WHO ARE WE?

Alliance Sports Group Headquarters
Grand Prairie, TX

The Alliance Sports Group Family

A common misconception about our business is that we are a distributor for different brands. When, in fact, we ARE all of the brands.

Alliance Sports Group owns a collection of brands that cover different corners of the consumer product market, ranging from handheld lighting and tools to firearm accessories and recreational outdoor equipment.

We believe in finding our niche and excelling in that arena, but we also see a need for our quality and innovation in other areas, which is how some of these other divisions have been birthed. From start to finish, we design, produce and ship all of our own products.

From start to finish, we design, produce and ship all of our own products.

WHY WE DO WHAT WE DO?

There are two different schools of thought in the consumer product sector:

1. Create a product and tell the consumer how much they want it.
2. Understand what the consumer needs and produce it for them.

We've chosen to take the latter approach. Here at ASG, we speak to over 8,000 of our customers daily. Monthly, we send out thousands of free samples of our product out into the marketplace. We understand that no one knows what our customers want more than our customers, and we strive to keep as much communication with our customers as possible. As a result, most of our products are what they are today because of the constructive feedback that we get from our customers.
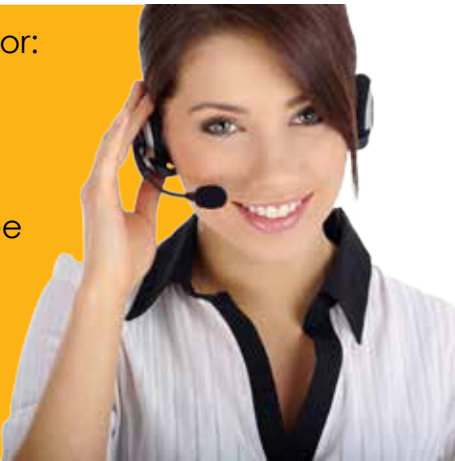

WHAT'S NEW!

4 HOT NEW PRODUCTS
BY NEBO®

Our new items keep getting better and better! We've got brand new additions to our Larry™ and REDLINE® series. Featuring an incredibly durable metal body, the **Larry Silver™** takes the lead with 100 intense lumens! The **Larry™ Camo** is ready for the great outdoors with this new look! Taking the innovation of the REDLINE® a step further is the **REDLINE® Select RC™**. This item features everything that you love about the REDLINE® series...and more! Our feature item for this catalog is the first of its kind, a hybrid if you will. The **SLYDE™** gets the best of both worlds with a powerful flashlight and ultra bright work light…all in one!

+ NEW TRUE UTILITY® TOOLS

We are proud to announce our newest line. True Utility® creates clever and original products that belong in people's pockets.

TRUE UTILITY®
…IN YOUR POCKET

THE BRITISH ARE COMING!

We are excited to welcome our newest division of Alliance Sports Group, True Utility® Pocket Tools.

Hailing from the UK, True Utility® has become the world's leader in creative, high-quality pocket products.

We hope that you enjoy this first wave of True Utility® products from our British invasion!

NEBO®

NEBO® is one of the world's best-selling lines of innovative, consumer-friendly flashlights and tools. Ever-changing and never compromising, we create and see our products through every phase of development. From the conceptual drawings on the sketch pad all the way to the end consumer, we offer quality and customer service guarantees that are unmatched.

NEBO® SLYDE

FLASHLIGHT & WORK LIGHT

Combining the best that NEBO® has to offer, the SLYDE™ features a powerful LED flashlight and COB work light all in one. At first glance, the SLYDE™ appears to be a simple, strong flashlight, emitting 250 lumens of intense white light…and it is! However, you will see the SLYDE™ is much more. The body of the SLYDE™ conceals a powerful 190 lumen work light. To reveal the COB work light, just SLYDE to open!

