Carolina Safety Sport - CSS

Michigan

Whether your day is spent at the refinery, power plant, pipelines or the mines, Radians comprehensive line of quality protective gear minimizes exposure to workplace hazards. If your workplace environment is the crosswalk, traffic jam, or the construction site, Radians Hi-Viz vests and apparel keep you visible and safe. If you work on the production or assembly line in material handling, our DEWALT work gloves provide the protection, dexterity, and comfort that you deserve.

Radians comprehensive line of personal protective equipment (PPE) for the industrial, public safety, construction and work performance markets includes over 80 styles of safety eyewear, Hi-Viz safety vests and apparel, reusable and disposable hearing protection, head gear, hard hats, performance gloves, work boots, barricade tape, and other accessories. All of our products are manufactured in ISO-certified factories and are field tested to ensure maximum performance and protection.

Because we believe style and comfort facilitate workplace compliance, Radians has partnered with leading brands to provide our customers with safety gear that is both stylish and comfortable while meeting important ANSI standards. We understand that if workers wear it well, the overall welfare of the company and its employees improve because of the reduced costs associated with workplace injuries.

Speaking of brands, a company's imprinted logo or safety message on protective gear also helps to promote workplace compliance. As part of our effort to provide customer specific solutions, Radians offers custom imprinting on most products with fast turn-around times. Additionally, our partnership with Carolina Safety Sport in Thomasville, NC, allows us to quickly manufacture and customize Made in the USA Hi-Viz apparel and public safety vests.

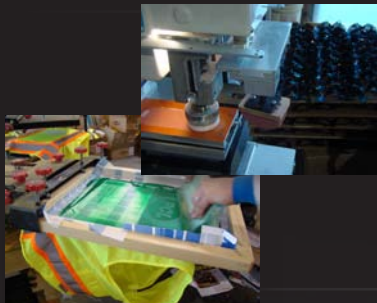

Strategically headquartered in Memphis, TN—America's distribution hub—and with other locations in Thomasville, NC; Belmont, MI; and Sparks, NV, Radians provides its distributors with just in time (JIT) shipments to meet the logistical demands of the fast-paced safety markets. Place your order by 3:30 p.m. CST, and your shipment of in-stock items goes out the same day and in most cases, is delivered within two business days.

An ISO 9001:2008 certified leader in the PPE business for more than ten years, Radians offers its customers versatility, product innovation, flexibility, and a strong value proposition. Our products are distributed in 48 countries on six continents. Our biggest strengths: We listen to end-users and respond to market demands.

CAPABILITIES

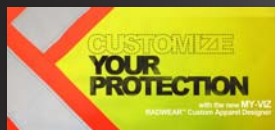

Custom imPrinting

Our safety products not only keep you safe; they can also help you advertise and market your company's name. Radians offers 7 - 10 day turn-around of custom screen printing, pad printing, heat transfer and sublimation dye transfers, which allow for a brilliant and permanent imprint of your logo on PPE items, including eyewear, hard hats, and Hi-Viz apparel.

My-Viz Custom Apparel Designer by CSS

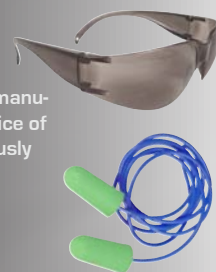

You design it - We make it! With our ability to manufacture in the USA, you can now quickly and easily design your own hi-viz safety vests or t-shirts. You can choose the style, the color, the materials and a variety of options, as well as your custom imprinting message and logo up to four colors. Creating your own hi-viz apparel has never been quicker or easier! Visit our website and start designing at www.my-viz.com.

Made in USA Manufacturing

More and more American consumers are making the Made in USA choice to help boost the economy and build up America. Radians is making that choice as well, and we're on a mission to manufacture more products in the USA. This strategic move allows consumers of safety products the choice of choosing affordable "Made in the USA" safety products with fast turn-around times while simultaneously growing the U.S. Economy.

Radians products produced in the USA: Foam Earplugs, Custom Molded Earplugs, Hard Hats, Barricade Tape, Safety Vests, Safety Eyewear, Lens Cleaning Accessories.

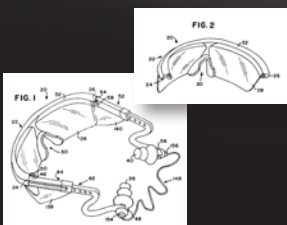

Testing & Standards

Because of our global presence and our culture of safety, Radians tests products to meet or exceed standards, including ANSI Z87.1+, VO Ballistics (0.15 caliber), CSA Z94.3-1992, EN166:2001, AS/NZS 1337, ASTM F1506, and additional standards for Asian Pacific distribution. We also have in-house testing facilities within our headquarters where our hearing and eyewear protection are tested for ANSI/ISEA safety standards. Our eyewear is also tested and inspected by third party, globally accredited, independent laboratories. With our adherence to standards and testing, you can feel confident about Radians products meeting all necessary safety standards and regulations.

