

DONE RIGHT.

2011 Catalog

# We outfit the 16 million who do THE REAL WORK, THE RIGHT WAY.

For us, doing the job right is more than just a goal, it's a way of life. It's a part of us. It defines us. It was the dedication to doing the job right that built this country. And it's the commitment to continue doing the job right that keeps us moving forward. It's an ideal that guides the way we tackle our jobs, take on our honey-do lists and coach our kids' t-ball teams. It's a passion that doesn't quit when we clock out for the day, or when no one else is watching. Because we are a workforce of 16,000,000 that knows that the job just isn't done, until it's DONE RIGHT.

#### **WOMEN'S COMPANION PIECE AVAILABLE**

Garments on pages 12-64 featuring this icon have a female companion piece located in the Women's Workwear section on pages 78-93.

#### **CUSTOMIZATION EXAMPLE**

Don't forget that any Red Kap product can be customized. Look for the Imagine It® logo next to a garment, then flip to pages 196-197 to see a cool way you can make it unique for your company.

#### **NEW PRODUCT**

Look for this icon to see what's new this year.

#### OFFICIAL WORK SHIRT OF THE POWERBLOCK

Garments shown with the Powerblock logo represent a garment that has been endorsed by the Powerblock team. Check out any of the Powerblock television shows (Muscle Car, Xtreme 4x4, HorsePower and Trucks!) to see Red Kap gear at work.

# Send us your RED KAPTIONS.

Tell us what you think it means to get a job DONE RIGHT and you could win some cool Red Kap merchandise. Just visit redkap.com and click on the Red Kaption from the home page. Winning selections will be posted to the Red Kaptions gallery on our website, so check back often to see if your entry made the cut.

## ROCK YOUR RED KAP

Red Kap has been providing quality garments that stand the test of time and the rigors of a typical work day for 88 years. But, you don't just have to wear Red Kap to work. Sport the Red Kap ball cap the next time you're at your kid's flag football game. Transform an ordinary uniform shirt into a tricked-out, one-of-a-kind work of art with our Imagine It® capabilities. Or, wear our "Job Done Right" t-shirt the next time you're helping out with your community volunteer organization. Whatever the occasion, Red Kap is there to make sure you get it Done Right.

#### THE WORK SHIRT - DONE RIGHT

Pick your shirt

Select any color and size of our large selection of solid and striped work shirts found on pages 12 and 13.

Choose an emblem or embroidery

Select a Red Kap emblem or a Red Kap Done Right logo then pick a spot for it on your shirt. Refer to step 7 for embroidery and emblem locations.

RED KAP.

Direct Embroidery: Red Kap Done Right logo **ELH255**  Emblem: Red Kap logo **EM3704** 

Pick an Emblem

Get a patch on your work shirt with your nickname.
Select from three different color options.

White, Blue Trim EMR1NW

## HI-VISIBILITY

DONE RIGHT.

#### INTRODUCTION TO THE ANSI HI-VISIBLITY STANDARD

The American National Standard for High-Visibility Safety Apparel and Headwear (ANSI/ISEA 107-2010) is a standard established by AMERICAN NATIONAL STANDARDS INSTITUTE for protection of construction, maintenance, utility, emergency responders, airport ramp personnel and other workers who are routinely exposed to the hazards of low visibility while on the job. Private industry, various federal, state, and local authorities have embraced ANSI/ISEA 107 compliant garments and headwear as useful PPE for workers exposed to struck-by-hazards.

This standard provides guidelines for the selection and use of high-visibility safety apparel such as shirts, rainwear, outerwear, safety vests and headwear to improve worker visibility during the day, in low-light conditions and at night.

The **ANSI/ISEA 107-1999** standard was the first U.S. standard for the design and performance of materials for high-visibility safety apparel.

ANSI/ISEA 107-1999 specifies the following criteria must be met:

- · Design
- Requirements for Background and Combined-Performance Retro-reflective materials
- Photometric and Physical Performance Requirements for Retro-reflective materials
- · Care labeling

L RULE

The Final Rule, 23 CFR Part 634 Worker Visibility, was passed on November 18, 2006 and took effect on November 24, 2008.

The Rule states that all workers within the right-of-way of a Federal-aid highway who are exposed to traffic or to construction equipment within the work area shall wear High-Visibility apparel that must meet Performance Class 2 or Class 3 requirements of ANSI/ISEA 107-2004.

The Federal Register Final Rule and revised document of the 2009 Manual on Uniform Traffic Control Devices (MUTCD) was released on December 16, 2009.

The Rule states that mandatory use areas are expanded beyond Federal-aid highways and will require all workers on or near the roadway right-of-way to wear High-Visibility safety apparel that meets performance Class 2 or Class 3 of ANSI 107-2004 or equivalent revisions (ANSI 107-2010).

The amount of background and reflective material remains unchanged for all 107 Classes. However, a Class 1 or a Class 2 garment must now have reflective material in the shoulder area. The objective of this change was to provide greater visibility when a worker is bending over, or at angles that could be potentially missed on a garment without "vertical" reflective material over the shoulders.

Phase-in for compliance on all public roads which are not Federal-aid highways is two years, ending on December 31, 2011.

#### CLASSIFICATIONS

#### ANSI/ISEA 107-2010 COMPLIANT SAFETY GARMENTS ARE CLASSIFIED AS FOLLOWS:

CLASS 2 GARMENTS – intended for use in activities where greater visibility is necessary during inclement weather conditions or in work environments with risks that exceed those for Class 1. Garments in this class also cover workers who perform tasks that divert their attention from approaching traffic, or that put them in close proximity to passing vehicles traveling at 25 mph or higher.