LIGHT
• High-power 250 lumen LED flashlight
• High-power 190 lumen COB work light

DESIGN
• Anodized aircraft-grade aluminum; water and impact-resistant
• Work light is concealed inside the flashlight body; just SLYDE to reveal
• Powerful magnetic base

OPERATION
• Side-positioned ON/OFF button with Soft Touch Technology

BATTERIES
• Powered by 4 AAA batteries (included)

C·O·B
LED CHIP TECHNOLOGY

190 LUMEN
COB Work Light ③

COB (Chips on Board)
A new innovation in LED technology. COB features smaller, easier clustered LED chips that are mounted directly to the circuit board. These LED chips work together as one lighting module. Because of the compact design, COB outperforms traditional lighting by up to 50 times the light output per centimeter of light surface.

Larry™2

12 LED WORK LIGHT & LASER

Larry™2 has a few more LEDs under his belt, which boosts his lumen output to 160! The Larry™2 also features a red laser pointer that emits from the top of the light. Being the essential handyman light, the Larry™2 still has some of the features that made the Larry™ so great: the 180° rotating magnetic clip, reinforced plastic body design and ergonomic grip. The Larry™2 is perfect for endless applications and is still convenient enough to slip into your pocket. More features...more lumens...same Larry™ style!

LIGHT
• 12 high-power LEDs output 160 lumens

OPTIMIZED OPTICS (O²)
The natural tendency of light is to disperse into infinite directions. We use optics to help us focus the light's intensity in one direction. The Optimized Optics bend the light closer toward the center of the beam. The result is a hotter, brighter spotlight with the lowest power consumption in its class.

HIGH-POWER TACTICAL LIGHT

The REDLINE® Select combines maximum performance with extreme convenience. 2950 LUX is maximum performance, but what is extreme convenience? The REDLINE® Select is named 'Select' for a reason. To improve functionality of the 5 lighting modes, a smart select dial has been added to quickly and conveniently choose your lighting mode while the light is on or off. This feature keeps you from having to cycle through each setting to get to the mode that you need. And, that...is extreme convenience.

NEBO®
REDLINE α

The REDLINE® OC™ outputs 600 LUX of pristine white light. 600 LUX is bright, but what makes the OC™ so special is the OC™ (Optimized Clarity) Technology. Coupled with the convex lens, the OC™ Technology creates optimized clarity with a perfectly dispersed beam of light while in flood mode. This sophisticated technology provides the intensity of a 600 LUX light that is easy on the eyes. The REDLINE® OC™...optimized clarity.

LIGHT
• High-power 600 LUX LED

DESIGN
• Anodized aircraft-grade aluminum; water and impact-resistant
• OC™ Technology
• Convex lens
• Tactical edge
• 6x adjustable beam
• Dual-direction belt/pocket clip
• Magnetic base

OPERATION
• Rear-positioned, glow-in-the-dark ON/OFF button with Soft Touch Technology

ACCESSORIES
• Lanyard included

BATTERIES
• Powered by 1 AA battery (included)

OPTIMIZED CLARITY

Eliminating inconsistencies in light, the OC™ (Optimized Clarity) Technology provides intense, clear, pristine light that is easy on the eyes. This technology allows the light beam to be as bright on the edge as it is in the center when used in flood mode.

NEBO® JAG™

The JAG™ was designed for concealed self-defense. Upon first glance the JAG™ has a very smooth bezel, yet when used for self-defense the spring-loaded PROTEC Shield™ retracts, exposing the mean, tactical edge. The bezel is smooth to the touch and the concealed tactical edge only protracts upon impact.

LIGHT
• High-power 210 lumen LED

DESIGN
• Anodized aircraft-grade aluminum; water and impact-resistant
• Concealed tactical edge with PROTEC™ Shield
• Steel belt/pocket clip

OPERATION
• Rear-positioned glow-in-the-dark ON/OFF button with Soft Touch Technology

BATTERIES
• Powered by 3 AAA batteries (included)

NEBO®
Ultra™ Socket

14-IN-1 MULTI-TOOL

The NEBO® 14-in-1 Ultra™ Socket comes with 7 screwdriver bits and 5 sockets conveniently stored inside the handle. The head of the Ultra™ Socket tilts a full 180° and locks at 0°, 45°, and 90°, working perfectly as a nut driver for those hard to reach places. The handle is ergonomically designed to add comfort and grip to improve performance. The Ultra™ Socket features a reversible ratchet mechanism making it easier to loosen or tighten any bolt. The 14-in-1 Ultra™ Socket meets and exceeds ANSI standards and is created to withstand more than the normal wear and tear.

