PERSONAL PROTECTIVE EQUIPMENT

w w w . r a d i a n s . c o m

About Radians® . . .

Whether your time is spent at the shooting range perfecting your target skills, in the woods hunting deer, elk, feral pig or other game, or if you work in the law enforcement, public safety, or construction markets, Radians® comprehensive line of quality protective gear maximizes your safety by minimizing your exposure to outdoor and occupational hazards.

Our comprehensive line of personal protective equipment (PPE) includes over 80 styles of safety eyewear, including X-Treme™ Anti-Fog, reusable and disposable hearing protection, Hi-Viz safety vests and apparel, barricade tape, and other accessories. All of our products are manufactured in ISO-certified factories and are field tested to ensure maximum performance and protection.

Radians® has partnered with leading brands, including Bone Collector™ and Remington® to provide you with safety gear that is both stylish and comfortable while meeting important ANSI standards. As part of our effort to provide customer specific solutions, Radians

offers custom imprinting on most products with fast turn-around times. Additionally, our facility in Thomasville, NC, allows us to quickly manufacture and customize Made in the USA Hi-Viz apparel and public safety vests.

Strategically headquartered in Memphis, TN—America's distribution hub and with other locations in Thomasville, NC; Belmont, MI; and Sparks, NV, Radians® provides its distributors with just in time (JIT) shipments to meet the logistical demands of the sporting goods and fast-paced public safety markets.

An ISO 9001:2008 certified leader in the PPE business for more than ten years, Radians® offers its customers versatility, product innovation, flexibility, and a strong value proposition. Our products are distributed in 48 countries on six continents. Our biggest strengths: We listen to end-users and respond to market demands.

Our Capabilities

Custom Imprinting

Our safety products not only keep you safe; they can also help you advertise and market your company's name. Radians® offers 7 day turn-around of custom screen printing, pad printing, heat transfer and sublimation dye transfers, which allow for a brilliant and

permanent imprint of your logo on PPE items, including eyewear, hard hats, and Hi-Viz apparel.

Testing & Standards

Because of our global presence and our culture of safety, Radians® tests products to meet or exceed standards, including ANSI Z87.1+, VO Ballistics (0.15 caliber), CSA Z94.3-1992, EN166:2001, AS/NZS 1337, ASTM F1506, and additional standards for Asian Pacific distribution. We also have in-house testing facilities within our headquarters where our hearing and eyewear protection are tested for ANSI/ISEA safety standards. Our eyewear is also tested and inspected by third party, globally accredited, independent laboratories. With our adherence to standards and testing, you can feel confident about Radians® products meeting all necessary safety standards and regulations.

Made in USA Manufacturing

More and more American consumers are making the Made in USA choice to help boost the economy and build up America. Radians® is making that choice as well, and we're on a mission to manufacture more products in the USA. This strategic move allows consumers of safety products the choice of choosing affordable "Made in the USA" safety products with fast turn-around times while simultaneously growing the U.S. Economy.

Radians® products produced in the USA: Foam Earplugs, Custom Molded Earplugs, Hard Hats, Barricade Tape, Safety Vests, Safety Eyewear, Lens Cleaning Accessories.

