Dibujos técnicos	82

Líder mundial en productos de fricción para vehículos comerciales, de pasajeros, camiones ligeros, aplicaciones industriales, ferrocarril, motocicletas y vehículos de competencia para Equipo Original (EO), Equipo Original de Servicio (EOS) y mercado de Repuesto (AM). Nuestra cartera de productos incluye balata para freno de disco y balata para freno de tambor para vehículos comerciales, turismo y autos de carreras, así como discos, tambores y sensores.

La amplia experiencia de TMD FRICTION en productos de fricción se ve reflejada en nuestras distintas marcas: PAGID, TEXTAR, MINTEX, COBREQ, DON Y COSID, a través de las cuales proporcionamos a nuestros diferentes tipos de clientes una amplia gama de unidades de repuesto, así como de los componentes y accesorios asociados.

Nuestro negocio ha sido estructurado para responder a los retos y las oportunidades del mercado, con operaciones globales que nos permiten apoyar a nuestros clientes y satisfacer la creciente demanda de los mercados emergentes.

TMD FRICTION cuenta con trece plantas productivas en once países en tres continentes, los cuales se complementan con tres centros de Investigación y Desarrollo (I&D) en Leverkusen (Alemania), Troy (EE.UU) e Indaiatuba (Brasil).

Adicionalmente, TMD FRICTION está invirtiendo en centros de I&D para Japón y China.

A través de los años y de una filosofía de la calidad y rendimiento, PAGID ha logrado posicionarse como una de las mejores opciones en productos de fricción para los fabricantes de vehículos a nivel mundial.

PAGID es líder en materia de fricción en el mercado de Equipo Original y de Refacciones con más de 1000 pastillas para frenos para vehículos ligeros, diseñadas específicamente para satisfacer las necesidades de frenado en los distintos vehículos, sistemas de frenado y exigencias al freno.

PAGID es una de las mejores opciones en el mercado, siendo la balata más segura, gracias a que provee un mayor poder de frenado a una menor distancia.

Con el deseo de perfección y nuestro compromiso con el desarrollo de productos que proporcionen la mayor seguridad, PAGID sigue trabajando día a día en la innovación constante de productos, fortaleciendo aun más nuestra posición actual en relación con nuestra competencia dentro del mercado de Equipo Original y de Refacciones; razón por la cual dedicamos mayores recursos al desarrollo e investigación de nuevos productos y materiales.

Además de preocuparnos por la calidad de nuestros productos, PAGID excede los parámetros de la reglamentación ECE-R90, la cual es requerimiento indispensable para comercializar productos en el mercado más exigente a nivel mundial, el Europeo.

Nuestro portafolio de productos es fabricado en Europa bajo tecnología vanguardista de origen Alemán.

Componentes de las balatas PAGID

1. Material de fricción.

Diseñado y desarrollado para ofrecer el mejor frenado en distancias más cortas con formulaciones low-met.

2. Revestimiento pulverizado.

Aplicado a la parte trasera del soporte metálico, proporcionando un acabado limpio y duradero, que a su vez, protege de la corrosión.

3. Marcado en tinta y R90.

Número de parte, formulación y certificación ECE-R90 impreso en el soporte metálico que permite una fácil y duradera identificación del producto.

4. Muelle de anclaje / Clip.

Algunas pastillas incluyen clips idénticos a los utilizados en Equipo Original para una correcta y fácil instalación de la balata en el caliper.

5. Ranura y chaflán.

Siguiendo la especificación de Equipo Original, se utiliza para reducir el ruido y la vibración de algunos sistemas de freno.

6. Soporte metálico.

De alta resistencia, en corte fino de precisión y quintado PAGID con su respectiva formulación.

7. Laina antiruido.

Fabricadas con materiales que evitan vibraciones del sistema de frenos.

USO DEL CATÁLOGO

- Identificación de la Marca A
- Identificación del vehículo, modelo y año B
- Identificación del número PAGID C
- Identificación del número FMSI / WVA D
- Identificación de posición de la balata eje delantero o trasero E
D (Delantero) T (Trasero)
- Identificación de la página con el diagrama correspondiente F