DESIGN
- Head tilts and locks at 0°, 45° & 90°
- Reversible ratchet mechanism
- Water and impact-resistant
- Ergonomic reinforced plastic handle
- Socket adapter
- Sockets and bits stored inside handle

4 ACCESSORIES *Stored Inside Handle*

NEBO®
Ultra™ Socket

MULTI-TOOL

The NEBO® Ultra™ Socket Combination Kit comes with 19 sockets conveniently stored in SAE and Metric trays. The base of the Ultra™ Socket unscrews to reveal the stored screwdriver bits and magnetic ¼" bit holder. The head of the Ultra™ Socket tilts and locks at 0°, 45°, and 90°, working perfectly as a nut driver for those hard to reach places. The industrial strength ergonomic rubber handle design adds comfort and grip to improve performance. The Ultra™ Socket features a reversible ratchet mechanism making it easier to loosen or tighten any bolt. Exceeding ANSI standards, the Ultra™ Socket is created to withstand more than the normal wear and tear. Ultra™ Socket and components are all conveniently stored in a 600D Polyester carrying pouch.

DESIGN
- Head tilts and locks at 0°, 45° & 90°
- Reversible ratchet mechanism
- Water and impact-resistant
- Ergonomic rubber handle
- Magnetic 1/4" bit holder
- Screwdriver bits stored inside handle

ACCESSORIES
- 600D Polyester carrying pouch

MiniDriver

This little gem won't just look great on your key chain, but is very useful too. It cleverly contains 4 screwdriver heads - both small and large Phillips and flathead screwdrivers. Simply remove the quick release clip and slide a key or coin into the slotted end to add torque so you can undo/do up the toughest of screws. 3 bits are hidden in the shaft.

DESIGN
• Chromium plated steel
• Anti-slip grooves on main body for better control
• 4 screwdriver heads: standard and small Phillips, standard and small flathead screwdrivers
• Quick release CleverClip included

TinyTorch

The perfect key ring torch, with 2 powerful 5mm 'cat eyes' LEDs. Permanent ON/OFF button. Smooth bodied with knurled easy grip head and tail. Strong D-ring for attaching to your key ring.

LIGHT
• Two 5mm LEDs output 8+ lumens
• 50 hour run time

DESIGN
• Aircraft-grade aluminum
• Machine milled knurling for anti-slip grip

OPERATION
• ON/OFF push button

BATTERIES
• 3 button cell batteries included

iPROTEC™

With the same passion and energy that produces NEBO® lighting, comes a new approach to the firearm industry with iPROTEC™. Shooting enthusiasts around the world are enjoying our innovative firearm accessories that are designed to "light the way" toward more effective and safer firearm activities.

iPROTEC™ SERIES:

LONG RANGE SERIES - Developed specifically for long distance lighting, the O² BEAM™ was engineered with cutting-edge technology to outperform the best of the best.

LG SERIES - The LG Series was designed specifically for Long Guns (LG). Each item is equipped with a patented, universal long gun mount and pressure switch.

RM SERIES - RM (Rail-Mounted) Series features products designed for any rail-equipped firearm.

PROLIGHT™ SERIES - The PROLIGHT™ Series consists of our hand-held lights and flashlights designed for defensive, hunting and outdoor recreational use.

The O² Beam™ – Industry standard redefined.

OPTIMIZED OPTICS (O²)
The natural tendency of light is to disperse into infinite directions. We use optics to help us focus the light's intensity in one direction. The Optimized Optics bend the light closer toward the center of the beam. The result is a hotter, brighter spotlight with the lowest power consumption in its class.

