AXLES - AXLE KITS - DRIVETRAIN COMPONENTS

WWW.TENFACTORY.COM

Welcome

Welcome to TEN Factory – the source for performance axle shafts, axle kits and components that you can trust today and in to the future. Developed by a well experienced drivetrain team, TEN Factory designs and engineers each product to strict quality and strength criteria providing the highest value in the industry. As part of Midwest Truck and Auto Parts' Motive Gear division, TEN Factory is able to combine our Axle Shafts and Kits with Motive Gear's extensive Ring and Pinion and drivetrain product line. This combination of product knowledge and experience is unmatched in the drivetrain industry.

TEN Factory: What does it stand for?

To put it simply, the TEN Factory name comes from our TEN Year Replacement Warranty on our axle shafts. It stands for high quality parts that are well engineered for performance, strength and durability. More importantly, it stands for an honest, hard working effort to earn your business and stand behind you after the sale.

Not Just A Name

Some "brands" are nothing more than bulk product imported at the lowest cost. While you may recognize the "brand" name on the packaging, without real drivetrain engineers and enthusiasts involved in the product, you're simply buying the box. At TEN Factory, we are involved. We use our proprietary drawings, utilize exclusive processes and tooling and our products are regularly processed at Motive Gear's in house Quality Assurance Lab – the only one in the industry!

Just Like You

The staff at TEN Factory and Motive Gear is made up of enthusiasts just like you. Off road adventures, street performance, drag racing, circle track or somewhere in between – you'll find us as participants or fans. We attend many events across the country and around the world, if you see us at a trade show or event, please stop by and say hi. We appreciate your input and your dedication to your hobby or sport. If you can't make it to a show or event, please use our website (WWW.TENFACTORY.COM) to read the latest news or to contact us at TEN Factory.

TEN Factory Replacement Axles are designed as direct replacements for original equipment axle shafts without modifications. OE axles are typically made from a low cost material and designed for average use. TEN Factory Replacement Axles are made from High Manganese 1541H material, allowing a deeper and harder heat treatment. This allows us to back them with a TEN-Year Replacement Warranty.

FACTORY TEAMS

Ten Factory and Motive Gear work with some of the best teams in racing to develop and test our products. From the ¼ mile to the deserts, our products are being put to the test! Check out some of the “Factory Teams” using Motive Gear, Motive Gear Performance and TEN Factory products in 2009.

Cameron “PAB” Steele-as a former racer and Freestyle MX'er, Cameron turned his knowledge in to a career behind the camera and microphone. For over a decade he's been a feature host of ESPN's X Games, Winter X Games and pit reporter for the Indy Racing League. A Baja Champion, Cameron and his Desert Assassin's desert racing team push the limits in the unlimited Trophy Truck Class.

A third generation racer from Southern California, Casey Currie grew up being competitive. Success in many forms of competition, including short course off road, AMA Supermoto, rock crawling and more have elevated Casey to the top of his class. Look for Casey racing around the country and on SPEED TV!

Heidi Steele set many records in 2008, winning a Championship in SCORE and Best In The Desert racing series. Heidi and her team also completed every mile of each SCORE race, earning the Toyota Milestone Award. Topping it all off, she was awarded DirtSports Magazine's prestigious Driver Of The Year Award! Look for Heidi Steele to continue her winning ways in 2009.

Jeepspeed is a very competitive racing series based on production Jeep vehicles that race with off the shelf axles, gears and differentials. It's a great series to test and prove the same components our customers run. Eric Filar, Austin Stobaugh and Jeff Belknap will campaign Jeepspeed in 2009 for Ten Factory and Motive Gear.

TEN FACTORY WARRANTY

Midwest Truck & Auto Parts inc.™ warrants that all new TEN FACTORY™ axle shafts, except as otherwise provided herein, will be free from defects in material and workmanship for the first **10 years or 100,000 miles, whichever occurs first**. **All other TEN FACTORY™ products carry a 1 year, 10,000 mile warranty**.
