Motorcraft® Tested and Proven Excellence In Original Equipment Parts

Motorcraft® is proud of its comprehensive line of Automotive, Truck, Marine and Off-Road Parts. When it's a Motorcraft® product you can be sure you're getting a quality part.

Parts That Have Been Engineered

Research, development and engineering goes on continually at the Ford Motor Company. Motorcraft® products receive the benefits of this continuous research. Refinement and improvements made to original equipment products are reflected in Motorcraft® replacement parts.

Parts That Are Reliable

High standards of quality are designed and built into Motorcraft® parts. Manufacturing excellence to designed specifications is maintained through programs of inspection and selective testing. The name Motorcraft® on the package means reliability.

Parts With Proven Quality

Motorcraft® excels in its testing programs for original equipment and replacement parts. Engineering test facilities and actual on-the-road testing provide the means to prove vehicle components before replacement counterparts are released to the public.

Tops In Ford Coverage

In order to keep in stride with the ever growing demand for O.E.M. quality replacement parts, Motorcraft® has expanded both the breadth and depth of its lines to provide even better coverage.

Motorcraft® Offers You Both Quality Parts and Support

SRW ..... Single Rear Wheels
Std./ Std. Tran. .... Standard Transmission
Sta. Wag./SW ..... Station Wagon
Steer ..... Steering
Str ..... Straight
Str. Mtr. ..... Starter Motor
Susp. ..... Suspension
S/X/C ..... Super Extra Cooling

Tach. ..... Tachometer
TBI ..... Throttle Body Injection
T/C ..... Tilt Cab
TDM ..... Tandem
TE/ TEEC ..... Thermactor Emission
Tec. ..... Tecumseh
Temp. ..... Temperature
Term. ..... Terminal
Thermo ..... Thermostat
T/M ..... Transmatic
TP ..... Thermactor Air Pump
TPI ..... Tuned Port Injection
Trk ..... Truck
Trans. ..... Transmission
Tran. Ign. ..... Transistorized Ignition
Tra./Tow Pkg. ..... Trailer Tow Package
T/T ..... Tractor Trailer
TC ..... Turbocharged
T.W. ..... Top Width
TWC ..... Three Way Converter

V ..... Volt
Vac. ..... Vacuum
Var. ..... Variable
VIN ..... Vehicle Identification Number
Vis. ..... Visibility
V/P ..... Vacuum Pump
VV ..... Variable Venturi

w/ ..... With
WB ..... Wheel Base
WI ..... Wire Insert Hose
w/o ..... Without
W/P ..... Water Pump

X-Cool ..... Extra Cool

2WD ..... 2 Wheel Drive
2V ..... 2 Barrel Carburetor
4WD/ 4x4 ..... 4 Wheel Drive
4V ..... 4 Barrel Carburetor
5 Spd Tran ..... 5 Speed Transmission

HOW TO FIND THE CORRECT REPLACEMENT BELT OR HOSE

FIRST Due to the number of belt driven accessories available on today's cars, you should determine the following facts in order to assure your customer the proper replacement belt and hose:

1. Manufacturer, year and model
2. Exact Engine description
3. All accessories on the car and the belt or hose to be replaced.

SECOND Check index to determine page number for desired Manufacturer.

A. Locate correct Model
B. Determine correct engine and year
C. Select proper driven unit
   1. Alternator
   2. Generator
   3. Fan Only
   4. Power Steering
   5. Air Conditioning
   6. Air Pump
   7. Air Suspension
   8. Idler
D. Read across to the correct belt or hose.

[2] Cut to fit

Motorcraft® Rubber Goods Line

Motorcraft combines quality materials with design excellence to provide a rubber goods line that promotes product integrity and customer satisfaction.

Part Numbering System

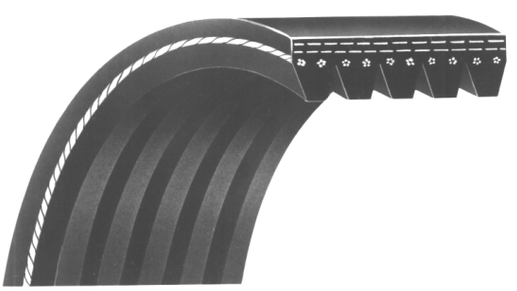

Our part numbering system helps to make it simple and profitable for you to stock and sell Motorcraft's full line of Belts and Hose. You'll find what you want fast.

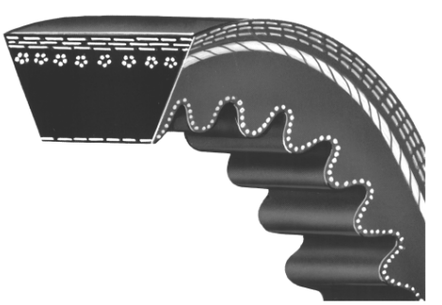

NOTE: The Motorcraft Belt Numbering System is explained in detail on the back of Belt sleeves.

Motorcraft® Belt Features

Carefully manufactured of premium-quality material and polyester cords, Motorcraft Belts are stronger than rayon-corded belts.

