2011-2012 PlasmaGlow Catalog

PlasmaGlow Lighting Evolved

Welcome to PlasmaGlow

We would like to thank all of our dealers, distributors, and customers for making 2010 another amazing year! With your continued support, we have been able to expand our product line considerably and maintain our position as the leader of the automotive lighting industry. While the economy has been unpredictable, our product line has been growing fast and strong with the support of our dealers and customers. In 2008 we built our brand new corporate headquarters in Gilbert, AZ. This state-of-the-art facility will allow us to fuel continued growth and meet our dealers needs.

As a leader in the automotive industry, PlasmaGlow has been featured by Electronic Arts in past Need For Speed games for PlayStation2, PlayStation 3, PSP, Nintendo GameCube, GameBoy Advance, Nintendo DS, Xbox, Xbox 360, and PC. We are proud to announce that in 2007, PlasmaGlow has again been featured in the new Need For Speed Carbon for Nintendo Wii.

For those of you who are new to us, we are excited to welcome you to our team. PlasmaGlow will always have the hottest new products, because the development of new technologies is our highest priority. Our quality and innovation are unmatched, and our competitors prove this by continually trailing behind and imitating our products year after year. We were the first company in the world to develop color-changing LED systems for automotive use, and we are always working on new products to maintain our position as the innovators of the lighting industry.

We strive to maintain quality in our cutting edge products and our confidence can be seen in our unparalleled product warranties. No one can match our No-Hassle Lifetime Warranty on LED Products, and our 10-Year Warranty on all Head-light and Accessory Bulbs. Once again we would like to thank our dealers, distributors, and customers for their continued loyalty and support through the 2010 year, and we anticipate that with your help, 2011 will be even better!

AFTERBURNER MIRROR KIT

PlasmaGlow's newest addition to the Flexible LED line brings a high-end factory option to any vehicle with the Afterburner LED Mirror Kit. This kit includes 2 strips that fit any side-mirror housing. These self-adhesive strips require no alteration of your mirror housing and once installed, they are virtually invisible when they're not on. Simple 2-wire hookup ensures compatibility with any existing lighting in the mirrors, or custom wire them for totally universal application. As with all of our flexible LED products, fitment is not an issue since they can be trimmed to any size.

Wire into Turn Signals or Running Lights

- > No Tools Needed to Mount
- > Fits Any Mirror Housing
- > 100% Water Resistant
- > Trim to Any Size

LIGHTNING EYES

FLEXIBLE LED HEADLIGHT ACCENT KIT

PlasmaGlow Lighting Eyes are the hottest way to give your vehicle the unique look you are after. This slim flexible strip is specifically designed to bring the popular new style of LED running lights found on high-end Audi vehicles to your car. These unique LED Strips shine at an angle 90 degrees off the surface, so they can be mounted in thin places and the light will show out the side.

When mounted under your headlight, this thin flexible strip is invisible while it is turned off, but features extremely bright LEDs when your vehicle is on. The 19 inch strips can be cut to length to fit any headlight housing perfectly. They are simply mounted with super thin 3M adhesive and can also be used on door panels and gauge clusters. At less than 1/16" Thin, they can fit anywhere.

> New for 2011

LED THUNDER GRILLE KIT

The PlasmaGlow ThunderGrille LED Kit will give your grille the custom look it needs to stand out from the crowd. The ultra-thin LED Strips mount in any grille with the included mounting hardware. You can wire it in with the included switch, or into your running lights so it turns on automatically with your vehicle. It is a simple 2-wire hookup that anyone can do with the detailed instructions in the box.

The included strips are each 10 inches (25cm) long, flexible, and 100% waterproof. Everything you need is in the box (LED Strips, several mounting methods, wiring and switch).

12" Mini Tailgate Bar

20

>

Part Number 10515

As a compliment to our popular Fire and Ice signal kit line, this 12 Inch LED bar fits any and all trucks, offering a look that is a little bit more subtle than our full-sized truck bars. This bar is self-mounting, requiring no drilling. The Fire and Ice 12 Inch Mini-Bar plugs directly into your 4-pin trailer connector. Though smaller in size, this Mini-Bar sports big features and displays running lights, brake lights, turn signals and reverse lights using ultra-bright LEDs that never burn out and light up 100 times faster than traditional bulbs adding safety and style. Includes Lifetime Warranty.

