

Construction and Special Markets

A Division of Protective Industrial Products, Inc.

PIP's latest initiative is directed toward the distributor that serves the builder, commercial maintenance contractor and specialty industrial user. A variety of steps have been undertaken to properly position us to assist you.

1. We have joined STAFDA as a means of showcasing these products on a national basis.
2. We are in the process of assembling a sales network that will span the country to focus on the needs of the distributors that work closely with the users in this channel.
3. This catalog has been designed to showcase products that are prevalent in these markets. It brings together in one brochure the gloves, rainwear and eyewear that are commonplace in the market and it offers some exciting new products that are a result of our years of experience in the general industrial and safety markets. Some of the additions are:
 - New Brahma® drivers styles in both lined and unlined versions,
 - mechanics gloves,
 - anti-vibration and lifting gloves,
 - Hi-visibility leather palm and PVC gloves,
 - more coated knit styles including the popular Hi-vis PowerGrab™ Thermo
 - disposable gloves in polyethylene and vinyl, and
 - the Falcon™ line of Rainwear.

We appreciate the opportunity to earn your business and we view this new catalog as just the first step in expanded offerings to grow the business together.

We hope you will look more closely at the information that you find in this catalog and ask you to please contact us if there is anything that we can do to help you.

PIP Glove Manuals

Glove 101

An introduction to hand protection designed for distribution professionals. This program will provide instruction on the fundamentals of:

- Glove types or materials
- Glove construction
- Design features

Methods to collect information from customers on their glove requirements

Glove 102

In-depth product training program for industrial work glove sales. This manual contains interesting and helpful info as to glove construction, proper applications, availabilities, and much more. You will also find suggestions on how to overcome end-user objections as you introduce a new item of hand protection.

Insulated Hi-Vis PVC

Features

- Hi-vis orange color PVC is great for visibility in warehouses and on the highway
- Liquid proof
- Foam insulation keeps hands warm and dry
- "Crystal grip" styles provide excellent wet grip

Applications

- Ideal for use in cold environments to handle grease, oils, acids, caustics and solvents. Also used in warehousing, highway construction and traffic control

Options

- Smooth coated styles come with knitwrist, safety cuff or gauntlet cuff
- "Crystal grip" styles come with either knitwrist or safety cuff

General Duty Latex

Features

- Made in ISO 9000 and ISO 9001: 2000 facilities
- Economical liquid proof protection
- Pinked cuff
- Provides resistance to acids, alkalis, alcohols, salts, ketones and animal fats
- Flock lined style provides increased comfort and ease of donning
- Chlorinated
- Multiple colors are available to assist in identifying lost or broken gloves, workers' departments and sizes

Applications

- Dishwashing, laundry, household cleaning, pet grooming

Options

- Available with crinkle finish or honeycomb grip pattern
- Certain styles (noted with *) are pair packed for ease of distribution and do not have hang tags

CAUTION: These styles contain natural rubber latex which may cause allergic reactions. Safe use by or on latex-sensitive individuals has not been established.

Unsupported Nitrile

Features

- Made in ISO 9000 and ISO 9001: 2000 facilities
- Provides superior resistance to physical hazards such as cut, puncture, snag and abrasion and many chemical hazards, including solvents and oil based chemicals
- All Assurance™ unsupported nitrile gloves are silicone free
- Both flock lined or unlined styles are available
- Made from component materials which comply with FDA regulations for food contact. 21CFR 170-199
- Packed 12 pairs per poly bag

Applications

- Ideal for chemical processing, oil refining and petrochemicals, food processing, aerospace & automotive degreasing, automotive assembly & painting, machining operations, metal fabrication, graphic arts & printing cleanup, furniture manufacturing and electronics

50-N140G (Unlined) S - XL
50-N160G (Flock Lined) S - XL
15 mil., Green, Raised Diamond Grip, 13" Length

Liquid Proof Gloves

63-532

64-V3000

62-323PF

Disposable Nitrile

Ambi-dex

Features

- Economical puncture resistance with great comfort, dexterity and tactile sensitivity
- Contains no natural rubber latex proteins
- Ambidextrous
- Made from component materials which comply with FDA regulations for food contact. 21CFR, 170-199
- Blue color

Applications

- A very versatile glove for use in a broad range of applications for light hand protection from liquids, chemicals and debris

Options

- Available in 100-piece or 50-piece dispenser box or 10-piece bag

63-532 (100 Pack) S - XL
WA8967A (50 Pack) Large
WA8998A (10-Piece Bag) Large
 Industrial Grade, 5 mil., Textured Grip, Powder Free

Disposable Vinyl

Ambi-dex

Features

- Made from a soft-veryin vinyl formulation specially compounded to deliver an optimal combination of comfort, fit, flexibility, tactile sensitivity and performance
- 5 mil. thickness
- 9.6" length
- Rolled beaded cuff
- Translucent white color
- Contains no natural rubber latex proteins
- Made from component materials which comply with FDA regulations for food contact. 21CFR, 170-199
- Physical properties meet or exceed ASTM requirements for vinyl gloves
- Powder free style has a synthetic polymer coating for ease of donning and doffing
- Packed 100 gloves per dispenser box

Applications

- Ideal for food handling and processing, pharmaceuticals, laboratories and electronics

270-3050

N95 Flat Respirator with Valve

10 Masks/PIP Box, 12 Boxes/Case

Also Available

Disposable Nuisance Dust Mask 270-1000

Lightweight and comfortable, this is the economical choice for use in non-toxic applications such as sanding, grinding and cleaning; anywhere there are nuisance dusts. 50 Masks/PIP Box, 12 Boxes/Case

N95 Respirator Features

Meets all NIOSH standards

High filtration efficiency for protection in a variety of environments

Low breathing resistance and soft inner surface for comfort

Clear and simple fitting instructions make these easy to put on

Adjustable outside nosepiece to fit most individuals comfortably

Secure head straps for a proper fit

Some masks have exhalation valves for hot and humid work conditions

Used in toxic dust situations, such as, in textile plants, fertilizer plants, steel mills, coal mines, etc.

Glove Displays

PIP stocks a variety of displays designed to help you, our distributor, promote and merchandise gloves. Displays can be purchased empty or can be packed with product. Your PIP Representative can help you customize a prepacked assortment.

WA 1606C
Corrugated Shelf Display

WA 1606A
Stack On Display

- ships as one unit
- holds up to 12 dozen cotton gloves

WA 1608E

- holds between 8 and 12 dozen gloves depending on glove style

WA 1610
Metal Rack

- holds 8 dozen gloves

WA 1603
Wire Rack

- holds 16 dozen gloves

WA 600A
Spinner Rack

- holds 8 dozen gloves

CLIP STRIP
Hanging Display

- holds 1 dozen gloves