BLOOD TRACKER

The Blood Tracker™ uses a high-power LED for the two lighting modes: white light, and green/red light. The mixture of green and red light creates an amber-like color. Amber light causes materials that are truly red, like blood, to stand out from materials that have red in them, allowing blood to be tracked more easily in heavily wooded and forested areas.

CHAMELEON

The Chameleon™ has a high-power, color-changing LED that outputs white, green and red light. Hard/Soft Touch Technology allows you to easily cycle through the four impressive light modes.

LIGHT
• High-power color-changing LED

DESIGN
• Anodized aircraft-grade aluminum; water and impact-resistant
• Convex lens
• 4x adjustable zoom
• Steel belt/pocket clip

LG
UNIVERSAL LONG GUN MOUNT

UNIVERSAL LONG GUN MOUNT

The LG Universal Long Gun Mount with Accessory Rail System is constructed of aircraft-grade anodized aluminum. This self-locking mount uses an adjustable mount design to easily mount and lock to your long gun, no tools required. The LG adjusts to fit shotguns, all rifles and most scopes. The clamp offers a 12.5 millimeter adjustment allowance. The barrel and flashlight portion of the clamp adjusts 20mm to 32.5mm. The side of the mount has an accessory rail mount to attach additional firearm accessories.

DESIGN
• Anodized aircraft-grade aluminum; water and impact-resistant
• Accessory rail system for mounting additional accessories (18mm x 24mm)
• Accommodates barrel and scope diameters from 20mm to 32.5mm
• Protective rubber inserts protect your gun and accessories when mounting
• No tools required

NEBO Sports

250 PSI AIR COMPRESSOR

AIR COMPRESSOR

The 250 PSI Air Compressor by NEBO® Sports is a 12V portable air compressor that can inflate a standard size bicycle tire in less than a minute! While designed for bicycle tires, this Air Compressor has the power to use on your vehicle as well. This compact, portable Air Compressor is a perfect addition to your trunk for when those inconvenient, yet inevitable flat tires occur.

DESIGN
- 250 PSI (Pounds per Square Inch)
- Inflates standards size bicycle tires in less than a minute
- 12V DC plug
- Easy-to-read PSI gauge
- 18" Air Hose
- 10' Power Cord
- Ergonomic thumb-lock lever

Essential Emergency Power Supply™

EMERGENCY POWER SUPPLY

The Essential Emergency Power Supply™ (EEPS) helps you be prepared! Whether enjoying the great outdoors or weathering the storm indoors, this multi-function backup power source has the means to keep you going. The EEPS features AC/DC plugs and USB ports to power TV's, computers, radios, cell phones, mp3 players, fans, lamps and much more. The EEPS features a bright 100 lumen flashlight. Surrounding the flashlight are 3 emergency red LEDs that will run 200 hours on a full charge.
Be prepared! EEPS gives you portable emergency power – Anytime You Need It!

LIGHT
- High-power 100 lumen LED
- 3 high-power emergency red LEDs

DESIGN
- 120V AC power outlet with AC adaptor
- 12V DC power outlet
- DC In with 2 DC adaptors
- Solar In (16V / 500mA)
- 5V USB outlet
- Jumper cables included
- Crank handle for wind up

ECOLANTERN™
RECHARGEABLE LANTERN

The ECO LANTERN™ is a portable, reliable energy-saving lantern with 24 super bright energy efficient white LEDs that guarantee continuous supreme illumination. Requiring no batteries, the ECO LANTERN™ charges with AC, DC, solar or wind up making it perfect for camping, fishing, hunting, boating, road trips, RVing, power outages, at home use, or any emergency situation.

LIGHT
• 24 high-power LEDs output 157 lumens

DESIGN
• Water and impact-resistant
• Uses 4 methods of recharging:
  AC, DC, solar & wind up
• Charging indicator changes from red to green when fully charged
• Folding carry handle
• Top and bottom reflectors
• Wire guard protects LED housing
• Crank handle for wind up

OPERATION
• Front-positioned ON/OFF button

ACCESSORIES
• AC and DC adaptors included

OIL LANTERN

OIL LANTERNS

The Oil Lantern captures a classic design and technology that has been around since 1850. This 12" high metal lantern has a wire-guard to protect the glass globe. The fuel tank is 12 oz., which provides 35 hours of burn time on a full tank. The Oil Lantern has a control to adjust the wick height and light output (2 wicks included.) This lantern can be used indoors to provide light during power outages, or to just add a warm glow to any room. Also perfect for outdoor use as well for camping, hunting or any outdoor recreational activity.

