To offer a comprehensive network infrastructure, SMP created a complete line of connectivity components to take guaranteed SMP performance from the equipment room to the desktop. As with all SMP products, performance is always the priority. Every SMP jack, whether our proprietary Bezel design or the standard Keystone version, are 100% tested to stringent performance standards and all are completely backward compatible to lower category performance levels. This attention to detail makes SMP's jacks and outlet solutions a clear answer to constructing the perfect structured cabling system, from telecom room to the desk.

SMP's workstation product line features a broad range of quality modular products to meet any structured cabling application. In addition to delivering unsurpassed performance and patented SMP technology, SMP's workstation solutions provide customers a durable aesthetic appeal to fit any desktop scenario. And in order to fit any setting, our workstation products offer the widest ranges of jacks, adapters, faceplates, surface-mount boxes, and station cords in a variety of colors and styles. Whether using SMP's unique Universal Modular (Bezel) components or the industry standard Keystone Modular design, SMP has the workstation solution that will give customers exceptional performance and flexibility to meet any desktop configuration.

UMJ Jacks and Adapters

SMP's Universal Modular Jack offers a unique locking bezel system that allows for easy port identification and labeling at the work center. This jack and bezel combination create a superior hold on the faceplate or box, making it virtually impossible to accidentally remove the jack. More than the aesthetic appeal and convenience the UMJ jack offers, it is designed to support emerging high performance platforms that exceed category specifications.

Category 6a Outlet Jacks

(See Copper Closet, page CC-6)

Category 6 Jacks

SMP's Axxess 6™ jacks are world-class performers with patented printed circuit board technology to provide true Category 6 component performance on all pair combinations. With a standard 110 style punch down termination, SMP's Category 6 UMJ style jacks are manufactured to comply with TIA component performance requirements and are ETL Verified to TIA/EIA 568-B.2-1 Cat 6 standards. Each UMJ Cat 6 jack utilizes universal T568A/B wiring and is backward compatible with Category 3, 5, and 5e.

- Meets IEC 60603-7 requirements
- 110 style IDC contacts meet TIA/EIA 568-B.2 requirements
- ETL Verified to TIA/EIA 568-B.2-1 Cat 6
- Backward compatible, Cat 3, 5, and 5e compliant
- Full 6-position, modular plug compatible with bezel
- Universal T568A/B wiring for easy installation
- TERMA Grip conductor & jacket retention for easy wiring
- Available with 20 labeling and color options
- Secure mounting locks jack into faceplate
- Fits all SMP Axxess™ faceplates and surface mount boxes

APPLICATIONS

- TIA/EIA 854 Gigabit Ethernet over Cat 6 Cabling
- 1000BASE-T Gigabit Ethernet
- 100BASE-TX Fast Ethernet
- 10BASE-T Ethernet
- Broadband Video
- 270 Mbps digital video
- 155/622 Mbps ATM
- 100 Mbps TP-PMD
- 100 VG-AnyLan
- 4/16 Mbps Token Ring
- Voice

Axxess 6™ UMJ Jacks

UMJA6	Axxess 6™ UMJ Category 6 Jack, Universal 568A/B wiring, no bezel
UMJA6xx	Axxess 6™ UMJ Category 6 Jack, Universal 568A/B wiring, colored bezel
UMJA650xx	Axxess 6™ UMJ Category 6 Jack, Universal 568A/B wiring, 50 pack

* Replace "xx" with color code – see color code chart on page WS-5

Category 5e Jacks

SMP's Axxess™ Category 5e Bezel jacks utilize SMP's patented PC Board technology to exceed the ANSI/TIA/EIA 568-B.2 category 5e requirements with headroom to spare. For a more cost effective solution, SMP also offers a Leadframe Bezel jack that utilizes SMP's

patented Leadframe technology. 110 style punch downs accommodate 22 AWG solid through 26 AWG solid and 24 AWG stranded conductors and each SMP jack offers universal T568A/B wiring and performance enhancements to exceed industry standards.

- 110 style IDC contacts meet TIA/EIA 568-B.2 requirements
- Backward compatible, Cat 3, and Cat 5 compliant
- Full 6-position, modular plug compatible with bezel
- Universal T568A/B wiring for easy installation
- TERMA Grip conductor & jacket retention for easy wiring
- Available with 20 labeling and color options
- Secure mounting locks jack into faceplate
- Fits all SMP Axxess™ faceplates and surface mount boxes

APPLICATIONS

UMJA5Exx	A5E™ UMJ Category 5e Jack, Universal 568A/B wiring, colored bezel
UMJA5E50xx	A5E™ UMJ Category 5e Jack, Universal 568A/B wiring, 50 pack
UMJVL8A/B	A5E™ UMJ Category 5e Leadframe Jack, Universal 568A/B wiring, no bezel
UMJVL8A/Bxx	A5E™ UMJ Category 5e Leadframe Jack, Universal 568A/B wiring, colored bezel
UMJVL8A/B50xx	A5E™ UMJ Category 5e Leadframe Jack, Universal 568A/B wiring, 50 pack

* Replace "xx" with color code – see color code chart on page WS-5

Category 3 Voice Grade Jacks

SMP's Category 3 Jacks offer customers SMP's patented Leadframe technology for a cost effective solution to voice grade systems. 110 style IDC connectors on back for 26, 24, and 22 AWG solid conductors, make SMP's Category 3 jacks easy to install and offer unmatched

performance. Add the locking color/icon bezel to provide distinctive jack identification.