- > Brake Lights / Running Lights
- > Turn Signals
- > Reverse Lights
- > Fits all Trucks
- > Lifetime Warranty

> Brake / Running Light

> Left Turn Signal

> Right Turn Signal

> Reverse Lights

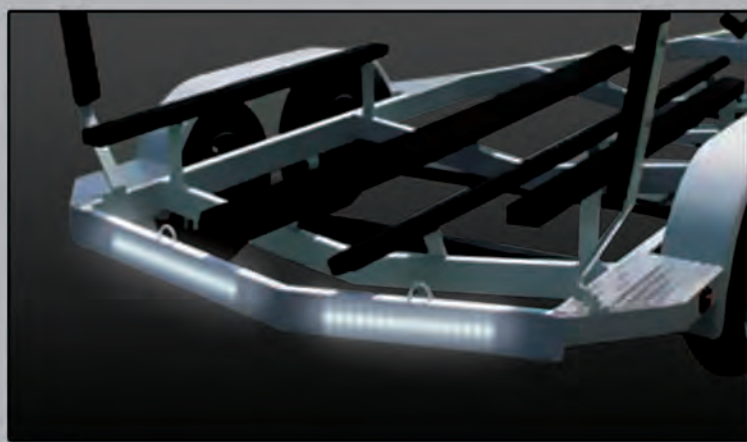

Trailer Fire & Ice LED Bar

21

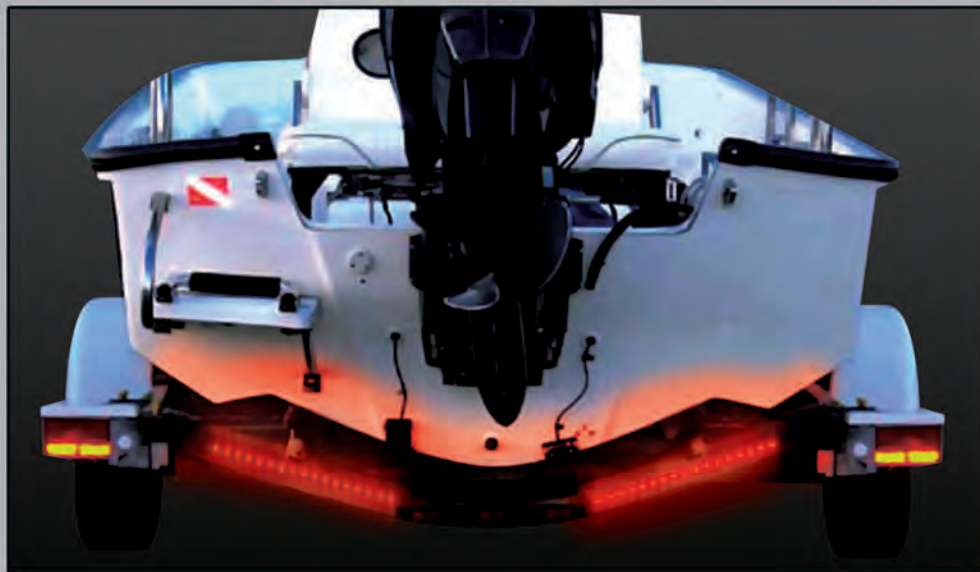

PlasmaGlow 1-877-878-4569 www.plasmaglow.com

Part Number 10446

- > Includes Two 24" LED Bars
- > Running Lights / Brake Lights
- > Turn Signals
- > Reverse Lights
- > 100% Waterproof LED Bars
- > Attaches Magnetically - No Screws
- > 4-Pin Trailer Hitch Adapter Included

> Reverse Lights

> Brake Lights / Running Lights / Turn Signals

The newest addition to our Fire & Ice Line is our LED Boat Trailer Kit. It is a 2-Bar Kit designed to fit any trailer. The kit features Running Lights, Brake Lights, Turn Signals, and Reverse Lights. The LED Tubes are 100% waterproof so you are safe to submerge your trailer, and they attach to your trailer with high-power magnets so there is no drilling or adhesives required. A 4-Pin Trailer Hitch Adapter is included, so your kit can easily integrate with your truck's electrical system. If you do not have a 4-pin plug on your truck, hard-wiring instructions are included, or adapters are widely available at any auto parts store. The Fire & Ice LED Trailer Kit is backed with a Lifetime Warranty.