- Polyester cords resist stretching, minimize slippage and provide superior performance with short adjustment (limited take-up) drives.
- Quiet, efficient operation is provided with laminated die-cut edge design.
- Resists deterioration caused by grease, oil, dirt and high temperature.

V-Ribbed Belts

- A single belt may drive all size engine accessories – alternator, water pump, cooling fan, air pump, air conditioning compressor and power steering pump.
- Better fuel economy results because the V-Ribbed Belt requires less energy to bend around the pulleys than the multi-belt system.
- The transfer of horsepower from the belt to the individual accessories is much more efficient than with the three conventional belts.

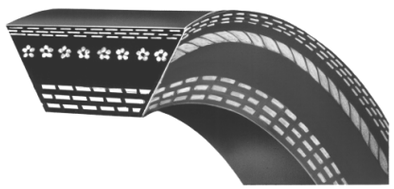

Motorcraft V-Ribbed Belts are also used to drive certain engine accessories in conjunction with standard belts driving other accessories on the same engine.

Cog Belts

- Molded cog belts flex easily around the smallest pulley.
- Molded-cog design preserves belt strength and eliminates rough edges present on cut-cog design belts.

Belt Features (Cont'd.)

V-Belts

Today's high performance engines and belt-driven accessories demand the precision engineering and quality construction that's built into Motorcraft Belts. Carefully manufactured of premium-quality material and polyester cords.

- Good traction and contact with the pulley groove is provided with Motorcraft's belt design. Polyester cords resist stretching, minimize slippage and provide superior performance with short adjustment (limited take-up) drives.
- Quiet efficient operation is provided with Motorcraft belts. Ideal for power steering applications.
- Resists deterioration caused by grease, oil, dirt and high temperature.

High Strength • Long Life • Top Quality

How To Install Belts

Preparation of pulleys and sheaves

Clean sheaves thoroughly to remove oil, grease, rust and burrs. Belts operate by friction, and anything which may reduce the coefficient of friction (traction) between the belts and the sheaves may require higher belt tensions to handle the load.

Be certain that the pulleys are lined up and that the shafts are parallel. This will reduce such problems as:

- Noise – Misaligned belts can often create a noisy drive under certain conditions.
- Wear – Misaligned belts wear rapidly on the side of the belt that first comes in contact with the sheave and decreases belt life.
- Instability – Misaligned belts may flip over or jump pulley grooves.

Actual Installation

Belts should ***not*** be forced over pulley or sheaves as this results in broken tensile cords in the belt. For ease of installation, reduce the belt tension by manipulating the automatic belt tensioner or manual belt adjustment.

Important: Make sure you install matched Motorcraft Belts on multiple belt drives

Whenever a drive calls for more than one belt, always use a matched set of belts. Motorcraft matched belt sets are designed to carry an equal share of the total load. Motorcraft matches automotive belts to a close tolerance on center distance to assure you of satisfactory matched set tolerance for automotive applications. When you install matched Motorcraft sets, the pitch line and other features are equivalent and the belts operate together properly and efficiently, to deliver maximum performance.

Always store belts in a cool dark spot

Properly stored Belts can be kept in stock for many years without decreasing their service life. Make sure you store them in a cool, dark location where they'll last longest.

Quick Check Belt Examination

V-Belts and Cog Belts

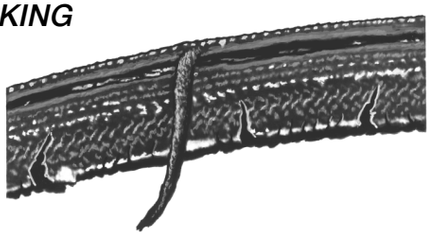

GLAZING

Glazed belts with hard surfaces slip, causing overheating and low battery voltage.

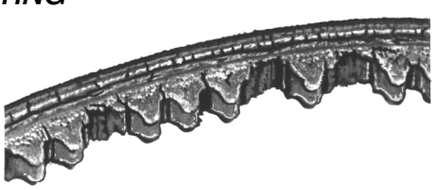

Check for grease on the belt. Grease makes the belt side slick and causes slippage.

CRACKING

Flex the belt to spot small cracks. Belts with cracks can break without warning. Flexing enlarges the cracks, makes them easy to spot. (For rib belts, minor cracks across the ribs are acceptable.)

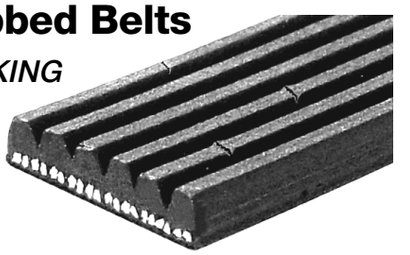

SPLITTING

Always check the underside of the belt. Split belts may appear sound from the top, but sides and bottom may be severely split and ready to break. You're most likely to find wear and potential trouble on the underside of the belt.