DESIGN
• Metal construction with wire-guarded glass globe
• Hanging hook
• 12oz. fuel capacity
• 35 hours of burn time
• Adjustable light output
• Uses kerosene, lamp oil or citronella oil ONLY
• Child-proof fuel tank cap
• Available in black and red

15 LED LANTERN

BATTERY LED LANTERN

This 15 LED Lantern is the perfect blend between classic design and modern technology. This 9" high metal lantern has a wire-guard to protect the glass globe. No kerosene, no lamp oil and no citronella…this 15 LED is completely battery operated (batteries not included.) To maintain the functionality of a traditional kerosene lantern, this 15 LED Lantern has a control to adjust the amount of light that is generated. A reflector is positioned above the LEDs to cast the light evenly in every direction. Perfect for indoor or outdoor use, this lantern generates over 96 hours of continuous bright light. The 15 LED Lantern, the traditional lantern look with efficient LED lighting!

DESIGN
• Metal construction with wire-guarded glass globe
• Hanging hook
• 25 lumens
• 96 hours of continuous light
• Adjustable light output
• Powered by 2 D batteries (not included)

OUTFITTER
XXL COT

CAMPING COT

Strongest in the market, the Outfitter XXL Cot holds up to 700 lbs. The rugged frame and durable fabric makes this cot perfect for any outdoor excursion.

DESIGN
• Durable 600D polyester fabric with double stitching
• Easy set-up
• Oversized sleeping area (85" x 40")
• X-Frame design with steel brackets and legs
• Heavy-duty rubber bushings absorb weight and add stability

ACCESSORIES
• Storage carry bag is custom designed to attach to the end of this cot. Carry bag has a drink holder, 2 mesh organizer bags, key ring holder, eyeglass pouch flashlight holder and a large zipper pocket.

WHY GREEN LIGHT?

The Quarrow® Submersible Fishing Light shines a bright green light directly into the water. The green light starts a natural food-chain reaction by attracting a concentration of small microscopic animals called plankton. Bait fish such as shad and minnows are drawn to the light to feed on the plankton and larger game fish move in to feed on the bait fish.

CUSTOM PRINTING & ENGRAVING

What's better than a NEBO® product?... One with your name on it! NEBO® offers custom screen printing and laser engraving services on most all products. Utilize NEBO® products to advertise your company or event!

ADVERTISE YOUR COMPANY WITH OUR PRODUCTS!

NEBO®

CUSTOM FAQs

Quantity Requirements
Custom printing orders must be a minimum of 100 pieces.

Lead time
Allow 15-20 business days for production time.

Shipping
All orders ship FOB Grand Prairie, TX. Prepaid DOES NOT apply for custom print orders.

Payment
Orders will not be released for printing until payment is received in full, via credit card or CIA.

Screen Printing Prices

- 100 – 499 pieces = Dealer price + $2.00 per unit
- 500 – 999 pieces = Dealer price + $1.50 per unit
- 1000 pieces and over = Dealer price + $1.00 per unit

Laser Engraving Prices

- 100 – 499 pieces = Dealer price + $2.50 per unit
- 500 – 999 pieces = Dealer price + $2.00 per unit
- 1000 pieces and over = Dealer price + $1.50 per unit

There's a one-time $35 fee, which includes the setup for either screen printing or laser engraving. This setup fee covers the logo/text printed in a single location on the product, using a single color. There's an additional charge for printing or laser engraving on multiple locations or printing in more than one color.

Contact Your Sales Rep or 800-255-6061 for Additional Information!