Part Number 10443

Amber Turn Signals

White Reverse Lights

Red Brake Lights

- > LEDs Project your Signals onto the Street
- > Street Legal Colors
Amber on Sides,
Red/White on Back
- > Universal Kit Fits all
Cars / Trucks / SUVs
- > Lifetime Warranty

The Afterburner Ground Signal Kit utilizes the street you are driving on for Turn, Brake and Reverse signals. This innovative kit (an industry first) casts a blinking amber glow on either side of your vehicle in time with your turn signals. The Afterburner also emits a red glow on the street at the rear of your car for brake lights, as well as a white glow to indicate that your vehicle is in reverse.

Take your vehicle to the next level of style and kick in with the Afterburner! The Afterburner casts a glow on the street around your car as a supplement to your factory installed turn signals, while remaining completely hidden; invisible when you're not using them. This makes them perfect for custom applications and show cars or any vehicle that needs an extra touch to make it stand out from the crowd.

10394 Purple | 10396 Pink | 10398 Orange

Part Numbers for 48" Compact Truck:

10380 Blue | 10381 Red | 10382 Green | 10383 Yellow
10384 Purple | 10386 Pink | 10388 Orange

HotLinez LED Tailgate Bars are the hottest addition to any truck. This LED Light Bar features 60 LEDs that act as a Brake Light, Turn Signals, Running Lights, & Hazards. It works with your existing truck's signal system for simple installation by plugging it into your trailer-hitch adapter. If you do not have a trailer-hitch adapter, instructions are included to hard-wire it. 3M Self-Adhesive Pads mount the LED Brake Light below your tailgate so the bar itself is not visible, only the light emitting from it.

PlasmaGlow Platinum Crystal bulbs are specifically engineered to reproduce the brightness and clarity of H.I.D. systems found on new luxury cars. PlasmaGlow Platinum bulbs also reduce eyestrain and greatly increase safety beyond conventional halogen bulbs. If you want the ultimate in performance for your headlights, Platinum Crystal White Bulbs are for you! They can be installed in about 10 minutes and do not require any additional upgrades or modifications to your vehicle!

LED 5202 Fog Light Bulbs

PlasmaGlow 1-877-878-4569 www.plasmaglow.com

White - 5202LED-WH
Amber - 5202LED-AM

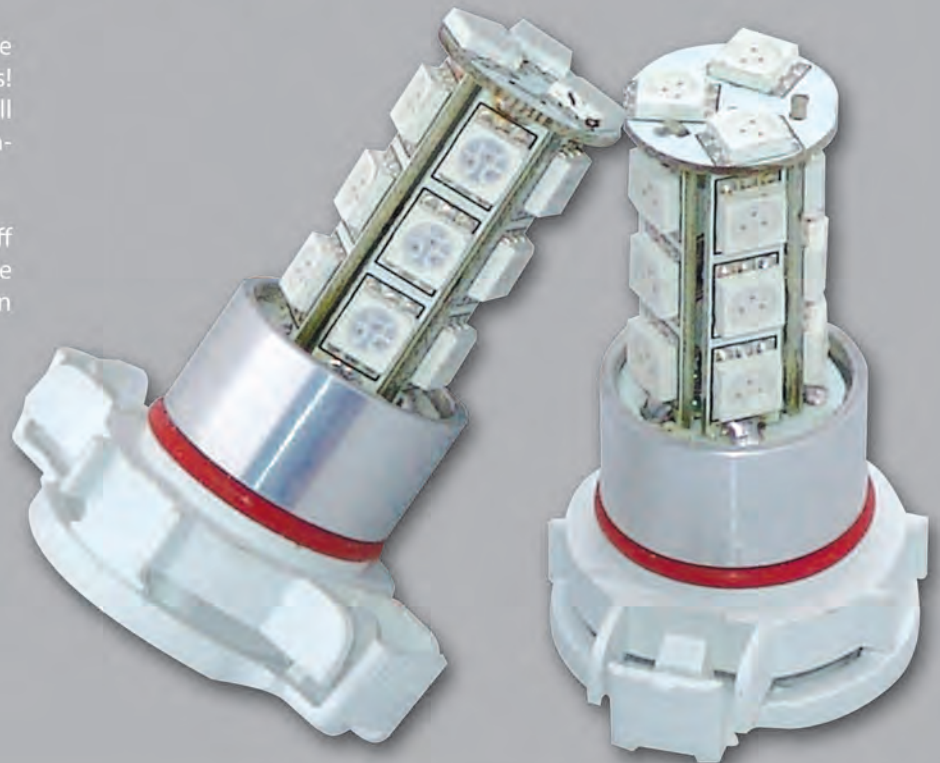

LED 5202 BULBS

Recent innovations in LED technology have allowed us to create the first LED bulbs bright enough for use in your stock foglight housings! Their simple plug and play design allows for instant installs, just pull out the stock bulbs and these will snap in their place with no alterations or tools needed.