V-Ribbed Belts

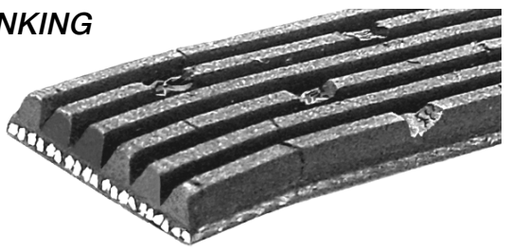

CRACKING

Under severe operating conditions, drive belt cracking can occur. Drive belt cracking across the grooves has no detrimental effect on belt performance.

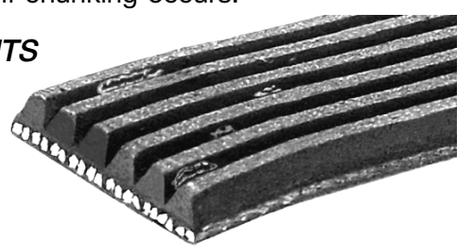

Check the belt for cracks. Up to 15 cracks in a single rib over a distance of 100mm (3.93") is acceptable.

CHUNKING

Drive belt chunking is where rib material breaks loose from the backing, leaving a section of the rib missing. This usually occurs between two cracks. A new belt should be installed if chunking occurs.

DEPOSITS

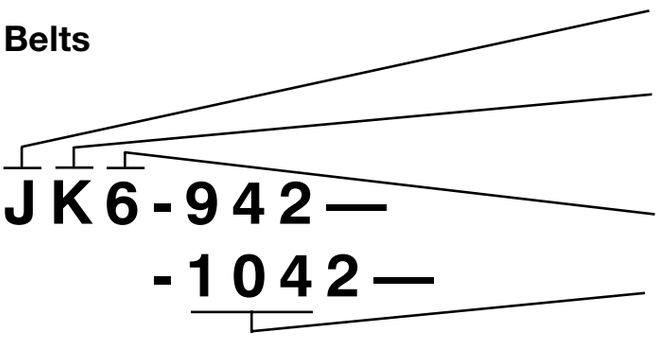

Small, scattered deposits of rubber debris, does not require new belt installation. If heavy deposits building up to 50% of the belt rib height is present and belt noise is apparent, a new belt should be installed.

Remember ... **Show your customer the worn belt and let them know it takes only a short time to replace it with a new Motorcraft belt. Point out the potential trouble that could result if the worn item is not replaced. Assure them that you hope to spare them inconvenience and possible future major repair problems.**

Once your customer sees the worn belt and realizes you can replace it in minutes ... you will see how these products sell themselves.

Product Codes

Belts

1st letter "J" always designates the Belt Line.

2nd letter is variable to indicate K for Rib Belt or top width of V-Belt.

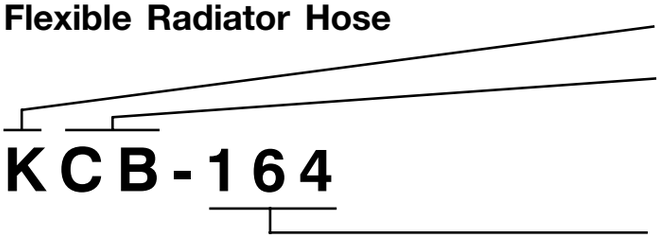

A = 13/32"	F = 24/32"	M = 19/32"
B = 15/32"	G = 28/32"	R = 17/32"
C = 16/32"	H = 8/32"	U = 11/32"
E = 22/32"	K = Rib Belt	

Designates the number of ribs on V-Ribbed Belts.

Three or four numbers designate total inches of the outside circumference of the Belt: 94-2/8". First two or three numbers "94" or "104" as whole inches, the third or fourth number "2" the remaining fractions of an inch expressed in eighths.

Designates special type of Belt. "L" indicates laminated-type. "C" would denote cog-type design for V-Belts.

Flexible Radiator Hose

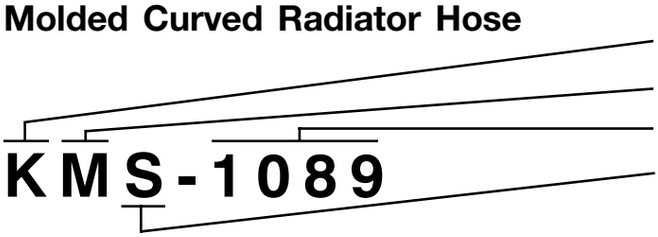

Indicates the hose line.

Indicates inside diameter. If one letter is used, diameter is same at both ends. Second letter indicates variable diameter at other end, except letter "R". "R" indicates 90° bend on one end.

A = 1-1/4"	C = 1-3/4"	E = 2-1/4"
B = 1-1/2"	D = 2"	G = 2-1/2"

First two numbers indicate full inches of hose length. Third number designates remaining fraction (expressed in eighths of an inch). Indicates flexible radiator hose is 16-4/8" in length.

Molded Curved Radiator Hose

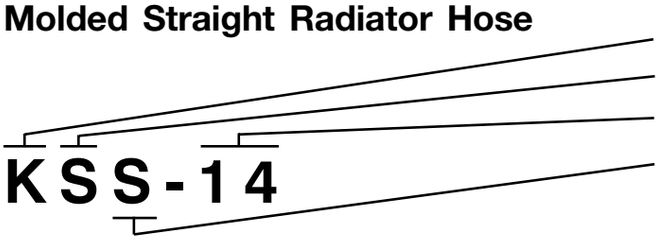

Indicates the hose line.