Quality Control

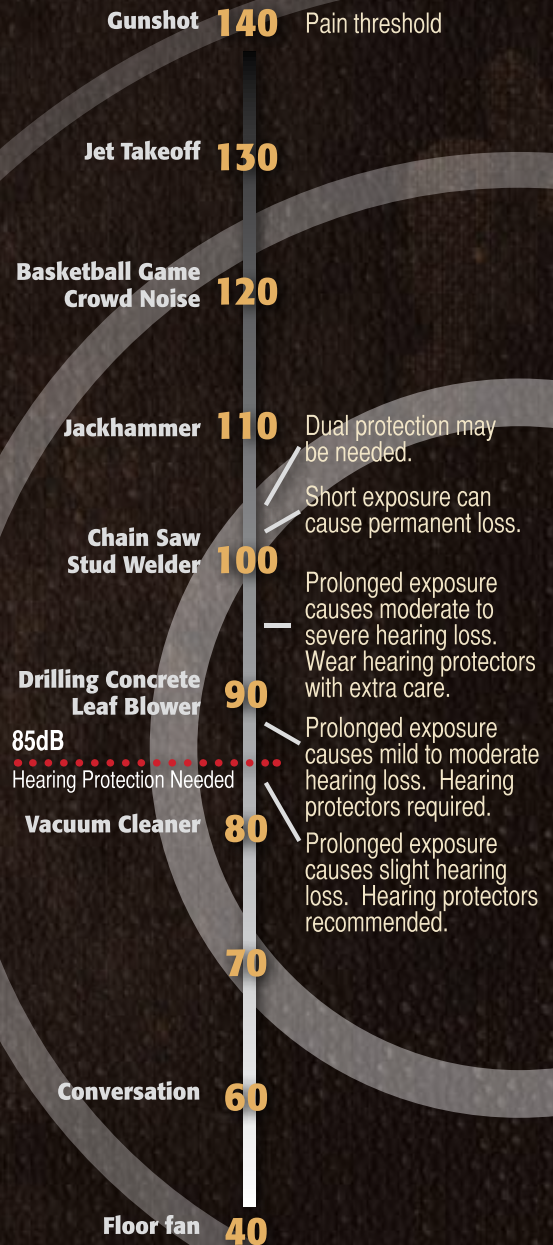

The International Organization for Standardization (ISO) 9001:2008 specifies requirements for a quality management system where an organization needs to demonstrate its ability to consistently provide product that meets customer and applicable statutory and regulatory requirements. Our ISO 9001:2008 certification reinforces the Radians® commitment to quality control and to consistently manufacture and distribute quality personal safety products.

PPE Product Development

Radians® is not only a manufacturer and supplier of quality safety products, we develop and design new products to satisfy our customer's changing safety needs and to stay abreast of evolving market trends. We continuously strive to develop and produce the highest quality PPE products at lowest possible costs so we can offer a value proposition to our customers. The glove, eyewear, and safety vest innovations we develop have afforded us multiple patents and recognition in the industry.

TYPICAL SOUND LEVELS

Decibels (dB)

dB (DECIBEL)

The unit used to express the intensity of sound. The decibel scale is a logarithmic scale in which 0 dB approximates the threshold of hearing in the mid frequencies for young adults and in which the threshold of discomfort is between 85 and 95 dB SPL and the threshold for pain is between 120 and 140 dB SPL.

R+S

Vision Protection

When you head to the range or into the field, remember the dangers to which your eyes and sight may be exposed. Vision protection is essential, and affordable. Protect your eyesight without inhibiting your vision or accuracy.

Objects as innocent as tree branches can be hazards. Discharging a firearm introduces risks of ricochet or other dangers. A simple shelter from wind may provide the sustained look you need to hit the target. Considering the cost, there really aren't good enough reasons to shoot or hunt without ANSI Z87.1+ Impact and Shatter Resistant glasses.

Radians provides a full line of stylish shooting glasses. Options include, clear, amber, polarized, and even anti fog treatments. Regardless of light, conditions, or location, there is a glass in the range that provides protection and that may even enhance your vision. There are sizes to fit ladies and youth, camouflage frame treatments and even interchangeable lens sets.