The advantages of LED over other bulb types is clear: faster on/off time, crisp color, less heat and less power needed. These bulbs are direct replacements for ANY 5202 bulb in any vehicle and come in White or Amber LED.

Available in White or Amber

- > Replaces ANY 5202 Bulb

Heads Up Display

50

>

Part Number 10375

> Projects Your Tach On Your Windshield

> Analog RPM Graph

> Digital RPM Readout

> Red Pop-Up Shift Indicator

Shifting lights give you the edge in competition racing, but big bulky gauges and shift lights can block your view of the road. The race-inspired PlasmaGlow Digital Heads Up Display will project your RPM's in both digital numbers and an analog bar for at-a-glance readings.

The HUD will project on your windshield in white, and when you reach the desired shift point, the display turns red and a Shift Box pops up on your windshield.

Works with any 4, 6, or 8 Cylinder Vehicle. Does not work with diesel engines. One-Year Warranty.

SuperNova 4.2M Color LED Kit

51

PlasmaGlow 1-877-878-4569 www.plasmaglow.com

The color of your kit and the 15 digital modes can be changed with the tap of your finger on the included Controller. Single Color Kits feature Solid On Mode only.

The universal car kit fits all golf carts and includes 4 LED Tubes, a Digital Control Box, a mountable LCD Touch Screen Controller and Display, and all installation hardware.

Optional accessories include a Wireless Upgrade to control your kit from up to 500ft away, a Color-Changing Wheel Well Kit, Interior Tubes, and a Color-Changing Door Handle Kit.

LED Home Light Replacement

53

PlasmaGlow 1-877-878-4569 www.plasmaglow.com

> New for 2011

Part Numbers:

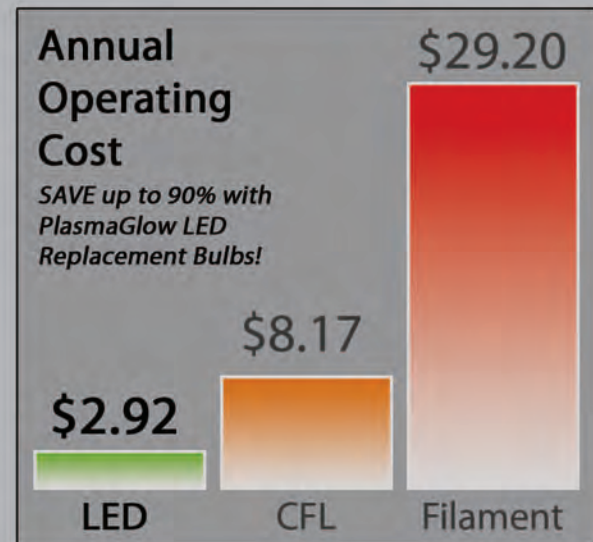

Cool White - E27-5W-110V-CW
Warm White - E27-5W-110V-WW

Cool White Dimmable - E27D-5W-110V-CW
WarmWhite Dimmable - E27D-5W-110V-WW

For years now PlasmaGlow has been the top innovator of LED lighting technology for aftermarket automotive applications and now we present our first truly universal home product, the LED Home Light Replacement Bulb. These bulbs are available in either warm or cool light versions, with a fully dimmable bulb available in each color, giving you absolute control of your home lighting. Each bulb comes with a 10 year warranty since the LEDs contained inside are rated for over 100,000 hours of continuous use. Though these bulbs are rated as 50W equivalents compared to standard bulbs, they only draw 5 watts of power, even less than power-saving CFL bulbs!

- > Replaces ANY Standard Bulb
- > Fully Dimmable Version Available
- > Same Output as a 50W Bulbs
- > One Bulb Lasts 50+ Years!