Quality Control

The International Organization for Standardization (ISO) 9001:2008 specifies requirements for a quality management system where an organization needs to demonstrate its ability to consistently provide product that meets customer and applicable statutory and regulatory requirements. Our ISO 9001:2008 certification reinforces the Radians commitment to quality control and to consistently manufacture and distribute quality personal safety products.

PPE Product Development

Radians is not only a manufacturer and supplier of quality safety products, we develop and design new products to satisfy our customer's changing safety needs and to stay abreast of evolving market trends. We continuously strive to develop and produce the highest quality PPE products at lowest possible costs so we can offer a value proposition to our customers. The glove, eyewear, and safety vest innovations we develop have afforded us multiple patents and recognition in the industry.

VISIBLE - SAFE - COMFORTABLE

Radians knows visibility is a safety requirement in high traffic areas, around heavy equipment, and in poorly lit work environments. Hard work in these difficult places calls for noticeable solutions. Now Radians, with the addition of CSS, makes you visible, safe and comfortable with our complete line of Hi-Viz apparel.

ANSI/ISEA 107-2010 CLASS 2: Background Fabric: 775 Square Inches;
Reflective Material: 201 Square Inches; Minimum Reflective Width: 1.375 Inch

Ideal for workers who require greater visibility under inclement weather conditions - Or when work backgrounds are complex - Or when tasks divert attention from approaching vehicle traffic.

APPLICATIONS: Roadway construction workers / Utility workers / Survey crews / Railroad workers / School crossing guards / Airport baggage handlers / Law enforcement personnel / Emergency response personnel

ANSI/ISEA 107-2010 CLASS 3: Background Fabric: 1240 Square Inches;
Reflective Material: 310 Square Inches; Minimum Reflective Width: 2 Inch

Ideal for workers and vehicle operators whose heavy task loads place them in danger - Or the wearer must be conspicuous through the full range of body motions at a minimum of 1,280 ft. - Or when wearer must be identifiable as a person.

APPLICATIONS: Roadway construction workers / Utility workers / Survey crews / Emergency response personnel

ANSI/ISEA 207-2011 STANDARD: Background Fabric: 450 Square Inches;
Reflective Material: 201 Square Inches; Minimum Reflective Width: 1.375 Inch

The use of ANSI 207 Public Safety compliant garments is included as an option for emergency, incident responders and law enforcement officers to meet the requirements of the ANSI regulation in lieu of ANSI 107.

APPLICATIONS: Public Safety / Law Enforcement / First Responders

FR ASTM 1506 and NFPA 701 STANDARDS: Products that meet ASTM 1506 standards are inherently flame resistant, while NFPA 701 products are chemically treated to make the base fiber flame retardant.

Ideal for any worker requiring high visibility and protection from flames, sparks, arc flashes and other possible introductions to flammable situations.

APPLICATIONS: Utility Workers / Welding / Public Safety / Oil Fields / First Responders / Petrochem Refining / Shipyards

YOU DESIGN IT—WE BUILD IT

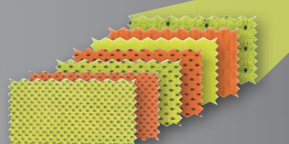

- ✓ Intuitive online software to create your Vest or T-Shirt
- ✓ Quick Turnaround Times - Made in USA
- ✓ Low Minimums
- ✓ Affordable Costs
- ✓ Complete Customization

CREATING YOUR CUSTOM VEST OR T-SHIRT IS QUICK & EASY!

You can choose the style, the color, the materials and a variety of options, as well as your custom imprinting message and logo up to four colors.

Visit www.my-viz.com and activate your account today.

CUSTOM IMPRINTING MADE EASY

Differentiate your product and strengthen your brand!
Silk Screen or Heat Transfer logos are permanent and will not crack, peel or fade like a sticker or decal.

QUICK

- 7 - 10 business day turn-around for in-stock colors and products.

CUSTOMIZED

- Your Logo - Your Message • Print Up to 4 Colors

ECONOMICAL

- Low Minimums, Low Prices

Camera Ready Artwork: Camera ready artwork must be supplied, or there will be a small fee to re-create logos. The images / letters must be clear and must be the exact representation of the desired logo. Photocopies, business cards, drawings, decals, faxes, etc. are not considered camera ready. For best quality, vector artwork is the best type of image to submit (AI, EPS). A bitmap (or raster) image (JPEG, TIFF, GIF, BMP) is acceptable.