Indicates molded curved-type hose.

Denotes the specific Motorcraft molded curved hose.

Silicone

Molded Straight Radiator Hose

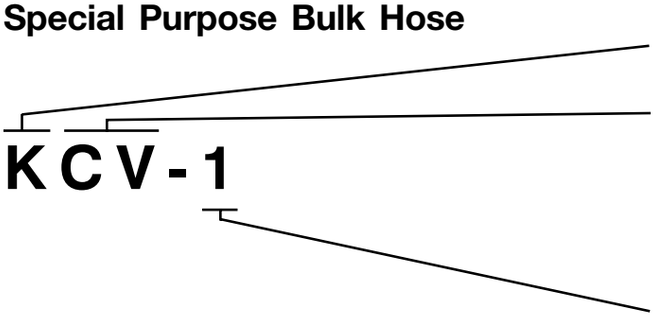

Indicates the hose line.

Indicates molded straight-type hose.

Denotes the specific Motorcraft molded straight hose.

Silicone

Special Purpose Bulk Hose

Indicates the hose line.

Indicates type of hose.

CV	=	PCV (Positive Crankcase Ventilation Hose)
DV	=	Distributor Vacuum Hose
FL	=	Fuel Line Hose
H	=	Heater Hose (including Heavy-Duty)
HM	=	Molded Heater Hose
K	=	Power Brake Hose
W	=	Windshield Wiper/Washer & Body Vacuum Hose
X	=	Motorcraft Big Bend

Indicates specific item

Motorcraft® Radiator Hose Features

Molded Curved Radiator Hose

Our shapes save you money, space and inventory. Motorcraft expanded Molded Curved Radiator Hose line offers wide coverage for passenger cars and trucks.

Pre-shaped molded hose promotes easy installation. EPDM rubber over braid construction resists swelling, cracking and splitting … adds to hose life.

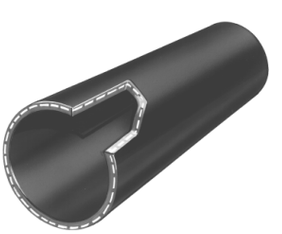

Overmolded Hoses

For hoses that need to branch into a “Y” or “T” shape, Motorcraft offers overmolded assemblies.

Bulk Length Radiator Hose

- A fabric-reinforced EPDM rubber coolant hose for use as a connection between the radiator and the block and other miscellaneous components in the engine cooling system.
- Provides high burst-strength and resistance to breaks and buckling at connections caused by vibration and engine movement.
- Maintains full-flow of coolant for engine protection.

Hose and Tube Assemblies

Hose and tube assemblies are being used to maintain cooling system integrity in today's complex engine compartment routings. A failure in the coolant system components can cause a premature engine failure.

Flexible Radiator Hose

With relatively few part numbers, Motorcraft offers the broadest practical coverage, saving inventory space and dollar investment. Flexible Radiator Hose is wire-reinforced to resist kinking or collapsing… and is permanently shaped after a comparatively few hours use.

- Flexible hose EPDM rubber, reinforced by steel coil insert, exceeds SAE standards for hydrostatic burst strength … helps maintain full section diameter for unrestricted flow of coolant.
- EPDM rubber material resists oil, grease, antifreeze and all approved coolant additives.

PART NO.	INSIDE DIAMETER	LENGTH
KS-5	1-1/2"	3'
KS-6	1-3/4"	3'
KS-7	2"	3'
KS-8	1-1/4"	3'
KS-9A	1-5/8"	3'
KS-17	2-3/4"	36"
KS-18	3"	36"

Special Purpose Hose Features

Distributor Vacuum Hose

- Top-Quality Hypalon synthetic rubber or nylon designed to meet high under-hood temperatures and provide excellent resistance to collapsing.
- Broad coverage for engine vacuum line.

PART NO.	INSIDE DIAMETER	LENGTH
KDV-1	7/64"	50'
KDV-2	5/32"	50'
KDV-3	7/32"	50'
KDV-7	11/32"	50'
KDV-8	3/32" (Nylon)	pkg. of 10

Power Brake Hose

- Constructed of high-strength, heavy-duty fabric inner liner reinforced with helical wound spring steel wire and covered by a rubberized square-woven fabric overlapped and securely cemented.
- Provides collapse-resistance at maximum brake system vacuum.
- Meets or exceeds state and federal requirements, including the Pennsylvania Statute.

PART NO.	USE	INSIDE DIAMETER	LENGTH
KK-6	Light Duty	15/32"	50'
KK-7	Light Duty	11/32"	50'
KK-9	Light Duty	1/4"	10'

Positive Crankcase Ventilation Hose

- Constructed of high-temperature, oil-resistant synthetic rubber tubing, reinforced with a fabric braid, heat and ozone resistant chloroprene cover.

- The synthetic rubber tubing is specially compounded to resist the damaging effects of gasoline or diesel fuel crankcase emission gases.

