. Our World Class team of Professional Engineers will analyse the specific requirements of each new request whether it be for hinges, gas springs, battery trays or engine cradles and develop an innovative quality and cost effective solution for that application. Normont's capabilities include Powder Coating, Stamping, Machining, Fabricating, Welding and Assembly. The Normont team is ready to deliver custom engineered solutions that are innovative, high in quality and cost effective.

POWDER COATING: A Better Solution for the Environment.

MOPTECH has the ability to Powder Coat any product that is fabricated in-house. This gives MOPTECH the flexibility in the production process to reduce the lead time to the customer.

- Powder Coating produces a much thicker coating than conventional paint without running, chipping or corroding
- Powder Coated finishes are resistant to many chemicals including brake fluids and fuels
- Powder Coating is environmentally friendly and VOC compliant

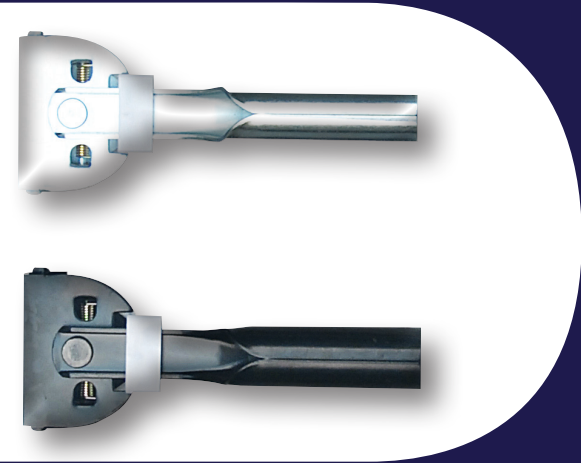

PRODUCTS

MOPTECH provides specialized high quality industrial sanitary supply components. MOPTECH products can be used in various application areas such as general building, warehouse and office maintenance. MOPTECH can also customize fabrication based on the customer's needs.

MOPTECH uses a state-of-the-art Robotic Welding machine giving accuracy which allows for a quicker turn-around of high-quality finished products.

DUST MOP FRAME WITH BRACE

Ideal to reinforce larger dust mops. Makes a heavy duty large dust mop frame more durable and provides extra support for the handle which helps distribute the weight for better control.

All frames are constructed of a mild steel wire and either Powder Coated or Zinc plated.

Wire diameter: 0.232 in.

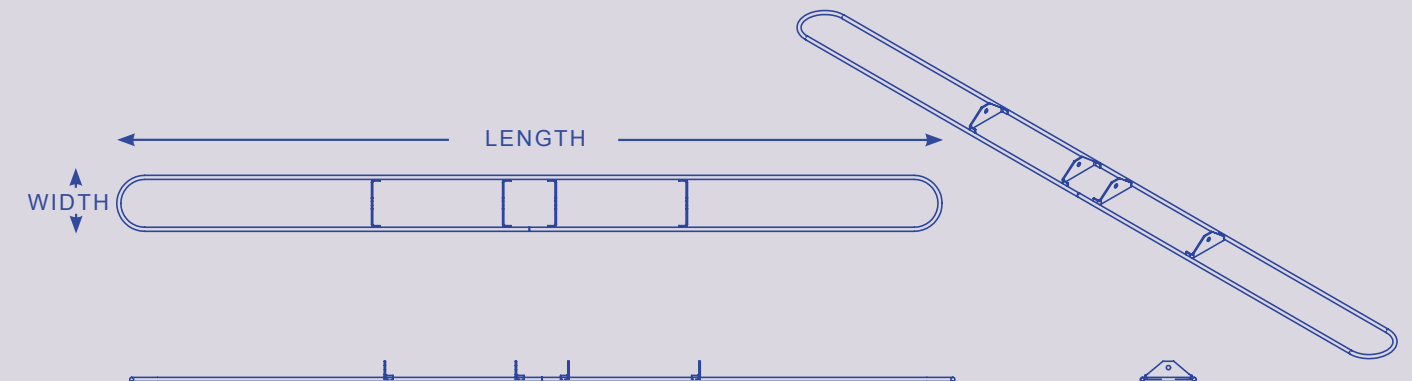

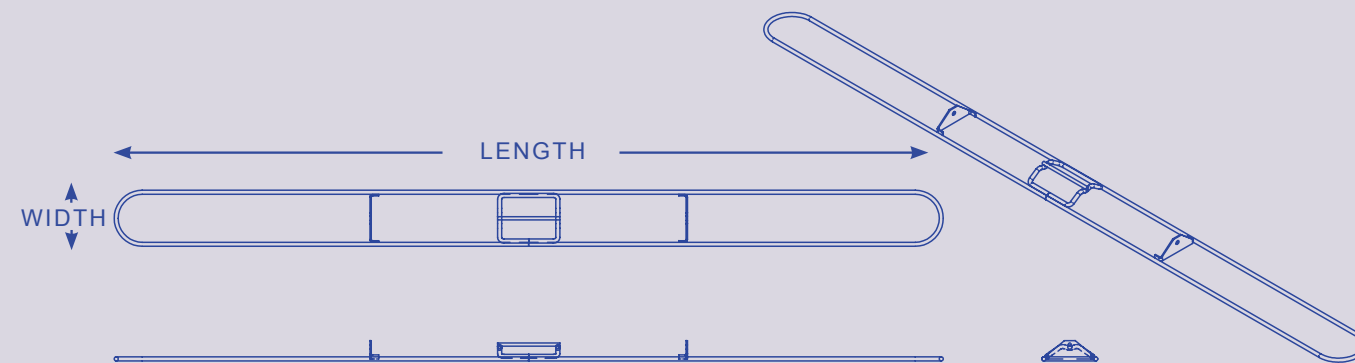

DUST MOP FRAME WITH CONNECTOR AND BRACE

Ideal to reinforce larger dust mops from 48" and larger. Makes a heavy duty large dust mop frame more durable and provides extra support for the handle which helps distribute the weight for better control.

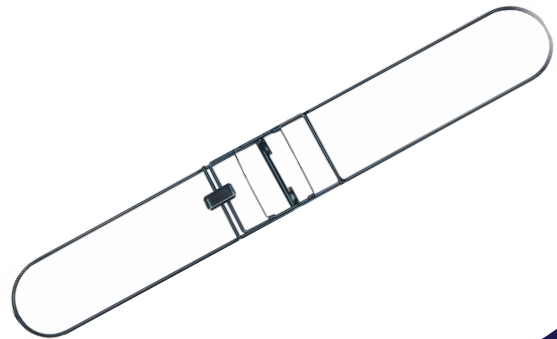

All frames are constructed of a mild steel wire and either Powder Coated or Zinc plated.

Wire diameter: 0.232 in.