Standard Class 3 Solid or Mesh - Front & Back

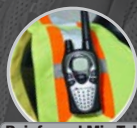

Short sleeved Standard Class 3 vest for enhanced night time visibility.

Two horizontal stripes for enhanced visibility.

Heavy Duty - Class 3 Solid Twill & Mesh

Heavy Duty Contractor Surveyor's vest with large back "plan" pocket. Built with rugged ANSI 107 HiViz material, reinforced wear points, and long-wearing web reinforcement along outer edges. Mesh upper, front and back, for breathability and comfort. Pockets in tough woven twill fabric.

Reinforced Mic Tab

Multi-Use Pocket

Surveyor Class 3 - Breakaway Mesh - Front & Back

Lower breakaway line on the shoulder for improved comfort.

Low Breakaway Line

5-POINT BREAKAWAY

- 1 Right Shoulder/Sleeve
- 2 Left Shoulder/Sleeve
- 3 Right Side
- 4 Left Side
- 5 Front Closure

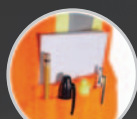

Surveyor - Class 3 Solid Front - Mesh Back

Short sleeved Surveyor Class 3. Perfect to be worn in daytime conditions. Contrast trim combinations make workers much more noticeable in low light and broad daylight. Very functional pocket configuration so you can carry the tools you need to do your job.

Reinforced Mic Tab

Multi-Use Pocket

Economy Class 3 - Two Tone Mesh - Front & Back

Economy Class 3 with Two Tone Trim. Compliant protection at an economical price. Excellent choice for extreme work environments, like asphalt paving, that greatly reduce the useful life of a vest, or protection for short-term labor. Reflective stripes on contrasting trim make workers much more noticeable in low light and broad daylight.

HIGH VISIBILITY FLAME RESISTANCE

INHERENT vs. TREATED

(ASTM 1506) (NFPA 701)

Flame Resistant Fabric / Clothing – Intended to Provide a Range of Protection

- Reduces exposure to flame.
- Creates barrier to heat.
- Self Extinguishing (will not support combustion after source of ignition is removed).
- Resistant to breaking open when exposed to flame.

Inherently Flame Resistant (IFR) - ASTM 1506

- Inherently more difficult to ignite than normal clothing.
- FR properties introduced during the initial stages of fiber formation.
- Flame resistant for the life of the fiber / garment.
- Flame resistance is not altered by variations in laundering conditions or environment.

Flame Retardant Treated (FRT) - NFPA 701

- Base fabric has no FR properties such as cotton.
- Chemical treatment required to make the base fiber flame resistant.
- Flame resistance is not permanent, may diminish when laundered or in certain environmental exposures.
- Monitoring how much FR has been lost due to laundering and rain is not practical.

GlenGuard® Hi-Vis - Modacrylic

- Primary material for hazards requiring IFR and ANSI 107.
- All components are IFR and will last the life of the garment.
- Meets ASTM 1506 (vertical flame spec) after 50 laundings.
- Meets ANSI 107 – 2010 after 50 laundings.
- Protected by 4 US patents.

- 1 Inside, 1 Outside Pocket
- Horizontal Pass Through on Back for Fall Protection
- Meets ASTM F1506
- Fabric Certified to ANSI 107-2010
- Retro Reflective Material Certified to ANSI 107-2010 Level 2
- ARC Rating 5.1 Cal/CM²

Pass Through

Radians is excited to have Carolina Safety Sport join our team. One of the primary goals of CSS is to educate those who are exposed to low-visibility environments about the importance and necessity of wearing high-visibility garments for maximum safety protection. CSS strives to provide the highest quality products at competitive prices with a service level that is unparalleled in the industry.

Customer satisfaction is the basis of the CSS business.

- **A team of dedicated associates who are committed to the customer**
- **Outstanding quality features and high-performance materials**
- **Custom applications for specific tasks**
- **Innovative products--including a full range of clothing that is ANSI-107-2010 and ANSI-207-2011 certified**

CSS's commitment is easy to see in their high-visibility products designed for law enforcement, fire, emergency, construction, transportation, highway, industrial and other specialty markets.

Our guarantee is quality, value and service. CSS and Radians understand the customer's requirement for getting products when they are needed with high quality standards that ensure customer loyalty over the long term.

3M Scotchlite™
Reflective Material

HV-6ANSI-ZRCTARV

LHV-6ANSI-ZRCTARV

ANSI 207-2011 standard for "Public Safety Vests" (PSV).

- Area requirements for fluorescent background material falls between ANSI 107 Class 1 and Class 2.
- A lesser background area requirement allows for short designs giving tactical access to equipment belts.
- Retroreflective area requirements are the same as those for ANSI 107-2010.

ANSI 207-2011 suggests several design options, such as breakaways, colored identifiers, loops, pockets, badge holders, ID Panels and our patented Zip-N-Rip™.