PART NO.	INSIDE DIAMETER	LENGTH
KCV-1	15/32"	25'
KCV-2	5/8"	25'
KCV-3	3/8"	25'

Fuel Line Hose

- Smooth bore tube construction of gasoline-resistant synthetic rubber.
- Reinforced with one-ply fabric and covered with an oil and ozone resistant synthetic coating.

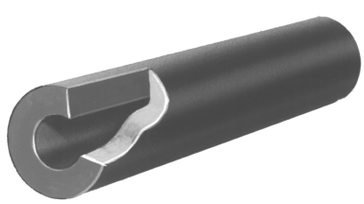

- Meets SAE or OEM specifications.

PART NO.	INSIDE DIAMETER	LENGTH
KFL-1A	3/8'	25' roll
KFL-2A	5/16"	25' roll
KFL-3	3/16"	25' roll
KFL-4A	1/4"	25' roll
KFL-5	1/2"	25' roll
KFL-6A	5/8"	25' roll
KLF-7A	3/4"	25' roll

Windshield Wiper/Washer Hose Body and Vacuum

- Constructed of EPDM synthetic rubber compound.
- Resists deterioration due to oil, ozone, washer solvents and high temperatures.

PART NO.	INSIDE DIAMETER	LENGTH
KW-5B	7/32"	50'
KW-6B	7/64"	50'
KW-7B	5/32"	50'
KW-8B	9/32"	50'
KW-9	1/4"	50'

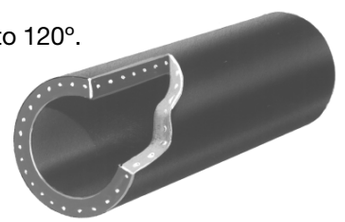

Special Purpose Hose Features (Cont'd.)

Motorcraft® QVM Heater Hose

- A premium quality high-pressure heater hose constructed from high temperature EPDM rubber and reinforced with “Nomex” or “Para” aramid fabric.
- Provides superior resistance to the damaging effects of ozone, coolants, heat, aging and under-the-hood chemicals.
- A long life hose specifically designed to combat the deteriorating effects of today's sustained under-the-hood high temperatures.
- The QUALITY choice hose for today's Ford original equipment manufacturing.

Standard Heater Hose

- A rayon fabric reinforced high-pressure heater hose constructed of EPDM rubber.
- Provides resistance to damage caused by coolants, antifreeze and additives.
- Resists deterioration resulting from heat, aging, ozone and under-the-hood chemicals.
- The standard original equipment heater hose in pre-1986 vehicles.
- For applications up to 120°.

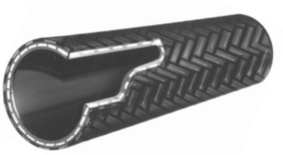

PART NO.	INSIDE DIAMETER	LENGTH
KH-5	1/2"	50' coil
KH-6	5/8"	50' coil
KH-7	3/4"	50' coil
KH-14	1"	50' coil

- The recommended service hose replacement for 1986 and later vehicles. A suggested upgrade for any vehicle that encounters sustained high engine temperature.

PART NO.	INSIDE DIAMETER	LENGTH
KH-16	5/8"	50' coil
KH-18	5/8"	250' coil

Heavy-Duty Heater Hose

- A premium quality EPDM synthetic heater hose constructed with two rayon braid reinforcing tubes.
- Provides resistance to the damaging effects of coolants, heat, ozone, aging and under-the-hood chemicals.
- Provides superior resistance to kinking and abrasion and has exceptional high pressure burst strength.
- Specially designed to deliver long life under heavy-duty, severe service operating conditions.

PART NO.	INSIDE DIAMETER	LENGTH
KH-9	3/8"	25' coil
KH-10	1/2"	25' coil
KH-11	5/8"	25' coil
KH-12	3/4"	25' coil
KH-13	1"	25' coil

Sell A Complete Cooling System Tune-Up Too!

You have many sales opportunities – don't just sell belts and hoses, sell your customers a complete Motorcraft Cooling System Tune-Up. Remember – when a belt or hose goes bad, other parts of the system may need replacing. Motorcraft provides a complete line of radiator caps, thermostats and water outlet gaskets … quality products that enhance customer satisfaction.

Radiator Hose

- Pre-shaped molded hose promotes easy installation, EPDM rubber over braid construction resists swelling, cracking and splitting … adds to hose life.
- Flexible hose EPDM rubber, reinforced by steel coil insert, exceeds SAE standards for hydrostatic burst strength … helps maintain full section diameter for unrestricted flow of coolant.
- EPDM rubber material resists oil, grease, antifreeze and all approved coolant additives.

Molded Curved Radiator Hose

Our Shapes Save You Money, Space And Inventory

Motorcraft's expanded Molded Curved Radiator Hose line offers wide coverage for passenger cars and trucks. Molded Curved Radiator Hose is constructed to high quality specifications and pre-shaped for easy, time saving installation.