- Forestry operations
- Ship cargo loading operations
- Roadway construction
- Utility and railway workers
- School crossing guards

- Delivery vehicle drivers
- · High-volume parking and toll gate personnel
- · Airport baggage and handlers / ground crew
- · Emergency response and law enforcement
- Trash collection and recycling operations

**CLASS 3 GARMENTS** – provide the highest level of visibility, and are intended for workers who face serious hazards, such as nighttime work, and often have high task loads that require attention away from approaching vehicle traffic. Garments for

- these workers should provide enhanced visibility to more of the body, such as arms and legs.
  - Roadway construction personnel and flaggers
- Utility workers

- Survey crews
- Emergency response personnel

**CLASS E GARMENTS** – waistband trousers, bib overalls and shorts that meet all minimum requirements for retro-reflective and background materials, except for minimum area and placement required for Performance Class

3, 2 or 1 shall be designated Class E. Class E apparel is not intended to be worn without Performance Class 2 or 3 apparel. When Class E trousers are worn with Performance Class 2 or Class 3 apparel, the overall classification for the ensemble shall be Performance Class 3.

#### ULTRAVIOLET PROTECTION FACTOR (UPF) RATING

A relatively new rating designation for sun protective textiles and clothing is UPF (Ultraviolet Protection Factor). Unlike SPF (Sun Protection Factor) that measures only UVB, UPF measures both UVA and UVB.

Sun protective clothing is clothing specifically designed for sun protection and is produced from a fabric rated for its level of ultraviolet (UV) protection. Sun protective clothing may be pre-treated with UV inhibiting ingredients during manufacture to enhance UV blocking capacity.

BE SURE TO LOOK FOR THE UPF 40 ICON TO SEE WHICH RED KAP PRODUCTS CAN HELP PROTECT YOU FROM HARMFUL UV RAYS.

#### HI-VISIBILITY WORK SHIRT: CLASS 2 LEVEL 2 (IS) (III)

### 

UNIFORM PROGRAM.

EMBROIDERY

Through our Imagine It® program we have taken the capability of creating customized uniform items and apparel to a new level. Visualize it... create it... and view it all online. We'll produce it. The possibilities are (almost) endless.

This unique program allows you to select stock apparel from our many brands and modify or customize any style to create unique uniforms that cater directly to your customer's needs. A red collar overlay, a decorative trim on the cuffs or the addition of reflective striping to a coverall are a few examples of the possibilities that can make your purchases unique.

Contact your sales representative for more information or join us online at vfimagewear.com and get started with your custom application.

Decorate it. Modify it. Customize it.

#### **MEASURING GUIDELINES**

#### (1) HEIGHT

Stand straight against a wall without your shoes. Make a mark level with the top of your head. Measure from this point down to the floor.

#### (2) NECK

Measure around the base of the neck where a collared shirt would fit, or measure a collar band on a shirt that fits you well.

#### (3) CHEST/BUST

Measure the fullest part of your chest/bust. Hold the tape firmly, but not tightly. Be sure the tape is level and straight across your back. Stand naturally.

#### (4a) WAIST / MID-SECTION

First, remove your belt. Then, measure over shirt (not over pants) at the position you normally wear your pants. Hold the tape firmly but not tightly. For shirts and covering garments such as coveralls - measure midsection over clothing around the fullest part of the abdomen. Note: Include both "A" and "B" measurements if ordering multiple garments.

#### (5) HIPS

Stand with your heels together. Measure around the fullest part of the hips. Hold the tape measure straight and level.

#### 6 INSEAM

Standing straight, measure the distance from the crotch to just below the ankle bone. OR using similar style pants that fit you well: lay garment flat with front and back creases and smooth. Measure along the inside seam of one leg from the bottom of the hem to the crotch.

#### (7) SLEEVE

Bend the elbow slightly. Start at the center back of the neck and measure across the shoulder to the elbow and down to the wrist bone.

#### (8) TRUNK

Measure from base of neck (front) down around crotch and back up to the bottom of the collar. (For coveralls only)

#### (9) CAP / HAT SIZE

Measure the circumference of the head at it's widest diameter, approximately 1/8" above the ears.

#### (10) FRONT & BACK RISES

FRONT - This is the distance from the center front at the top of the waistband to the intersection of the crotch seams. BACK - This is the distance from the center back at the top of the waistband to the intersection of the crotch seams.

#### (11) ACROSS SHOULDERS

While standing with arms down, measure across the back from one shoulder joint to the other.

#### (12) UPPER ARM / BICEP

Measure the maximum circumference of the upper arm just below the under arm.

#### (13) FOREARI

Measure the maximum circumference of the forearm at approximately 6" above the wrist.

#### (14) WRIS

Measure the wrist circumference over the wrist bone.

#### (15) THIGH

Measure around thigh (parallel to floor), below crotch.

#### (16) KN

With the leg straight, measure the knee circumference over the knee cap and parallel to the floor.

#### (17) **CA**

Measure the circumference of the largest part of the lower leg approximately half way between the knee and ankle and parallel to the floor.

#### (18) OUTSEAM

Measure along the outside of the leg from the top of the waistband to the bottom of the hem of just below the ankle bone. OR - lay garment flat, measure along outseam from top of band to bottom of hem.

#### (19) OVER ARM

With arms at the sides, measure around the broadest part of the shoulders and upper arms, keeping the tape level at all times. If over-arm measurement is 7" larger than chest measurement, go up one size.