ANSI/ISEA 207-2011 STANDARD: Background Fabric: 450 Square Inches; Reflective Material: 201 Square Inches; Minimum Reflective Width: 1.375 Inch

The use of ANSI 207 Public Safety compliant garments is included as an option for emergency, incident responders and law enforcement officers to meet the requirements of the ANSI regulation in lieu of ANSI 107.

APPLICATIONS: Public Safety / Law Enforcement / First Responders

UTILISAFE™

Carolina Safety Sport's Utilisafe-107 safety vests are perfect when ultimate safety is required. Not only do these safety vests and shirts offer the flame resistant properties required by ANSI 107-2010, but also certified background and reflective material. They are perfect for the Utility Industry, or anywhere ultimate safety is required.

3M Scotchlite™
Reflective Material

GlenGuard

- Reflective Material: 3M Scotchlite™ 8735 or 8935
- Background Material: 5.5oz. Modacrylic inherently flame resistant fabric.
- Meets requirements of ASTM F1506 and FTMS No. 191A Method 5903
- Fabric is certified to meet ANSI 107-2010 Level 2 and EN-471 Class 2
- Meets or exceeds NFPA 1971, 2000 Edition, Sections 5-1.4 and 6-2.

LHV-UTL-A

- Class 2 ANSI/ISEA 107-2010
- Hook & Loop Closure
- Adjustable Waist Band
- Meets ASTM F1506
- HRC Level 1 per NFPA 70E
- 3M 8935 FR Reflective Striping
- Fabric Arc Rating of 5.4 cal/cm
- 95% Modacrylic, 5% Twaron

YOU DESIGN IT - WE MAKE IT!

Radians and CSS can customize any style safety vest or t-shirt... prepared just the way you like it. You pick the fabric and color. You pick the type of reflective tape. You pick the sleeve style. You pick the custom imprinting. We make it to fit your exact needs.

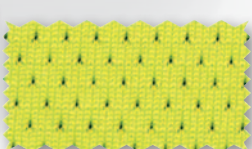

BIRDSEYE™ MESH

Maximizes airflow to quickly evaporate moisture. Enhanced fibers pull moisture away from the skin to keep you comfortably dry.

ORIGINAL BREEZELITE™

Cool Mesh with PFM technology and high wicking moisture management. 100% polyester. Certified to 75 washes.

ULTRA BREEZELITE™ II

Poly/Spandex comfortable cool mesh. High Performance. High Quality Premium Fabric. Permacill Permanent Wicking. Certified to 75 washes.

HYDROWICK JERSEY

Feels like cotton! Hydrowick moisture management. 5.6 oz 100% polyester lightweight and comfortable. Compliant to 50 washes.

HV-43 RIPSTOP

Solid woven polyester high visibility material with reinforced grids to provide extra durability.

UTILISAFE™ FR - TSHIRTS

ANSI 107 version 2010 after 50 washes; Meets ASTM F1506; HRC Class 2 per NFPA 70E; Arc rating of 10.0 cal/cm; 61% Modacrylic, 32% Cotton and 7% Polyester.

UTILISAFE™ FR - VESTS

ANSI 107 version 2010 after 50 washes; Weight 5.5oz/sq yd; Meets ASTM F1506; HRC Class 1 per NFPA 70E; Arc rating of 5.4 cal/cm; 95% Modacrylic, 5% Twaron.

UTILISAFE™ FR MESH

DMGRL-41 Amber Anti-Fog

Goggles provide higher impact, dust and chemical splash protection than safety glasses. Goggles for splash or fine dust should have indirect venting. Use direct-vented goggles for less fogging when working with large particles. Safety glass users should graduate to goggles when there is more than occasional particle hazards.

Chemical/Perforated

Goggle

Chemical Splash

Chemical Splash:

- Indirect vents
- Neoprene strap

Perforated

Perforated:

- Perforated side shields
- Elastic strap

Both fit over most prescription glasses and Meet Canadian safety standards

Black Frame

VG1-P Smoke Polarized

Eliminates reflective glare that hits the lens and also a portion that hits from other angles. By eliminating glare it reduces eyestrain, allowing a crisp view of the surroundings. Around water, it eliminates reflection and allows viewing below the water's surface.

Lens Cleaning

Made in the USA

Sturdy, economical lens cleaning stations provide instant access for all lens cleaning needs in the plant or office. Strategically placed stations will promote proper lens cleaning techniques extending the life of prescription and non-prescription safety glasses. The specifically developed formula will clean greasy and oily glasses while providing an anti-fog/anti-static coating. Low lint, abrasive tissue leaves lenses clear and streak free.