GAUGING LED PERFORMANCE

Measuring the brightness of light is not a very straight-forward task. Currently, the most common measure of brightness is the lumen rating. Lumens replaced the old wattage-rating system because modern lights consume far less power and are much brighter.

A single lumen is the measure of energy that's released from a light. Imagine putting a transparent bubble around a light bulb and being able to measure all of the energy that flows through the bubble –this is how lumens are measured.
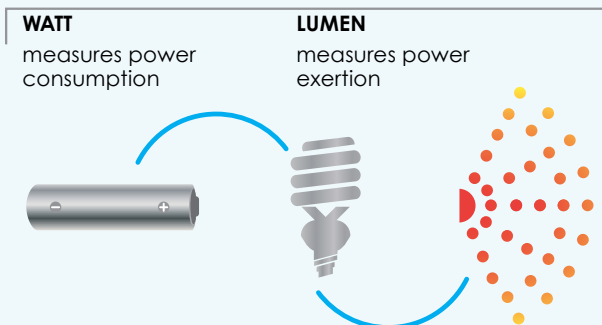

At NEBO®, we don't live in a bubble and we know that as lighting technology advances, so must the tools used to gauge the performance. Thus, many of our flashlights are now gauged by lux instead of lumens. Lux isn't a measurement of the amount of energy released — it's a measure of how much light is actually hitting your target.

We've recently introduced flashlights that have advanced optics designed to maximize energy efficiency by tightly focusing the beam of light. So you can light up the mystery across the field without wasting energy by lighting the ground at your feet.

At NEBO® we make flashlights that are designed to meet real-life applications and we use advanced engineering to create lighting products that conserve energy yet blast a powerful beam of light.

MEASURING POWER:

WATT
measures power consumption

LUMEN
measures power exertion

MEASURING BRIGHTNESS:

LUX
measures the amount of light hitting the target.

OPTICS
act like a turbo-charger to help maximize beam brightness.

LUMEN + OPTICS = LUX
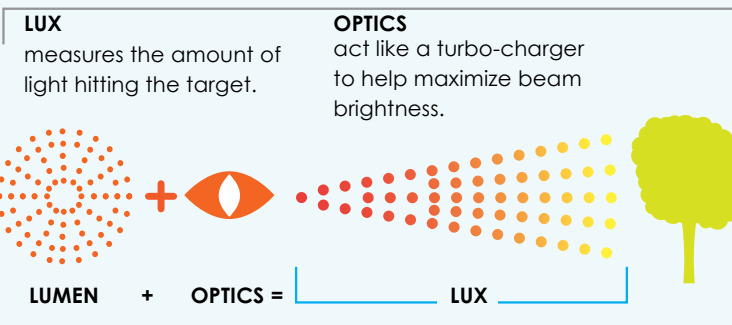

## RATING PERFORMANCE BY PRODUCT TYPE:

LANTERNS & WORK LIGHTS

These lighting products are designed to illuminate the area around — just like a household light bulb. Since light bulbs are rated in lumens, lantern output is rated using lumens.
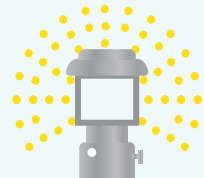

CLASSIC FLASHLIGHTS

Classic flashlights illuminate the area directly in front of us — mimicking a light-post fixture, so it's appropriate to also rate these products using lumens.
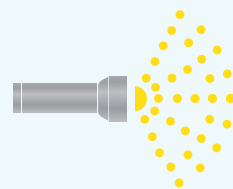

LONG-RANGE FLASHLIGHTS

These flashlights feature specialized optics with zoom capabilities that are designed to project an intense beam of light at a distance. Lumen ratings ignore the use of specialized optics and fail to provide a clear representation of beam distance or brightness. Lux on the other hand, measures the amount of light actually hitting the target.

FOCUSING THE INTENSITY

The natural tendency of light is to disperse. We use patented O² Technology™ to focus the light's intensity by bending it toward the center of the beam.

The result — a hotter, brighter spotlight with the lowest power consumption.