- 110 style IDC contacts
- TERMA Grip conductor & jacket retention for easy wiring
- Available with 20 labeling and color options

- Secure mounting locks jack into faceplate
- Fits all SMP Axxess™ faceplates and surface mount boxes

Axxess™ UMJ Category 3 Jacks

Bezels

Whether ordering kitted or separate for field installations, SMP's unique bezel system offers an easy and affordable alternative for desktop port identification. Bezels may be ordered blank or labeled and with a multitude of colors to choose from. The flexibility and variety of combinations for workstation labeling are endless.

- 12 different color and 4 labeling options
- Standard package of bezel is 20 per bag
- Can be easily customized or kitted with jacks/adapters for special orders
- Available for 6 or 8 position plugs
- Locks the jack or adapter into the faceplate
- Shuttered bezels available for dust protection

Axxess™ UMJ Bezels

B E		-		-	Optional	Optional

KMJ Jacks and Adapters

As an alternative to SMP's unique UMJ jacks and adapters, SMP has created a Keystone product line to meet the demands of industry standard installations. SMP's Keystone jacks may have been designed to keep pace with standard installations, but in keeping with the SMP guarantee of excellence, every KMJ jack was created with SMP's superior performance in mind. Each Keystone Modular Jack is component compliant to Category 3, Category 5e, and Category 6 standards and exceeds their respective category specifications. All KMJ jacks offer universal T568A/B wiring and 110 style punch downs for easy installations, making SMP's KMJ product line a guaranteed connection.

Category 6a Outlet Jacks

(See in Copper Closet section 2-6)

Category 6 Jacks

SMP's KMJ jacks offer the same great printed circuit board technology that the UMJ jacks do to provide best-in-class Category 6 component performance. With standard 110 style terminations, SMP's Category 6 KMJ jacks are ETL verified to TIA/EIA 568-B.2-1 Category 6 specifications and are backward compatible to Category 3.

- ETL Verified to TIA/EIA 568-B.2-1 Cat 6
- Category 6 component compliant
- Mounting flexibility
- Large, easy to read color code labels
- Universal T568A/B wiring for easy installation
- Long term application confidence
- Compliant with power over Ethernet requirements
- Backward compatible, Cat 3, 5, & 5e compliant
- TERMA Grip conductor and jacket retention for easy wiring
- Fits all SMP Keystone faceplates and surface mount boxes

APPLICATIONS

- TIA/EIA 854 Gigabit Ethernet over Cat 6 Cabling
- 1000BASE-T Gigabit Ethernet
- 100BASE-TX Fast Ethernet
- 10BASE-T Ethernet
- Broadband Video
- 270 Mbps digital video
- 155/622 Mbps ATM
- 100 Mbps TP-PMD
- 100 VG-AnyLan
- 4 / 16 Mbps Token Ring
- Voice

KMJA602S	KMJ Category 6 shielded jack, slimline, Universal 568A/B wiring

* Replace "xx" with color code – see color code chart on page WS-11

WORKSTATION

WS-11

Category 5e Jacks

The SMP Category 5e Keystone Modular Jack is a great alternative for high-density applications. Featuring a lower profile and a snap-in design, the KMJ Category 5e jacks by SMP offer exceptional performance that exceeds industry standards. Offering Universal T568A/B wiring and component compliance to Cat 5e specifications, these Keystone jacks may be

ordered with SMP's patented PC board technology or in a leadframe configuration for cost effective solutions.

- 110 style IDC contacts meet TIA/EIA 568-B.2 requirements
- Backward compatible, Cat 3, and Cat 5 compliant
- Universal T568A/B wiring for easy installation
- TERMA Grip conductor & jacket retention for easy wiring
- Available in 12 color options
- Fits all SMP Keystone faceplates and surface mount boxes

APPLICATIONS

- 1000BASE-T Gigabit Ethernet
- 100BASE-TX Fast Ethernet
- 10BASE-T Ethernet
- Broadband Video
- 270 Mbps digital video
- 155 / 622 Mbps ATM
- 100 Mbps TP-PMD
- 4 / 16 Mbps Token Ring

Wall Plates & Connectors

For standard voice grade applications, SMP has developed a durable and practical solution that meets any residential or commercial protocol. Featuring SMP's superior performance jacks, the SMP wall plate is guaranteed to be ideal for any single jack application.

- Available in Stainless Steel or fire retardant Plastic
- Easily mounts on any wall
- Mounting screws provided

SMP Standard Commercial/Residential Wall plate

Catalog Number	Description
WP07	Plastic wall plate, 6 position, USOC jack, 1 port, White
WPSS	Stainless Steel wall plate, 6 position, USOC jack, 1 port
WP-5E-SS	Stainless Steel wall plate, Category 5e jack, 1 port
WP-A6-SS	Stainless Steel wall plate, Category 6 jack, 1 port

For applications requiring both voice grade and coaxial access, SMP created a line of smooth standard-size flush mount plates with jacks and/or f-connectors in a single-gang format. All of these wall plates install easily into standard electrical boxes and offer 110 style terminations for easy installations.