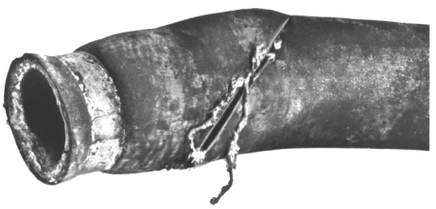

Silicone Reinforced Hose

For Heavy-Duty Truck Applications

The ideal solution for heavy-duty truck operators who desire premium cooling system components. The premium quality line of silicone-reinforced hose from Motorcraft. Built to the exacting performance and construction specifications of Ford Motor Company engineers. Built to withstand temperatures of up to 450°F and remain flexible down to -65°F. Truckers and fleet maintenance personnel who must have hoses that perform well within these tolerances will want to use Motorcraft silicone-reinforced hoses.

Quick Check
Cooling System Examination

Hoses

Chafed or burned areas on the hose may also cause a sudden and costly failure.

A hardened hose can fail at any moment. Tightening clamps will not necessarily seal the connection or stop leaks.

Swollen hose, and oil or coolant soaked ends indicate possible future failure. Squeeze the hose to locate cracks and breaks that could cause leaks.

Soft hose indicates possible deterioration inside the hose, resulting in contamination of the cooling system and causing particles to clog the radiator.

Remember ... **Show your customer the worn hose and let them know it takes only a short time to replace it with a new Motorcraft hose. Point out the potential trouble that could result if the worn item is not replaced. Assure them that you hope to spare them inconvenience and possible future major repair problems.**

Once your customer sees the worn hose and realizes you can replace it in minutes ... you will see how these products sell themselves.

Wire Splice Tool Kit

Part Number 164-R5903

Integrated Wire Splice Tool Kit for the maintenance and repair of electrical wiring harnesses.

Designed, engineered and recommended by Ford Motor Company

Wire Splice Tool Kit

Rotunda Part #: 164-R5903

Ford has identified through testing and engineering analysis the optimal repair procedure for solderless wire splicing.

In support of this new wire repair procedure, Ford is pleased to release to the field the new integrated Wire Splice Tool Kit. This unique kit was designed by Ford Engineering to provide all dealers access to all the approved application tools and components required to complete a repair that meets Ford Motor Company engineering specifications.

- 164-R5901 Ratchet Action Crimp Tool (3 crimp cavities)
- 164-R5902 Shielded Flameless Heat Gun with deflector, stand and spare orifice
- Assortment of 20 pcs. of 22-18, 20 pcs. of 16-14 and 15 pcs. of 12-10 AWG butt splices (55 pcs. in total)
- Adhesive-lined Heat Shrinkable Tubing - 2" cut pieces (55 pcs.)
- 1 each of WT-56814, WT-56815 and WT-56816 Motorcraft® Wire Splice/Shrink Tubing Package
- Metal carrying box with metal latch and a foam insert to protect and secure application tools
- Rotunda / Motorcraft® graphic labels
- Inside matrix label with illustration and replenishment part numbers
- Crimp/Heat Shrink Wire Splice Procedure Instruction Sheet
- Crimp Tool and Heat Gun Instruction Sheets
- Plastic storage containers for butt splices (3) and heat shrink tubing

To order call 1-800-ROTUNDA, Select Option # 2

Motorcraft® Wire Splice/Shrink Tubing Packages

- The new Motorcraft®wire splice/heat shrink packages are to be purchased as replenishment parts for the new ROTUNDA Wire Splice Tool Kit. They contain 5 uninsulated butt splices, 5 pieces of dual wall adhesived-lined heat shrink tubing and the new instruction sheet detailing the approved wire splice procedure as defined by Ford Motor Company.
- The package will construct five complete splice repairs and are available in three wire ranges:

Motorcraft® Part #:	Wire Range
WT-56814	22-18 AWG
WT-56815	16-14 AWG
WT-56816	12-10 AWG

Expanded wire gauge applications for these splices can be found in TSB 03-11-6

- Ford Engineering has determined that the combination of the crimped uninsulated butt splice insulated with a 2" piece of adhesive-lined heat shrink tubing has proven superior in terms of strength, durability, and corrosion resistance. When heated, the tubing shrinks and the adhesive lining melts and flows to form a rugged, environmentally sealed barrier against corrosion, and eliminating the potential deterioration and integrity of the vehicles electrical wiring harness.
- As separate components, these butt connectors and heat shrinkable tubings are known for their superior quality and performance. Combined, you can not achieve better results, and this is precisely why Ford Motor Company has chosen this combination for repairing wiring harnesses.
- Recommended Application Tools:
  164-R5901 Ford Approved Crimp Tool
  164-R5902 Shielded Flameless Heat Gun

Refer to Technical Service Bulletin Number 03-11-6
Wire Splice Procedure SK3U2J-14293-AA

Motorcraft® Part #: WT-56814

Replenishment package contains:
5 splices / 5 heat shrinkable tubing

•	.225"
Actual inside diameter	Actual inside diameter before shrinking
22-18 AWG	Insulate with ES-1

Motorcraft® Part #: WT-56815

Replenishment package contains:
5 splices / 5 heat shrinkable tubing

•	.225"
Actual inside diameter	Actual inside diameter before shrinking
16-14 AWG	Insulate with ES-1

Motorcraft® Part #: WT-56816

Replenishment package contains:
5 splices / 5 heat shrinkable tubing

●	.225"
Actual inside diameter	Actual inside diameter before shrinking
12-10 AWG	Insulate with ES-1

Chemicals and Lubricants

Recommended Chemicals and Lubricants

The following pages contain Motorcraft® Chemicals and Lubricants that are related to servicing the vehicle systems within this Catalog for the user's convenience.