OPTIMIZED O² OPTICS

STANDARD BEAM DISTANCE

O² TECHNOLOGY™ DOUBLES THE BEAM DISTANCE

A BEAM OF LIGHT SO POWERFUL, YOU HAVE TO SEE TO BELIEVE!

High-Powered LEDs

These LEDs produce a more intense light that travels a further distance than cluster LEDs. Conversely, these also use more power than clusters do.

Cluster LEDs

These LEDs consume less power while still providing a bright light. They tend to produce a wide angle of light and are better used for short range lighting to illuminate your immediate area.

Adjustable Focus

The adjustable focus feature allows the user to change the focus of the light beam from a spot light (a sharply focused beam of light that illuminates more distant areas) to a flood light (a broad circular beam of light that illuminates larger, close-up areas.)

Convex Lens

The convex lens evenly distributes the light for a highly concentrated beam without dull or dark spots, as most traditional flashlights have.

Green LEDs

Because the human eye recognizes the color green faster than other colors, green light is used for map reading or signaling, especially in low light conditions. Also perfect for hunting as some game cannot see green light.

UV LEDs

These can reveal materials that are not seen through normal lighting and can be very useful in the following applications:

- Crime scene investigation to reveal certain bodily fluids
- Rodent and pet stain detection
- Document analysis and currency verification
- Gemstone verification
- Leak detection (i.e. Freon)

Red LEDs

Red light is primarily used to preserve night vision. Best used for low-light or nighttime situations, the low-signature red light provides great contrast making it easier to read charts and maps. Police and military units utilize the red LED for night operations because it will not interfere with night vision technology and cannot be seen by the human eye over long distances. Fire rescue units also use the red LED because it provides better visibility in smoky situations than white light.

Red Laser Pointer

Class IIIa lasers are used in all of our laser products. All red lasers have a maximum output of <5mW with a wavelength of 650nm +/- 10. Laser pointers work well in a variety of situations. Laser pointers can be used as a sighting tool for weapons, or more commonly used to point to an object that is out of reach.

Note: Directing laser at eyes can cause serious damage. (All laser pointers comply with 21 CFR 1040.10, 1040.11 & Ch. 1, Subchapter J)

Green Laser Pointer

Class IIIa lasers are used in all of our laser products. All green lasers have a maximum output of <5mW with a wavelength of 523nm. Green lasers are more sensitive to temperature, but they work better for day time applications. Note: Directing laser at eyes can cause serious damage. (All laser pointers comply with 21 CFR 1040.10, 1040.11 & Ch. 1, Subchapter J.)

Hands-Free Lighting

Hands-Free lighting allows the user to illuminate a desired area while maintaining the use of both hands. We use clips, straps and magnets to give hands-free options with some of our products.

Lighting Modes

Our advanced circuitry allows for variable brightness control and lighting flash sequence with a simple touch of a switch that regulates the lighting mode. By decreasing brightness you can extend the run time of the battery.

Defensive Strobe Lighting Mode

Perfect for signaling, the defensive strobe mode can also be used to disorient an attacker or animal by shining it at them. Please use with caution when doing this.

S.O.S. Lighting Mode

S.O.S. is the commonly used description for the international Morse Code distress signal. The code for S.O.S. is 3 short, 3 long and 3 short signals. The S.O.S. sequence will repeat until the setting is changed or the light is turned off.

Run Time

We give run time information for each of our products to help you understand how long each product will perform the way you need it to. We use energy efficient methods to ensure the longest run times.

FAQ
Frequently Asked Questions

Who is Alliance Sports Group?
Alliance Sports Group is the parent company of NEBO® Tools, NEBO® Sports, iPROTEC™ Firearm Accessories, Bollinger® Fitness, Solaire® TrimWear, WeatherRite® Outdoor, Quarrow® Fishing and most recently, True Utility®.

What does NEBO® mean?
NEBO is mentioned in the Bible as the burial site of Moses. There is an excellent view of "The Promised Land" from Mt. NEBO. NEBO is also a mountain in Utah near where NEBO® Tools originated.