Available in:
Cool White and Warm White,
Dimmable and Non-Dimmable

LED Fighter Jet Switch

54

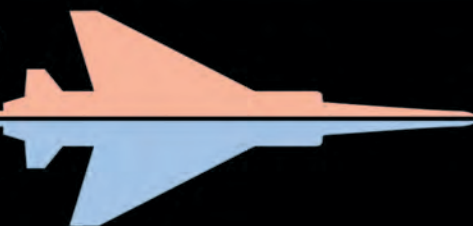

Part Numbers:

11100 - Blue | 11101 - Red | 11102 - Green

FIGHTER
JET SWITCHES

- > Works with Any 12V Product
- > Fighter Jet Style Guard
- > LED Indicates Status

If you are tired of plain switches for your automotive accessories, the LED Fighter Jet Switch will do the trick! They are designed to work with any 12 Volt accessory, made by PlasmaGlow or not.

An LED Indicator in the switch tells you when the switch is active and the fighter jet style switch guard gives your car a unique look.

Available in 3 Colors, Lifetime Warranty

Part Number VEST1

Can Be Custom Made!

For the ultimate in night-time safety, the PlasmaGlow LED Safety Jacket is a must. The one-size-fits-all jacket is designed with a light-weight mesh so it is comfortable to wear and keeps you cool. Velcro straps keep the vest secure on any body type.

Reflective fabric is sewn into the jacket, and embedded Red LEDs blink to make sure the user is visible. The vest is battery powered, and uses common AA batteries. There is an on/off switch, and they will last over 100 hours on one charge.

Great For:

- > Police Departments
- > Fire Departments
- > Construction Workers
- > Parking Lot Attendants
- > Crossing Guards
- > Grocery Cart Runners
- > Airport Crews

10444 - Trailer Hitch Splitter

12V 1A - 12 Volt, 1 Amp Wall Adapter

12V 5A - 12 Volt, 5 Amp Wall Adapter

If you want to use any PlasmaGlow Truck Products, like the Fire & Ice Tailgate Bar, that utilize the 4-pin trailer hitch plug and pull your trailer at the same time, your only option has been to hardwire your lighting accessories. The PlasmaGlow 4-Way Trailer Hitch Adapter Splitter will allow you to wire up to 4 products into the trailer hitch plug on your truck without having to do any complex wiring.

> Trailer Hitch Adapter 4-Way Splitter

> 110V to 12V Wall Adapter

Almost any PlasmaGlow product can be installed in your house for any creative use you can imagine. This adapter will convert the standard 110 Volts in your wall to 12 Volts of power for your lighting accessory. Now you can install lighting under cabinets, under desks, and even under beds with this simple to use power adapter. It includes a 4 way junction box to easily power up to 4 items and provide up to 1 Amp of power. If you need more power, get our 5 Amp Adapter.

LED Shower Head

LED Shower Head

- > Replaces Any Handheld Showerhead
- > Powered By Water Pressure - No Batteries
- > Chrome Finish
- > 1-Year Warranty
- > Available in Blue, Green, Red, and White

Bring a little color to your daily routine with the PlasmaGlow LED Showerhead! This chromed ABS shower head is right at home in just about any shower and matches most bath hardware. Installation is easy, and fits your existing hose and shower head setups. Just remove your existing nozzle from the hose and attach the LED shower head in it's place. This self contained lighting accent requires no batteries or power and uses PlasmaGlow HydroFlow technology to harness the power of flowing water to power the ultra-bright waterproof LEDs. These LEDs will provide enough light alone to shower even if the power is out!

LED Faucet Lights

Color-Changing!

- > Fits Any Faucet
- > Changes Color with Temperature
- > Blinks Red at Scalding Temperatures
- > Installs in 2 Minutes
- > Chrome Finish
- > 1-Year Warranty

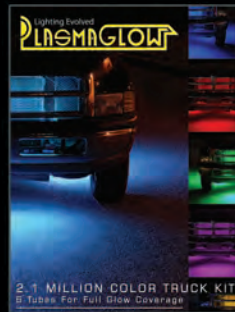

**Lights
Up Blue
When
Cold**

**Lights
Up Red
When
Hot**

Accent your sink or bathtub with something a little different: the PlasmaGlow LED Faucet Light! This chromed ABS faucet light fits any existing sink or tub faucet setup. Installation is easy, and this kit comes with everything you need to install, including threaded adapters to make sure you get the right fit right out of the box! The flowing water automatically turns the LEDs on and off. Convenience and safety in one package; the built in LEDs provide not only visibility, but also safety by turning blue when the water is cold, and red when the water is HOT! Say goodbye to burnt hands when checking the water temperature with PlasmaGlow LED Faucet Lights!