Motorcraft® Chemicals & Lubricants have been specifically engineered to fulfill your automotive needs; they are custom designed to complement the style, function, and appearance of your vehicle. Each product is made from high quality materials that meet or exceed Ford Motor Company's rigid specifications. For best results, only use Ford Motor Company approved products.

Dealers and Ford Authorized Distributors Please Note:

The use of Ford or Motorcraft® brand parts or products is mandatory on all repair claims paid by Ford Motor Company unless otherwise specified in Emissions, Safety Recalls, Owner Notification Programs, TSBs or other Ford Motor Company publications. The cost of non-Ford/Motorcraft® products used for a warranty or ESP/ESC, or AWA repair without justifying their use, (i.e., emergency repair or National Out-of-Stock) is not reimbursable and is subject to chargeback.

Further information on these Chemicals & Lubricants, including the related Material Safety Data Sheets, can be found on the **http://www.FMCDealer.com** website by clicking on "Maintenance" section and then "Chemicals." The website is searchable by part number, MSDS number, or a direct on-line link to products organized by class. The site also contains regulatory information to health, safety, and the environment.

For Ford Authorized Distributors, the **http://FMCDealer.com/mcdistributor** website is another resource for Chemical & Lubricant product info as well as unique distributor benefits such as the Truckload Ordering Program**.**

Motorcraft

Chemicals and Lubricants

Premium Gold Engine Coolant

Features

- Yellow-colored, longer-life, ethylene glycol-based engine coolant for use in gasoline and diesel engines.
- Provides year-round antifreeze, anti-boil, and corrosion protection.
- A 50/50 mixture of coolant and distilled water provides freeze protection down to -34°F (-36°C) and boiling protection up to 265°F (129°C).
- Use only where specified. Do not use this product in systems originally equipped with any green-colored, conventional engine coolant such as Motorcraft Premium Engine Coolant, meeting Ford Specification ESE-M97B44-A, or with any orange-colored, extended-life engine coolant such as Motorcraft Specialty Orange Engine Coolant, meeting Ford Specification WSS-M97B44-D.

Specifications

Specialty Orange Engine Coolant

Features

- Orange-colored, ethylene glycol-based, extended-life coolant.
- For use only in Mercury Cougar and Ford Electric Vehicle (EV) Ranger, model years 1999-2002.
- Provides year-round antifreeze, anti-boil, and corrosion protection.
- A 50/50 mixture of coolant and distilled water provides freeze protection down to -34°F (-36°C) and boiling protection up to 265°F (129°C).
- Use only where specified. Do not use this product in systems originally equipped with any green-colored, conventional engine coolant such as Motorcraft Premium Engine Coolant, meeting Ford Specification ESE-M97B44-A, or with the yellow-colored, longer-life Motorcraft Premium Gold Engine Coolant, meeting Ford Specification WSS-M97B51-A1.
- Meets the requirements of WSS-M97B44-D, GM6277M, and ASTM D 3306-00a.
- Compatible with Dex-Cool® engine coolant.

Premium Engine Coolant

Features

- Green-colored, conventional, ethylene glycol-based, universal coolant formulation for use in gasoline and diesel engines.
- Approved for engines with aluminum radiators and/or aluminum heads as well as conventional engines.
- Provides year-round antifreeze, anti-boil, and corrosion protection.
- A 50/50 mixture of coolant and distilled water provides freeze protection down to -34°F (-36°C) and boiling protection up to 265°F (129°C.
- Do not use this coolant in cooling systems originally equipped with any orange colored, extended-life coolant such as Motorcraft Specialty Orange Engine Coolant, meeting Ford Specification WSS-M97B44-D, or with the yellow-colored, longer-life coolant, Motorcraft Premium Gold Engine Coolant, meeting Ford Specification WSS-M97B51-A.

Diesel Cooling System Additive

Features

- **Use only where specified**
  - Use in all heavy-duty, diesel engine cooling systems equipped with the green-colored Motorcraft Premium Engine Coolant meeting Ford Specification ESE-M97B44-A.
  - Use in heavy-duty trucks equipped with the Caterpillar 3126E engine and equipped with the yellow-colored Motorcraft Premium Gold Engine Coolant meeting Ford Specification WSS-M97B51-A1.
- Designed to replace additives depleted between cooling changeouts.

Specifications	
Part Number	VC-8
Specification Number	ESN-M99B169-A
Size	16 fl. oz.
Internal Reference Number	028397
Unit Pack	12 (case qty.)