- We can re-create any logo for a small fee

ECONOMICAL

- Low minimums (48 pairs)
- Low or no plate charges, low prices

Radians safety lenses are both stylish and functional. This lens selection chart has been provided as a general guideline. Please contact your Radians Sales Representative to determine the proper lens option for your specific application. All polycarbonate lenses provide 99.9% protection against harmful UV rays.

CLEAR – Allowing a maximum visible light transmission, this excellent safety lens is used for indoor applications where impact protection is required.

ANTI-FOG – Provides excellent fog prevention in high humidity environments where sudden shifts in temperature occur.

LIGHT SMOKE – Commonly worn outdoors to filter moderate brightness during activities where the wearer is in a shaded area, but the line of sight is in direct sunlight. Allowing approximately 50% visible light transmission, they reduce glare while allowing a brighter field of vision than a dark smoke lens.

SMOKE – Worn on bright, sunny days, these lenses provide maximum light reduction and are ideal for applications where eye strain is a major factor. They allow approximately 16% visible light transmission, show objects true to natural color and flatten light to maintain normal depth perception.

INDOOR / OUTDOOR – This light tint is a comfortable solution for moving from indoor or shaded locations to direct sunlight and back. Indoor/Outdoor allows approximately 50% visible light transmission and diminishes glare to ease the eye's adjustment from inside to outside applications, reducing eye strain.

AMBER – Light gathering properties make this lens ideal for low light environments in which contrast is low; highlights and defines by blocking out much of the blue light and allows about 84% visible light transmission.

VERMILION – For applications such as inspection where contrast may be enhanced. Enhances target point sighting of the red alignment or leveling beam. Allows 33% visible light transmission.

COPPER – This blue blocking lens allows about 20% visible light transmission and is ideal for medium to bright outdoor conditions where sunlight and glare cause eye strain and fatigue.

DESERT TAN – Enhances depth perception. Commonly used for outdoor applications. Minimizes glare that can result in eye strain and fatigue.

COFFEE – Enhances depth perception. Commonly used for outdoor applications. Minimizes glare that can result in eye strain and fatigue.

LIGHT BLUE – Reduces glare from artificial light such as halogen and fluorescent.

ORANGE – Filters out blue and green light to reduce eye fatigue, improves visual acuity during curing and inspection processes; it allows 50% visible light transmission.

GREEN – Protects from excessive glare and enhances contrast.

POLARIZED – Eliminates all reflective glare that hits the lens and also a portion that hits from other angles. By eliminating glare it reduces eyestrain, allowing a crisp view of the surroundings. Around water, it eliminates reflection and allows viewing below the water's surface.

IRUV – Worn for applications and in environments where others are performing welding tasks such as torch brazing, torch soldering, gas welding and oxygen cutting. Available in 2.0 (light), 3.0 (medium) and 5.0 (heavy). As a general rule, the safest approach is to begin with a lens number that is too dark to see the weld zone. Move to a smaller number (as an example, from 5.0 to 3.0) until visibility allows effective work but does not cause discomfort. In oxygen fuel gas welding or cutting where the torch produces a high yellow light, it is desirable to use a filter lens that absorbs the yellow or sodium line in the visible light of the (spectrum) operation.

MIRROR – These dark tinted lenses with a reflective coating are great for outdoor applications where very bright sunlight and glare cause eye strain and fatigue. Available in Gold, Silver, Blue, Rainbow, Electric Blue, Green and Electric Orange.

Although hearing protection regulations have been in place for decades, Noise Induced Hearing Loss (NIHL) is still a major occupational illness. Hearing loss is imperceptible at first with no pain or trauma. Unfortunately, once hearing damage occurs, it is irreversible; and your lifestyle at work and at home can be negatively impacted.

Radians Made in the USA foam earplugs provide an effective solution to combat NIHL. Tested according to ANSI specs S3.19-1974, Radians disposable foam earplugs feature soft, slow-recovery foam for extreme comfort and outstanding noise reduction to protect your hearing. They are easy to roll down and insert, and they expand slowly for a low-pressure fit in virtually any size ear canal. They are available in a corded and uncorded option and are conveniently packaged in individual polybags to keep each pair clean.

NRR

(Noise Reduction Rating) is a rating system created by the Environmental Protection Agency (EPA) to give an estimated amount of protection provided by each individual hearing protector.

NRR Values Range
From 1 – 34

85dB is the level at which hearing loss begins. The higher the NRR, the greater the protection of hearing loss.

TYPICAL SOUND LEVELS

dB (DECIBEL)

The unit used to express the intensity of sound. The decibel scale is a logarithmic scale in which 0 dB approximates the threshold of hearing in the mid frequencies for young adults and in which the threshold of discomfort is between 85 and 95 dB SPL and the threshold for pain is between 120 and 140 dB SPL.

