## LED Lamps

Evergreen OUTDOOR
Product Brand

LED Now Available!

LED lamps (light-emitting diode) are an economical replacement option for existing incandescent, halogen and fluorescent lamp applications. **Look for the LED MR-16 lamp icon throughout the lighting sections** where units that can be field retrofitted to this energy saving option.

Orbit LED lamps are Durable and shock resistant. They have been engineered to provide up to estimated 50,000 hours of illumination! Recent advancements in color rendition have improved this light source to compete with more traditional lighting options such as incandescent lamps

Orbit LED lamps run longer, cooler and most importantly save the end user up to 85% in energy costs when compared to incandescent equivalents. Orbit LED lamps have been engineered to retrofit most existing MR-16 light fixtures.

Orbit LED T-8 retrofit units are completely self contained and designed to run directly from either a 120 or 277vac source. Existing ballast is bypassed at time of fixture retrofit.

Landscape Lighting

Orbit LED Lamp advantages:

- High efficiency
- Long life span
- Low heat output prevents socket failure
- No maintenance or service required
- Low energy consumption
- Environmentally friendly
- More LED MR-16 lamps can be installed on a low voltage lighting circuit
- Voltage Drop is virtually eliminated

HOMEOWNER SERIES

Multi-Tap Output
With Plug-In Cord

Cat No.	Feature	Material	Wattage	Dimension (HxWxD)
TR-300-BK	Can be used with Remote Timer	Black Metal	300W	11" x 4.25" x 3.75"
TR-600-BK	Can be used with Remote Timer	Black Metal	600W	11" x 4.25" x 3.75"
TR-900-BK	Can be used with Remote Timer	Black Metal	900W	19" x 6" x 5.5"

Features
- Hard Wire
- 12V-13V-14V-15V Multi-Tap
- Resin Sealed Toroid Core runs 75°F cooler
- Large wiring compartment, hard wire or cored set included
- Remote timer option available
- Auto resettable primary overload protection on 120V side
- Secondary circuit protection prevents overloads on 12V side
- 25A, 300W circuits
- 10 year warranty
- UL Listed (1838 and CSA)

TR-1200-1215-SS	Stainless Steel	12, 13, 14, & 15V	1200W	19" x 6" x 5.5"

Features
• 12V~15V output choices allow greater distances than conventional 12V transformers
• Resin Sealed Toroid Core runs 75°F cooler
• Stainless Steel Housing
• 50% lighter than conventional transformers
• Fully Loadable
• Extra large terminal lugs for extreme flexibility
• Quiet and 8%-10% more efficient
• Primary and secondary protection
• 25-Amp, 300W MAG breaker circuit protection
• Pluggable timer and photo cell option
• On / Off Switch and Dimmable
• X10/Jancy Compatible
• Dedicated wire testing loop
• Pool and Pond Rated
• Lifetime warranty
• UL Listed (1838, General Purpose 12V~15V)