Lens Color Descriptions

CLEAR	Allowing a maximum visible light transmission, this excellent safety lens is used for indoor applications where impact protection is required.
SMOKE	Worn on bright, sunny days, these lenses provide maximum light reduction and are ideal for applications where eye strain is a major factor. They show objects true to natural color and flatten light to maintain normal depth perception.
ICE	This light tint is a comfortable solution for moving from indoor or shaded locations to direct sunlight and back. Ice allows approximately 50% visible light transmission and diminishes glare to ease the eye's adjustment from inside to outside applications.
AMBER	Light gathering properties make this lens ideal for low light environments in which contrast is low; highlights and defines by blocking out much of the blue light and allows about 84% visible light transmission.
VERMILION	For applications such as inspection where contrast may be enhanced. Enhances target point sighting of the red alignment or leveling beam. Allows 33% visible light transmission. Ideal for shooting clay targets.
COPPER	This blue blocking lens allows about 20% visible light transmission and is ideal for medium to bright outdoor conditions where sunlight and glare cause eye strain and fatigue.
ORANGE	Filters out blue and green light to reduce eye fatigue, improves visual acuity during curing and inspection processes; it allows 50% visible light transmission, Enhances visibility of orange targets.
POLARIZED	Eliminates reflective glare that hits the lens and also a portion that hits from other angles. By eliminating glare it reduces eyestrain, allowing a crisp view of the surroundings. Around water, it eliminates reflection and allows viewing below the water's surface.
MIRROR	These dark tinted lenses with a reflective coating are great for outdoor applications where very bright sunlight and glare cause eye strain and fatigue. Available in multiple colors.

Coveralls™

Reinforced side shields, integrally molded brow guard. Can be worn over prescription glasses. Exceeds ANSI Z87.1+ Standards.

- CV0010 - Clear
- CV0040 - Smoke
- CV0020 - Amber

PERFORMANCE

RADIANS®

One of the biggest complaints for the sports enthusiast is having eyewear that fogs up during the optimal shooting conditions. We understand that hunters and shooters don't want to miss a shot because of a sudden temperature shift that causes their glasses to fog. Radians® has a large selection of protective eyewear designed for hunters and shooters, and one of the primary features is anti-fog lenses.

Rock™

Soft rubber temples, adjustable rubber nosepiece. Anti-fog lens. Exceeds ANSI Z87.1+ Standards.

Black Frame:

- RK1-11CS** - Clear AF
- RK1-41CS** - Amber AF

Silver Frame:

- RK6-11CS** - Clear AF
- RK6-41CS** - Amber AF

Origin™

Telescoping temples, rubber nosepiece, Meets VO Ballistic Standards. Exceeds ANSI Z87.1+ Standards.

- OB0111CS** - Clear AF
- OB0141CS** - Amber AF

Revelation™

4-position temple length adjustment and 5-position lens angle adjustment. Exceeds ANSI Z87.1+ Standards.

- RV0110CS** - Clear
- RV0120CS** - Smoke
- RV0140CS** - Amber
- RV0**0CS** - Other Colors Available

Available Options: Anti-Fog
RV0111CS - Clear AF

Outback™

Soft rubber temples, rubber nosepiece, coated lens, and includes neck cord. Exceeds ANSI Z87.1+ Standards.

Soft rubber temple insert, rubber nosepiece, Anti-fog lens. Exceeds ANSI Z87.1+ Standards.

- BE0611CS** - Clear AF
- BE0621CS** - Smoke AF
- BE0641CS** - Amber AF

SPECIALTY EYEWEAR

POLARIZED

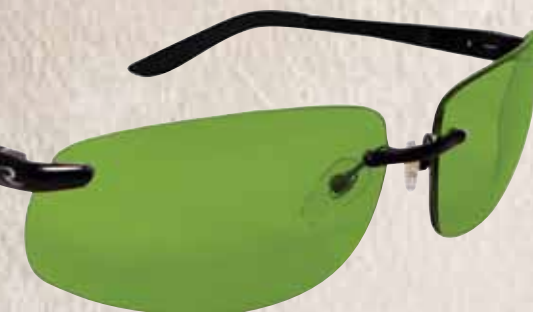

A quality polarized lens eliminates reflective glare that directly hits the lens and also a portion that hits at other angles. By eliminating reflective glare you reduce eyestrain, allowing a crisp view of your surroundings in richer colors. For those around water, it eliminates reflection and allows viewing below the water's surface.