Rad-Band

Reusable

RB1100
Banded hearing protector

Lightweight dielectric design fitted with super soft *Jelli™* Plugs. *Jelli™* Plugs are washable and reusable. Earplug angle is engineered to align with ear canal for maximum sound attenuation and comfort.

ANSI Z89.1-2003

TYPE I (Top Impact):

- Reduces the force of an impact to the top of the wearer's head.

TYPE II (Top and Lateral Impact):

- Reduces the force of an impact to the top and sides of the wearer's head.

Impact Energy Attenuation

Measures helmet crown's capability to reduce the force of an impact from falling objects to the top of a wearer's head.

Apex Penetration

Measures helmet crown's capability to resist penetration.

Flammability

Measures the resistance to burning or combustion when exposed to an ignition source.

Electrical Insulation

Measures electrical shock resistance capability of helmet. Helmet Types I & II:

1. Class E (Electrical) - Previously Class B

Designed to reduce danger of contact with high voltage sources and is proof tested to 20,000 volts.

2. Class G (General) - Previously Class A

Designed to protect against contact with low voltage and is proof tested to 2,200 volts.

3. Class C (Conductive) -

Does not offer protection against contact with electrical conductors.

GLOVES

The fit and comfort of DeWALT HT Gloves will help protect your hands and help improve your productivity as you work.

DeWALT HD Gloves offer protection for your hands and afford the highest level of comfort and dexterity available for jobs demanding precise control.

DeWALT VC Work Gloves help improve comfort and productivity by providing a barrier of insulation between rapid vibration tools and your hands.

DeWALT TG Work Gloves help improve productivity in handling materials or tasks where a secure grip is essential.

DeWALT CW Work Gloves are the tools that will keep your hands warm and protected in cold conditions. The design and materials provide you with the dexterity and grip necessary to handle tools and complete the most demanding jobs.

This icon indicates this product is abrasion resistant.

GUARANTEED TOUGH.®

DPG217 SecureFit™ General Utility Work Glove**Hand Tools - Assembly - Equipment Operation**
Sizes: M / L / XL

Foam Padded Knuckle Guard Provides added protection

Hook & Loop Wrist Closure Provides a secure fit

Lightweight, Breathable Material Allows for a cool, comfortable fit

Reinforced Fingers For better grip & durability

Reinforced Saddle Overlay Provides additional durability

Rubberized Finger and Palm Overlays Provides grip enhancement and added durability

**DPG218** RapidFit™ General Purpose Work Glove**Light Material Handling - General Utility**
Sizes: M / L / XL

Lightweight, Breathable Material Allows for a cool, comfortable fit

Reinforced Index Finger & Thumb For better grip & dexterity

Foam Padded Knuckle Guard Provides added protection

Reinforced Palm with Foam Pad Backing Provides added durability

Short Slip-On Cuff For easy on and off

**DPG20** All-Purpose Synthetic Leather Performance Glove**Hand Tools - Equipment Operation - General Use**
Sizes: M / L / XL

ToughThread™ Soule Stitching For greater durability

Reinforced ToughGrip™ Thumb Saddle For greater protection and toughness

Neoprene Guard in Wrist System For extra debris protection

Terry Cloth Top of Thumb To quickly remove brow sweat

Padded Palm and Knuckle Guard Provides added comfort and protection

Reinforced Fingertips Increase durability and puncture resistance

Breathable Neoprene Fourchettes Offers improved flexibility

**DPG200** All-Purpose Synthetic Performance Glove**Hand Tools - Assembly - Equipment Operation**
Sizes: S / M / L / XL / XXL

Pre-Curved Design For the perfect fit

Water & Oil Resistant Padded Palm Increases protection and comfort

Stretch Nylon Gusset Prevents debris penetration

Durable ToughThread™ Double Stitching Extends the life of the glove

Extended UlnaLock™ Hook & Loop Wrist Closure For snug, secure fit

Reinforced Saddle Overlay & Finger Guards

Terry Cloth Top of Thumb To quickly remove brow sweat

**DPG210** Heavy Utility PVC Padded Palm Performance Glove**Hand Tools - Power Tools - Carpentry**
Sizes: S / M / L / XL / XXL

Reinforced, Water & Oil Resistant PVC Palm Overlay Provides added palm protection and extends glove life

Memory Foam Palm Padding Reduces stressful vibrations

Stretch Nylon Gusset Prevents debris penetration

Extended UlnaLock™ Hook & Loop Wrist Closure For snug, secure fit

Reinforced Nylon Fourchettes Provide added durability and ensure custom fit

Terry Cloth Top of Thumb To quickly remove brow sweat

**DPG260** **ToughTack™ Grip Performance Glove****Material Handling - Warehouse Operations****Sizes: S / M / L / XL / XXL**