Premium Cooling System Flush

Features

- New fast flush formulation – compatible with all coolant types and leaves no petroleum odor or residue.
- Use to flush engine cooling system whenever coolant is changed or repairs are required.
- Non-acid formulation does not require a neutralizer. Safe for aluminum water pumps.

Specifications	
Part Number	VC-1
Specification Number	ESR-M14P7-A
Size	22 fl. oz.
Internal Reference Number	166625
Unit Pack	12 (case qty.)

Motorcraft®

Chemicals and Lubricants

Power Steering Fluid

Features

- Recommended for all power steering pumps which require **Type F** fluid.

  NOTE: Type F should only be used for power steering systems built before 1996-1998. Check Owner's Guide for correct application.

Specifications

Part Number	F7AZ-3F823-AA (DOESII)	XL-8 (FAD)
Specification Number	ESW-M2C33-F	ESW-M2C33-F
Size	12 fl. oz.	12 fl. oz.
Internal Reference Number	148095	148095
Unit Pack	48 (case qty.)	48 (case qty.)

Premium Power Steering Fluid

Features

- Recommended for all power steering systems which require **MERCON®** fluid.

  NOTE: All power steering systems built after 1998 require the use of MERCON fluid.

Specifications

Part Number	F7AZ-3F823-BA (DOESII)	XL-9 (FAD)
Specification Number	MERCON®	MERCON®
Size	12 fl. oz.	12 fl. oz.
Internal Reference Number	173533	173533
Unit Pack	48 (case qty.)	48 (case qty.)

Ford Type "F" Automatic Transmission Fluid and Power Steering Fluid

Features

- Motorcraft® ATF Type F is designed, engineered, and recommended by Ford Motor Company. It is a high-static friction fluid developed for Ford automatic transmissions manufactured during the 1970s and earlier. The special frictional properties of Motorcraft® ATF Type F ensure proper shifting in Ford transmissions that require a fluid meeting ESW-M2C33-F. It is also recommended for power steering systems in a wide variety of Ford vehicles calling for a Type F fluid.
- Motorcraft® ATF Type F resists foaming and protects against rust, corrosion, wear, and deposits. Its low viscosity makes it suitable not only for Ford power steering units, but also as a hydrostatic drive fluid for many farm implements and certain industrial equipment applications.
- Motorcraft® ATF Type F should not be used in newer transmissions requiring MERCON®, MERCON® V, or MERCON® SP.
- Refer to the Motorcraft® ATF Type F specification sheet at www.motorcraft.com and www.fmcdealer.dealerconnection.com for additional information. For MSDS information call **1-800-448-2063.**

Specifications	
Part Number	XT-1-QF
Specifications Number	ESW-M2C33-F
Size	1 qt.
Internal Reference Number	148095
Unit Pack	12 (case qty.)

Motorcraft

Chemicals and Lubricants

Silicone Gasket and Sealant

Features

- Recommended for all engine RTV gasketing applications (except 7.3L Power Stroke® diesel engine).
- Form-in-place and multi-purpose adhesive/sealant.
- Room temperature curing silicone rubber.
- Does not release acetic acid during curing, non-corrosive.
- Does not harm O_2 sensors.
- Cartridge fits standard caulking gun.

Specifications	
Part Number	TA-30
Specifications Number	WSE-M4G323-A4
Size	5 fl. oz.
Internal Reference Number	139258/174272
Unit Pack	12 (case qty.)

Gasket Maker

Features

- Flexible, anaerobic gasketing material (Red).
- Use on rigid machined flanges with less than 0.010" (.0254 mm) gap.
- Seals upon assembly, no waiting required.
- Adheres well to aluminum, iron, steel and magnesium.
- May also be used on automatic/manual transaxle cases, gear shift housings, dipstick tubes, water pumps and engine flanges.

Specifications	
Part Number	TA-16
Specifications Number	WSK-M2G348-A5
Size	0.2 fl. oz.
Internal Reference Number	014716
Unit Pack	12 (case qty.)

Thread Sealant with PTFE

Features

- Instantly seals threaded fittings.
- Resistant to engine and transmission fluids.
- Lubricates bolts and studs.
- May also be used on fuel inlet fittings, hydraulic lines, water outlet plugs, rear axle fill plugs and transmission oil cooler lines.

Specifications	
Part Number	TA-24
Specifications Number	WSK-M2G350-A2
Size	.0.2 fl. oz.
Internal Reference Number	003737
Unit Pack	10 (case qty.)

Engine Shampoos

Features

- Cleans grease, oil and road dirt from engine and engine compartment prior to painting or performing engine repair.
- Concentrated, water-base formula may be applied using a sprayer. Use the handy aerosol can for individual components and small surface areas.
- Use to clean transmission housings, hydraulic equipment, enclosed electric motors, generator housings, gear casings, and hand tools.

Specifications	Engine Shampoo & Degreaser	Water Base Engine Shampoo
Part Number	ZC-20	ZC-7
Specification Number	ESR-M14P3-A	ESR-M14P3-A
Size	17.25 oz. aerosol	5 gal. Bag-in-Box
Internal Reference Number	130107/172983	046809
Unit Pack	12 (case qty.)	1