Eclipse RXT™

The polarized lenses reduces the amount of glare while outdoors. A lightweight aluminum alloy frame, rubber tipped temples, reverse hinges and adjustable nosepiece provide a comfortable fit. Case and cleaning cloth included. Exceeds ANSI Z87.1+ Standards.

EC0GPBX - Green Polarized

Vengeance™

Premium Boxed shooting glass. Wide temple frame and glare blocking polarized lenses. Includes microfiber cleaning cloth and zippered case. Exceeds ANSI Z87.1+ Standards.

VG75PBX - Green Polarized

Polarized Revelation™

4-position temple length adjustment and 5-position lens angle adjustment. Exceeds ANSI Z87.1+ Standards.

RV01POCS - Smoke Polarized

Camo Polarized Cobalt™

Lightweight frame, wraparound design and polycarbonate lens. Exceeds ANSI Z87.1+ Standards.

REALTREE
CB4MPOCS - Smoke Polarized

Camo Polarized Revelation™

4-position temple length adjustment and 5-position lens angle adjustment. Exceeds ANSI Z87.1+ Standards.

REALTREE
RV4MPOCS - Smoke Polarized

AIRSOFT GEAR

RADIANS®

4 in 1 Foam Lined Glasses

Closed cell foam insert protects against airborne dust and debris

- Removable head strap provides an adjustable goggle-like fit
- Eyewear temples easily snap-in
- Rubber nosepiece for all day comfort
- Meets ANSI Z87.1+ standards
- Provides 99.9% UV protection
- Custom imprinting available

Low profile earmuff with a moisture wicking headband and a compact folding feature. The adjustable headband allows for an optimum fit. Available in Vista® Camo. NRR of 21 dB.

EARPLUGS

RADIANS®

Radians' Passive Ear Protection comes in two forms: earmuffs and earplugs. Earmuffs must fit tightly and comfortably over the ears so that sound is blocked from entering the ears. Disposable earplugs, on the other hand, are placed into the ear canal so that they totally block the canal. Handgun and rifle shooters who need maximum hearing protection should use a full cup design, while shotgun shooters tend to prefer a low profile cup because the design does not interfere with the mount of their gun and still provides a high level of ear protection. You can also combine earplugs and earmuffs to provide maximum hearing protection..

HEARING PROTECTION **ELECTRONICS**

Hunter's Ears™

Electronic sound amplification earmuff with 2 independent high frequency directional microphones. Automatically compresses harmful impulse noise to a safer range below 85dB without clipping or cutting. Padded moisture wicking headband moves moisture away while providing cool comfort. A compact folding feature allows for easy storage.

HE4P00CS

HE4X00CS

Prowl Ear™

PR2601CS - 2 Pack

Compact, behind the ear sound amplification technology that also contains a compression circuit to limit amplification of sounds. Increases the ability to hear sounds while on the job or in the field. Packaging contains two units.

430-EHP™ Camo

430/EHP4UCS

When sound levels exceed 85dB, the electronic circuit automatically protects at NRR 26. Amplifies Sound and Protects Hearing. Additional Features: On/Off Volume Control, Padded Headband, and approximately 200 Hours of Battery Life.

Tac Ear™

TA2601CS - 2 Pack

Compact, behind the ear sound amplification technology that also contains a compression circuit to limit amplification of sounds. Increases the ability to hear sounds while on the job or in the field. Packaging contains two units.

Enhance Ear™

TA2701CS

Contains 2 units that fit snugly in each ear. Amplifies your hearing while also compressing harmful impulse noise.

ELECTRONICS

RADIANS®

Electronic Hearing Protection and Radians' Compression Technology has changed hearing protection for the sportsman. Shooters can now wear units that enhance the surrounding sounds, while protecting the ears from harmful noises above 85dB without clipping or cutting.