Pre-Curved Design For the perfect fit
100% Silicone Tacky Grip Palm Provides a long lasting & "sure" grip
Reinforced Saddle Overlay & Finger Guards Provide additional durability
Extended UlnaLock™ Hook & Loop Wrist Closure For snug, secure fit
Ergonomic "English" Thumb Cut Increases tool & material control
Reinforced Nylon Fourchettes Provide added durability
Stretch Nylon Gusset Prevents debris penetration
Terry Cloth Top of Thumb To quickly remove brow sweat

**DPG780** **Performance Mechanic Glove****Automotive - Equipment Maintenance - Power Tools****Sizes: M / L / XL**

Hook & Loop Wrist Closure For snug, secure fit
TPR Knuckle and Back of Hand Guard Provides impact protection
PVC Palm and Thumb Saddle Overlays Adds durability
Synthetic Leather Nail Guards For extra protection
Neoprene Wrist Added dexterity
Silicone Fingertip Grips Provide extra grip

**DPG870** **Hi-Viz Performance Glove****Nighttime Work - General Utility - Hand Tools****Sizes: M / L / XL**

Silver Reflective Tape For day/night visibility
RapidFit™ Slip-On Cuff For easy on and off
High Visibility Green Spandex Back Provides added visibility
Synthetic Leather Palm
PVC Overlays Protects key stress areas
Reflective Tape Nail Guards Adds visibility and protection
Reinforced Palm With Foam Pad Backing Provides added durability

DPG805

CUT5™ Cut Protection Work Glove

Metal/Glass Handling - Petrochemical - HVAC - Automotive

Sizes: M / L / XL

TekShell™ HPPE fiber (High Performance Polyethylene) For cut resistance
DMF-Free shell

GripTough™ Synthetic Rubber Palm Dip With high resistance to oils, gas and some chemicals. Has extremely abrasion, heat and tensile resistant

Anti-Bac™ Antimicrobial Coating Eliminates the growth of ATCC 6538 and ATCC 4352 bacteria, while effectively killing odors

DPG67

Ultradex™ PU Dip Glove

Small Parts Handling - Assembly - Manufacturing

Sizes: M / L / XL

Polyurethane Coating For sensitive grip and excellent dexterity

13 Gauge Nylon / Polyester Shell Provides a lightweight, breathable fit

Elastic Cuff For a secure, comfortable fit

DPG68

Ultradex™ Dotted Nitrile Dip Glove

Construction - Masonry - Machine Parts Handling

Sizes: M / L / XL

Nitrile Coating and Raised Dots For excellent grip and abrasion resistance

13 Gauge Nylon / Polyester Shell Provides a lightweight, breathable fit

Elastic Cuff For a secure, comfortable fit

DPG70

Textured Rubber Coated Gripper Glove

Assembly - Material Handling - HVAC - General Construction

Sizes: M / L / XL

Breathable Knit Back For comfortable fit in hot weather

Rubber Coating Provides superior abrasion resistance

Textured Palm Allows for extra grip - wet or dry -

Ergonomically Designed For superior fit and feel

Seamless Fit For maximum flexibility and high dexterity

CAUTION: Product Contains Latex

DPG31

Goatskin Driver Glove

Framing - Carpentry - Plumbing - Assembly
Sizes: M / L / XL

Elastic Back Offers secure fit
Keystone Thumb Provides maximum comfort and durability
ToughThread™ Double-Stitching For greater durability
Concealed Interior Seam Stitching Prevents snagging
Goatskin Leather Provides excellent durability and protection

DPG32

Premium Grade Leather Driver Glove

**Carpentry - Equipment Operation -
 Hand & Power Tools**
Sizes: M / L / XL

Split Leather Palm Patch Provides added durability
Elastic Back of Wrist For a secure, comfortable fit
ThoughThread™ Double Stitching Provides extra durability
Keystone Thumb Provides a comfortable fit

DPG34

Thermal Insulated Leather Driver Glove

3M Thinsulate
 INSULATION

WINTER THERMAL LINED FOR:
Carpentry - Equipment Operation - Power Tools
Sizes: M / L / XL

80g Thinsulate™ Thermal Lining / Turned Leather Cuff
Double Shirred Elastic Wrist For a secure fit
Ergonomic "V" Design For comfortable fit
Grade A Cowhide Leather For rugged durability
Keystone Thumb Provides added reinforcement
Double Leather Palm Overlay For added durability

DPG41

Premium Split Cowhide
Leather Palm Glove

**Framing - Carpentry - Plumbing -
 Assembly**
Sizes: L

- **2 1/2" Rubberized Cuff** Provides added protection
- **Split Cowhide Leather Knuckle Strap** Offers extra protection
- **Reinforced Fingertips** Provide longer wear
- **Wing Thumb** Provides comfortable fit
- **Reinforced Double-Leather Palm and Thumb** For superior toughness
- **ToughThread™ Double-Stitching** For greater durability

CAUTION: Product Contains Latex

Extreme winter condition gauntlet work glove with 4-layer insulation and pre-curved finger design, making it the most comfortable, form-fitting waterproof glove in its field.