Can I order online?
Yes. Go to nebotools.com to purchase products at retail or sign up to become a dealer. Credit card orders only.

Can I order less than a case pack?
Yes. Go to nebotools.com to purchase products in any quantity that you like at retail price.

Why does NEBO® offer countertop displays?
NEBO® products sell much faster in display packaging when it's placed on counters and end-caps because this allows customers to try the product before buying it.

Do you carry any product in clamshell packaging?
Most NEBO® products are also available in clamshell packaging.

Are batteries included in your products?
All flashlights, cap-lights, head lamps and multi-tools that require batteries have batteries included.

Are lasers safe and legal?
Lasers of all types are regulated by the FDA. All lasers used in NEBO® flashlights meet the required standards and have the appropriate warnings to avoid direct eye contact with any laser.

Are NEBO® products waterproof?
Some NEBO® products are waterproof, however most are water-resistant. Please see product details for further information.

Do your holsters fit all your flashlights?
These holsters fit all of our flashlights except the EDGE™ Series, LUMA™ / LUMIERE™ series, Larry™ & Larry™2 series, #5905 iPROTEC™ Pocket CHAMELEON™ and #5906 iPROTEC™ Blood Tracker™.

Which iPROTEC™ product will fit my gun?
The list of firearms is far too vast to know for sure. That is why we've designed our products to have a universal rail or barrel mount. The dimension specs for each of our iPROTEC™ items is listed on nebotools.com.

Customized products with your logo?
The minimum order quantity is 100 pieces for most items. Lead time is 21 days. Contact your NEBO® sales representative for pricing and for more details.

Does NEBO® offer a warranty for its products?
Yes, NEBO® stands behind its products with a 1 year limited manufacturer's warranty. Any item that does not perform properly due to a manufacturer's defect can be returned for a warranty replacement. Warranty does not cover normal wear and tear or batteries. Contact warranty@nebotools.net or 800.255.6061.

How do I get free freight?
First time orders receive free freight (not valid for online orders). Secondary orders exceeding $600 ($300 in Texas, Arkansas, Louisiana and Oklahoma) also receive free freight*. Alaska* and Hawaii* customers: ASG will pay freight to the furthest point within the 48 states, then customer is PPA from that point to final ship to location.

Do you accept credit card payments?
Yes. Visa, Mastercard, American Express and Discover

What are my payment terms?
Cash in Advance, NET 30 with approved ASG credit application

Where do I send my payment?
Alliance Sports Group, PO Box 203246, Dallas, TX 75320-3246

Who do I make the check payable to?
Alliance Sports Group

Do you send out monthly statements?
Yes, we send them out at the end of each month.

Can I get my invoices and statements emailed to me?
Yes. Just email a request to accounting@nebotools.net and your invoice/statement will be emailed back to you.

How will my order be shipped (UPS, FedEx, USPS)? How Long will it take to receive my order?
We use UPS, FedEx and USPS. After being processed,* all orders, unless otherwise specified, are shipped standard or ground service which takes approximately 3-5 business days. *Please allow 48-72 hours for order to be processed.

Will I be notified when my product ships?
Yes, a confirmation email will be sent to you when you place your order online. An email with tracking information gets sent out with all orders when they ship.

If an item is out of stock, do you back order the item or wait and ship the order complete?
We back order any items that are out of stock rather than waiting for the remaining items to come in stock.

What is your address for returns? Do you pay the return freight?
Alliance Sports Group, 3025 N. Great Southwest Parkway, Grand Prairie, TX 75050. ASG pays return freight when a Return Authorization has been issued by ASG.

How can I get a call tag/return an item?
Contact your sales rep or corporate office warranty@nebotools.net or 800.255.6061

What is NEBO's® MAP (Minimum Advertised Price) Policy?
The advertised price PLUS any shipping charges paid by the consumer must be within 10% of the Suggested Retail Price. We reserve the right to stop providing product to all sellers that do not comply. A full download-able version of the MAP Policy can be found at our website, ww.nebotools.com.