Compression technology takes an unsafe sound and reduces it to a safer level. The electronics in the unit provide an environment where the user can always hear their surroundings. Many shooters prefer this type of hearing protection as it allows them to hear range commands and game, as well as their shooting partners.

Get Connected Stay Protected

Scan this QR Code with your smartphone to find out more about Radians® Electronics.

Maximus™

MA0600CS

Electronic sound amplification earmuff with 4 independent high frequency directional microphones. Automatically compresses harmful impulse noise to a safer range below 85dB without clipping or cutting. Padded moisture wicking headband moves moisture away while providing cool comfort. A compact folding feature that allows easy storage. An input jack allows you to plug in a CD or MP3 player.

Pro-Amp™

PA0600CS

Electronic sound amplification earmuff with 2 independent high frequency directional microphones. Automatically compresses harmful impulse noise to a safer range below 85dB without clipping or cutting. Padded moisture wicking headband moves moisture away while providing cool comfort. A compact folding feature that allows easy storage.

Pro-Amp BTH™

PA0601CS

Offers the same great features as our Pro Amp™ but with a convenient behind the head wire.

Sound FX™

The Sound FX™ is an AM/FM Radio with crisp sound while also providing a Noise Reduction Rating of 22 dB. The auxiliary jack provides the option to plug in your MP3 Player or CD player. The Sound FX™ has a padded, adjustable headband that provides all day comfort. The Sound FX™ is available in two color schemes, Black and Gray, and Blue and Gray.

AMFM32
Blue / Gray

AMFM31
Black / Gray

430-EHP™

430/EHP

When sound levels exceed 85dB, the electronic circuit automatically protects at NRR 26. Amplifies Sound and Protects Hearing. Additional Features: On/Off Volume Control, Padded Headband, and approximately 200 Hours of Battery Life.

HEARING PROTECTION

PERFORMANCE COMBO KITS

Sometimes just eye protection isn't enough. If you require both hearing and eye protection at the same time, Radians makes it easy for you by providing a variety of combo kits. These kits provide the full protection you need, whether you're on the range or out in the field.

Performance Kit™

Contains one Silencer™ earmuff and one pair of Revelation™ glasses.

- SLRV0120** - Smoke Lens
- SLRV0110** - Clear Lens
- SLRV0140** - Amber Lens
- SLRV0180** - Vermilion Lens

Check pricelist for more lens combinations.

Value Kit™

Contains one Def-Guard™ earmuff and one Titan™ glass.

- DFTT0140** - Amber Lens
- DFTT0110** - Clear Lens
- DFTT0120** - Smoke Lens

Check pricelist for more lens combinations.

Explorer 3 Pack™

A set of 3 Explorer™ glasses.

- EX3110CS** - All Clear
- EX3124CS** - Mix (1 each: Clear, Smoke, Amber)

Shooter's Kit™

The Shooter's Kit contains the black frame Journey™ glass with adjustable temples, rubber nosepieces and amber lenses. The kit also contains a pair of Tan Custom Molded Earplugs.

SKJRCMP

Hunter's Kit™

The Hunter's Kit™ by Radians provides the outdoorsman with a choice! You can choose the Journey™ shooting glass with a 4-position telescoping temple in either Mossy Oak® Break-Up® or Advantage® Max-4™. Also choose between the Cease Fire™ plug, which allows normal conversation while still protecting hearing from impulse noises, the **NRR 32** foam plugs, or the **NRR 26** Custom Molded Earplugs.

HKJRM4C

Max-4™ amber Journey™ glass with a pair of Cease Fire™ plugs and case.

HKJRB4C

Mossy Oak® Break-Up® amber Journey™ glass with a pair of Cease Fire™ plugs and case.

HKJRM4F

Max-4™ amber Journey™ glass with three pair of foam plugs.

HKJRB CMP

Mossy Oak® Break-Up® amber Journey™ glass with a pair of Tan Custom Molded Earplugs

WOMEN & YOUTH