DPG736

Thermal Gripper Work Glove

Cold Storage - Equipment Operation - Material Handling

Sizes: M / L / XL

Precurved Ergonomic Design Reduces hand fatigue
Foam Latex Dip For excellent grip in wet or dry environments
Acrylic Knit Shell Insulates & breathes
3/4 Dip Coverage For full abrasion resistance
Extended Cuff For added protection
Brushed Liner Provides wind & water resistance

DPG740

Mild Condition Fleece Cold Weather Work Glove

Outdoor Jobs - Construction - Equipment Operation

Sizes: M / L / XL

Durable ToughThread™ Double Stitching Extends the life of the glove
Wind & Water Resistant, Fleece Outer Shell
Extended Cuff For added protection
Synthetic Leather Palm Overlays Improve durability
Synthetic Leather Fingertips Enhance grip
Reinforced Saddle Overlay Provides extreme durability

DPG748

Extreme Condition Insulated Work Glove

Outdoor Jobs - Utility Work - Material Handling

Sizes: L / XL

Hook & Loop Cinch Pull Strap Helps keep out snow and debris
Waterproof Breathable Bladder Keeps hands dry in any condition
Nylon Back For abrasion protection across knuckles
PVC Palm & Finger Overlays Increase grip and durability
40g Thinsulate™ Thermal Liner Provides insulation from the cold
Rubber Pull Tab For easy pull on

DPG750

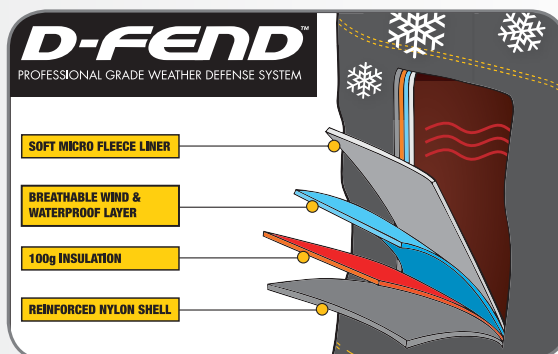

Extreme Condition Insulated Cold Weather Work Glove

Outdoor Jobs - Utility Work - Material Handling

Sizes: M / L / XL / XXL

Wind & Waterproof, Quad-Layer, 100g Micro Fleece Liner
Durable PU Coated Polyester Shell
Extended Gauntlet Cuff With Hoop & Loop Closure For secure fit over or under jacket sleeve
Neoprene Covered Knuckle For extra protection
Reinforced, Water & Oil Resistant PVC Palm Overlay Provides added palm protection and extends glove life
Pre-Curved Design For the perfect fit
Reinforced Saddle Overlay & Finger Guards Provides additional durability

DPG737 2-in-1 CWS
Thermal Work Glove

Construction - Masonry - Drywall - Heavy Machinery
Sizes: M / L / XL

15 ga Nylon Outer Shell Wicks away moisture and provides abrasion protection

7 ga Acrylic Thermal Liner Creates a warming barrier in wet or dry conditions

3/4 Dipped Palm For abrasion protection across knuckles

Micro Foam Dip Provides excellent grip while being flexible to reduce hand fatigue

2IN1CWS
COLD WEATHER SYSTEM™

The 2-in-1 Cold Weather System uses Glove-in-Glove technology to keep your hands warm and dry, while protecting you on the jobsite.

The comfortable, brushed acrylic knit thermal liner effectively traps warm air in, while maintaining dexterity.

The outer nylon knit shell wicks away moisture and provides a wind and abrasion resistant barrier.

INDUSTRIAL FOOTWEAR

All DeWALT Safety Toe Footwear exceeds ASTM F2413-05 I/75 and C/75 standards. The highest available strength for impact and compression.

Static dissipative safety footwear meet the ASTM SD standard of 1-100 megohms to protect against the hazards of static build up in the workplace.

DeWALT Footwear with electrical hazard protection meet the ASTM F2413-05 EH rating and protects the wearer against open circuits.

Slip Resistant Soles are designed with slip resistant outsole compounds and are Mark II tested to reduce the risk of slips and falls in the workplace.

Highest standard of water proof leather and time tested seam sealing construction offer protection from the environment.

Puncture Resistant footwear meets ASTM PR standards to protect the wearer in hazardous environment from sharp protruding objects that may puncture the sole of the boot.
